

Red Cross Carnival Netted Over Fourteen Hundred Dollars Change Of Programme Will Be Provided This Evening Queen Charlotte Islands' Fisheries Will Operate Again

Cannery At Aliford Bay Will Work This Year Again

The cannery at Aliford Bay, on the Queen Charlottes, will be working again this season. This enterprise, which belonged to the B. C. Fisheries, has not been operated for a few seasons. It has been acquired now by a well known canneryman, Mr. McPherson, who will operate it this year.

Mr. McPherson last year operated a cannery at Mill Bay for Evans, Coleman & Evans. It is believed that perhaps the same interests are behind the Aliford Bay proposition. A consignment of tins will be shipped over at once and the cannery started up at the opening of the season.

PRINCE JOHN HAD SOME DIFFICULTY AT DOCK

Soldiers On Duty Obeyed Orders And
Refused Vessel's Right
To Tie Up.

The steamer Prince John, of the G. T. P. fleet, was placed in a very awkward position on Sunday night for a little time. The soldiers on duty at the drydock have orders to refuse any ship to be up there without distinct instructions.

Sunday night the Prince John proceeded to the wharves there to load material that is being shipped away. No precaution had been taken to warn the soldiers of her coming, and the sentry on duty carried out his instructions and refused to allow a peaceful landing.

When the crew of the vessel refused to obey the sentry fired a shot to show that his commands were to be obeyed. Capt. Christie arrived on

the scene fortunately and the whole affair was straightened out without further trouble.

BORN.

Born to Mr. and Mrs. P. J. Palmer, at 724 Fourth Avenue East, on April 24, a son.

POINTED PARAGRAPHS.

Half a lie is no better than a whole one.

Many a large idea originates in a small head.

It sometimes happens that a man is married to his boss.

But it doesn't take a blunt person long to come to the point.

And many a woman prides herself on her ability to understand things without giving them a thought.

PREMIER TO TOUR PROVINCE SOON

HE WILL PAY A VISIT TO PRINCE
RUPERT AND OTHER
PARTS

Rumors Are Rife That Elections Will
Not Be Held Until
Fall.

(Special to The Journal.)

Victoria, April 24.—It is expected that at the close of the session, which should come sometime in May, Premier Bowser will take a trip through the Province, he is likely to address several important mass meetings on the island and lower mainland, after which he will go north to Prince Rupert, and thence over the G. T. P., coming south either by stage and the P. G. E. or by the C. N. R.; later he will probably go through southern British Columbia. As his trips will probably occupy at least a month's time the electors of the Province will (Continued on Page Three.)

PACOFI FISHERIES MAY BE OPERATING

THE WORKS ARE BEING EXAMIN-
ED WITH OBJECT OF
PURCHASE

The Plant Is In The Very Best Of
Conditions It Is
Reported.

Another of the fishing enterprises on the Queen Charlottes, other than the cannery at Aliford Bay, may be put into operation this year. This is the extensive works at Pacofi, where first-class equipment is in place.

There have been interests including A. J. Bechtel, of Victoria, looking into that plant with the idea of getting started up. There is among other equipment there a first-class fertilizer plant. The plant, it was generally felt at the time of its installation, was wrongly located and it should have been built at Prince Rupert. There is a possibility that it may yet be removed to here.

Gold Producing Creeks In Omineca Look Most Promising

For long years the Omineca gold mines have been expected to make a strong showing once they were fully opened up on an extensive scale. The completion of the G. T. P. has made this possible, and placer propositions in the vicinity of Manson Creek are showing up excellently.

News from Manson Creek, conveyed in a letter from W. B. Steele to Hazelton, is to the effect that Steele & Mullen, who have been tunnelling for the old channel for several years, have reached their objective at some 800 feet, having defined both rims.

Flattering prospects were obtained, one pan yielding \$47. Mr. Steele says the prospect may be only a flash, but he has confidence in the richness of the ground. The tunnel is through

dry ground, and it was not found necessary to use side jacking. Three air shafts were raised.

WELL KNOWN MINING

EXPERT JOINS COMPANY

Walter Harvey Weed Is Managing
Director Of Copper Company
Now.

Walter Harvey Weed, E. M., the copper geologist and publisher of the "Copper Handbook," has become managing director of the Crystal Copper Company, with a capitalization of \$1,000,000, to take over the Crystal Copper Mines in the Cataract Mining District, Jefferson County, Montana, near Basin, on the Great Northern Railway. The properties are 30 miles east of Butte, along the Butte granite formation, and have been operated in a small way for 25 years. Mr. Weed recommends building a mill and doing deep development work, and will expend \$100,000 in this way during the present year, says the Boston Journal.

