THE PROSPECTOR

VOL. 3, NO. 34 LILLOOET, B. C., FRIDAY, JUNE 19, 1914. $2 PER YEAR

VICTORIA, B. C. JUN 22 1914 PROVINCIAL LIBRARY

Lillooet to Celebrate

The sports committee are making great preparations these days to fittingly celebrate Dominion Day by holding a two days sports on July 1 and 2. There will be about a thousand dollars worth of prizes given for the various events which comprise, horse racing, base ball, football, athletic events for young and old of both sexes, and will wind up with grand ball on the evening of July 2nd. Come and spend a good two days' sportin our midst.

T. Rigg was in town this week from the Horse Shoe Bend. He says they have been using test drills and are satisfied with the results.

Dan Hamilton was in from his mineral claim adjoining the Broken Hill mine, and says that he has got a good showing on his property. He returned the following day saying that he was too busy to stay longer.

No Fruit

It would be a good thing if more care was taken on Pemberton reserve with regard to the insect pests. Owing to gross neglect there will be practically no fruit on the reserve this year, caterpillers have had unmolested control, with the result above mentioned. Something should be done to see that this does not occur again, especially as there is the possibility of these pests migrating and becoming a general nuisance.

Whether music attracts these insects or not we do not know, but the priest reports having killed thousands on the church steps and the close vicinity.

Clinton Hotel Addition

The new improvements and extensions of the Clinton hotel are well under way.

The old section, containing the ladies sitting room and several bed rooms, has been pulled down and the excavations made for the new wing, which will be in two stories, containing sitting rooms and bed rooms. The Ulstein Brothers have the contract.

Two Weddings

Some lively times are reported to have taken place on the Indian reserve recently. During the past week Rev. Father E. C. Bellott has joined together two happy couples. The first being Willie Larochelle and Harriett Edwards of Pavilion, this happy couple have staked a homestead in the hills. Last, but not least, Henry Albert and Sarah Paul of the Fountain ranch were joined together. General rejoicing took place at the close of both ceremonies.

LOCAL AND GENERAL ITEMS.

There is to be a wedding at the Portage in the course of a few days—lucky fellow.

Dr. H. A. Christie left this week for Vancouver to attend the Board of Health convention there.

W. E. Keeley, prop. of Victoria hotel, returned home this week from the coast cities where he has been on business for the past three weeks.

Dr. Williams of Clinton arrived in town this week on business. He left shortly aftewards accompanied by Dr. Asseltine, resident doctor of the Lillooet hospital.

W. Grady ,who has been on a tour through the Bridge river country, returned to Lillooet this week enroute for the coast. He says things look pretty good to him.

Mrs. E. Thompson wife of E. Thompson, storekeeper at the Pemberton Portage, was in town for a few days this week, visiting friends. She was accompanied by her sister's young daughter.

R. L. Archer, rancher of Pemberton Portage, has been in town for the past week on business. He reports the crops coming along in the best of style and that everything in general is looking fine.

Tom Brett, one of the oldtimers in Lillooet district, arrived in town from the coast this week. Tom says that he is only visiting old acquaintances here—but he is wearing one of those expressions which betokens that something is on foot, but is not far enough ahead for publicity.

A. W. Johnstone of Johnstone Bros. dry goods merchants of Vancouver, was in town this week interviewing the local business men. He came instead of Salesmen Sayers, who is in the Vancouver hospital suffering with concussion of the brain, he having had the misfortune to slip off a tram car in Vancouver. Mr. Johnstone was accompanied by E. Ross.

A very pleasant time was spent last Sunday by a party Strawberry picnicers. They left town in three autos in the early morning, arriving at the Dickey ranch, the scene of action, without any thing happening to mar the run. The party did not return until the evening, having spent a general good day.

Among the many visitors to town this week were, Dr. Woolard, Dr. E. H. Bennett, F. F. Smith, J. R. Archibald, all of Kamloops, also Dr. Wightman with Mrs. Wightman and child from Ashcroft. Dr. Wightman and Dr. Bennett are old college chums of Dr. J. A. Asselstine, resident doctor at the Lillooet hospital. The party, who came in by auto, visited all places of interest in Lillooet and vicinity and expressed themselves as being agreeably surprised with the favorable conditions prevailing here both climatic and otherwise.

