TRAWLING IS NOW PROVING SUCCESS HERE

THE CITY'S OUTLOOK REGARDED AS BRIGHT

United States Steadily Getting Prepared For Hostilities

Trawling Proving Success Off Port On Later Attempt

The James Carruthers of the Canadian Fish & Cold Storage Company, has returned from the third attempt made at trawling, with about 75,000 pounds of fish. This is regarded as a successful trip after being out only four days.

The taking of fish in this way is in the experimental stage as far as this coast is concerned. It is, however, very popular off the coast of Great Britain. By this method soles and other cheap varieties of fish are taken and can be put on the market at a price that is tempting. It is expected that the Cold Storage Company will continue this method now that it is found to be successful.

There is a splendid market for cheap fish for the soldiers at the front. Major Green, who is the expert engaged by the Dominion Government to secure a study market for the Canadian fish, is authority for the statement that he is able to place about two million and a-half pounds a week of good fresh fish delivered to the Atlantic coast. Of this amount, he says the Canadians will take about one million pounds weekly, while the British end of the service will take the remainder.

Under these conditions there would appear to be an excellent market outside the civilian rations altogether. Information gleaned in the east would serve to indicate that the Cold Storage will pursue a more aggressive business in the fish line than has been the case in the past.

SUBMARINES ARE STILL WORKING DEVASTATIONS

London, Feb. 10.—German submarines continue their ruthless warfare and today sunk four more steamers, one British and three Norwegian.

Two Norwegian officers lost their lives when the enemy submarines shelled the steamer Ida, owned in Norway. Since the beginning of the unrestricted submarine campaign 72 vessels have been sunk, a large proportion of these belonging to neutral countries.

HINDU CONSPIRACY NOW CRUSHED OUT

Anti-British Plotting In India Was Severely Punished By Special Tribunal.

The final act in what is termed the most serious anti-British conspiracy since the great mutiny 60 years ago and of which a prominent part was played in Vancouver, took place in Lahore, India, on January 7, says an exchange, when six of the accused were sentenced to be hanged and five were ordered transported for life. In the first trial 24 persons were sentenced to death, 27 to transportation

(Continued on Page Four.)

Watch Goldbloom's windows on Third Avenue for the newest creations in dresses.

FARM LOANS THAT ARE AUTHORIZED

Over Seven Hundred Thousand In Loans Alloted—Still $100,000 Available.

Up to date the Agricultural Credits Commission for the Province has authorized 350 loans to farmers of an aggregate amount of $733,078, leaving in the fund available for further loans about $100,000. A total of no less than 1,227 applications for loans aggregating in amount $2,505,190, have been received.

Owing to winter conditions in the interior the appraisers have ceased work in there. Recent snows on Vancouver Island have also hindered the appraisement work somewhat, but the appraisers will immediately resume their work on the island and on the Lower Mainland.

George D. Tite is in the south, where he was called by the serious illness of his father. Shortly after his arrival in Victoria of Mr. Tite, his father passed away. He has long been a resident of Victoria, coming from Orillia, Ont.

SUCCESSFUL RAID OF POSITIONS BY THE BRITISH

London, Feb. 10.—The British yesterday successfully raided the German positions east of Vermelles and southeast of Ypres. They destroyed enemy dug-outs and captured a number of prisoners. The British also repelled several German counter attacks and did considerable damage to the enemy defences by means of heavy artillery explosions.

ROUGH WEATHER ON FISHING BANKS HAS BEEN MET

The weather conditions at sea on the fishing banks are reported to have been very rough of late. As a result the halibut catches have been small. The George E. Foster came in with only 7,000 pounds, after a very trying experience. The Grier Sterritt also of the Canadian Fish & Cold Storage brought in 13,000 pounds.

If you can't fight, you can pay—to the Patriotic Fund.

United States Is Preparing To Take Part In The War

Washington, Feb 10.—The Government is expected to consider at an early date arrangements for the convoying and arming of American vessels engaged in the Atlantic trade.

It was authoratively stated after yesterday's Cabinet meeting that, in the event of the President again going before Congress, it will not be his intention to ask for a declaration of war, but that he will follow literally the words of his address in which he made announcement of the severance of diplomatic relations with Germany and that he will simply request authority to adopt all means deemed necessary to protect the lives of American seamen and citizens.

It is firmly believed that President Wilson is more determined than ever that American ships and citizens shall be free to travel the high seas unmolested and, by enforcing that right, the issue of peace or war will be with Germany, and that hostile action must come from the interference with American rights.

The State Department has made arrangements for Count von Bernstorff and the other German representatives to leave New York on Tuesday on the Scandinavian liner Frederick Eighth, via Halifax to Christiania. Bernstorff specially requested that the journey be made via Halifax, in order to escape the German submarine zone on the Falmouth route, which will be evaded by making the voyage round the north of Scotland, via Kirkwall to Christiania.

