Let the people of the town, especially the dancers, come along and have a good time with our visitors.

LOCAL ITEMS

Mr. O. Ferguson returned to Bridge River yesterday.

A number of fine trout were caught in Seton lake creek this week.

Mr. and Mrs. Campbell, of Vancouver, are in town for a couple of months and have moved into Mrs. Cox's house.

There were over twenty cases tried in the court here during the month of July, mostly for selling liquor to Indians. Nearly \$600 was collected in fines and a number of the offenders were sent to jail.

We have now a tri-weekly mail

service on the P.G.E. railway between here and Clinton. Mail for Clinton closes at 7 p.m., and registered matter one half hour earlier. Incoming mail arrives at 10.18 a.m.

The best thanks of the people of Lillooet are due to Mrs. C. A. Baldwin for mending the town flag, which was showing signs of the effects of the strong winds which sometimes prevail when it floats from the flag pole. It is a flag which any Canadian city should be proud of.

Mrs. Arthur Noel, of Bridge River, arrived in town on Monday evening and left on Tuesday morning on a business trip to Vancouver. Mrs. Noel reports that work is progressing very satisfactorily at the Lorne mine.

LIBERAL MEETING

Messrs. Brewster, Macdonald and Bryson Address Electors of Lillooet District.

Mr. H. C. Brewster, the leader of the Liberal party in British Columbia, and his lieutenant, Mr. M. A. Macdonald, who have been addressing meetings in the interests of the party in the northern part of the province, arrived in Lillooet yesterday afternoon and addressed a very attentive audience in Santini's hall last night. There was a fairly large crowd present and the speakers received a generous amount of applause.

Mr. Dan Hurley was the chairman and introduced as the first speaker Mr. J. B. Bryson, the local Liberal candidate.

Mr. Bryson said he was not an orator and would not take up much time. He was out to win, but hoped that after the election he would have as many Conservative friends as ever.

Mr. Macdonald was received with applause, and immediately launched into a speech in condemnation of the present government. He referred to the investigation in Victoria during the last session and claimed the Liberals had found many cases where money had been squandered. He also took up the questions of the Soldiers' Bill, the Credits Bill, the P. G. E. railway and many other matters of interest to the electors at the present time. He said that no matter what party was elected the P. G. E. railway would have to be completed.

Mr. Brewster went over practically the same ground as the previous speaker, but delved a little more deeply into the affairs of the P.G.E. railway. He was applauded when he stated that if the Liberals were returned to power he would give the ladies the vote.

The meeting was brought to a close by the singing of God Save the King.

Mr. J. A. Mara, of Kamloops, a former member of parliament for Yale, is a visitor at the Seton lake hatchery.

Mr. R. J. Hartley, who is accompanying the Liberal leaders as correspondent of the Victoria Times and Vancouver Sun, paid The Prospector a friendly call yesterday.

F. Parsons has taken charge of the boat on Seton lake formerly operated by the late Walter Cox. Trips will be made twice a week up the lake.

BORN

CRAN.—In New Westminster, on July 28th, to Mr. and Mrs. J. N. Cran, of Lillooet, a son.

AUG. 4, 1916.

THE SECOND ANNIVERSARY OF THE WAR.

On the 4th of August, 1914, we entered the great war. Now that the issue is no longer doubtful, we can draw a long breath and do some serious thinking. The first thought which strikes us is the fact that we ourselves are chiefly to blame for the war. We petted a tame tiger for generations and when it became strong and lively through our petting and got the smell of blood, ours was the choicest to its taste.

When the war of 1870 opened there was no political Germany. It was Prussia against France. Prussia swept all before her, and although the world expected us to interfere, as it cried aloud: "Fair France is dying, her blood runs red," yet such was our fondness for the pet tiger that we would not raise a finger. Though the sympathy of the British masses was with France, there were men in high places with narrow minds and weak visions of the future. Were we not connected with Prussia by dynastic and religious ties of the strongest possible character and would it not be sacrilege to cut those ties in favour of France, a nation that had no such claims upon us, and so we sat quiet and looked on while our pet tiger tore a great historic nation to pieces.

