INSPIRING ADDRESS

BY DR. HERRIDGE

**Moderator Of The General Assembly
Of The Presbyterian Church Stirred
Great Audience In The Empress
Theatre Last Night --- He Says
Church Has Great Opportunity**

Rev. Dr. Herridge, Moderator of the General Assembly of the Presbyterian Church, arrived in the city by the Princess May yesterday afternoon, meeting the Ministerial Association of the city at the home of Bishop Du Vernet in the afternoon, and addressing a mass meeting in the Empress Theatre last night. He leaves this morning by the train for the interior.

The Empress Theatre last night was crowded to hear this noted preacher, who has a Dominion-wide reputation as a speaker. Those who gathered were in no wise disappointed, as a most inspiring address was given.

Bishop Du Vernet presided last night and briefly introduced the speaker. He referred to the fact that the speaker had arrived late in the city and was having his time taxed to the fullest. He also thanked Rev. Mr. Grant and the management of the Presbyterian Church on behalf of the Canadian Club and the citizens generally of all church denominations for the arranging for the address to be given in the theatre, where all might hear it.

Dr. Herridge expressed his great satisfaction at meeting the people of Prince Rupert. He said that if he were called upon to describe the service he would call it a revival service, which was at this time the only kind to hold. In a city called Prince Rupert, with the stirring

memories associated with that name, this would be appropriate. He came as a sort of recruiting officer now. There was but one word throughout the British Empire today, "Forward." The same cry was being sounded by the Great Captain of our Salvation. They ought to be glad to be alive just now—not because they were having easy times, but having hard times—times that tested our manhood.

Life is the gift of God and is manifestly intended to be put to noble uses. Let the young men see life, but do not make the mistake of thinking that he sees life when he only sees death. Life was the supreme benediction of the Christ o God that came that we might have life, and have it more abundantly.

Our duty to ourselves must not conflict with our duties to our fellows. The word "Kultur" was, he knew, unpopular just now. But true culture completed itself in service to others. It was not arrogant.

Only by seeming to lose our lives did we get back our lives. The self-centred life was destined to be a poor one. It would be poor mentally and poor morally. Immorality did not apply only to the vicious. There were many different kinds of human service not only educated oneself but helped others. Those who went across the sea were serving their country and serving their God, and

Yesterday afternoon the ninth of the pontoons at the Prince Rupert G. T. P. Drydock was launched with the usual success. This leaves only three more to be completed. Work on the steel sides is well advanced on those pontoons that are already in the water.

GOVERNMENT TO LOAN ON LANDS

BILL INTRODUCED INTO LEGISLATURE PLACES WORK IN COMMISSION'S HANDS.

Safeguards Taken to Guarantee Security for the Money Lent on Farms.

The Agricultural Bill introduced in the Legislature provides for the constitution of an agricultural credit commission which shall consist of a superintendent who shall be ex-officio a director and four other directors. This shall be a body corporate. Its object is to make loans to farmers and to this end its powers are defined. It can make advances in instalments corresponding to the work of improvement on the land. For this purpose it will establish a department of appraisal and valuation and no loans will be made except upon the basis of the value of property as ascertained and fixed by such department. Its regulations must be confirmed by Order-in-Council. The working capital of the commission will be such monies as may be appropriated for the commission's purposes by the Legislative Assembly. The commission will be empowered to issue securities for periods not exceeding 30 years at such a rate of interest as the Minister of Finance may determine. All securities will be sold through the Department of Finance. The due payment of these both as to principal and interest will be unconditionally guaranteed by the Crown. The Lieutenant-Governor-in-Council is authorized to make arrangements for supplying the money necessary out of the general revenue of the province. A sinking fund will be created to meet the payment due on the securities.

