The Conservative Candidate's Record In Public Affairs

GRANTING LOANS TO AID FARMING

ALREADY $163,100 HAS BEEN GRANTED TO ASSIST LAND OWNERS

There Are A Number Of Other Applications Now In.

Victoria, Sept. 9.—Information obtained at the office of the Department of Agriculture is to the effect that the new Agricultural Credits Act is becoming more and more popular. Already 100 loans have been granted, aggregating $163,100.

There are a number of other applications which are being temporarily held over until the return of Hon. William Manson, Minister of Agriculture, who is a member of the Commission.

JUDGMENT HELD OVER IN CASE

MR. JUSTICE MURPHY RESERVED DECISION IN CAMERON BAY TRIAL

Legal Points Were Argued Yesterday In Supreme Court Sitting.

The case of Westholme Lumber Company vs. G. T. P. was concluded yesterday at noon with argument submitted by counsel. His Lordship, Mr. Justice Murphy, reserved his judgment in the case.

The addresses of counsel were of a very careful type, and each went very deeply into the legal aspect of the case.

E. P. Davis, K. C., for the G. T. P., who opened his address the evening previous concluded early yesterday morning.

C. E. Mayers, for the Westholme, argued that the railway company had exceeded its right. Moreover, he contended that the Order-in-Council giving the authority for making the fill exceeded the authority given under statute. An Order-in-Council must not give any authority for intereference with navigation, he argued, according to the statute, otherwise it could carry no authority. The fill was carried out under an approval that was not based on law. Dealing with the plans, he said that the Railway Board had no authority to approve the plans. After refusing to approve the plans it ordered an opening and plans were submitted showing a 30 foot opening which did not exist and they got the plans approved. The plans, even if the other side were true, could only be interpreted as providing for a railway line which complied with the regulations.

On the point of limitation for taking action, Mr. Mayers contended that the common law limitation was what was to be taken under judgments he cited. Action had been brought within six years, so allowed. The Railway Act, he said, seemed to have carefully avoided reference to "continuing damage."

AUSTRIANS SUFFER AT HANDS OF RUMANIAN TROOPS

Vienna, Sept. 9.—The Austrians have again been compelled to retreat from their positions to the north of Kronstadt, which stronghold was recently taken by the Russians. The Rumanians are pursuing the enemy relentlessly and the Austrians are utterly unable to resist their furious attacks.

Hon. William Manson Has Enviable Record In Preservation Of Public Utilities For The City

At the public meeting held last Thursday evening, September 7th, T. D. Pattullo took up considerable time explaining his actions regarding municipal ownership. That is not to be wondered at. He has a great deal to explain before he can satisfy the people on that point.

The history of municipal ownership in this city is about 7 years old. During the year 1909, after lots had been sold, consideration was given to the organization of the city, and a strong feeling existed for the city to own and operate its own public utilities.

Manson Blocked Pattullo's Scheme

Many meetings were held in those days and numerous proposals considered. Mr. Pattullo submitted to a meeting in the Court House an offer to organize a company to instal a telephone system, on a 25 year franchise, or failing that, 15 years. At the end of that time the city could buy at a valuation. Wm. Manson, who was Government Agent then, was called in and asked if he would favor such a plan and recommend it to the Government. Mr. Manson knew that such a proposal meant tying the utility up probably for all time, as at the end of 15 or 25 years the value of such an undertaking as a going concern would be placed so high that the city could never buy. He therefore stated that he would not support such a scheme, and would report to the Government against it.

People have wondered since whether the bitterness displayed by Mr. Pattullo against Mr. Manson started at that point. Mr. Manson then laid down the only proposal which he was prepared to recommend to the Government, that was that any company or any parties who might instal a telephone system should first agree to hand it over to the city as soon as it was incorporated, at the actual cost and if any difficulty arose as to transfering the property the company would have to remove their poles and wires on 30 days notice, either from the Government or the city.

Mr. Pattullo refused to entertain such a proposal, but later on local citizens took the matter up and organized a company, in which 70 local citizens put up money. The work was proceeded with under the original terms laid down by Mr. Manson, and after the incorporation of the city, the plant and property was turned over to the city at cost. Mr. Pattullo takes great credit for having taken part in this, and, according to the report of his meeting of last Thursday which appeared in The Daily News of Friday, he states that Mr. Manson refused to put up any money for the purpose. That is absolutely false, and if anyone will examine the records at the City Hall it will be found that Mr. Manson did put money into it and was the holder of stock certificate No. 47 for 10 shares, Numbered 726 to 735, and after the city was incorporated he received his money back as all the others did, without interest. It will therefore be seen that the statement of Mr. Pattullo is false, and in keeping with the whole programme of misrepresentation and slander carried on by the Liberal press and speakers.

