Farewell Taken Of H. P. Wilson Who Leaves For Moose Jaw

H. P. Wilson, who has been manager of the Royal Bank here for six years, ever since it opened in this city, was given a farewell at the Prince Rupert Club last evening. In order to allow many friends, who were not members of that club to attend and take part, last evening was made an open night there and a large number attended last night.

A. T. Broderick, President of the Club, acted as host, assisted by the other directors. Mr. Broderick, on behalf of the club and those present made a presentation of an address to Mr. Wilson, and in a happy speech expressed regrets at his leaving. He hoped that he would have pleasant recollections of the place and of the associates here.

Mr. Wilson in responding, said that he had no doubts as to the future of Prince Rupert. He wished well for all those in the city and hoped to see the place forge ahead.

A pleasant evening was spent at the club, with singing and other forms of amusement, the party taking leave of Mr. Wilson with the singing of "Will Ye No Come Back Again," and "He's A Jolly Good Fellow."

The evening before Mr. Wilson was entertained at the Pioneer Club to a dinner and a social evening.

Mr. and Mrs. Wilson leave Saturday morning for their new home in Moose Jaw.

A MODEL CAMP IS THAT AT ANYOX

EX-ALD. MAITLAND SPEAKS IN HIGH TERMS OF GRANBY'S WORK

The Interests Of The Men Are Well Looked After There.

Sergt. Maitland, formerly an alderman of this city, who has recently visited Anyox on a recruiting mission for the 102nd Regiment, speaks in high terms of the camp there. Sergt. Maitland is by no means a cheechako with respect to mining camps. He is an old-timer in British Columbia, and has been through as many of the Kootenay camps as most of the miners. He pronounces the camp at Anyox to be a model one.

In that place he met many men whom he knew in the Kootenays. He found them all well looked after. The quarters for the men are of the most comfortable type. Baths are provided, and in every way the men are well looked after.

Sergt. Maitland says the company has gone to special pains to make the lot of the employees as favorable as they can be made. He has no hesitation in pronouncing the conditions second to none to be found anywhere.

SAY PRICE TOO SMALL FOR FISHING CONCERN

Assets Costing $400,000 May Be Sold For $23,000.

Opposition to the sale for $23,000 of assets of the Standard Fisheries Company, which cost $400,000, was strongly voiced by Mr. C. S. Alexander in Supreme Court chambers in Vancouver. Mr. Knox Walkem, solicitor for the liquidator, Mr. Herbert Lockwood, made application for leave to sell the company's plant for $23,000, but Mr. Alexander, representing a minority of creditors to the amount of $65,000, thought the sum altogether too small for assets costing the company originally $400,000.

Mr. Walkem said that at a meeting of creditors the majority, representing $95,000 of claims, approved the sale. Mr. Alexander suggested that he could get a better offer and Mr. Justice Clement adjourned the application for that purpose.

ALLIES WILL MAKE BLOCKADE MORE COMPLETE IN FUTURE

London, Jan. 27.—In a debate on the tightening of the German blockade, in the House of Commons last night, Sir Edward Grey announced that Great Britain will not abandon the right to interfere with the trade of the enemy, and cannot exercise that right without interfering with neutral trade.

He stated that any neutral nation disputing this right is departing from its neutrality. He said that the Government would apply the principles used so effectively by the Lincoln Government during the American Civil War.

He also announced that the French fleet would co-operate in the blockade, and that any future notes regarding the measures taken must be Anglo-French and not British only.

GERMANS HAVE NEW NAVAL GUN MADE BY KRUPPS'

Paris, Jan. 27.—The Swiss papers report that Krupps' works in Germany have turned out a new 17-inch naval gun, which will shatter anything within a range of 22 miles. The report states that this huge gun is now being mounted, as the Germans have found a type of battleship which is suitable.

Hon. A. J. Balfour, in the House of Commons yesterday, stated that the British Government had no information on the subject.

BORN.

In this city January 27, to Mr. and Mrs. Humphrey Davey, twins, (both daughters).

In this city January 27, to Mr. and Mrs. W. H. Tobey, a son.

PRINCE RUPERT WON HOCKEY GAME

BY SCORE OF 4 TO 0 THE LOCAL PLAYERS SHOWED SUPERIORITY

A Week's Practice Has Greatly Improved Home Team.