The commission can accept as security for loans, first mortgages upon agricultural lands in the province free from all encumbrances, liens and interests. Loans may be made for the following purposes:

The acquiring of land for agricultural purposes.
The clearing of land, draining, dyking, water storage, and irrigation works.
The erection of farm buildings.
The purchase of live and dead stock, machinery and fertilizers.

Discharging liabilities incurred for the improvement and development of land used for agricultural purposes and any purposes calculated to increase productivity.
Any purpose which in the opinion of the commission will increase the productivity of the land in respect of which the loan is proposed.

Carrying out the objects of any (Continued on Page Four.)

LAYING RAILS TO

THE COLD STORAGE

The G. T. P. Have The Work Well Advanced---In Few Days The Canadian Fish Company Will Be Able To Load Direct From Works Onto Cars For Shipment East

The laying of the rails from the Drydock as far as the Cold Storage Company's works at Seal Cove is going forward now with expedition. In two or three days' time it is expected the track will be ready to carry trains over. The Cold Storage Company has made all the necessary arrangements to have the tracks laid right to the works, so that the handling of fish may be made a very simple matter.

This improvement will mean very much to the fish business here as far as the Cold Storage is concerned. When the work is done the fish can be loaded direct from the storage building into the cars and these can be iced and made ready for shipment right at the works.

At the present time the fish have to be carried by scow to the wharves in the city, necessitating a lot of extra handling. The loading direct from the Cold Storage will mean a decided saving in every way.

The funeral of the late Henry Draper, of Port Essington, took place yesterday afternoon at 2:30 o'clock, to the Fairview Cemetery. Rev. Canon Rix officiated. There were a number of friends present.

Andy Tyson, inspector of Indian agencies in this district, is in the city. He arrived yesterday.

Rev. Thomas Ferrier, of Brandon, superintendent of Indian schools in the Methodist Church, was in the city yesterday. He has gone to Port Simpson on duties connected with his office.

Russians Advancing At All Points On The Eastern Front

Petrograd, March 5.—An official announcement says along the Niemen-Vistula front obstinate fighting continues. In certain sections our troops made progress, particularly in the region of Mocarzo, where we captured six machine guns, four officers and several hundred soldiers, kema.

We also captured a number of German troops in the Carpathians. At Zakliozyn we captured some fortified positions. The Austrian attacks have become a little less vigorous in Galicia.

The Russian troops have entered Stanislaw, having crossed the Luficers and several hundred soldiers, kema.

London, March 5.—It is announced that during the operations around Stanislaw the Russians made 153 officers and 18,521 men prisoners. They captured five guns, 62 machine guns, 519 horses, and numerous trains at the same time.

Allies Repulsed Enemy On All Its Attempts To Advance Trenches

Paris, March 5.—In Belgium in the region of the dunes we organized with solidity and advanced to the trenches taken yesterday. The Germans attempted to push forward their trench into contact with ours. Twelve times, however, they had to desert them.

To the north of Arras our counter-attacks in the region of Notre Dame

have been crowned with complete success.

In Champagne we made marked progress. A company of German Guards was surrounded and captured.

On Friday we gained ground all along the front and carried a trench occupied at Salient, north of Perthes, where we took a number of prisoners.

Brought Five Cars Of Fish

The Andrew Kelly of the Canadian Fish & Cold Storage Company arrived in port last evening with 100,000 pounds of halibut. Most of that supply was taken in three days. The weather has been very rough on the banks, which has interfered with the catching and hence the few boats coming in. None of the boats are going into southern ports. The catch of the Kelly represents five carloads of fish. Four of these will go out with the train this morning.

REV. DR. HERRIDGE.

The message which Rev. Dr. Herridge of the Presbyterian Church brought to the people of Prince Rupert was indeed an inspiring one. He recognizes in the present condition of world affairs the opportunity for the Church to come into closer touch with the great bulk of the people. He recognizes that the people are being stirred deeply as a result of the war. The mad race for speculation in land, etc., has been checked for a time. He argues that the people are more ready to turn their minds to the more serious aspects of life and he sees in the times as they now are the opportunity for the preachers of the Gospel to revive interest in religious life.

