THE ALLIES ARE MAINTAINING POSITIONS CAPTURED

FORCES STILL FIGHTING VIOLENTLY IN CHAMPAGNE

Intense Fighting At Forest Of Apremont

Canadians May Not Have Been In Latest Battle In France

FRENCH SOLDIERS MADE QUICK WORK

DETAILS OF THE SWEEPING WORK CARRIED OUT LAST SUNDAY

The Germans Were Beaten At The Point Of The Bayonet.

Reports from the front say that only twenty minutes were required for the French infantry to complete the victory prepared for by sixty hours of violent shelling and overrun the first line of the German trenches north of Perthes, in Champagne. While awaiting the moment for the attack, the French soldiers rested behind their lines, joking and putting their arms in perfect order.

Zone Was Lit Up.

The bright glow from the slow-burning illuminating rockets and the glare of exploding projectile lighted up the entire zone of action during two nights.

"After a few hours of intense fire our hopes that our batteries were dominating the situation were transformed to certain convictions," says a wounded officer who took part in the battle. "The moment for the attack was set for dawn. When the charge was sounded, whole battalions, reinforced by reserves, bounded forward. The rush was so impetuous that the Germans still alive and unwounded in the battered works seemed dazed and unable to resist. They were dis-armed and pushed back for new reserves to pick up, while the attacking line went on.

All Bayonet Work.

"There was little or no musketry. The bayonet did most of the work. The proportion of dead to wounded and prisoners was large. What was left of entire companies threw up their hands at the sight of the deadly execution of the Zouaves."

The general impression of this is that the affair of Perthes is only a beginning of the French effort.

Paris Acted Soberly.

Parisians received the news of the victory soberly. The newspapers issued large editions and official bulletins were read from the stages of the theatres last night, the orchestras playing the "Marseillaise." There were no other public demonstrations. The report was spread that many trains carrying wounded soldiers were arriving outside Paris, but later it was learned that these trains were filled with German prisoners.

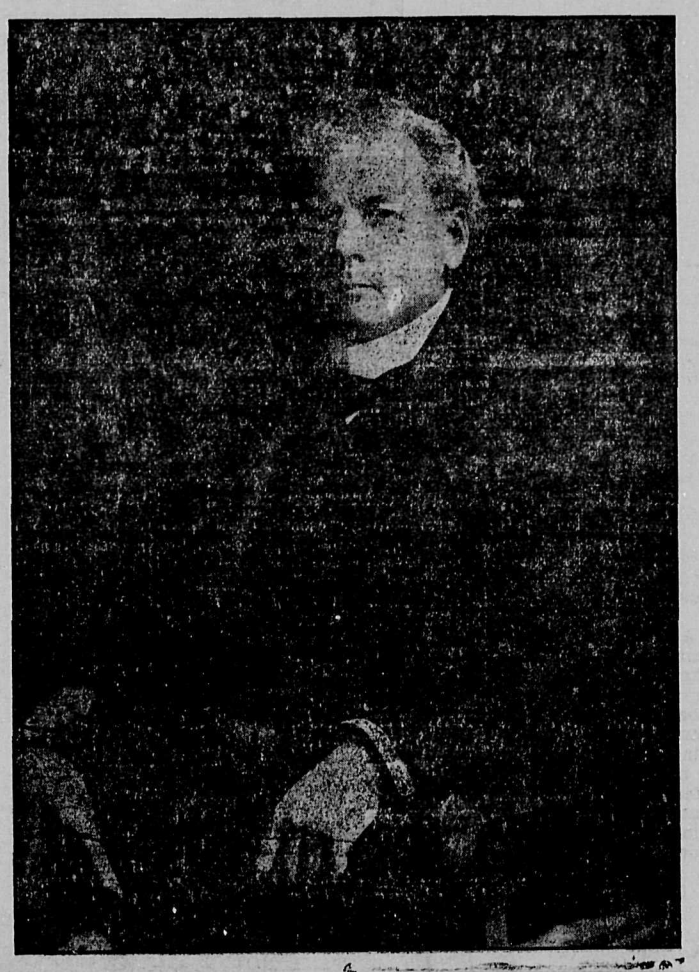
Ottawa, Sept. 29.—There has been a lot of speculation as to the part the Canadians took in the latest big battle on the Western Front. A report in London said the Canadian artillery had been in it, but as far as could be traced no confirmanation was given to this. No word had been received at the militia department which would indicate to what extent Canadians took part in the recent heavy fighting in the northern part of France. Major General Sam Hughes is rather inclined to think that Canadian forces were not heavily engaged. He thinks that Canadian troops are holding the line at a point considerably farther south than where the successful drive took place.