Original Waterworks System

The G. T. P. Ry. Co. applied for water records on all streams adjacent to Prince Rupert, prior to incorporation of the city. Mr. Manson was then Government Agent and refused to grant any of them until the city had been provided for. The company had, however, put in a tank and temporary pipe line on Hays Creek for the use of their offices and other buildings. Some of the citizens located on the Grand Trunk Reserve wished to connect with the company's temporary system and secure a water supply. Geo. R. Naden, now one of the chiefs of the Grit machine, was more concerned about an immediate water supply than for the future advantage of the city, and at a public meeting questioned the Government Agent as to why he did not issue the record.

Mr. Manson replied that he did not consider it wise in the public interest to grant the record and did not intend to issue it. Had a record been issued then the company would have allowed people to connect and a system would have been established, which was the ambition of certain officers of the company, to organize a subsidiary company to control the water supply of Prince Rupert. Had that been done the city would not likely ever have been able to own its own system.

Mr. Manson refused to issue a record, which prevented them from proceeding in that way. He pressed upon the Government the need for installing a water system to be put in prior to incorporation as for the future city, and in company with other citizens visited Victoria as a delegation and prevailed upon the Government to go on with the work. This was done and the works handed over to the city after incorporation at the actual cost.

The advantage of this is most apparent as compared with allowing a company to get in, whose undertaking would later on have to be bought at an excessive figure.

Woodworth Water Rights

In regard to Woodworth Lake water rights these were staked many years before under the existing laws of the Province, which permitted any person to acquire water rights. There is no record that any Liberal tried to amend the Water Act prior to the staking. The rights were granted to the Prince Rupert Light and Power Company under the Water Clauses Act, but a reserve was made by the Government for Prince Rupert of 300 inches. Mr. Manson was one of the first to take that matter up and urge cancellation of the record, which the files in the Government office here will show. A number of local citizens, including Mr. Pattullo, agitated themselves on the point and took an option to buy out that company's rights at $30,000. Mr. Manson took no part in that, as he knew the city had the right of expropriation and could secure it by the latter procedure. The steps taken to get that option were largely political in an endeavor to show that the Government would not protect the city.

When Mr. Manson became Mayor in 1911 he carried on the negotiations which had begun, and when he found the water rights could be secured for $15,000 he considered it good business to buy and secure water rights, not only for domestic use but also for power purposes, rather than proceed to expropriate and in all likelihood have to pay more under an arbitration award and then only get the water for domestic use. This was immediately endorsed by the City Council and has always been considered good business.

Hydro Electric Bylaw

That transaction was completed in April, 1911, and a few months later, in September, 1911, Mr. Manson while Mayor, together with the City Council submitted a bylaw to the people to construct a Hydro Electric system from Woodworth Lake. The history of that bylaw is very well known. It will also be remembered that the Grit machine of Prince Rupert took a most active part in opposing the bylaw, and but for the Conservative workers, the labor men and a few Independent Liberals, that bylaw would have been defeated. The Liberals had a public ownership plank in their platform at that time, whether they have now or not is uncertain. In any event they forgot their platform and tried to defeat the principle in that instance.

The Hydro Elecric undertaking was then proceeded with step by step. In 1913 it reached the stage when the electric power plant should be installed, at that time Mr. Pattullo was Mayor, with a Council dominated by the Grit machine. He delayed action and wasted time and the citizens money ($3,850), travelling to London peddling the bonds of the city much to our loss, both in expenses and in damage to the city's credit.

Pattullo Links Up With Corporation Influences

At the close of the year 1913 he tried to sell out the city to the Prince Rupert Hydro Electric Company, by entering into an agreement to buy power from that company to the extent of 3,000 horse power per year for a period of 20 years. This was recommended by Mr. Pattullo. It would have given that company a strangle-hold on the city for all time. If we did not at the beginning start our own utilities we could never do so as to make a success it is necessary to begin in a small way and build up as the city grows.

That agreement was submitted to the electors of the city in January, 1914. William Manson and other citizens organized a committee to fight against the agreement being carried and protect the city's own undertaking. Mr. Pattullo and his Hydro Electric were both defeated. In less than 60 days the new Council of 1914 had secured the money to complete the work which Mr. Pattullo had pronounced to be impracticable and impossible to carry into effect, and which in an impassioned speech he declared in elegant language to be "allbull."

