An Appaling Railway Accident.

Another railroad disaster is added to the numerous railway wrecks of recent date. Last Tuesday the Philadelphia and Reading express ploughed at full speed into the rear-end car of a local train. Immediately after the crash, three of the shattered cars of the local train took fire, rendering impossible the rescue of the passengers who were pinned in the wreck. On the express none of the passengers were seriously injured.

A person who aided in the work of rescue made the following statement: "I assisted in carrying Davis the Engine driver, from the engine of the express. He was terribly injured. He said: 'I am responsible for the wreck. I saw the danger signal, but expected it to turn white.' " About 100 persons were killed and injured.

Venezuela Customs

Belgium will undertake the administration of the Venezuelan customs in behalf of the allies and other foreign claimants thus relieving the United States and other parties from responsibility.

Correspondence

Lillooet, B.C., February 27. 1903.

To The Edi or Of The Prospector:—

Dear Sir:—

You have doubtless been advised of the formation, at Victoria, of the Provincial Mining Association of British Columbia.

The object of the Association is, for all who are interested in mines in the Province (and every person is more or less interested) to organize, and by that and similar means to secure such favorable legislation as will restore confidence in our mining industry and induce capital to flow into our country.

If our mining industry is prosperous we well know that every other industry will be prosperous, and it behoves us all in Lillooet District to organize at once, join the Association, and appoint a delegate to represent us at the Convention to be held at Victoria on the 25th of February.

I would suggest that a Public meeting be held not later than the 16th day of February.

Yours faithfully,
Samuel Gibbs,
Notary.

Provincial Premiers At Ottawa.

Ottawa Jan. 27—The provincial premiers made their call on the government today, Premier Parent of Quebec presenting the memorial adopted at the Quebec conference, Hon. G. W. Ross of Ontario supporting it in a brief speech on behalf of all the provinces. Premier Prior and Mr. Eberts were present for British Columbia.

The memorial sets out that at the time of union it was impossible to foresee the development of the Dominion, and that the financial resources of several of the provinces are no longer sufficient to carry on public affairs in an efficient manner. The subsidies paid at present to the several provinces are as follows:

Ontario, $80,000.
Quebec, $75,000.
Nova Scotia, $60,000.
New Brunswick, $50,000.
Manitoba, $50,000.
British Columbia, $35,000
Prince Edward Island, $30,000.

In addition to this, there is 80 cents per head of population as established for Ontario and Quebec by the census of 1861 and for the other provinces by the last decennial census. In the case of Ontario and Quebec, it is pointed out that there have been large increases in population equal to 1,300.000 persons in the 40 years since the census was taken upon which the per capita allowance is based, and this increase has imposed upon the provinces heavier burdens in order to meet the increased cost of legislature, education. public works charities, justice, etc. In order to make the provinces in a position to meet the increased expenditure it is held that the annual per capita subsidy should be calculated according to the population of the several provinces ascertained by the preceding decennial census. This would mean an addition of $69,817 for British columbia at the present time.

Dr. Sanson Sent For.

Will Be Asked To Run In West Yale.

Dr. Sanson was called to Victoria last Tuesday. It is understood that he went at the request of Premier Prior, who will ask him to contest West Yale against Mr. Semlin. The Doctor's decision has not yet been made public.

The Chinese Question.

The British Columbia delegates discussed the Crinese question at Ottawa last Wednesday, and today will talk over other matters pertaining to this province. It is asked that 75 per cent of the receipts from the Chinese poll tax be retained by this province.

McLennan McFeely Get Contract.

The contract for supplying the city of Vancouver with hardware has been awarded to the above firm. Had it not been for an omission to explain that the usual customer's discount appertained in connection with their tender, the Vancouver Hardware Co. would have been the lowest tenderer.

The Government Suppress "Lowery's Claim"

The monthly magazine, edited and controlled by R. Lowery, of New Denver, B.C. has been refused the use of the Canadian mails. Unconventional always, and at times far-fetched in his conclusions, Lowery makes men think. Evidently he has overstepped the bounds that govern public morality. We hope that he will make amends, and give the world the benefit of his best thougts. Men can do without his worst.

India's Commerce.

The commerce of India was larger in 1902 than that of any preceding year in its history It now stands sixth in the list of the world's exporting nations.

An Important Move.

The need of united organization among those engaged in the mining industry in British Columbia has long been felt. For the want of organization many efforts of miners to secure better conditions have been attended with no good result. It is, therefore, gratifying to know that efforts made to form a Provincial organization promise to be successful.

The men of Lillooet cannot be indifferent to the invitation of the provisional Secretary to form a local branch of this Association in town, and to appoint someone to represent this district at the Convention to be held in Victoria on February 25th.

The first thing to be done is to call a meeting at once and form a local organization. Let each man interested in mining sign a membership roll. For every 20 members, the local society may send a delegate to the Victoria Convention where the Constitution and bye-laws will be settled.

