SENSATIONAL EVIDENCE AS TO PLUGGING FOR GRITS

LEGISLATURE AT VICTORIA HAS BEEN DISSOLVED

Election Is Expected Sometime In The Month Of August

Premier Coming Here About The Middle Of This Month

Evidence Shows That Prince Rupert Was To Have Been Invaded

The evidence taken at the investigation of the ballot box plugging in Vancouver now leads direct to Prince Rupert, where it would appear the gang planned to operate when the general elections came along. Jack White, the evidence shows, advised J. T. Scott from here that the provincial police officer here and another man whose name is not given, would have to be got rid of here before the operations could start.

This is bringing the plot very close home as far as local citizens are concerned, and certainly adds to the interest that will be taken in connection with the matter. It would appear that a well organized attempt was to be made at the elections throughout the Province, and Prince Rupert was not to be overlooked.

Fortunately the scheme has been unearthed and the danger of its being carried into execution frustrated. The whole district was undoubtedly included in the plot, and many suspicious movements are now more easily understood.

It would appear from the evidence that has come out that the plot laid was on a scale never attempted before in this Province at least. It will be a warning to the electorate to be carefully guarded in future against any repetition along this line.

HALIBUT REACHED A HIGH PRICE

THE OCEAN FOODS COMPANY'S BOAT PHARAON CAME IN WELL FILLED

The Rose Spit, Under Capt. Ted Rorvig, Brought In Good Catch.

The highest price paid for halibut since last April was reached yesterday when the Bravo with 4,000 pounds, and the Stranger with 9,000 sold to the National Independent Fish Company at 8 7-8 cents a pound. The Carl, 4,000; Rose Spit, 10,000; and the Pharaon, 20,000 were taken by the Cold Storage at 8 3-4 cents a pound.

The Pharaon, Capt. Charles Larkin, is one of three boats belonging to the Ocean Foods Company that are now operated from this port under the management of Capt. Betts. This was the Pharaon's first trip and it was a distinct success.

The Rose Spit is the renovated and re-named Pandora, formerly operated by Capt. "Bill" Selig. She is now commanded by Capt. Ted Rorvig.

MAYOR McCAFFERY ON HIS WAY HOME

AFTER CONFERENCE IN MONTREAL HE LEFT TUESDAY NIGHT FOR RUPERT

It Is Expected That He Will Reach Here On Tuesday Evening.

Mayor McCaffery has telegraphed the City Hall in connection with business he had to transact in Montreal and states that he was leaving Tuesday night for the coast. It is expected that he will therefore reach Prince Rupert Tuesday night.

In Montreal he expected to confer with President Chamberlin on matters affecting this city.

Report On Election Frauds Presented Before Dissolution

Victoria, May 31.—The Legislature prorogued this evening when the Lieutenant-Governor gave his formal assent to the bills passed within the last month or two. The session has been a record one, lasting three months, with approximately 85 sittings of the House and 130 committee meetings.

The election writs are issuable July 5 and as nominations are this year six weeks before polling day the elections cannot take place before Aug. 20. It will probably come about the first of September, unless a decision is made later for a postponement.

Premier Bowser is to go on a tour of Vancouver Island next Wednesday, and about June 17 will go north and over the G .T. P. He will tour southern British Columbia some time towards the end of July or early in August.

The report of the Vancouver Election Frauds Investigation Committee was presented this afternoon. There was no discussion whatever.

The committee finds that there was a conspiracy to carry on wholesale personation in Vancouver for the election of the Liberal candidate and pluggers were brought from Seattle and picked up in Vancouver at ten dollars each. They were paid by J. T. Scott or his workers.

J. T. Scott was found to have prepared lists for personation and to have prepared also pluggers' cards.

It was found that Scott was paid his salary by the Provincial Liberal Association, of which M .A. Macdonald, the Liberal candidate is chairman.

It was found by the committee that a detective employed by Macdonald and Scott to watch the Conservatives, found that no illegal practices had been carired on by them.

H. H. Pearce, one of Scott's workers, was induced to go to Seattle by motor car, and was there kept practically in duress to prevent him appearing before the investigation com-

CHANGES MADE IN SKIPPERS OF LOCAL FLEET

Capt. Parsons Has Retired From The Zibassa—Other Changes Made.

Captain "Bill" Parsons, who has been in command of the schooner Chief Zibassa, of the Cold Storage fleet, since that vessel went into commission early in 1914, has resigned his command and will take a well deserved rest. Capt. C. Jacobson, late master on the Grier Stirratt, has transferred to the Zibassa, while Capt. "Jim" Morrison, who held the position of mate on the Zibassa, will take command of the Stirratt.

Plugging Operations Practised On Behalf Of Liberals At By-Election Were Carried Out On A Grand Scale Say Witnesses

(Special to The Journal.)