Manson Protected City

In the meantime the Prince Rupert Hydro Electric Company was seeking entrance on the streets of the city, and was applying for approval of its undertaking before the Executive Council at Victoria. Notice of its application for approval of undertaking had been published in The Daily News in July 1913, while Mr. Pattullo was Mayor. Neither he nor his Council took any steps to apply for a hearing of the claims of the city, no doubt intending to allow it to go by default and then howl against the Government.

William Manson in 1914 discovered that the application for approval of undertaking was about to be dealt with by the Water Department and immediately took the necessary steps to protect he city, which Mr. Pattullo, as

(Continued on Page Three.)

Mr. H. G. Brewster, M.L.A.

Liberal Leader in the Province of British Columbia, said

"I am surprised that we are not asked to pass an act that will actually prohibit; that is, that advantage has not been taken of the Dominion legislation giving power to the Province to prohibit the possession of liquor.

THERE ARE MANY FEATURES OF THIS LEGISLATION NOT IN THE BEST INTERESTS OF OUR PEOPLE. As an example I refer to the burden of proof which should not be on the accused, as in this, because this is wrong and an

Un-British Principle"

WILLIAM MANSON LIVE TO THIS CITY

ASSISTED IN EVERY WAY TO SECURE HELP FOR PRINCE RUPERT

Practical Assurance Given Of Similar Treatment To Point Grey.

The City of Prince Rupert is practically assured of being granted similar treatment to the Municipality of Point Grey in the matter of the arrears of taxes on lands in which the title has not passed from the Provincial Government and are likely to be sold for arrears where private buyers have paid only a part of the taxes. Hon. William Manson as usual has given Mayor McCaffery and city officials every assistance in securing this. The matter will not be finally disposed of until the election campaign is over, when formal consideration can be given the subject.

The history of this, in view of the attempt to make some political capital out of it, may be interesting reading now. Mr. Manson, who is now in the city and being interviewed as to his part in the matter, stated that on August 25 Mayor McCaffery called upon him and informed him that it had been decided to apply to the Government for similar treatment to what Point Grey had just been accorded. The Mayor stated that it had been proposed that he (the Mayor) should go to Victoria and take this matter up.

Mr. Manson advised the Mayor that it would not be necessary, he felt, for him to go south on the matter. He felt the concessions sought would go through without that trouble. Mr. Manson based his opinion on the fact that, when the Point Grey case was before the Government, he had called the attention of the members to the fact that Prince Rupert being in a very similar position to Point Grey would undoubtedly be applying for the same concession in due course and would be entitled to it.

When Mayor McCaffery therefore brought the matter before him and,

GOVERNMENT'S POSITION.

The Government is assured of an easy victory in the Province at the forthcoming election. Information received from circles that are well informed places the Conservative members in the House about two to one as compared with the Liberals. There are good reasons for this. The Liberals have failed to come forward with any defined policy except that of blackguarding the Government and finding fault with everything done or not done. Again the attempts to gain elections, as was done in the by-election in Vancouver by discreditable means, has put the Liberals out of the running, for in spite of the barefaced attempts to get away from any connection with the plugging, the public is satisfied on the facts that they were implicated.

THE SOLDIERS' VOTE.

The Liberals, after attacking the giving of the soliders votes under the guise of finding fault with the method of taking the vote, are now attempting to create the impression that the soldiers' vote was one cast largely for the Liberals. In this way they hope to buoy up the hopes of their friends and secure thereby some votes at home. There will be a rude awakening when the vote is announced. Then the Liberals will howl. It is safe to bet that seventy-five per cent. of the soldiers are voting for the Government.

NO CHANGE OF VENUE GRANTED IN MINING CASE

Application Made Before Mr. Justice Murphy Refused Yesterday.

Before Mr. Justice Murphy yesterday application was renewed by L. W. Patmore for a change of venue in the mining case involving property at Rocher de Boule in which E. P. Spaulding and Frank McKinnon are concerned. W. E. Williams, appearing for Mr. Spaulding, objected to the change applied for by Mr. Patmore, representing Mr. McKinnon.

His Lordship stated that unless it were shown that there was some very special reason for a change it should not be made. The convenience of the ed and not counsel.

Incidentally the question of a delay in the getting of a court sitting here came up and Mr. Justice Murphy took occasion to state that it was the fault of counsel here if a sitting of the court was not obtained.

The judges were busy, but if application were made to the Attorney-General for a court it would be granted, he thought. If it were not attended to and the application were made to him, he would see that a court sitting was arranged for.

FIERCE FIGHTING IN DIRECTION OF BLACK SEA

London, Sept. 9.—There is a fierce battle raging along a seventy-mile front, from the Black Sea to the Danube, between the Russo-Rumanian forces and those of the Central Powers.