Reliable Assayers.

We have had a communication from Pellew-Harvey, Bryant and Gilman, of Vancouver, regarding their assay work. This firm has been settled in Vancouver for many years, and makes a specialty of assays of gold ores, and every kind of test in connection with the same, such as mill tests, amalgamation tests, concentration tests and cyanide work.

With regard to their assay work they now make an offer. Should any other assayer get different results to theirs on their own pulp samples (which they always keep in case clients may like to have the work checked up) they will send the samples to be umpired to any first-class umpire, and should the other man's figures be closer to the umpire's than their own, Pellew-Harvey will themselves pay all the umpire charges.

If samples are sent in to this office we shall be glad to forward them to this firm free of charge.

Wanted-Government by Majority.

There is great force in the contention of the party that voted for Temperance in Ontario, that it is the constitutional right of the people to demand a change in the liquor laws of that Province in accordance with the recent majority vote. Two to one of a majority, gained under conditions prejudicial to the Temperance party, is a voice too strong to be disregarded by those who wish to hold the reins of power. Abolishing of the public bar, and the treating system are asked for.

WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you *how thankful I feel for the good derived from* it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

DRS. TAFT BROS.' MEDICINE CO.,

Gent'emen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y. Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as that of *many others*, I *chanced to see your sign upon your* windows on 130 street, New York. I at once obtained a bottle of asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radica improvement. After using one bottle her asthma had disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO. Feb. 5. 1901.

Gentlemen: I was troubled with Asthma or 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

He gave it up. "The Boney- partes" I answered. To see how it riled him was amusing.

We plodded on down the bed of the creek, until we came to a ter- rific canyon; the valley closed in over our heads, and the stream seemed to have disappeared into its bed. Not a sound down in the canyon, but in the distance over our heads we could hear the wind making a peculiar sound, presa- ging a storm, I thought. Snow now began to fall on us, night was coming on, and we were plod ding along over slippery bould- ers and rounded stones. We were faint and hungry, and what was worse, not a drop of good water to quench our thirst. At last, utterly exhausted, we sought the shelter of a clump of bushes, and throwing ourselves down on the ground I there spent the most wretched night of my whole life.

Lillooet District
is
Attracting Attention
on account of

1. Its Fraser River Placers.

As far back as the year 1858, successful placer mining was carried on at Horse Beef bar, near the town of Lillooet. The adjoining ground is being worked with profit at the present time.

A company is now working a gold dredger on the Fraser, with gratifying success, and a new company has been formed with a capital of $350,000, to operate an improved dredge near the town of LILLOOET.

2. Its Promising Mineral Lands.

ANDERSON LAKE and BRIDGE RIVER mining properties will prove themselves sufficient to form a prosperous camp. Yet there are miles of territory that remain unprospected.

3. Its Fishing and Hunting Grounds.

Increasing numbers of tourists from all parts of the globe testify that the sportsman's Paradise is here. Mountain sheep, bear, deer, and all kinds of large and small game abound. Anglers find the lusty trout where least expected, and fresh salmon cease to be a luxury.

4. Its Salubrious Climate.

In the dry belt, and at an altitude that renders the seasons temperate and equable, the climate is most suitable for health-seekers. Semi-tropical fruit may be grown, and at the present time, November, rosebushes and geranium plants may be seen in bloom in the gardens of the town

Nearest Railway towns are ASHCROFT and LYTTON, on the CANADIAN PACIFIC RAILWAY.

LOCAL NEWS.

Mr. Goepel, government auditor, came in last Wednesday.

The salmon hatchery at Seton Lake is nearing completion. The most of the workmen have been dismissed.

The first load of pipe for the town water system came in last Thursday. The remainder is at Lytton and will be freighted from there at once.

A large number of rails have been taken from the fence built around the Lillooet Indian Reserve. It is thought that they have been appropriated for stove wood.

W. W. Brown, of the North Fork placers, sends word that he will reach Lillooet this week.

The Prospector has received 43 acceptances of the club offer on page 3, and still they come. No offer, anywhere, gives better value than our special offer.

The Chinese residents in town and vicinity have been enjoying their New Year festivities this week. Firecrackers and bombs have been fired at short intervals, while the ever-present gong has been clanging to the heart's delight of the celestial community.

The Chinese have some extraordinary superstitions in regard to music. According to their belief, the Creator hid 8 sounds in stones, silks, woods, bamboos, pumpkins, animal skins, in certain earths and in the air itself. A full Chinese orchestra is composed of instruments made of all these materials except the last and the combined efforts of the performers are for the express purpose of coaxing the ethereal sound from the air. So when the gong sounds in our streets we may be comforted by the thought that in the thud John hears the sweet tones of the eternal sounds of nature.