Victoria, May 31.—With the sensational confessions of Herbert Pearce, who, under John T. Scott the Liberal election worker in Vancouver prepared the faked lists for election plugging, the Vancouver election frauds investigation drew towards a close yesterday. Pearce was on the stand all day, and was heard again this morning.

Induced To Skip.

He gave a full account of how the plugging was done in Vancouver, and declared that after the election was over and some of the Liberals commenced a little house-cleaning, M. A. Macdonald induced him to skip the country and join Scott in Seattle. A Thiel detective took him on a ninety dollar auto trip to Seattle, and there he has been kept practically a prisoner for the past three or four weeks.

Brewster Dumfounded.

Pearce's story before the committee was graphic in the exterme. When he got through last night the only comment that Mr. Brewster, the Liberal leader, whose honesty of purpose is unquestioned, had to make, was the observation that he for one would like to find out just who the higher-ups were and where the money came from. The plugging was admitted.

Records Produced.

Records were produced from the office of the telephone company to show that during the month of May there were many long distance messages between Macdonald in Victoria and John T. Scott in Seattle, also between Scott and C. B. Patterson, Secretary of the Liberal Organization Committee, of which Macdonald is chairman.

Records of the C. P. R. showed that Mrs. Scott came to Victoria about the middle of the month. Pearce had sworn that she came with a letter from Scott to Macdonald, and to get more money from the Liberal member for Vancouver. Macdonald denied that he knew the woman or had seen her. She was formerly a stenographer in Scott's office and assisted in preparing the cards for the pluggers.

Two soldiers gave evidence yesterday of having been induced to plug for Macdonald.

Tried To Trust.

One man vote four times and got $45. Other witnesses went on the stand and told of having been offered $100 to come before the committee and say that they plugged, but did it for Tisdall, the Conservative candidate.

Taxicab dirvers told of having carried the gangs of Seattle personators form poll to poll. These pluggers were in chargeof Pearce and other men working under Scott.

Scott Wants Immunity.

Mr. Brewster announced last night that he had received a telephone message from Scott in Seattle to the effect that he would come over and give evidence before the committee if the warrant for his arrest was withdrawn, and if he would be given immunity for what he might say on the stand.

It is stated, nowever, that the Premier has expressed the opinion that there is sufficient evidence against Scott to warrant his being tried on a criminal charge of personation, and therefore if he comes to Canada he must face this charge.

Prince Rupert Field.

That there was an organized conspiracy with Scott in charge to operate in other places as well as Vancouver was shown by yesterday's evidence. Pearce told of letters from Jack White from Prince Rupert, in which White told Scott that it would be necessary to get rid of two men there, one a provincial policeman, before operations could start. Pearce said on the stand that he was engaged for a time in fixing up Lib-

Opposed To Monoply In Cannery Licenses For Skeena Fisheries

(Special to The Journal.)

Victoria, May 31.—The abolition of boat-rating and the limit of cannery licenses as they affect the salmon fishing industry was advocated by Parker Williams in the Legislature yesterday, in moving a resolution that a petition to this effect be presented to the Dominion Government through the Lieutenant-Governor. The Socialist-Liberal further demanded the abolition of the Advisory Fishery Board as at present contituted, and advocated the appointment of representatives of the fishermen and the canners.

Hon. William Manson agreed with Mr. Williams that changes were advisable in the regulations, but paid a tribute to the maner in which the salmon fisheries of the Skeena and the north generally had been conserved.

He moved in amendment that, in view of the fact that the existing fishery regulations and policy had been adopted on the recommendation of a commission at Ottawa, that the proper policy to pursue was to obtain a report from another commission in this regard. He, with Mr. Williams, deplored anything approximating a monopoly in cannery licenses and approved the policy under which white settlers and fishermen were given a preference. He complimented the members of the Pacific Committee of the Advisory Board on the reforms they had introduced.

THE PLUGGING PLOT.

The revelations made before the investigating committee of the Legislature, relative to the plugging planned in connection with the by-election in Vancouver, is the worst political scandal this Province has ever seen. Fortunately it has been unearthed. The design, according to the evidence produced, was to have continued the plan right through the general election, which it was expected would follow the others very closely. The work was overdone at the by-election, however, and the Conservative party became wise to the plans, with the result that the danger has been averted. It will repay the Conservative party, however, to keep alive to the dangers of these methods that have been exposed. Right here in Prince Rupert the attempt was to be made to debauch the elections according to evidence given before the committee.

mittee.

The committee does not make a finding on "some of the personal relations of the Liberal candidate with those who carried on personation," meaning the Gosden-Macdonald fifty dollar episode, as this matter is in dispute in the courts.

It recommends that the Attorney-General's Department continue the work of investigation.

TAX NOTICE.

PRINCE RUPERT PEOPLE GET INSTANT ACTION

Those who have used it in Prince Rupert are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-i-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. C. H. Orme, Pioneer Druggist.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, there must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