The Hazelton Hockey Team, who are again on a visit to the city, went down to defeat before the local seven by a score of 4—0 at the Government Square skating rink last evening.

The weather was bitterly cold, resulting in there being comparatively few spectators present, at what proved to be the fastest game yet witnessed in Prince Rupert. The ice was fast, and the local players much improved in stick-handling and play generally. Several changes were made in the positions of the local team, besides Scott and La Casse being played in place of Bolderick and Wilson. The visitors, with three exceptions, played a new team. A number of the regular players were not able to accompany the team on this trip.

The game opened with a rush from centre on the Hazelton goal. It was fast and rough. There was much unnecessary heavy body checking and tripping in the first period which escaped the eye of the judge of play. The Hazelton defence was speedy and easily met the attacks of the local boys, the team showing a weakness, however, in their forwards, who failed in combination work in their attempts to pass and place the rubber in the net. La Casse, as rover, showed speed and is a clever stick-handler. Early in the first period, on a pass from his stick to that of Scott, the first goal was scored against the visitors, and shortly after play had been resumed, La Casse drove the disc past Donohue, shooting from the left wing, adding another to the score. The period ended with the score 2—0 in favor of the home team.

The second period started with the players checking very closely, several of the boys receiving minor injuries, but not delaying the game; until Macdougall of the Hazelton team went down from a body check, striking his knee on the end boards of the rink. He was compelled to stop playing for

(Continued on Page Three.)

PRODUCTION OF LUMBER IN CANADA

FIGURES SHOWING HOW BRITISH COLUMBIA COMPARES WITH OTHER PARTS

Rapid Recovery Of The Industry Is Manifest Now.

British Columbia, being the chief lumber producing province in the Dominion, lumber manufacturing statistics have a special interest. The report of the last census shows that there were in Canada 4,999 establishments engaged in the making of timber or in its re-manufacture; that the capital invested in them was $264,400,000; that there were 110,000 employees receiving $39,379,000 in wages; that the cost of the materials was $94,000,000, and the value of the product $185,000,000. No other industry ranks as high in capital invested, number of employees and in wages paid, and as a public revenue producer the industry is most important, Federal and Provincial Governments obtaining from forest revenues $7,433,000 a year. The production of lumber in all Canada for 1913 had a value of $65,796,438, as compared with $69,475,784, the previous year. Lath and shingles added another $4,000,000 to the 1913 production. Pulp wood production in 1913 had a value of $7,243,368; and cross-ties and poles for railways a value of $10,000,000 in the same year.

British Columbia in the same year, 1913, as shown in the Canada Year Book, 1914, produced: Lumber ,1,176,647 m. f. b., valued at $16,428,218; shingles, 643,484 M., at $1,204,713; lath, 108,859 M., at $163,688; pulpwood, 84,173 cords at $401,218, in addition to which there were large quantities of cross-ties and telephone and telegraph poles produced.

The importance of the forest and its products in the economy of Canada and this Province, is well illustrated by these statistics, and it will bring a return of optimism to British Columbia when it is realized how rapidly the lumber business is recovering and what a factor that will be in improving industrial, and consequently comercial, conditions in this Province during 1916.

Abounding Faith In The Future Of The City Is Held By Visitor

Mr. Thompson, who looks after the publicity end of the Grand Trunk system as far as magazines and newspapers are concerned, is in the city. He is making his first stay of any length in Prince Rupert, although he has passed through here at different times. Mr. Thompson will stay over until Monday, when he leaves for the east.

Speaking to the Journal last evening, Mr. Thompson expressed the greatest faith in this city's future. He pointed out that the situation at present was, of course trying to a company like the G. T. P., as well as to individuals; at the same time the outlook was good. The railway, he pointed out, was built and ready for traffic on a large scale.

He had no doubt personally about the future of Prince Rupert. It was up to the citizens to pull together and the development would be rapid once the war ended and financial matters became adjusted. What the company looks forward to is the development of legitimate business. It seeks to build up a lasting trade, and everything done is along that line.

In connection with the fish industry, Mr. Thompson is strongly in favor of the development of a local business here along that line. He thinks, that with the immense areas open to the fleet from Prince Rupert, there is enough to be built up to make this port a great one. It is not a question so much of trying to get trade from somewhere else. In the east, he says there is a great deal of attention fastened upon the city of Prince Rupert. With the return of normal times, he believes there will be a decided movement here looking to the development of a good city.