With Mr. Weed on the Board of Directors is Paul Gow, E. M., formerly consulting engineer of the Pilot-Butte mines, of Butte, which recent-

Red Cross Carnival Greater Success Than Was Expected By Those In Charge Of Event --Over Fourteen Hundred Dollars First Night

COLONIES GERMANY HAS LOST TO ALLIES

Figures Indicate How She Has Been
Shorn Of Overseas
Empire.

Rt. Hon. Andrew Bonar Law has furnished particulars of the German colonies captured during the war. The total area conquered is approximately 750,000 square miles.

Southwest Africa, with an area of 322,450 square miles, had, in 1914, an estimated revenue of £1,175,000, and expenditure of £2,017,000. In 1912 the value of imports was 43,000,000 marks, and exports 70,300,000 marks.

Of Cameroon, the estimated area is given as 300,000 square miles, and for 1914 the revenue was estimated at £565,000, and the expenditure at £863,000. In 1913 the value of imports was 34,600,000 marks, and exports 29,100,000.

Togoland, with an estimated area of 33,700 square miles, had an estimated revenue in 1914 at £175,000 and an estimated expenditure of £209,000. The imports in 1913 were valued at 10,600,000 marks, and the exports at 9,100,000 marks.

In the Pacific, the Islands of Samoa—Saval 660 square miles, and Upolu 340 square miles—had an estimated revenue in 1914 of £595,000 and an expenditure of £690,000. The imports in 1913 were valued at 5,700,000 marks, and the exports at 5,300,000 marks. Kaiser Wilhelm's land and Pacific Islands, an estimated area of 70,000 square miles, had no details of revenue.

The Bismarck archipelago has an estimated area of 22,640 square miles, and the chief towns are Rabaul and Herbertshoe, both in New

The Red Cross Carnival opened last evening, when the people of Prince Rupert again showed that their hearts are with the men who are sacrificing their lives for the Empire. To the amount of \$1,417 they showed their sympathy with the efforts made by the local society. The amount realized on the first night exceeded the expectations of those in charge. This evening the Carnival will be continued with a complete change of programme.

A great attraction is to be offered this evening at seven o'clock, when Joe Filion, of this city, who is a former artist in acrobatic performances, will jump from the height of 100 feet into a net in front of the Exhibition Building. A tower to allow of this being done will be erected

Pommern. The Caroline Islands, the Pelew Islands, the Marianne Islands and the Marshall Islands have an estimated area of 1,000 square miles, and an estimated population of 70,459. The revenue is estimated at £105,000 and the expenditure £191,500. The imports of Kaiser Wilhelm's land and the Bismarck archipelago are estimated at 5,872,000 marks, and of the Caroline and Marshall Islands at 3,335,000 marks, a total of 9,207,000 marks. The exports of the former are estimated at 5,041,000 marks, and of the latter at 7,046,000 marks, a total of 12,087,000 marks.

In Asia, Kiaochow has an estimated area of 200 square miles. The principal town is Tsing-Tau. The revenue for 1914 was estimated at 8,060,000 marks, and the expenditure at 18,410,000 marks. In 1912 the value of imports was 121,254,000 marks, and of exports 79,640,000 marks.

today, and Mr. Filion has offered to give the exhibition an added attraction to the Carnival. This is given free in front of the building. Inside the building the various booths will be restocked and new features will be added, so that in reality a new lease of life will be given to the Carnival.

The function last evening was a most enjoyable one. In spite of the fact that there was a tremendous crowd, as is testified by the amount raised, there was no confusion throughout the evening. The arrangements were most complete in every particular. The different booths were excellently arranged and well stocked, attracting buyers on all hands. A feature that made for the success of the event in no small degree, was the fact that a number of smaller events have taken place from time to time to provide for the different booths, so that the amount realized last night was practically clear.

The Metlakatla Band was in attendance and provided an excellent programme. The Indians of the district have entered very heartily into the event, and have contributed very heavily to the booth set aside for their purpose, which is under the charge of Mrs. William Manson.

In the centre of the ground floor a large dance floor had been set aside, and here during the latter part of the evening a succession of dances were held to the music of the band.

The booths representing all the Allied nations and parts of the British Empire were arranged with the utmost taste. Refreshments were served in some of these, fancy articles in others, while produce was offered in some. There were wheels of fortune, a high-class musical concert

in the Italian booth, and many special features, all of which did a thriving business.

With a complete change this evening, those who attended last evening may be present again tonight and still see a new show.

