Threatened War Between Turkey And Bulgaria Over Ceded Territory

London, April 7.—A despatch from Bucharest says that the Turko-Bulgarian relations have been greatly strained because the Turks refused to ratify the cession of territory handed over by Turkey to Bulgaria. There is much talk of a Turko-Bulgarian war.

Apparently the Bulgarian Government has been informed that Turkey seeks to regain possession of the ceded territory.

A revolution in Bulgaria is threatened. According to Reuters, which says that the situation at Sofia is extremely grave. The garrison there has been strengthened.

GOVERNMENT HAS A SAFEGUARD

PROVISION MADE TO GUARD DEPOSITORS OF DOMINION TRUST AGAINST LOSS

The Amount Of The Bonds Put Up Will Be Covered By The Province.

Premier Bowser has announced in the Legislature that it was the intention of the Government to provide an amount of $250,000 equal to the Dominion Trust Indemnity Bonds with the London Guaranty & Accident Company, this is for administration purposes, and in case the suits to be brought by the Provincial Government against these two companies to compel to pay on the bonds fails in the Privy Council, then the Government would put that amount of money to be divided among the depositors and creditors of the Dominion Trust who are resident in British Columbia.

"This is an admission that the Government has a serious responsibility in the failure of the Dominion Trust" claimed Mr. Macdonald.

"That is not the case," replied Premier Bowser, "while nominally this is an advance on the bonds placed with the insurance company by the Dominion Trust, as a guaranty to the Government, we feel that the people in the Province will justify us in saying that the bonds should be paid, and we are taking steps to see that the the insurance companies do pay them. As there are a great many British Columbia victims of the Dominion Trust failure, we felt that, if through any technicality we might lose our suits, then the provincial taxpayers would feel well justified in permitting this amount of money to come out of the Provincial Exchequer. In the meantime, therefore, the Provicial Government is providing it as an allowance, so that these people will not have to wait until after the suit is decided."

MAYOR McCAFFERY IS NOT FREE TO GO TO OTTAWA NOW

The following letter which is self explanatory has been communicated to The Journal by Mayor McCaffery:

To the citizens of Prince Rupert:—

Respecting the question of a delegation to Ottawa, I wish to point out to you, that owing to the situation that has developed with reference to city affairs I deem it impossible for me to leave Prince Rupert for an indefinite period.

G. T. P. GOING TO PROVIDE SPECIAL FEATURES IN CONNECTION WITH THIS SERVICE

Official Couriers Will Be Attached To Steamers That Go North.

The G. T. P. is evidently going into the Alaskan tourist service with the idea of making it permanent and an asset to their line. The Vancouver World speaking of this connection says:

Nothing is being left undone by the Grand Trunk Pacific Steamship Company in the way of superior service to attract the tourist to the Northern British Columbian and Alaskan districts for the summer months. The latest innovation to be authorized by the company as announced by Captain C. H. Nicholson, is the attaching of

Artillery Actions Have Been Frequent Along The French Front

Paris, April 7.—West of the Meuse a night attack was delivered. After a violent artillery bombardment against our position between Bethincourt and Hill 265, the German forces made their way into the French trench of the first line. We at once counter attacked and drove the Germans back along the greater part of the position.

East of the Meuse there has been an intermittent bombardment. We continued to make progress in the communicating trenches of the enemy southwest of Fort Douaumont.

There have been artillery exchanges in Wovre, but the night along the remainder of the front passed quietly.

W. T. Donnelly Addressed Board Of Trade At A Special Meeting

William T. Donnelly, designer of the G. T. P. Drydock here, addressed a special meeting of the Board of Trade last evening in the rooms of that organization. The meeting was thrown open to all who wished to attend. The Vice-President, G. A. Woodland, presided and introduced Mr. Donnelly, thanking him on behalf of the Board at the close of the meeting for his attendance, and the information he had given them on the subject.