CANADIANS WILL BE EXEMPT FROM COMPULSION ACT

In the Imperial House of Commons, Mr. Long, President of the Local Government Board, undertook on behalf of the Government that men brought to Great Britain to work in munitions plants, should not come within the scope of the Compulsory Service Bill. Mr. Barnes raised the question in the interests of the men he had engaged in Canada and induced to cross the Atlantic.

NO CERTAINTY AS TO DATE WHEN CANAL WILL BE OPEN

Secretary Garrison said in Washington a few days ago that shippers should not regard as definite statements that the Panama Canal would be re-opened by February 15, until final word comes from Governor Goethals. Officers from the canal zone, recently arriving in New York, have predicted the waterway would be free of slides by February 15.

ROUGH WEATHER ON FISHING BANKS

JAMES CARRUTHERS WAS SEVERAL DAYS OVERDUE OWING TO STRESS OF WEATHER

The New England Lost Five Dories During Storm—Five Fishermen Have Narrow Escape.

The James Carruthers, Capt. Knighthall, reached port yesterday from the fishing banks with 85,000 pounds for the Canadian Fish & Cold Storage. She is several days behind the time she should have got in, due to the stress of weather. The fishing boat in fact has been nearly a week getting to port, due to the terrible weather.

She had to put into Dixon Inlet to right herself, being heavily listed through the heavy frost forming ice all over the vessel. At times the compass had to be taken to the engine-room to be thawed out.

The New England, of the New England Company, was in a worse plight even. She lost five dories during a storm. Five of her fishermen were also swept into the sea, but were later recovered.

FREIGHT PILED UP IN RAILROAD YARDS FOR THE RUSSIANS

Throwing light on the great volume of the freight movement now in progress from Seattle and Tacoma to Vladivostok, the Great Northern Railroad is holding on its tracks north of Seattle, more than 150 cars of knock-down rolling stock and other equipment destined for the trans-Siberian Railroad. The shipments are being moved out as quickly as possible, but the number of cars held on the tracks remains stationary. As fast as freight is shipped on steamers more arrive from the East.

The steamers Hazel Dollar, of the Robert Dollar Company, sailed recently with all the freight of all kinds she could carry, but her departure failed to make a dent in the quantity of freight now awaiting shipment. Besides the railroad equipment there is being held here all sorts of freight, including lumber, steel products of various kinds and automibiles for Vladivostock and general cargo for Manila.

From present indications the Great Northern Railroad's great freight movement to Siberia will continue for several months, at least. This is the opinion among officials of the company, the movement of export freight from the East to this port so far showing no sign of let-up. Every vessel that has steamed from the railroad pier for Japan, China and Siberia in the last month or two has departed with a maximum cargo, leaving freight behind.

One Hundred And Second Is Recruiting Up To Strength Very Quickly

Major Huntingdon, of the 102nd Battalion, returned yesterday from the interior. He went as far as Prince George. The Battalion is filling up quickly, and in a very short time he expects it will be recruited up to strength. He believes, from the information he has now, that the battalion is now up to about 800 men.

Locally, the Prince Rupert Company is fast shaping up. There are now, either in the quarters here or on the way from outside points about 70 men. Yesterday quite a few men came in and the number is being supplemented every day. Moreover, the recruits are of the very finest type of men.

At Prince George, Major Huntington saw Capt. Halsey and Lieut. Stalker. They have about fifty men there, and have them well quartered. The officers are getting along well with their work.

Locally, Capt. Brandt, in charge of the local company, is making good progress. The arrangements for sleeping are good and the men are equipped as quickly as possible. There are a number to come in from Bella Coola and from points along the G. T. P.

Rent now from M. M. Stephens.

BRITISH FLEET COULD END WAR IF GIVEN THE OPPORTUNITY

Thomas Gibson Bowles, well known as an authority on maritime law, in a speech severely criticized what he termed the ineffectual methods of the Foreign Office against Germany.

"Sir Edward Grey, the British Foreign Secretary," said Mr. Bowles, "has held the opinion that Germany must not be starved. For a decade he has tried to surrender our maritime rights. He went to The Hague in 1906 prepared to abandon the rights of contraband, search and capture in return for the illusory promise of universal disarmament. And even today he is hampering the right and duty of the fleet to inflict loss on the enemy."

The bogey of the Foreign Office, Mr. Bowles added, was the fear of the neutrals. A British blockade of Germany, he said, would be completely effectual if the navy were allowed to make it effectual, and if it were left alone the navy would certainly end the war."