There is no question that the Doctor is right when he says a more serious view has begun to be taken of life throughout the Empire. Judging from the experience of the epochs of history, there will probably be a checking of extravagance and reckless speculation for some time to come. It is not improbable that business may be put on a much more solid basis than formerly.

TO DEVELOP TRADE.

In a special Empire number, the Contract Record of Toronto publishes an interesting and suggestive symposium on "The Possibilities of Developing Trade Within Canada and the Empire." The series of contributions is introduced in a foreword by Sir George Foster, Minister of Trade and Commerce. Sir George points out that every dollar saved in the import of raw materials for industrial production decreases or avoids indebtedness abroad and vivifies natural development at home, and he expresses the opinion that practical and scientific men never had no better "cogn of vantage" for organization than they have now. Nor does he fear that the increase of "Made in Canada" production will leave us little to exchange with outside countries. On the contrary, he thinks we shall have the more, for we shall create both the supply for exchange and the financial ability to purchase abroad. He warns manufacturers that while patriotic impulse may help to excuse for a time crudeness of make and comparative lack of quality, it will not carry further. He expresses the hope that the abnormal needs created by the war will soon abate, and advises our people to remember that their business is to cater for the normal, and continuing wants of humanity.

Tenders will be received by the undersigned up to 5 p.m., Monday, March 8, for the purchase of the City's old Garbage Scow. Highest or any tender not necessarily accepted.

LIEUT. BOGGS OF VANCOUVER KILLED

YOUNG OFFICER WHO WENT WITH FIRST CONTINGENT MET DEATH.

It is Believed He Fell in the Region of La Bassée, Where Fighting Was Fierce.

The First Canadian Contingent is in action in the battlefields of France, for a casualty list was issued, showing the casualties of the first and second brigades that had fallen on the field of honor, being Bugler Callan of Preston, Ontario, of the first brigade, and Lieut. Boggs of Victoria, B.C., of the second, which includes the Seventh Battalion, to which Lieut. Boggs was attached, was made up of western regiments.

The second brigade is composed of the fifth, sixth, seventh, and eighth battalions, which are in turn made up of the following regiments: Fifth Battalion—12th Manitoba Dragoons, 16th Light Horse, 17th Light Horse, 27th Light Horse, 29th Light Horse, 30th Regiment (B.C. Horse), 31st Regiment (B.C. Horse), 35th (Central Alberta Horse).

Sixth Battalion—38th Mounted Rifles, 20th Border Horse, 22nd Saskatchewan Light Horse, 23rd Alberta Rangers, 32nd Manitoba Horse, 106th Regiment (Winnipeg Light Infantry).

Seventh Battalion—6th Regiment (the Duke of Connaught's Own Rifles), 11th Regiment (the Irish Fusiliers of Canada), 88th Regiment (Victoria Fusiliers), 102nd Regiment (Rocky Mountain Rangers), 104th Regiment (Westminster Fusiliers), Nanaimo detachment, Kootenay detachment.

Eighth Battalion—90th Regiment (Winnipeg Rifles), 96th Lake Superior Regiment, 98th Regiment 99th Manitoba Rangers.

The first brigade, which was composed of the first, second, third and fourth battalions, is made up entirely of eastern troops.

First Lieut. Herbert Boggs, son of Beaumont Boggs, the well known Victorian, was instantly killed on Saturday night. The cable was dated from Hazebrouck, France, Sunday, and contained no reference to the spot where the action took place. It is believed, however, that the boy met his death in the region of La Bassée, where part of the British forces have been operating for many weeks past, and where some of the most desperate fighting in the war has taken place. Hazebrouck is several miles along the British lines of communication to St. Omer.