It is reported that the Kaiser intends to proceed to Bulgaria to decorate the Bulgarian and German commanders who captured the Rumanian fortress of Turkurai.

THE KAISER SAYS BATTLE OF SOMME IS IMPORTANT

Paris Sept. 9.—On his arrival on the Somme front, the Kaiser promised that he would immediately rush reinforcements from other portions of the war zone and instructed the army to stubbornly defend every inch of ground and to die at their posts rather than yield to the British and French. He added that the battle now raging along the Somme is vitally important.

NEW FRENCH WAR LOAN IS BEING FLOATED IN PARIS

Paris, Sept. 9.—The French Minister of Finance has announced to the Appropriations Committee in the Chamber of Deputies that he is introducing a law on Tuesday authorizing the issuing of a new national loan for the carrying on of the war.

CANADA'S DEBT ON ACCOUNT OF WAR IS VERY HIGH

Ottawa, Sept. 9.—Canada's debt now amounts to $658,020,270. The expenditure on war account during the past year was $186,000,000.

CITY OF PRINCE RUPERT, B. C.

Tenders will be received up to August 18th next by the City Clerk, Prince Rupert, B. C., for the purchase of the following apparatus:

1—Return tubular boiler, 80. 7 h.p. 125 per square in.
1—4 1-2" x 2 3-4" x 6" boiler food pump.
1—1 1-4" Penberthy injector.
1—Copper coil feed water heater.
1—Underwriters Fire Pump, 16" x 9" x 12". Capacity 750 gallons made by Canada Foundry Company.
Complete set fittings for above.

The above apparatus is now installed in the Morse Creek Pumping Plant of the Corporation of Prince Rupert, and is in first-class condition, being practically new. It was used only for a very short time during the construction of the Shawatlans Hydro system.

Tenderers will be expected to dismantle and remove the plant at their own expense, but the Corporation will do this work if so desired at the following estimated cost:

F.O.B. Cars Prince Rupert $150.00.
F.O.B. Boat Prince Rupert $225.00

Highest or any tender not necessarily accepted.

D. R. KENNEDY,
Superintendent of Utilities.

WATER ACT.

NOTICE BY THE SURF INLET POWER COMPANY, LIMITED.

NOTICE IS HEREBY GIVEN that on the 18th day of May, A. D., 1916, The Surf Inlet Power Company, Limited, filed at the office of the Comptroller of Water Rights plans and specifications of its works for the diversion of water from Cougar Lake at the head of Surf Inlet, Princess Royal Island, and that duplicates of such plans and specifications are open to inspection at the office of the Water Comptroller at the City of Victoria and at the office of the Water Recorder at the City of Prince Rupert.

The date of the filing of the application in the office of the Water Recorder for the approval of its undertakings was the 24th of February, 1916.

The source of the water supply is Cougar Lake—the point of diversion is at the outlet of the lake and the place where the water is to be used is at the head of Surf Inlet and the locality within which the business of the Company is to be transacted is within a radius of ten (10) miles of the head of Surf Inlet.

Dated at Vancouver, B. C., this 26th day of May, A. D., 1916.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining right of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 per acre. Not more than 2,560 acres will be leased to one applicant.

Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the right applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior

HONORABLE WILLIAM MANSON

Minister of Agriculture for British Columbia, and Conservative Candidate for the Prince Rupert Electoral District.

Who is a man of honesty and integrity. His most bitter political opponents cannot say otherwise.

Who stands for honest and efficient administration of the Public business.

Who stands for the Progressive legislation passed at last session for the development of all parts of British Columbia.

Aid to Ship-building.

Aid to Agricultural development. Loans to Farmers.

Aid to Miners and Prospectors. Free Assays. Examination of Mining Properties and the building of Roads and Trails.

Aid to Returned Soldiers.

Votes for Soldiers.

Workmen's Compensation Act. Best on the Statute books of any country.

A reference to the people on the question of Prohibition.

A reference to the people on the question of Woman's Suffrage.

Who stands for and has always stood for the preservation of the franchises and public utilities of the City of Prince Rupert.

HON. WILLIAM MANSON

(Continued from Page One.)

Mayor, had neglected to do in 1913. The City Council was advised and Mr. Manson recommended that the city secure a hearing and present their case. Mr. Manson went further and notified the Government in the presence of the Attorney-General and Minister of Lands in public meeting in the City of Prince Rupert, that unless proper protection was given the city he and the Government had come to "the parting of the ways." Mr. Manson was chosen by the City Council a member of a delegation to appear before the Executive Council to present the case for the city. After the hearing Mr. Manson again repeated his statement made at the public meeting. The outcome was that proper protection was given the city and the company cannot enter the streets of Prince Rupert without first having secured the city's consent.