The State Department has no official word of Gerard being detained and Secretary Lansing says that the news despatch to this effect is not likely to be true, and that he believes that Ambassador Gerard is now, or will shortly be, on his way home. He will be much surprised if any other course is taken.

LIEUT. NICHOLLS ON WAY BACK

HE HAS COME ON BUSINESS AND WILL RETURN TO FRONT

Local Soldier Is Expected Here From East Any Day.

Lieut. Nicholls of the Canadian Fish & Cold Storage Company, will be here in a few days. He has returned to Canada from the front on a matter of business connected with the Cold Storage. It was very essen-

(Continued on Page Four.)

First Annual Ball of the Returned Soldiers' Association will be held in the Railwaymen's Hall, February 14, (St. Valentine's Day). This is in commemoration of the day when Prince Rupert's First Contingent, the 30th Battalion, left Victoria for England. All interested are invited to attend. f14.

PUBLIC EYE IS STILL UPON PRINCE RUPERT WHICH IS LOOKED UPON TO HAVE EXCELLENT FUTURE

The City of Prince Rupert still stands high in public opinion. The writer has just returned from a trip to the east and found that wherever the fact was mentioned that one came from Prince Rupert, there was at once no inconsiderable curiosity aroused, and there was a strong disposition to learn all possible about the city. The feeling was general that Prince Rupert was destined to be a great city.

This is easy to understand. All recognize that the city is the centre of the fishing industry and that it is destined to become an important port on the Pacific. The writer had occasion to visit towns in western Ontario before returning, and there he found being offered for sale frozen salmon from this city, furnished from the wholesale house of James of Toronto. The high cost of beef in that part of the Dominion made the frozen fish readily acceptable by the people of these places.

Eastern Canada is prosperous. It is probable that that part of the Dominion never saw better possibly never as good times as it is experiencing right at present. This applies to all classes. The cities and towns are busy with war munitions and with manufacturing, dependent either directly or indirectly upon the war. The rural parts are prosperous, owing to the fact that the prices that are being paid for all classes of produce are above what they have been accustomed to. The result is that everyone is prosperous and the country looks it.

Just what effect the cessation of the war is going to have is problematical. That is not worrying the residents, however, just at present, as they are making money and developing at a rapid rate. The ceasing of war may have the effect of checking up the prosperity to some extent, but it is hardly possible that there will be any very marked slump for some time at least.

In the west the conditions are reversed somewhat. While the east has sent large numbers to the war and are contributing loyally to the various funds, the fact remains that the west is contributing with little in return in the way of munitions or in any other line.

The feeling in the east, however, is that with the cessation of the war the west is going to come into its own. In this they may be right or they may be wrong, but the opinion prevails that this will be the result.

The mining possibilities of this district are known of and are regarded as most promising. This is true as far as mining men themselves are concerned, but the general public have very vague ideas about that aspect of the country. More exact information is necessary in the east with respect to the resources and the possibilities this part of the country.

There is no occasion for the residents of this city to feel discouraged at any stage of the game. The trend of good times is coming westward steadily, and the general impression is that it should strike the extreme west this year.

The war conditions has evidently had a levelling effect as far as the most of goods is concerned. Where the west used to be regarded as the expensive place to live, it would seem now that the situation in this respect has been reversed and the east is quite as high in practically all lines as is the west. This would seem likely to continue, for the farmers of the east have tasted of the advantages of the high prices and are not likely to stand for reductions.

It is up to the City of Prince Rupert to stand by its future and see that the city gets all that is coming to it. If that is done the place will prosper.

COAL FAMINE FEARED IF U. S. GOES TO WAR

Risk Of Embargo Against Coal For Canada.

Toronto, Feb. 10.—H. A. Harrington, Secretary of the Retail Merchants' Association (coal section) is seriously alarmed over the coal situation in Canada. "Mark my words," said Mr. Harrington, "I am not a prophet, but if the United States is dragged into this war we will not get

(Continued on Page Four.)

CONDITIONS AFTER THE WAR.

It may be doubted if there will be such a shrinkage in wages and commodity prices after the war as some people are contemplating. In the second year of the American Civil War the Northern States ran into an era of prosperity which lasted for 11 years, that is for eight years after the return of peace. Despite the industrial readjusments that must come after the present conflict, there is no proof that the prosperity which began in Canada and the United States a year ago may not in the main continue long after the cessation of hostilities. There is no more alert financial authority on this continent than Mr. C. W. Barron, editor of The Boston News Bureau and The Wall Street Journal. Here are some extracts from a statement made by Mr. Barron the other day:

"The crops of the world are short, and peace tomorrow would not materially reduce the price of bread, potatoes or meat; cotton would not go back to 10 cents a pound, but lumber might be higher, as fast as ships could be had to transport it for reconstruction in Europe. If the war should end tomorrow, so that one could see a permanent peace, there would be no immediate effect on labor or food prices in this country. Nobody could even buy steel or copper at materially lower prices for some months, unless European nations sold our own goods back to us at a great sacrifice, and if they did that, the lower price for metals would be stimulus to home industry. For instance, if we could by for 10 or 15 cents copper for which the belligerents paid 25 cents we could sell tons of it to telephone, telegraph companies, automobile manufacturers and for electrification of railroads. The railroads and the electrical development of this country have been arrested by the high prices of metals. Take the steel workers. We need more locomotives, more cars, heavier rails for the internal domestic business of this continent. Then there is the electrification of the railroads, and the development of the automobile industry and motor truck building. On account of the boosted price of copper, Henry Ford stopped using it; but if he could get it at a lower price, he would use tons of it."