C. L. Copp returned from the mines this week en route for the coast.

Stewart Henderson is a visitor in town this week and is a very busy man, looking after his business interests here.

Greece and Turkey are at it again—we imagine that between the two they ought to slip along alright.

C. P. Dam of Sucker creek was a visitor to Lillooet last week for supplies. He left for home the following day.

Miss C. Fraser, who has been been connected with the Victoria hotel for the past ten months, left for the coast on Wednesday afternoon.

F. J. Cameron and Mrs. Cameron, of Rankin head quarters camp are in Lillooet these days en route for their new headquarters.

F. E. Cronin, contractor on the P.G.E., who has been working in the vicinity of Anderson lake passed through Lillooet this week.

The Methodist regular services will be announced next week. There will be no evening service this week owing to there being service in the English church.

Messrs. A. McDonald, M.P.P., Jas. E. C. Lund, government agent, and Jas. K. More, road superintendent, were in town this week on official business. They returned to Clinton yesterday morning.

W. J. Abercrombie, prop. of the Excelsior hotel, paid a flying visit to Ashcroft this week. He was driven over by the auto driver known as the Flying Dutchman. A record trip is reported to have been made.

Mr. Graham, Indian agent is in Lillooet these days, attending to things appurtaining to the local Indians. He paid a visit to the creek above the town to supervise the work done by the Indians in connection with the pipe line to the reservation.

Geo. Benson, clerk of the Excelsior hotel, who has been on a flying trip to St. Paul to see his sick brother, arrived back last Sunday morning. George, we are sorry to learn, was too late to see his brother alive, he having passed away only a few hours before his arrival.

J. Lajoie of the Lajoie Company passed through town this week en route for the Lajoie falls. He was accompanied by Geo. Charlie, W. Duplin, and Mr. and Mrs. Cole of Fraser Mills. They arrived by private auto which they intend to use on the Bridge river road as a general passenger car, between Seaton lake and Lajoie Falls, Bridge river.

Church Services

Church of England ; Morning 8 a.m. ; 11 a.m. Evening at 7.30 p.m.

Methodist church : Morning (Sunday School) at 11. There will be no evening service.

P.G.E. Officials Pass Through

Mr. J. W. Stewart, President of the Pacific Great Eastern railway arrived in town late last evening, accompanied by John Callaghan, Chief engineer and C. Crysdale, assistant engineer at Newport. They came in over the P. G. E. road and are travelling through to the end of the line, on a tour of general inspecton.

BAPTISM

At the close of the evening service in the Methodist church last Sunday the rite of baptism was performed by Rev. R. D. Hall upon the infant daughter of Mrs. Wing.—Katherine May.

See page 3 for partictlars of Water Investigation Board

Tom Alfred, the oil magnet arrived in Lillooet early this morning—he is being besieged by the local aspirants to wealth.

Constable Shot

City Constable J. M. Allen of Kamloops, was shot dead at 2.30 on the morning of June 13th. He had gone to examine some deserted Chinese shacks which were often frequented by tramps, Apparently just as he sought to enter one of these he was met by the bullet which killed him.

Con. McCury, who accompanied Allen, was searching another shack, and on returning to where he left Allen found the man dying. A freight train was passing down the street slowly at the time. Twenty-three tramps aboard her were arrested at Walhachin, and will be brought to Kamloops. Police and special posses of mounted men are scouring the country, and all trains being searched. Allen joined the force October last. There were two men named Allen on the force, the one killed being John Mellis Allen.

The jury returned the following verdict:

We your jury empanneled to enquire into the death of John M. Allen do find from the evidence produced that the said J. Allen met his death while in discharge of his duties as a police officer in a small shack in Main street, Kamloops, known as the old isolated hospital, on the morning of Saturday June 13, 1914, at or about the hour of two thirty o'clock, from wounds afflicted by the bullets fired from a thirty-eight calibre automatic gun in the hands of a person or persons unknown.

It is understood that the city will offer a substantial reward for the capture of the murder.

No further developements have occurred in the case although a large number of men have been arrested on suspicion.