Tsimpsean Ligh and Power Company

The Prince Rupert Hydro Electric Company had acquired the rights of the Tsimpsean Light and Power Company, which had secured a charter from the Legislature in 1907. Mr. Pattullo states that Mr. Manson was a party to the granting of that charter. This is absolutely untrue. Mr. Manson was not in the Legislature at that time, but two Liberal members now residing in this city, Geo. R. Naden and Dr. Kergin, were then members of the House and never raised their voices, nor did any other Liberal member of the Legislature do so against it, although there were at the time some fifteen Liberal members in the House. This is another case of misrepresentation and falsehood of which the Liberal programme in so full.

Charter of Prince Rupert

Then there is that woeful tale which Mr. Pattullo tells about the charter of the city. The Charter which we secured for Prince Rupert was in keeping with all other cities in British Columbia, and all the details of it has been found to work out very well. The point which Mr. Pattullo took issue about was the cancellation of the Tsimpsean Light and Power Company's charter, which it has since been shown was unnecessary. The citizens have had it in their power to protect themselves every step of the way, instead of asking the Government to do the unreasonable. Mr. Pattullo in his actions locally has shown himself to be a most useless man to protect the city, notwithstanding all his strong words. The only time he can use strong words is against the Government, in all other cases he has been ready to lie down to corporate influence, first when he wanted a charter for a company organized by his friends to steal the telephone system from the city, and later when he lay down to play into the hands of the Prince Rupert Hydro Electric Company.

Is that the man to trust with a wider field than Municipal matters? Are you not infinitely more safe in the hands of William Manson, who has seen to it that the city was safeguarded at every possible point.

MORE MEN THAN WOME HAVE APENDICITIS

Surgeons state men are slightly more subject to appendicitis than women. Prince Rupert people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka, often relieve or prevent appendicitis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-i-ka is surprising. A meeting of the Methodist and Baptist Churches will be held in the Baptist Church this evening at 7:30, when Rev. W. Stevenson will address the meeting on Prohibtion. There will be a united choir of the two churches. The public is invited.

CONSTANCE COLLIER IN "THE CODE OF MARCIA GRAY"

Strong Photoplay At The Majestic On Monday Night.

There are many forms of moral honor, and every woman has her own individual code of ethics to govern various situations. The code of Marcia Gray, the basis for the Oliver Morosco photoplay of that name, which will be presented at the Majestic on Monday evening, will win ready sympathy. Suddenly deprived of refinement and luxury by the cowardice of her husband at a crucial moment, she finds but one solace—Orlando Castle—her former sweetheart, and friend of her husband. Marcia's code met a great and unexpected test—not from the usual triangle of two men and a woman—but in what makes one of the strong, human moments in a charming production.

The wonderful personality of Constance Collier as Marcia Gray makes her part one of universal appeal.

The incidents of the story could happen in any home—to anyone. The cast is excellent. Each character forms a strong, vitally necessary part of the whole.

"The Code of Marcia Gray" is an unusual picture—and one of universal interest and appeal.

WILLIAM MANSON.

(Continued from Page One.)

Mr. Manson undertook to wire the Premier urging that Prince Rupert be given the same consideration as Point Grey.

As he was leaving the city he suggested that the Mayor might be communicated with directly so as to save delay. The following message received by the Mayor explains itself:

Victoria, Aug. 30, 1916.

M. P. McCaffery,
Mayor of Prince Rupert, B. C.,

Just received your telegram. Am leaving Victoria tonight and will not be back until after election, so cannot have a meeting of Council to take up question of Prince Rupert taxes, but have no doubt that Council will agree to the same policy as in the case of Point Grey, but that will have to be gone into next month.

No Need To Send Away For Jewelry

If Prince Rupert people will deal at home they will find our price about the same as elsewhere for equal quality, as our freight bills are not heavy, and home dealers will be encouraged to keep proper stocks.

Let us compare, for instance, Eaton's price, $5.70 on a 7 Jeweled Waltham. Our Price is $6.00, but it is worth the 30c to see what you are getting when you want it, and have it guaranteed right here.

Take also the highest priced Waltham, a 23 Jeweled Vanguard at $44.60. Our Price is $45.00. Not very much difference.

Many articles, of course, are not so easily compared, and are made in many qualities and often look big for the money in the catalogue.