Though only 22 years of age, Lieut. Boggs had seen a good deal of military training, and the fact that he became commander of a platoon at such an early age, was due to the fact that for years previously he had trained assiduously in all the duties of a soldier. He was a very fine type indeed of the young British officers who have in this present war showed themselves to be possessed of all the bravery, skill and dash associated with their predecessors from time immemorial.

Notice is hereby given that on the first day of April next application will be made to the superintendent of Provincial Police and to the Board of License Commissioners for the City of Prince Rupert for permission to change the site of the wholesale liquor business now carried on by the undersigned company from its present premises, namely, Lots 16 and 17, Block 11, Section 1, situate on Second Avenue, City of Prince Rupert, to premises situate on Lots 15 and 16, Block 32, Section 1, on Fraser Street, in the City of Prince Rupert.

Dated this 27th of February, A.D. 1915.

INSPIRING ADDRESS

BY DR. HERRIDGE

(Continued from Page One.)

may God bring them back safely.

The world had gone mad on independence. This was a democratic age. It appeared as if the object was to fight not to labor, rather than for the right to labor. Every man should be a servant. While there were many kinds of service in the world, he believed there was no work more noble than that of the Christian minister—a work that went to the very root of things and dealt with the unseen.

People were thinking now. It was good that they were not self-centred. Women were knitting now. Some were doing it who never worked before. They were working to save life, not to destroy it. There was a wave of seriousness over the country which made people in these uncertain days go beneath the surface. The time was one which appealed to the preacher. People were crying out after God. People unused to prayer were on their knees today. It was the fault of the preachers if they were not heard. In the face of serious things the distractions of life were forgotten and consciously or unconsciously they were waiting for the answer from above.

After this war whether we like it or not we must sweep a wider circle than before. If we did not get a wider conception of Christianity it was likely to die out. If faith in

God went, the harvest of destruction would come.

"God of Battles, was ever a battle like this in the world before?" cried the speaker. Some thought the British navy was not doing its part. If it were not for that navy they could not be sitting there tonight. (Applause.) Britain had used every means to keep back this conflagration. They had no quarrel with the Germans. They could still appreciate the music and the literature of Germany. But they had a quarrel with the Germany of blood and iron that ruled today, that did not respect treaties, that crushed Belgium and in that quarrel, once having entered, we would not stop until that Germany was crushed.

Canada was to take a part in the war. When the British Empire was at war Canada was at war. No matter how many contingents were necessary they would be sent. Our best sons would be sent with our prayers. While he held the quarrel in this war was a just one and we were fighting a war of fundamental principles, this was not a time for boasting. It was a time for humility. They should ask themselves if this chastisement was not needed for us to give us a fresh start. It was the type of character that emerged from this conflict that counted. The fight was between opposing ideals. While there might be technical neutrality, there must be sympathies by all nations with one side or the other.

He believed they would all admit that it was time they got back to making the land useful for what God intended it. They had to get in this province a different prospective and produce the things that were being imported too often. There were bigger issues than these. They could afford material loss and face even death if they did not lose their souls. The soul was the man. It represented all in life.

This was the Church's testing time. It would not do to depend on creeds. All were watching what the Church did in the plane of life. According to her service to man would she be crowned or otherwise. They had to have more general faith in God. The Church had perhaps been too much "other worldly." They need not trouble about the hereafter. There was a sequel to this life it was true, but God would give us that in His own good time. There were too many hymns about dying. Any man who had anything to do in the world had a right to stay and do it. The Church, he was glad to say, was more and more turning its thoughts to this world. There were great problems before the Church in this land. They must as a Church meet the enemy. There must be more church union and less separation. They were all Canadians and the only rivalry that could be permitted now was a rivalry to quit themselves like men. There was no law for the pulpit different from the law for the pew.

