## Grand Concert and Dance For War Fund

The concert and dance to be held in the New Santini Hall to-night in aid of the Lillooet War Fund from all appearances is going to be one of the best ever held in Lillooet.

A excellent programme has been arranged and a delightful evening is assured.

The committee are looking forward to a record attendance.

The total of the Lillooet War Fund to date is \$325.58.

The dance is to be held after the entertainment, the Grand March will be called at 10 p.m.

## Boys and Girls Do It Now.

Christmas is the Children's Festival and the boys and girls of Lillooet are to have a visit from Santa Claus on Tuesday, December 22. He has promised to bring something for "every child in the town." He never disappoints his little friends. Look out for santa.

Santa Claus says he will be here, SURE. He has already begun to select gifts for his young friends and will take care that he does not overlook any boy or girl when he comes to Lillooet at Xmas time. Write a letter to him boys and girls and tell him your age and Post it At Once.

## Fire

A fire occurred here about 2 a.m., Wednesday morning, on the premises of the Chinese restaurant, adjoining the Santini Hall, and but for the promptness of some of the residents, would have been the means of the destruction of half the business centre. There was a high wind and things in general favourable for a conflagration. The fire was caused through a foul stove pipe at the rear of the premises, where, by united efforts it was kept.

This is the second restaurant fire in about two months, and it would be a good thing if more care was taken, for the prevention of fire.

It seems some difficulty was experienced in the ringing of the fire alarm, also the unwinding of the hose, whatever the cause, if it has not already been seen to, should be seen to at once. It is poor consolation talking after the mischief is done, therefore it would be wise for all precautions to be taken beforehand.

If you are desirous of obtaining Christmas Cards, you had better place your order with us at once.

Hot-cake Dick, of Little Blackwater fame, had a very exciting experience last week, and a dip into the lake besides. Dick is "some swimmer," and "husky guy."

J. B. Campbell of the Broken Hill mine, was in town this week on business.

Ladies' and Gentlemen's suits cleaned and pressed. See Mrs. Dunne, next to Santini's Hall.

Don't forget the school concert at the lake next Thursday. Tickets can be obtained from the scholars.

## Four German War Vessels Sunk and Two Colliers Captured.

London Dec. 9.—It was announced officially here today that the German cruisers Scharnhorst, Gneisenau and Leipzig had been sunk in the South Atlantic.

The following announcement was issued by the official information bureau: "At 7.30 a.m. on the 8th of December the German cruisers were sighted near the Falkland Islands by a British squadron under Vice-Admiral Sir Frederick Sturdee.

"An action followed, in the course of which the Scharnhorst, flying the flag of Admiral Count Von Spee, the Gneisenau and the Leipzig were sunk. The Dresden and Nurnberg made off during the action and are being pursued.

"Two colliers also were captured.

"Vice-Admiral Sturdee reports that the British casualties are very few in number. Some survivors have been rescued from the Leipzig and the Gneisenau."

The following telegram account for the two which made off during the above action:—

Vancouver, Dec. 10.—Private wire from Buenos Ayres, Dresden Nurnberg have been overtaken and sunk by British warships, while fleeing from Port Santa Cruz, Argentine. Reported that British cruisers are now searching for Auxiliary cruiser Prince Eitel with 1500 German soldiers on board.

London, 9th. --- Circumstances which led Government to announce that General Beyers, the Rebel leader in South Africa, had been killed, was made public today. It was during an engagement on the banks of the Vaal. Beyers and some others endeavored to cross the river. Beyers was seen to fall from his horse. His body went down stream and disappeared underwater. Search is being made for his body.

General Beyers was only important rebel leader still at large.

Germans and Russians are engaged in a mighty battle in Russian Poland.

The front extends for some forty or fifty miles and probably half a million men are taking part in the desperate encounters which at some places are at the point of the bayonet.

The Italian Chamber of Deputies, by a vote of 413 to 49, has expressed confidence in the Government. This follows the pronouncement by Premier Salandra of Italy's policy, which is directed towards maintaining "armed and watchful neutrality."

Rotterdam, Dec. 9.—The Berlin board of health, according to information reaching Rotterdam, reported thirty-six cases of cholera in Germany during November.