Mr. Donnelly referred to the fact that this Prince Rupert dock was the eleventh which he had designed. His instructions from Mr. Hays, when he designed the work, was to look over the whole situation and design a work to take care of the situation for twenty-five years in the future. Under these circumstances it was not to be marvelled at that the dock was not performing all that would be expected of it in the future.

He had, having in view the fact that the plans were well ahead of the time, designed the ship-building plant. This had been carried out by the G. T. P., independent of the Government subsidy.

The financial situation had been such that it was difficult, or well nigh impossible for the G. T. P. to get money to carry out the arrangements. He had, however, the wellfare of the dock in view. He told of his contemplated attempts to be made in the south to secure the building of ships here, such as was given in The Journal yesterday.

There was a tendency now to control the distribution of products by the manufacturers. This had introduced the principle of provided vessels and cars to carry the products in many lines.

The lumber trade lent itself to this. The lumber men who first were able to build ships of their own would control in no small way the supply of lumber to the markets. The plant here was admirably adapted for fast construction. This had been proved in the construction of the pontoons. The shed here offered facilities that no other shed on the Pacific or the Atlantic possessed.

He had every reason to feel that before very long they would get ships to build here. When once a vessel was secured to be built, an organization could be affected and kept there.

G. R. Naden wanted to know if the building of wooden vessels was likely to become a permanent industry.

Mr. Donnelly said that a ship could be built at Glasgow and be delivered here cheaper than it could be delivered in London, because it could bring a cargo out. He told a man that fifteen years ago, building 14 wooden ships. He did that in 9 years, against the advice of most of people that wooden ships would not be in demand. Wooden sailing ships with auxiliary power were the cheapest carriers there were. They were building them in the east. One could be built for about half of what a steel vessel would cost. Before a steel vessel could be built the wooden ship could be completed and have earned its price.

He had, upon enquiry, found that a supply of steel could only be obtained after two years' time.

The timber here was the very best. Yellow cedar could not be excelled for some parts. The red fir and spruce could also be used, and was of the finest quality.

W. E. Wililams asked if Seattle was not competing against the world in the building of steel ships.

Mr. Donnelly said, "No Sir." He told of his having been sent out to Seattle by the bankers of New York to see if anything could be done to make the plants pay. The plants were running behind.

Mr. Williams asked if this was not due to the fact that the plants had to import the steel from the east, and that the steel might soon be made on this coast.

Mr. Donnelly did not think that there was any possibility of operating a steel plant on the Pacific coast for some time.

Ald. Montgomery asked if the plant was capable of handling a ship like the Japanese warship to repair.

MR. DONNELLY'S VIEWS.

The address made by Wm. T. Donnelly, the designer of the drydock here, before the Board of Trade last night followed very closely his reported remarks which appeared in The Journal yesterday, when Mr. Donnelly conferred with the Mayor. These views of Mr. Donnelly are valuable, inasmuch as he is a man of experience and has had the opportunity of studying the situation. The remarks of Mr. Donnelly would seem to indicate what must be evident to anyone who studies the situation that exists here, that Prince Rupert must fight to hold for herself all the trade that can be centred here. This will not be an easy matter. There are established connections in the way of trade now existing. These may be somewhat difficult to break up and to effect new combinations, but it must be done if the city is to prosper. Everything that helps Prince Rupert or anything identified with Prince Rupert in a business way should appeal to local residents.

SIR RICHARD'S SALARY.

The World, which has not been regarded as at all partial to Sir Richard McBride, gives sufficient reasons why the salary now voted to him should be regarded as not excessive. It says: "The World has criticised, and we think with reason, the methods by which the Agent-Generalship in London was recently changed. We have questioned, too, whether the expenditure on that office was justified.

"The expenditure on the new building for the Agent-General has been heavy and in the opinion of many excessive. It is doubtful, indeed, if the undertaking would have been launched at all could the present commercial and financial conditions in this Province have been foreseen.