Mr. Barron even sees encouragement in the fact that gun-powder is cheaper in the United States than before the war. He says that the only hope for a greatly increased production of food with high-priced labor is the use of explosives in dynamiting the soil into greater fertility. He thinks that the powder companies will be manufacturing for the agricultural population rather than for war purposes. At any rate he foresees no business depression to follow upon peace, if America does not arouse the resentment of Europe and stimulate a combined trade against her. "The credit of railroads and industrial securities would improve, and domestic bonds would be strengthened the minute peace was declared, because Europe's demand for money would cease, and lower interest on domestic lines would prevail." War trade has placed the United States in a very strong posiion financially. Never before did it shelter so much wealth or so much gold. Nor was Canada ever so well off as it is today. Farmers, manufacturers and workmen are in receipt of incomes out of which they should lay aside something to tide over any period of at the worst, should be short-lived. The attitude of Canadians as they enter the New Year should be one of optimism steadied by economy, thrift and an unflagging determination to see the war through to a successful conclusion in company with their Allies.

—o—

Patriotic Fund canvassers will meet you on the 15th. Aid the cause.

LIQUOR ACT, 1910.
(Section 19.)

NOTICE is hereby given that, on the First day of December next, application will be made to the Superintendent of Provincial Police for the renewal of a licence for the sale of liquor by wholesale in and upon the premises known as Beaver Wholesale Liquor Company, of Prince Rupert, Limited, situate at 708 Fraser Street, Prince Rupert, B. C., upon the lands described as Lots Fifteen and Sixteen (15-16), Block Thirty-two (32) Section One (1) City of Prince Rupert, B. C.

Dated this 12th day of October, 1916
THE BEAVER WOLESALE LIQUOR CO., OF PRINCE RUPERT LIMITED,
GEO. A. SWEET,
o-15 Manager.

STUART J. MARTIN,

PROVINCIAL ASSAYER AND ANALYTICAL CHEMIST

HAZELTON, BRITISH COLUMBIA.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Teritory, the Nothwest Teritories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Aplications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights re not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

LIQUOR ACT, 1910.
(Section 42.)

NOTICE is hereby given that, on the first day of December next, application will be made to the Superintendent of Provincial Police for renewal of the hotel licence to sell liquor by retail in the hotel known as the Nichol Hotel, situated at Pacific, in the Province of British Columbia.

Dated this 7th day of October, 1916

MANY IN PRINCE RUPERT TRY SIMPLE MIXTURE

Many Prince Rupert people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. C. H. Orme, Pioneer Druggist. g-s.

LIEUT. NICHOLLS

(Continued from Page One.)

tial for him to come to Canada and leave was granted.

After transacting business in the east with Sir William Mackenzie and others he will come west for a few days.

Lieut. Nicholls is now in the field mortar section and has escaped practially without injury.

He says that Col. C. W. Peck from here is the most popular officer from British Columbia with his men. He saw Col. Peck a short time before coming to this country.

COAL FAMINE FEARED.

(Continued from Page One.)

another pound of coal across the border. The demands of the navy alone will be enormous, passenger trains should be cut off with the exception of the mail trains for a week or ten days. This has long ceased to be a municipal matter. It is of national importance. It is necessary to move all the coal possible. Not only the commercial interests of the country are threatened but Imperial interests are involved. If the United States is forced to abandon its neutrality one of the first moves will be an embargo on coal.

HINDU CONSPIRACY.

(Continued from Page One.)

for life and six others to various terms of imprisonment. At the second trial, which took place last month, six were given the death sentence and 45 were ordered transported for life, while eight were given various terms of imprisonment.

It is interesting to know that Lieut.-Major Matier, who is now in Prince Rupert, was previously in Canada in connection with investigations into this mutiny.

GAMBLING GAME RUDELY INTERRUPTED

Local Police Suddenly Appear And Spoil An Otherwise Enjoyable Evening.

The submarine poker rooms were rather rudely surprised by a police squad early this morning at 1:30, consisting of Constables Adams, McClinchy and Baily.

Where the surprise party came from no one seems to know. In one room a rather enjoyable poker game was in progress, when the "jack-pot" was suddenly seized by the uninvited guests.

In an adjoining room were found two colored gents who were shooting "craps" in a truly southern style on a home-made folding "crap" table, which appeared to serve the purpose, if one was to judge by the interest taken in the game.

All the guests willingly accompanied the police squad to headquarters, where they were relieved of a little cash. They will appear Monday morning.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