Nor was this all. We still continued to pet the brute for many years afterwards. We gave him Heligoland just because he wanted it as an outpost to protect his den in the event of any future possible enemy attempting to disturb him. Dear good old Lord Salisbury, let us say to you now, in the words of the immortal Emmet: "If the illustrious dead participate in the affairs of the living," look down and see the awful consequence of your great mistake in making that transfer. But with the help of great Allies we shall tear the tiger's jaws asunder, should it take two or twenty years more to do it, and wrench from him our Heligoland, to remain a small but valued gem in the British Crown.

Indications all point to a speedy termination of the war. The Teutons and Turks are now beaten, but perhaps they do not know it. The regeneration of Germany must proceed from within. Let us hope that they may soon learn the true position of affairs and not make it necessary for us to celebrate a third anniversary.

REFUSE TO AID FUND

Members of the committee of the Merritt Patriotic Fund at a meeting recently caustically criticized certain individuals in the Nicola Valley for their paltry and disproportionate contributions to the fund, while wholesale condemnation was levelled at the few who have refused to donate one cent towards aiding the dependents of those at the front. Instances were quoted of residents, who were living in comfort, refusing to donate anything whatever to the fund. Strongly worded resolutions were passed condemning those who have failed to support the cause of the Allies in some form or other, without just cause or excuse.

172nd Battalion.

Capt. J. T. Robinson of the 172nd Battalion, will be in Lillooet on Aug. 4th and will be pleased to meet all men of military age who are desirous of joining this Battalion for overseas service.

**LABOR HAS CONDEMNED
THE PROHIBITION
ACT**

**Trades and Labor Councils of
Coast Cities Pass Strong Resolutions—Reasons Why Workmen Should Vote Against the Bill.**

Organized labor has declared its position with reference to the B.C. Prohibition Act with no uncertain sound, the result of close investigation of and keen discussion of the Bill having resulted in the straight declaration by the Coast labor bodies that the Act should be condemned and that the workmen of British Columbia should do all in their power to defeat the measure at the polls.

The Vancouver Trades and Labor Council, the most representative central labor organization in British Columbia, at its meeting on July 20th, passed a strong resolution against the Act, the closing paragraph reading as follows:

"Resolved that the Trades and Labor Council in Vancouver, B.C., in harmony with representative bodies of organized labor elsewhere places itself on record as opposed to the British Columbia Prohibition Act and to the principles involved therein."

In adopting the above resolution the Vancouver Trades Council was but following the steps of the New Westminster Trades and Labor Council, which on June 14th passed the following resolution:

"Resolved that this Council go on record as opposed to prohibition as contained in the proposed Bill, from an economic and social standpoint and report this decision to the various unions with the request that they help to defeat the Bill."

The resolutions above noted are in line with the action of the Victoria Trades and Labor Council and the Prince Rupert Labor Council.

WORKINGMEN HAVE A "KICK" COMING.

The discussion in connection with the passage of these resolutions showed plainly that workingmen believe they have a just "kick" in connection with the Prohibition Act. It was stated that the measure is class legislation of the rankest type inasmuch as it allows the man of means to secure all the liquor he desires by importing it from outside points, but at the same time places a handicap on the workingman who can only afford to buy his beer by the glass. This argument is directly along the line of the remarks by Mr. Parker Williams, member for Newcastle, on discussion of the Bill in the House, when he openly declared the Act to be class legislation and stated that while he "would vote for prohibition that would prohibit he would never have anything to do with such lopsided, jug-handled imitation such as the present Bill."