"But $15,000 for Sir Richard McBride's salary when one takes into account the fact that out of this amount he will have to pay $3,750 for income tax, will not be much greater than that paid Mr. Turner who received a salary of $10,000 and has his income tax paid by the Province.

"When the difference in the cost of living in Great Britain, caused by the war, is taken into account, Sir Richard will hardly find himself a dollar better off than his predecessor."

WAR AND FOREST FIRES.

The Department of the Interior has sent out the following reminder of the duty with respect to forest preservation:

Canada is at war and the enemy has to be fought on land and on sea in Europe, Asia, Africa, and Canada. In Canada we must fight, among other ways, by keeping our productiton of necessaries up to the highest point, and by conserving our resources. One of our most valuable resourses is our forest wealth. Timber will be in demand to rebuild ruined Europe and to carry on our own development, made more strenuous by the war. If all our forests were to burn down our enemies would be delighted. It would mean the crippling of Canada. Are Canadians going to do anything to delight their enemies? If you who go into the forest do not desire this then do your part in keeping down forest fires this spring and summer by seeing that your camp fire is drenched with water, and that you do not carelessly toss away burning matches or cigar or cigarette stubs before they are fully extinguished. Every acre of forest burned makes it that much harder for the Empire to win the war, and delays to that extent our development after the war.

FREE FROM INCOME TAX.

A bill introduced into the Legislature at Victoria by the Government, states that "notwithstanding anything to the contrary in any act of the Legislature contained the securities issued for the purpose of the loan authorized by 'The War Appropriation Act, 1915' passed by the Parliament of Canada on the 15th day of April, 1915, shall be free from Income Tax succession duty, and all other provincial taxes and impositions whatsoever."

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-s.

ELECTRIC EMPLOYEES WILL GET REST DAY

Arrangements Made Through Efforts Of Premier Bowser To Provide This.

Through the instrumentaility of the Premier an arrangement has been made between the British Co'umbia Electric Company and its thirteen hundred street railway employees whereby the men will be given one day off in seven. The Government proposes to bring down legislation placing control of this matter in the hands of the Lieut.-Governor and Council, so that the Executive can see that such an arrangement is carried out.

There will also be legislation this year, it is understood, providing for a half-holiday for store and other such employees throughout the Province. Such legislation indicates on the part of the Government a desire to see that those who labor may be certain of some time during the week for rest and recreation.

MAKING ALASKAN.

(Continued from Page One.)

an official courier to each of the steamships Prince Rupert and Prince George on their Alaska trips, commencing in June. The officers engaged are gentlemen having a wide acquaintance in Alaskan and Yukon circles.

Their special duties will be the entertainment of the passengers who patronize the two Grand Trunk Pacific flyers on their Alaskan trips this year, and will consist of explaining points of interest along the route, giving short and breezy sketches of the history of the settlement and development of the country, legends and folklore of the Indian tribes of the coast, the glaciers and many special beauty spots from a scenic point of view, as well as conducting passengers who may desire to go ashore at ports of call; also taking them over the White Pass and Yukon Railway trip to the Summit from Skagway, and in addition, will organize entertainments on board in the way of concerts, lectures, dances and card parties. They will also pay particular attention to see that passengers receive proper attention as to the baggage, customs and immigration arrangements, railway connections, hotel accommodations, etc., and endeavor to make the voyage on the steamer of interest throughout its entire length.

The company feels that outside the luxurious service provided on the steamers and the natural attractiveness of the routes themselves, this additional feature will be much appreciated by the travelling public generally. It has been felt often-times that if some means were provided whereby passengers on a trip of this kind could be made acquainted, or some general interest aroused, the trips would be more enjoyable, and it is proposed by the Grand Trunk Pacific to keep "something doing" all the time.

