Financial Statement Submitted Covering Carnival Of Allies

There was a meeting of the local branch of the Canadian Patriotic Fund, together with all who contributed to the success of the recent Carnival, held yesterday afternoon. Mrs. Woodland, the Treasurer of the organization, presented a very complete financial report of the Carnival, which was the main object of the meeting.

The thanks of the society was tendered to all who aided in making the event the success it was.

It was explained that in connection with some of the booths there had been what appeared to be rather heavy disbursements. This, it was explained, was due to the fact that it had been necessary in some instances to rent halls in which to hold entertainments to raise funds to provide the booths for the sales held. In others there had been quite large expenditures for goods which had been made up and had brought in large receipts. In the Belgian booth the generous donation of a row boat, which was drawn for, had provided for the extra expenses. The returns from each of the booths was as follows:

Evidence Given To M. A. Macdonald Being Seen Near Post Office

Victoria, May 15.—In the Vancouver election frauds ex-Mayor Planta, of Nanaimo, and his son told of seeing M. A Macdonald in the vicinity of the postoffice on the night when Robert Gosden says he was paid fifty dollars by the Vancouver member of the Legislature.

Gosden was also re-examined. He stated that a pal named Mat Fraser was with him when the money was received.

In his early evidence, Gosden, who was a former I. W. W. secretary, said he was employed by Scott to carry out the work of organization. He was promised $20 a week and expenses. He received about $400 for expenses and about $100 in small amounts from Scott and fifty dollars from M. A. Macdonald, Liberal candidate, for whom the pluggers voted and president of the association of which Scott was the secretary.

Fifty dollars was the amount which Gosden said Scott promised him as a bonus for special work in connection with the plugging operations. He stated Macdonald paid him the money at the second of two meetings near Victoria post office on Easter Tuesday. He went after Macdonald for money for what he called "legitimate" work, he explained, because Scott had not come through with it. He said he thought at first Scott was stalling, but he later was inclined to the belief that other members of the Liberal Association were "trying to pile it on to him (Scott)."

Gosden also told the committee of an agreement Scott had made with him to organize the whole Province for plugging operations at the forthcoming general election. For this he was to get a salary and $2,000 as a preliminary payment.

He said Scott employed him for the by-election with the definite understanding that it was "a business proposition," and that his work would consist of preparing lists which would give the Liberals positive information as to the names of absentee and dead voters. This was to enable the plugging to be carried on with saftey. Every absentee or dead man on the list was to be plugged who could be plugged, said witness.

Germany Cannot Send Men To Verdun At Risk Of Breaking

Paris, May 15.—Sharper fighting is reported today from other sectors on the western front than from Verdun.

It is believed that Germany has now no more reserves to send to Verdun without breaking her lines elsewhere.

British In Action.

Berlin reports that the British are attacking the German lines at Hulluch.

Belgian Expedition.

The Belgian expedition, which invaded German East Africa, has been successful in occupying Kigali, the capital of the German province of Ruanda.

Germans Driven Back.

The German bombardment of Avoncourt and Hill 304 continues. South of Somme the Germans have been driven from their first line of trenches.

There is great artillery activity in the Champagne district. German field work east of Mount Tetu resulted in the capture of fifteen prisoners.

Zeppelin Destroyed.

London, May 15.—A Zepelin has been brought down by gun fire off the Norwegian coast. Three British destroyers had pursued the craft over the North Sea.

Moving In East.

Bulgaria is removing her troops from the Rumanian frontier to Saloniki in anticipation of an Allied offensive at that point.

The council last evening decided to repeal bylaw 257, which provides for a four foot walk on Claude Street. Those who have paid the instalment will have the amount paid refunded.

Ex-Prisoners Of War Testify Against Sir Robert Casement

London, May 15.—Sir Roger Casement and a private soldier, Daniel Bailey, were arraigned in Bow Street Police Station today charged with high treason, both having landed in Ireland from submarine U-19.

Testimony was given by several ex-prisoners from Germany relating to Casement's attempts to get Irish soldiers to join him in an invasion of Ireland.

Sir Roger hung his head when counsel referred to the Knighthood which was conferred upon accused by the King in 1912.

Bailey, who was a prisoner of war in Germany, was a reservist in the Royal Irish Rifles. He was induced by Casement to join the expedition to Ireland. He said that Casement promised in the name of the German Government that, if Germany won the sea battle, German troops would land in Ireland. If Germany lost the war, each Irishman would be given $20 and a free passage to America.

BE NO PLUGGING OF THE SWITCHES

SUPERINTENDENT OF ELECTRIC LIGHT MAKES THIS PLAIN

Subject Came Before The Council Last Night On Question.