G. T. P. BRIDGE IN EAST HAS BEEN REPAIRED

The Interruption Along The Line Of The Railway Has All Been Done Away With.

The G. T. P. bridge at Uno, Man., which was blown down during a cyclone some weeks ago, has now been repaired and direct service between Edmonton and Winnipeg has been resumed.

At this bridge-work a number of workmen from here were taken to aid in the replacing of it.



SIR RICHARD McBRIDE, PREMIER OF BRITISH COLUMBIA, whose timely action in securing two submarines in Seattle just before the war broke out is acknowledged to have played no unimportant part on the protection of the Pacific coast cities. As a result of an outcry raised by his political enemies, Sir Richard demanded an investigation, and Sir Charles Davidson, the commission charged with investigating such matters, will open his enquiry in Victoria on Friday.

Allies Are Holding All The Positions Captured By Them

Paris, Sept. 29.—An official report says that throughout the day the battle has continued on the heights between Souchez and Cimy, we have maintained all our new positions captured. In Champagne the struggle is still violent, before postions upon which the enemy has fallen back, as well as for the reduction of the salient north of Mesil, where parties of Germans still hold out.

We made progress on the slopes of Tahure Hill, in the neighborhood of that village, and also north of Massiges.

A bombardment quite intense in its character on both sides has developed at the forest of Apremont.

Germans Surrrender.

North of Massiges, 1,000 unwounded Germans have surrendered.

Enemy's Loss Heavy.

The total German casualties, since the great advance began, in killed, wounded and prisoners exceeds three German army corps, amounting to 120,000 men.

MINING MEN MAY TAKE OVER CLAIMS

T. P. AITKEN AND J. J. PRICE OF SEATTLE INSPECTED PROPERTY NEAR PACIFIC

They Will Return To The Location Again On Saturday Morning.

The mining industry seems likely to give fishing a close run for interest as far a this district is concerend. Every day comes fresh reports of strikes and deals. Properties that promise to make very high class mines are being located in most unlikely places all the time.

One of the latest promising strikes was one of copper near Pacific. Samples from here were on exhibition here last week, and mining men who saw them, all prophesied great things for the property if there was any quantity of ore.

Early in the week J. J. Price, of Seattle, who has been prominently identified with mining in Alaska, and Thomas P. Aitken, of the same city, passed through here bound for Pacific. They returned last evening and the report has been in circulation that they have taken over the property.

When seen last evening, Mr. Price said that no deal had been completed. He did not say anything to indicate that he was disappointed, however, in the property. He said there was quite a large body of ore, with the main values in copper. Mr. Price will return to the location on Saturday morning.

The property is about seven miles in from the railway.

MINERS AT ANYOX HAVE GONE TO WORK AGAIN

Threatened Strike Is Ended According To Report Received Here.

The threatened strike in the miners of the Granby Company, at Anyox is over according to word received in the city last vening the men have again gone to work. Any trouble between the workers and the company has been settled.

NEARLY FOUR MILLION POUNDS OF FISH WERE HANDLED AT THIS CENTRE DURING THE MONTH OF SEPTEMBER

The fishing industry is assuredly the back-bone of this city for a time. For the month of September there was landed here and at the canneries of the Skeena, which are in close touch with Prince Rupert, very nearly 4,000,000 pounds of fish. Of that quantity halibut represented 2,165,500 pounds, which was all landed here, and for the most part shipped east by refrigerator cars as fast as received. In all, 1,799,200 pounds of salmon was taken. The total amount was 3,986,100 pounds of fish, which represented on a conservative valuation, $197,595.