TAKE NOTICE that an application has been made to register Mitchell Albert, of Prince Rupert, B. C., as the owner in Fee-simple, under two Tax Sale Deeds from the Collector of the City of Prince Rupert, to Mitchell Albert, bearing date the 10th and 15th day of September, A. D., 1915, in pursuance of a Tax Sale held by said Municipality on or about the 9th day of September, 1914, of all and singular certain parcel or tract of land and premises situate, lying, and being in the City of Prince Rupert, in the Province of British Columbia, more particularly known and described as: Lots One (1) and Two (2), Block Forty-five (45), Section Seven (7), and Lot Thirty-eight (38), Block One (1), Section Eight (8), Map 923.

You and those claiming through or under you, and all persons claiming any interest in the said land by descent whose title is not registered under the provisions of the "Land Registry Act" are required to contest the claim of the tax purchaser within forty-five days of the service of this notice upon you. Otherwise you and each of you will be for ever estopped and debarred from setting up any claim to or in respect of the said land, and I shall register the said Mitchell Albert as owner in fee.

Your attention is called to section 36 of the "Land Registry Act" and amendments, and especially to the following extract therefrom which relates to the above notice:—

"And in default of a cavet or certificate of lis pendens being filed before the registration as owner of the persons entitled under such tax sale, all persons so served with notice, or served with notice under subsection (6) of section 155 of the "Municipal Clauses Act, 1906," or section 293 of the "Municipal Act," or section 139 of the "Assessment Act, 1903," or section 253 of the "Taxation Act," in cases in which notice under this Act is dispensed with as hereinafter provided, and those claiming through or under them, and all persons claiming any interest in the land by virtue of any unregistered instrument, and all persons claiming any interest in the land by descent whose title is not registered under the provisions of this Act, shall be for ever estopped and debarred from setting up any claim to or in respect of the land so sold for taxes."

Dated at the Land Registry Office, at the City of Prince Rupert, Province of British Columbia, this 3rd day of January, A. D., 1916.

NOTICE.

SHERIFF'S SALE OF LAND.

IN THE SUPREME COURT OF BRITISH COLUMBIA,

BETWEEN: C. L. Queen, Plaintiff;

AND

The Pine Creek Flume Company, Limited, Defendant.

Pursuant to the order of the Honourable Mr. Justice MacDonald made herein, I will offer for sale at my office in the Court House, Prince Rupert, B. C., on Thursday, the 20th day of April, A. D., 1916, at the hour of 11 o'clock in the forenoon, the following lands and leases: —

Lot 254, Group 1, Cassiar District, Province of British Columbia; and three hydraulic leases, known as "Dynamite," "Dewdney" and "Vancouver," all being situate and lying on the North side of Pine Creek, Province of British Columbia.

The only charge appearing against Lot 254 is a conveyance in fee by way of mortgage to secure debentures to the amount of Ninety-eight hundred dollars ($9,800.00), registered the 17th day of December, 1903, and the Judgment herein for Sixteen hundred and ninety-five dollars ($1,695.00), and costs, filed the 14th day of June, 1915, under number 202.

Further particulars may be obtained at my office.

JOHN SHIRLEY,
Sheriff.

MAYOR McCAFFERY

(Continued from Page One.)

If the citizens are still in favor of sending a delegation, I would request them to take such steps as they consider necessary, but relieving me from being considered.

Yours respectfully,
M. P. McCAFFERY.

W. T. DONNELLY.

(Continued from Page One.)

Mr. Donnelly said that there were parts like the propellor or the shafts that could be made only at a few places. The dock here, however, could do what any other yards could do.

MINISTER DOES NOT THINK DELEGATION TO OTTAWA NECESSARY

In reply to the communications which were sent to Ottawa in regard to work at the drydock, Mayor McCaffery has received the following telegram from the Hon. Robert Rogers, Minister of Public Works:

M. P. McCaffery, Mayor, Prince Rupert, B. C.—I do not see that any good purpose could be served by a delegation in the matter of starting work on the drydock coming to the Government. This matter is entirely in the hands of the Grand Trunk Pacific people.

R. ROGERS, Minister of Public Works.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.