The new Superintendent of Light, D. Kennedy, made a statement before the council by request, as to the assertion that the switches at the station would be plugged under the proposed arrangements that are to be instituted. He said there had never been any intention of doing so.

The Trades and Labor Council wrote a letter against cutting down the staff at the switching station as being likely to work to the detriment of the cause of public ownership.

The letter was received and filed.

Ald. Montgomery, while the subject was up, called attention to the fact that it had been stated in the city that there had been no denial of the statement that it was the intention to plug the switches, which was certainly contrary to law. He wished to ask Mr. Kennedy for a statement along that line. Ald. Montgomery said he felt that in the interests of public ownership the cost of running the plant should be kept down. The auditor stated in his report that the cost for lighting was too high.

Mr. Kennedy replying to the question, said he never intended to use plugs. That was a dangerous system, and one he did not intend to put to use.

Ald. Dybhavn wished to know how it would work out with fish plants.

Mr. Kennedy explained that there

KITSILANO RESERVE HELD VERY HIGH

THE DOMINION GOVERNMENT THINKS IT IS WORTH A MILLION AND A QUARTER

Vancouver Harbor Board Would Pay About Half That.

Vancouver, May 15.—The Harbor Board offers half a million for the Kitsilano Indian Reserve for harbor purposes.

The Dominion Government demands a million and a quarter. Arbitration to settle the amount to be paid commences next week.

WILL MAKE PAINT.

The demand for paint for ships' bottoms in Japan now averages 1,000,000 kilos (2,204,620 pounds) a year, or about 1,000,000 yen (498,000) in value. About four-fifths of the demand is now being met by imported paints. In view of the difficulty at present of obtaining a sufficient foreign supply a company for manufacturing paint is about to be started by Yokohama and Tokyo business men with a capital of 500,000 yen. The new company is to manufacture the Nakagawa patent, which is cheaper than the imported paints now generally in use. No imported material is required for the manufacture. The prospectus of the company states it will turn out 200,000 kilos a year.

A letter from Shaghai states that during the past few months foreign paints sold there have enjoyed a very flourishing market, which is due to the fact that the exportation of paints from at least a portion of Europe has been interrupted by the war. As a consequence, some foreign countries also feel the effect of the shortage of the supply of coloring materials. The Chinese merchants at Shanghai have heretofore carried enormous stocks of coloring matter, and therefore have been in a position to supply the great demands of some Japanese and American merchants who recently came to Shanghai for larger purchases. The price has been rapidly increasing to the great profit of Chinese merchants in that port.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Suggestions for Successful ADVERTISING

The Best Time To Use Advertising Space

While the successful advertiser makes all times his own, their must of necessity be occasions when there are special advantages in presenting live facts about your goods to the public.

Advantages In Strenuous Times

Did it ever occur to you that in times when money is specially "tight" that the average buyer, and especially the thrifty housewife makes it a point to buy where the best can be got for the money expended? Have you an advantage to offer? Your advertising it will give you far better results than when times are better.

Buying Values Are Investigated

The value of money is appreciated now. Values count and are investigated by the public. This is the time to get full results from those who have good values to offer the public in any line of consumption.

PRINCE RUPERT PEOPLE GET INSTANT ACTION

Those who have used it in Prince Rupert are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-i-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. C. H. Orme, Pioneer Druggist.

Eye Troubles Corrected

Mr. Bulger has had over ten years experience in sight testing and fitting glasses, and last mid-summer took a post graduate course, which included the latest discoveries in the science of optometry or eye measuring. One of the most important is dynamic skiametry. The new method of Prof. A. J. Cross, of New York, in which the eye is measured by a beam of reflected light and any error is recorded.

But we do not simply rely on one method; each eye is tested separately, in three different ways, besides trying the muscular balance, together and the nervous acuteness.

We use the new drugless methods, no drops in the eye and no heavy frame resting on your face; ours swings from the wall by a bracket.

"The Reliable Plumber,"
Prince Rupert, B. C.,

I have great pleasure in certifying to the excellent hot water and heating system that you installed in our parsonage, and that after six months of operation through the winter months it has given every satisfaction.

The system heats a thirty gallon tank of water to boiling temperature in one hour after the fire has been started; it in no way interferes with the oven for baking purposes. In addition to this, the wall radiator which you placed in dining-room and connected with the range boiler has given us splendid satisfaction, supplying us with ample heating throughout the winter, saving us the cost of a stove and fuel.

I most heartily testify to the satisfaction and efficiency of your system and gladly recommend it.

Yours very truly,
(Signed) (Rev.) J. F. DIMMICK.

Production and Thrift

CANADA'S CALL
FOR SERVICE AT HOME

Produce More and Save More

The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient

In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials

There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely

Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.