The salmon received was canned for the most part, there being 19,750 cases put up during the month. This is a very large pack for such a late part of the season. Fish have continued to run up to the present. There are still, in fact, boats out getting humpback salmon and steelheads. All the cannery boats will be called in before the week is out. The pack has been a splendid one.

The steel-heads will continue to run till well into the winter. There is no reason why this should not become a very good line of trade for shipment to the prairies during the early winter. Shipments are being made now, but the demand on the outside is not as great as it should be.

Cod was represented during the month of September by 20,100 pounds, and about 600 pounds of flounders were landed. Crabs and other shell fish represented a catch of about 700 pounds.

There was not a large number of halibut boats in yesterday. The Atlantic brought 12,000 pounds, Anrora, 7,000; North Cape, 3,000; and the Mubola, 10,000. The price yesterday ran high. The prevailing price was 5 1-2 cents a pound.

Mississippi River Broke Its Levees Destroying Property

Mobile, Ala., Sept. 29.—The city of New Orleans, that with the State of Mississippi, along the gulf of Mexico coast has been swept by a tropical hurricane, which has demolished all communication and has led to fears of a heavy loss of life and property.

The Mississippi River leeves below New Orleans have been broken, and many houses washed away. At least two lives have been lost in that section.

GREATER ACTIVITY IS EXPECTED IN THE DARDANELLES

Athens, Sept. 29.—An officer on the British General Staff, who is here from the Dardanelles, says that, with the landing of troops in Macedonia, the Allies are on the eve of the greatest operation of the war.

Operating with the Mesopotamia expeditionary force, an attack on Constantinople will begin shortly, after which a march on Berlin, through the Balkans, will commence.

BULGARIA MAY MAKE ATTACK UPON SERBIA

Paris, Sept. 29.—It is expected that Bulgaria will commence an attack on Serbia within the next fifteen days.

The Bulgarian minister of finance and commerce have resigned, owing to friction in the cabinet, over Bulgaria's attitude towards Greece.

RAILWAYS CAN TAKE CARE OF CROP

OFFICIALS OF G. T. P. TELL WHAT THEIR LINE IS DOING

There Has Been 1,300 Cars Handled Over The Line Already.

A. E. Rosevear, General Freight Agent for the G. T. P. Company, speaking in Edmonton the other day, where he came to meet Vice-President Dalrymple, says that so far over 1,300 cars of grain has been shipped to the head of the lakes over their line. The greater part of this grain will be shipped east by way of the Great Lakes to Montreal and Portland, and as soon as the weather prevents navigation, it will be carried to the seaboard by rail, where it will find ready transmission to the old country through their line of boats.

"In every particular," said Mr. Dalrymple, "we, as well as other railways, are prepared for the fastest transmission of the Alberta and other western crops to the seaboard, and from thence to the English market. The amount of grain that will be sent across the ocean will only be determined by the desire of the farmers to sell."

TO MAKE TEST OF DRY DOCK

DESIGNER OF WORK W. T. DONNELLY AND CONTRACTORS ARE HERE

It Is Possible That Season Of Activity May Open At Dock.

The official testing of the dry dock here is to take place in the next few days. W. T. Donnelly, of New York, the designer of the plant arrived last night. Mr. Fey, representing the steel corporation. Mr. Poole, of Portland, Ore., representing the steel contracting firm, and Frank Tracy, of New York, who arrived last evening by train are all here in connection with the final test.

With that done the dock will be ready for business. It is evident that the company has in view works of a large character, and the docks may be a busy place this winter.

JAMES NEVILLE MAY BE AMONG WOUNDED

Sergeant Of That Name With Sixteenth In Casualty List.

It would appear that James Neville, of this city, who went out under Major Peck may have been wounded in recent fighting. In a casualty list appears Sergt. J. Neville, England. There is reason to believe this is the local man, who has had such a charmed life so far in the fighting.

The address given is that of the next of kin, and James Neville's father resided in England.

Chinese Liquor Case.

With all kinds of Chinese liquors in rather large quantities, the police court has a charge against a local Chinese merchant of selling without a license. It is believed in some circles that the case is one in which a tong war on a diminutive scale is largely responsible for the proceedings.