In Austria, especilly in Galicia, cholera is spreading rapidly. Eight hundred and forty-four cases were reported during the first week in November, in which period there were 331 deaths. There were 90 deaths in Vienna. In Hungary, during the same week there were 532 cases of cholera.

## Splendid Success Attending The Allies

Contemptable Little Army Still Showing Contempt for Danger

Lillooet Dec. 10.

Rome—Serbian Legislation today makes public report from Serbian headquarters to effect, that the Serbian army has complete victory, resulting in the recapturing of the town of Valgive and Ushitra in Serbia, and routed two corps. Austrians, says the report abandoned everything even their treasury sheets. Servians took 20,000 prisoners, fifty canons and large quantity of rifles, machine guns and munitions of every description.

Buenos Ayres, 9.—Re German—Three merchantman were sunk by British off the coast of Terra Del Fuego, southernmost South America, last Sunday, according to advices just received here.

Petrograd—Evacuation by Russians of Lodz, Russian Poland is admitted in an official communication issued today, the statement adds that Russians did not lose a man when position was given up.

Amsterdam—German retirement in Flanders continuing. German left are trying to leave their advance trenches, while the Allies are endeavouring to inflict heavy losses, possible. It is rumored that the Allies are in possession of Dixmude and have advanced to Zee Vecote, eleven miles southeast of Brugges. This is not confirmed but if true, the Allies have made a most substantial gain, other side since entrenched line formed along the Yser river, hand to hand fighting has been going on for the last 48 hours without interruption. British and French steadily forcing the Germans back into position of great danger.

Russian government has notified neutral shipping, military reasons compel placing of mines off Russian-Turkey coast ports in the Black sea. Neutral shipping must proceed at owners risk.

Paris—Official; in the Aisne region, yesterday, German artillery showed increased activity but was mastered by our heavy guns in the Rheims, heavy French pieces compelled the Germans to evacuate. Several trenches were carried under our infantry fire in the Argonne region, made progress, repulsing six counter attacks with complete success.

Berlin, Dec. 8.—(by wireless to London)---Dr. Solf, secretary of the colonies, states that the German government does not intend permanently to occupy the S. African Union. Germany desires, he says, that the hostilities which were forced upon her by the Union shall cease.

He further declares that if the Union government abstains from further hostilities against German territory and if the territory which has been invaded is evacuated so that the Africans may establish a neutral state, Germany would officially recognize this condition and would respect the territorial integrity and political importance of the neutral state.

## P. G. E. Extend Train Service

Arrive in Lillooet in January

Vancouver, December, 5.—The train service on the Pacific Great Eastern Railway will be extended to head of Anderson Lake, 85 miles north of Squamish, on December 15, it was announced at the office of the company this morning. The line has already been opened to regular traffic as far as Pemberton, 58 miles from the terminals on Howe Sound. A daily mixed train will be operated. By the middle of January the P. G. E. is expected to be ready for further extension of the train service to Lillooet 120 miles from Squamish.

Grading on the route of the new line to Fort George is now approaching completion stages. One section has been prepared for the rails as far as Horse Lake Summit, 250 miles from Squamish and another portion has been finished southwards 30 miles from Fort George. On the intermediate stretches 75 per cent. of the grading has been done. With the exception of one section, the entire route will be graded by February 1, it is estimated. The last portion will be completed by June, it is expected—Province

## North Fork Jottings

John Birch, mail carrier, was in town this week, from North Fork with the mail; he reports his section as enjoying a spell of fine weather.

Roy Burkholder is in town for his Christmas supplies

Ralph Webster and O. Evans have completed their grade for the ditch which is to bring water from the 4-mile creek to their ranches, known as the Curris and Knowl ranches, respectively.

Frans Mole is getting out the logs for his new house, on the Horse shoe ranch.

Charles Miller is building a new house on the Hell creek ranch.

Charles Holbrook and Dick Butler are placer mining near the mouth of North Fork.

The bridge now being built across Bridge river at the Horse Shoe Bend is nearing completion. The Lillooet (B.C.) Mining Company, Limited, have a gang of men widening the trail from 9-mile creek to the above new bridge. We understand it is the Company's intention to instal a drill and a saw mill as soon as the trail is finished.