The Carnival will go down in the annals of the Red Cross Society as one of the most successful functions ever provided to raise funds for this most deserving cause.

George D. Tite's gift of a leather-seated easy chair and a flower stand for the use of the Carnival was much appreciated. There was a general demand for tickets for the drawing for these.

It's enough to make a wife frown if her husband "smiles" too often.

TUESDAY, APRIL 25, 1916.

AWAKENED LATE.

The News says the Grits of Vancouver are frantic in the efforts they are now making to wash their hands of the ignominy connected with the methods employed to secure the return of their candidate a little time ago; showing the tactics they will not stand for. It has been a very tardy awakening on the part of the Liberals of Vancouver. No action was taken when the proposition was first made to vote men illegally. Only now, after all the damage has been done, has the Liberal party in Vancouver become aroused to the great wrong perpetrated. It is a very tardy repentance, if that word can be properly used in connection with the action. It is safe to prophesy that there were other reasons than those that appear on the surface that prompted this great regeneration on the part of the Vancouver Liberal leaders.

THE LAND LOANS.

Referring to the announcement of Premier Bowser that a million dollars had been secured by the Provincial Government to be used for loans to farmers under the Agricultural Credits Act, the Winnipeg Free Press, the Liberal organ of the west, says:

"British Columbia is the first Canadian province to embark on the business of acting as intermediary between the farmer who needs money for the development of his property and the money lender. It has borrowed \$1,000,000 under the new Agricultural Credits Act, at 5.5 per cent., and expects to re-loan this money under the New Zealand system, which has been adapted to the conditions of the Pacific Province, at an advance of 1 per cent. A despatch from Victoria says that it is expected that during the next year some six or seven million dollars will be loaned to farmers in British Columbia under the terms of the Act. Nothing is more certain than that every province in the Dominion will be obliged to follow the example thus set by British Columbia, although possibly different systems may be followed, unless the Dominion Government tackles the problem for the

whole Dominion and relieves them of the responsibility. Credit is ceasing to be a matter in which only the borrower and the lender are supposed to be interested. The State, representing the whole people, intends to have something to say about it in the future.

LAND ACT.

TAKE NOTICE that I, Miles MacInnis, of Anyox, B. C., occupation merchant, intend to apply for permission to purchase the following described land: Commencing at a post planted about 1,500 feet distant in a southeast direction from the shore of an unnamed lake situated near the summit of the divide between the head of Alice Arm and the Naas River, being about sixteen miles in an easterly direction from the head of Alice Arm, Cassiar District, B. C. Thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.

MILES MacINNIS,
Applicant,

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and paying the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

WATER NOTICE.

TAKE NOTICE that THE SURF INLET POWER COMPANY, LIMITED, will apply by Petition to the Minister for the approval of the undertaking of its works and that such Petition will be heard in the office of the Board on a date to be fixed by the Comptroller and that any person may file an objection thereto in the office of the Comptroller or of the Recorder of the District.

The name and address of the applicant is THE SURF INLET POWER COMPANY, LIMITED, having its Head Office at 1,001 Rogers Building, Vancouver, B. C. The Water Recorder's office in which this notice is to be filed is at the Court House, Prince Rupert, B. C. The name of the lake from which the water is to be taken is Cougar Lake, Princess Royal Island.

The quantity of water applied for is ten thousand inches or sixteen thousand cubic feet per minute. The proposed point of diversion is at a point at the outlet of Cougar Lake, and it is to be returned at a point at sea level on Surf Inlet, and will be used for developing power and electric energy to be used within a radius of ten (10) miles of the works on Princess Royal Island.

A copy of this notice was posted on the ground on the 24th day of February, A. D., 1916.

Dated at Vancouver, B. C. this 24th day of February, A. D., 1916.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, there must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

PREMIER TO TOUR.

(Continued from Page One.)

have ample opportunity of seeing Bowser as he is, and a good many of them who have not known him will realize with a pleasant shock that he is not the Bowser of the Liberal newspaper stories.

No one here appears to know yet just when the general elections will come, a good many people, however, expect to see them early in July, or failing that a postponement until September or some other fall month. The decision of the Government will no doubt depend upon the events of the next two or three weeks. Many Governmental followers believe that a delay of a few months would be better, as it would give time for some of the valuable legislation brought down at this session to go into effect, others, however, contend that the Government should place the Prohibition issue before the people as soon as possible, in which event a contest early in July or even late in June might be looked for.