The Act is also objectionable to trades unions inasmuch as many of its clauses were declared to be un-British and unfair. It was pointed out that clause 29 provided that any person could tell a constable that he suspected a man had liquor illegally in his possession. On this information, and without disclosing the name of the informer, the constable could enter a man's house, break into all the rooms, closets, etc., without a warrant. Such provisions were severely criticised by members of the labor councils as absolutely opposed to the British

idea that "A man's house is his castle."

In taking the action they did, the councils were also moved by the feeling that they should support the large body of workmen who are today directly or indirectly engaged in connection with the operation of licensed premises. It was stated that 3700 men are now thus employed and that 6000 persons are dependent upon them for a living. This does not include over 1200 employees of licensed premises who are now at the front. As the Prohibition Act would mean that these men would be thrown out of work, the councils considered that legislation leading to such action, especially at this time, should be vigorously opposed.

Many delegates who took part in the council discussions said that they were prohibitionists. They stated, however, that they were opposed to the Act because it was not a Prohibition Act in any real sense of the term, provision being made in it for the purchase of liquor by importation or otherwise just as freely as is now the case. They plainly stated that they did not consider a vote against the Prohibition Act a vote against the principle of prohibition, as to their minds, the passage of such an act as was proposed would not in any way lessen the purchase or consumption of liquor. As a matter of fact, although it might tend to decrease the consumption of health giving beer (the workmen's usual beverage), it would actually increase the consumption of whisky and spirits, a condition which was not for the best interests of the workingman or the province. **Adv't.**

TERRIFIC EXPLOSION.

Thirteen Warehouses and Contents Are Merely One Item—Loss About \$35,000,000.

New York, July 31.—Property loss estimated at from \$25,000,000 to \$45,000,000 was caused yesterday morning by a series of terrific explosions of ammunition awaiting shipment to the Entente Allies, and stored on Black Tom Island, a small strip of land jutting into New York Bay off Jersey City. The loss of life cannot be determined definitely.

The detonations, which were felt in five states, began with a continuous rapid fire of small shells, the blowing up of great quantities of dynamite and other high explosives, following by the bursting of thousands of shrapnel shells, which literally showered the surrounding country and waters for many miles around.

The cause of the disaster has not been determined.

6TH CO. CAN. ENGINEERS

Training that is Useful in Civil Life—Unnumerable Trades Taught Men Who Enlist.

It is not generally known that in addition to being taught everything that an infantry man is instructed in, the sapper of the Canadian Engineers learns many things useful in civil life. He is therefore continually being prepared for the return to civil duties at the end of the war.

He is taught bridge building, building construction, road building, use of explosives, geometry, construction of piers, derricks, incinerators, drains, water systems, the use of the blocks and tackles, knots, lashing and splicing. Careful thinking men who are going to enlist should remember this. More men are wanted, and wanted quickly, for the Engineers. Sixty men are wanted immediately.

Men desirous of enlisting in the Engineers should apply at the nearest army doctor or recruiting station or communicate direct with the officer commanding at headquarters, North Vancouver, B.C. On receipt of attestation papers and medical history sheets, transportation will be forwarded for journey to Vancouver.

The officers and non-commissioned officers' school of military engineering commences on Monday, July 31st. Anyone can join this school and successful candidates will obtain a sergeant's certificate before going overseas. A considerable number of men have received commissions after obtaining this certificate.

PROMINENT SOLDIERS KILLED

News has come from the front of the death in action of Lieut. Harold Reginald Monro Christie, son of Mr. and Mrs. H. P. Christie, of Ashcroft.

Lieut. Christie left shortly after the outbreak of the war and obtained a commission in the Cameronians. Shortly before his death he had been gazetted to the 4th Battalion, Cameronians, but at the time of his death was attached to the 1st Battalion. Lieut. Christie was a graduate of McGill University and was a British Columbia land surveyor, head of the firm of Christie, Dawson and Heywood, of Kamloops, and was 29 years of age.

Captain Bostock, son of Senator Bostock, has also been killed in action.