Berlin, Dec. 9.—It was officially declared to-day that the Kaiser is suffering from pneumonia, which is combined with nervous depression due to over-exertion. The message adds that the doctors have advised him not to return to the front.

Annual Report of Lillooet Mining Division

(Report of Minister of Mines)

South Fork of Bridge River

For some distance west from the mouth of Gun Ck. along the south side of Bridge river, as well as east from that creek along the north side of the river, the valley bottom is quite wide; much of it is covered with older timber and is suitable for agriculture, as was attested at Shuster's ranch, and also at Grant White's ranch, a short distance east from the mouth of Tyaughton creek, ten miles east from Gun ck., where not only is hay—especially alfalfa—a sure and heavy crop, but wheat, oats, and all varieties of vegetables produce large yields, although needing irrigation usually, though not every year. The water-supply for irrigation as well as power purposes is very plentiful throughout the entire Bridge river district.

Eldorado Creek and Taylor Basin

On the morning of August 22nd, in company with J. Lindsay, I set out for these comparatively new districts, situated about midway between Gun and Tyaughton creeks, and about fifteen miles northerly from Bridge river.

The trail leading to these camps branches off from the main wagon-road about five miles south-west from Tyaughton creek on the old Chilcotin trail, and is none too good; in fact it is a typical Indian trail used for many years by the Indians in travelling between their homes in the vicinity of Taseko lakes and Lillooet. After following that trail on the upper benches and around the east side of Pearson lakes, then, by a very steep climb, to the summit at an elevation of 7,000 feet, a new trail made by prospectors is reached, which branches off to the north, while the old trail continues to the west. A series of summits and deep gulches are crossed for about five miles before the trail leads down a steep hill to the headquarters of Taylor creek, in Taylor basin, at an elevation of 5,000 feet; the distance from the wagon-rd. by the present trail is about twelve miles.

### AN OPEN LETTER

Dear Young Lady:—You are going to write a Love-Letter, and you wish it to be just as nice as you are yourself, if that is possible. Permit us to suggest that you write it on "Swisslin" or "Wicklow" Paper (envelopes to match), using a good Fountain Pen filled with Underwood Ink. Do not decorate a letter with fancy wigs or transfixed hearts. If through a lapsus penna a wrong word gets in, we have Erasers that remove ink as well as pencil marks. But best not erase anything. Just let your heart speak and all will be well. An authority on love-letters says that we should not know beforehand what we are going to say, and should not remember afterwards what we did say. Be lavish with sweet phrases and pet names. He's only a big Boy, and likes plenty of sugar-plums in his cake. A faint, elusive flavor of Mothering is very fetching. On your life, don't argue! A woman knows things intuitively, not by inductive logic. Argument is a man's weapon against his fellow man, and has no place in love-making. Put your trust in your love and intuitions. To sum up, the effective love-letter is a riot of ineffable incoherencies. When Molly told Paddy that love had driven her silly, it made Paddy as crazy as she was. The reference to Mike may have helped, but there's danger in that sort of strategy.

A young man, lately married, dropped in just now, and the following conversation took place between him and our manager:

Manager.—How's this for a stationery ad.?

Young man (after reading).—Oh, the stationery part is alright, but, after all, what do we know about the girls? We just love them, and that's all there is to it. When you venture to give them pointers on how to manage the boys, you display more valor than discretion. Next time you have an attack of cacoethes scribendi, try something comparatively easy; for instance paint the lily and adorn the rose.

Manager.—I had a vague idea that I was getting beyond my depth. It just occurs to me that a wise man said: "There be three things which are too wonderful for me, yea, four which I know not: The way of an eagle in the air, the way of a serpent upon a rock, the way of a ship in the midst of the sea, and the way of a man with a maid." Now, I'd like you to tell me why he said nothing about the way of a maid with a man?

Young man.—Because he was a Wise Man. As for you—well, "Fools rush in where angels fear to tread."

After this Parthian Arrow he fled, barely avoiding the copy of Dr. Osler's X "How To Be Beautiful," which the manager threw at him.

Just received, a nice lot of Writing Paper, Memos, Fountain Pens, Scribblers etc., which we shall be pleased to show you.

Yours Respectfully,

GLARKE & Co.