There have been a good many bills brought down this session which are expected to have a beneficial effect upon the industrial and other conditions in the Province, for example: there is the Workmen's Compensation Bill which provides a system of state insurance for employers against injuries to their workmen. This bill will mean that in future no employer will be overwhelmed with heavy compensation costs in the event of accidents in his plant; it will mean further, that no workman will be forced to give part of his pay for accident insurance, nor will he be required to spend large sums of money in law costs for compensation if he is injured. This measure should receive the approbation of both employers and employees. Another important bill this session was that to create a separate portfolio of Agriculture. There was also the measure to take lands back from speculators and reserve them for returned soldiers, both for soldiers pre-emptions and homestead loans. There was another bill to give air to prospectors. There were other measures also extending moratorium on payments due to the Crown for mineral claims. Soldiers who had been pre-emptors had their rights protected in still another piece of legislation. There is the Women's Suffrage Bill, which has been introduced and there is a Prohibition Bill yet to come. The bill to give the votes to soldiers should prove very popular. In many quarters it is also believed that the Government will introduce a money measure to give some assistance to ship-building on the coast.

THE SOLDIER'S WIFE.

He offered himself for the land he loved,

But what shall we say of her?

He gave to his country a soldier's life,
'Twas dearer by far to the soldier's wife,

All honor today to her!

He went to the war while his blood was hot,

But what shall we say of her?

He saw himself through the battle's flame

A hero's reward on the scroll of fame,
What honor is due to her?

He offered himself but his wife did more,

All honor today to her;

For dearer than life was the gift she gave

In giving the life she would die to save,

What honor is due to her?

He gave up his life at his country's call,

But what shall we say of her?

He offered himself as a sacrifice,
But she is the one who pays the price,

All honor we owe to her.

—Mary Y. Hardie, Greenwood, B. C.

The Morning Journal delivered to your home at 50 cents a month.

WELL KNOWN MINING.

(Continued on Page Four.)

ly passed ownership to Anaconda at a price of \$1,100,000. The Pilot-Butte properties consist of only five acres in the northern section of Butte Hill and are considered to be the highest priced mining ground ever sold—over \$200,000 an acre. By the transfer the Apex lawsuit between Anaconda and Pilot-Butte, over the latter's Gow vein, was settled. Mr. Gow will be associated with Mr. Weed in the direction of the Crystal Copper Mines.

The financing of the new company is being done by the John E. Allen & Company copper interests of Boston, with the mining department of which house Mr. Weed has regularly connected himself as managing di-

MORE MEN THAN WOMEN HAVE APPENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. Prince Rupert people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-i-ka is surprising. C. H. Orme, the Pioneer Druggist. g-3

TAX NOTICE.

Prince Rupert Assessment District.

Notice is hereby given in accordance with the Statutes that all assessed taxes, income and school taxes, assessed and levied under the "Taxation Act" and "Public Schools Act" are now due and payable for the year 1916.

All taxes collectable for the Prince Rupert Assessment District are due and payable at my office, situated in the Provincial Land Registry Building, in the City of Prince Rupert, B. C.

This Notice in terms of law, is equivalent to a personal demand by me upon all persons liable for taxes. Dated at Prince Rupert, B. C., January 8th, 1916.

C. W. HOMER,

Assessor and Collector for the Prince Rupert Assessment District.

NOTICE.

SHERIFF'S SALE OF LAND.
IN THE SUPREME COURT OF
BRITISH COLUMBIA.

BETWEEN: C. L. Queen, Plaintiff;
AND

The Pine Creek Plume Company,
Limited, Defendant.

Pursuant to the order of the Honourable Mr. Justice MacDonald made herein, I will offer for sale at my office in the Court House, Prince Rupert, B. C., on Thursday, the 29th day of April, A. D., 1916, at the hour of 11 o'clock in the forenoon, the following lands and leases:—

Lot 254, Group 1, Cassiar District, Province of British Columbia; and three hydraulic leases, known as "Dynamite," "Dewdney" and "Vancouver," all being situate and lying on the North side of Pine Creek, Province of British Columbia.

The only charge appearing against lot 254 is a conveyance in fee by way of mortgage to secure debentures to the amount of Ninety-eight hundred dollars (\$9,800.00), registered the 17th day of December, 1903, and the Judgment herein for Sixteen hundred and ninety-five dollars (\$1,695.00), and costs, filed the 14th day of June, 1915, under number 202.

Further particulars may be obtained at my office.

JOHN SHIRLEY,
m-19 a-19 Sheriff.

Eye Troubles Corrected

Mr. Bulger has had over ten years' experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

Production and Thrift

"To win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? \$20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of \$500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.