(Coninued from Page One.)

the rest of the game. Scott was laid off to even up the teams. The judge of play was more strict following the accident, and shortly afterwards penalized Blyth of the local team, and Lavery of the visitors. The play, as a result was much improved, there being better combination; some of the players performing at times like seasoned veterans. Two more goals were scored against the visitors in the second period, making the count 4—0, Irwin taking one and Blyth the second.

The Hazelton boys entered the third period with the intention of evening the score, resulting in making the spectators, and the more enthusiastic fans forget for the time being that a zero wind was blowing. The two teams battled in a series of rushes, many good shots being spoiled by the clever work of the goal tenders. Brooks and Irwin on the local defence, againt Macdougall and Warner on the Hazelton forward line, were much in evidence in the last period. Goals, however, were scarce, the period closing without any additional scores being made. The game was won by the home team with a score of 4—0.

The line-up of the teams was as follows:

Hazelton		Prince Rupert
	goal	
Donohue		Rogers
	point	
Lavery		Brooks
	cover point	
Keddie		Irwin
	rover	
Warner		La Casse
	centre	
Macdougall		Holtby
	right wing	
L. Macdougall		Scott
	left wing	
O'Brien		C. Blyth

H. Love acted as referee and F. Giluhuly as judge of play.

"Paddy" Martin, manager of the Hazelton Club, was at the game with the boys.

The second match will be played at 3:30 this afternoon, instead of this evening.

TENDERS FOR FREIGHTING OF SUPPLIES FOR THE YUKON TELEGRAPH LINE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Packing Supplies," will be received until 4 p.m., on Tuesday, March 7, 1916, for the packing of material and supplies for points along the Yukon telegraph line between Hazelton and Atlin, in the course of the season 1916, 1917 and 1918.

Forms of tender and specification may be obtained from Mr. J. T. Phelan, Superintendent of Government Telegraphs, Vancouver, B. C., Mr. Wm. Henderson, District Superintendent Government Telegraphs, Victoria, B. C., and from the Government Telegraph Agents at Ashcroft, B. C., Quesnel, B. C., Hazelton, B. C., and Telegraph Creek, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures stating their occupations and places of residence. In the case of firms the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honorable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, December 23, 1915.

WAR LOANS AMOUNT TO ENORMOUS TOTAL

Credit Votes Of Warring Nations Run Into Billions Of Dollars.

The grand total of all war loans to date, including the recent $100,000,000 war loan of Canada, is given in the annual number of The Monetary Times at $28,456,000,000. Credit votes and loans of the warring nations last year ran into many billions of dollars, totals which economic theorists two years ago would have pronounced impossible to raise.

The third war loan of Germany, which was reported oversubscribed on October 18, was for $2,500,000,000. This brought war credits granted by the Reichstag up to $7,500,000,000. With that loan, German borrowings amounted to $6,000,000,000.

With Great Britain's November credit vote of $2,000,000,000, its credit measures to that date totalled $8,319,000,000. Including Britain's half of the Anglo-French loan of $500,000,000 in the United States in October, British war loans to that date amounted to $4,905,000,000. This sum does not include issues of exchequer bonds and treasury bills, aggregating about $1,500,000,000.

The credit granted by the French Chamber of Deputies for the last quarter of the year brought the total credits of France up to $5,658,000,000.

TIMBER SALE X 541.

Sealed tenders will be received by the Minister of Lands not later than noon on the 19th day of January, 1916, for the purchase of Licence X 541, to cut 1,256,000 feet of Hemlock and Spruce, on an area adjoining L. 1,625, East Arm, Juskatla Arm, Graham Island, Queen Charlotte Islands District.

Two (2) years will be allowed for removal of timber. Further particulars of the Chief Forester, Victoria, B. C. t-d-28.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

Skeena Land District—District of Queen Charlotte Islands.

TAKE NOTICE that R. N. Ferguson, agent, Victoria, B. C., and A. M Hall, manager, Vancouver, B. C., intends to apply for permission to prospect the following described lands for coal and petroleum: Commencing at a post planted 100 chains east and 60 chains north of the mouth of Joseph Creek, to the southeast corner of C. L. No. 10,148, thence 80 chains north, thence 80 chains east, thence 80 chains south, thence 80 chains west to the point of commencement.