The trouble with some of our

churches was not that they were drunk, but that they were too sober. They should replace base intoxication with a spiritual intoxication. In times of distress the Church sometimes prospered better than in times of plenty. When the spirit of self-sacrifice was put in the Church prospered. The apathy of the Church must not stand in contrast with the action seen in the world of conflict. What the Church needed just now was a genuine revival. Life was to be judged by inner quality, not by outer signs alone. There should be no cessation in developing material wealth, but this did not make the man.

He had no doubt as to the ultimate result of the war. The price for the enthronement of justice and freedom had to be paid in the toll of death. A greater conflict had to be fought. If they ever fell into the fallacy that money was the great objective in Canada, disaster would come. In these days of trial they should enthrone the highest ideals of patriotism and they were united in a common aim by the religion they all held; then the war will have worked to the advantage of the nation. He pleaded for the deepest faith in God on the part of the Canadian people, closing with the quotation:

"Our hearts, our hopes, are all with thee,
Our hearts, our hopes, our prayers,
Our tears,
Our faith triumphant o'er our fears,
Are all with thee—are all with thee."

The meeting closed with the singing of God Save the King.

GOVERNMENT TO LOAN ON LANDS

(Continued from Page One.)

association.
Taking over in whole or in part any existing loan by the Crown in right of the province to any association or any debentures issued by any association.

Strict safeguards guaranteeing the security before a loan is issued are provided for in the act. There are clauses covering long-dated loans, short-dated loans and single-season loans and also what are termed additional loans. Provision is also made for the repayments which shall never be made in a sum of less than \$25. In the event of default in payments the commission is empowered to take over the land upon which a loan has been made, without recourse to the courts, after reasonable time has been given.

The bill is exhaustive in its safeguards regarding loans, but is designed for the purpose of increasing production in such a way as to give farmers more ample opportunity than they have ever had in this province in the past. There are regulations regarding the incorporation of associations of an agricultural character and provision is made whereby the council of any municipality can grant money in aid of any duly organized farmers' institute.

No loan shall be granted for a sum of less than \$250 or for more than \$10,000 to any one borrower.

PRINCE RUPERT MEN ARRIVE AT WILLOWS

Soldiers Form Nucleus of 48th— Ambulance Section Inspected by Major-General.

Says the Victoria Times of Monday: Yesterday morning 130 soldiers in charge of Capt. Clayton, Mc-Mordie and Pettigrew arrived on the S.S. Prince George from Prince Rupert, and this morning all the men were put through the medical examination and passed, without a single exception, all the physical requirements necessary. They are being attested into the 48th Battalion this afternoon, and will constitute the nucleus of the force which is to be mobilized at the Willows camp during the next few days.

There are also about twelve officers for the new battalion in camp, although pending the endorsement of the recommendations forwarded in this respect to Ottawa last week, no announcement can be made as to the personnel of the staff. The fact that all the men from Prince Rupert passed the examination is a splendid testimony to the type of young manhood from which the recruits are being drawn even for the third Canadian contingent.

NAVIGABLE WATERS PROTECTION ACT.

R. S. C. Chapter 115.

The Imperial Oil Company hereby give notice that it has under Section 7 of the above Act, deposited with the Minister of Public Works at Ottawa, and in the office of the District Registrar of the Prince Rupert Land Registration District at Prince Rupert, B. C., a description of the mine and the plans of the wharf and approach proposed to be built in Prince Rupert Harbor, British Columbia, in front of Wainwright Block "G", according to registered plan of the Townsite of the said City of Prince Rupert deposited in the said Land Registry Office as No. 934.

AND TAKE NOTICE that after the expiration of one month from the date of the first publication of this notice, the said Imperial Oil Company will under Section 7 of the said Act apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for leave to construct the said wharf and approach. DATED at Prince Rupert, B. C., this 2nd day of February, A. D. 1915.

THE IMPERIAL OIL COMPANY.

SYNOPSIS OF COAL MINING REGULATIONS.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 per acre. Not more than 2,560 acres will be leased to one applicant. Applications for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only; but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 per acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.