Exhibitions

Education is the principal object of exhibitions. The commercial man is educated in the best means of developing the business of the country. Thru the exhibition buyers and sellers are brought into direct touch with one another over the exhibits. The seller is educated in the requirements of the purchaser, and the purchaser is educated in the advantages of the improved article he is in need of. The inventor is brought into direct touch with the mechanical world; he is educated in the requirements of advanced science, he not only teaches his own ideas but he learns how and in what way to improve his ideas. The stock breeder learns from the exhibits before him how to improve his herd and the best strain of stock to secure for his purpose. The farmer learns through the exhibits of farm produce the results of scientific agriculture, and learns that farming is the application of brain as well as sinew. The house wife learns, the school boy, the school girl, old and young learn much from practical observation of the exhibits. The exhibition is a great public school, the whole of the people are the scholars, the exhibitors are the teachers. The great lessons that are inculcated are thrift, industry, economy, perfection, advancement and not least the love of the beautiful in nature, art and science. Add to these lessons that of pride in one's country, public spirit and loyalty to local and domestic attachments, and it will not be denied that our exhibitions hold a place together with our educational institutions, colleges and universities.

It is somewhat trying to ones ingenuity when perusing the columns of the Vancouver papers to understand why so much time and space should be given to a question, whose answer is immediately apparent to any casual and practical observer. As every one very well knows the economic conditions of the country are not at present such as will stand any great influx of immigrants, whether they are Hindus or otherwise. A glance at the overstocked labor market will easily bear this out. "They are our brother—have they not fought for the King?" is the cry very often heard, This all sounds very well, but observe again the large ranks of unemployed and you'll see some more of our "brothers" —white at that—and not few in number, who are in sore need of work. When have we ever seen such eloquent editorials and such long-winded articles on behalf of the unemployed Canadian citizens? never! It would seem that the industrial conditions of the country should be the first consideration of the Government when a question of this nature arises.—Squamish Standard.

Home—The golden setting in which the brighest jewel is "mother."

Where you are treated best and grumble most.

The place where the great are sometimes small and the small often great.

Water Notice

Application for a Licence to take and use and to store or pen back Water will be made under the "Water Act" of British Columbia, as follows:—

1. The name of the applicant is Murdoch Young Ross
2. The address of the applicant is Riske creek, Chilcoten
3. The name of the stream is N. Fork Riske creek
4. The water is to be diverted from the stream on the west side. about five miles above the confluence of the N. and S. Forks of Riske creek.
5. The purpose for which the water is to be used is Irrigation
6. The land on which the water is to be used is described as follows;—Lots 279 and 280 (G. 1.) Cariboo district
7. The quantity of water applied for is as follows—sixty acre feet
8. The quantity of water to be stored is sixty-acre feet
9. The reservoir site is located about one mile up stream from south line of Sec, 20, Tp. 53
10. This notiec was posted on the ground on the 16th day of May, 1914
11. A copy of this notice and an application pursuant thereto and to the requirements of the "water act" will be filed in the office of the water Recorder at Clinton. Objections may be filed with the said water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

31 Murdoch Young Ross, applicant

WATER NOTICE

Application for a Licence to take and use water will be made under the "water Act" of British Columbia as follows:

I. The name of the applicant is J. Z. Lajoie Company Limited

2. The address of the applicant is Lajoie Falls, B.C.

3. The name of the river is Bridge river. The river has its source on crown land, flows in a east southerly direction, and empties in the Fraser river

4. The water is to be diverted on two places, one above Zotique Falls and the other one above Lajoie Falls on the north side of Bridge river

5. The land on both sides of Bridge river is owned by J. Z. Lajoie Company Limited of Lajoie Falls, B.C.

6. The purpose for which the water will be used is commercial

7. The power which the water is to be used is described as follows: General powers, purposes for sale, barter, exchange, mining, etc.

8. The situation of each reservoir site is above Zotique Falls for one and is above Lajoie Falls for the other.

9. A general construction, unit dams, ditches, flums, pipes, or other conduits

10. The quantity of water applied for is as follows; Twenty-five billion acre-feet per annum for Zotique Falls and twenty-five billion acre-feet per annum for Lajoie Falls

11. This notice was posted on the ground on the 25th day of April, 1914

12. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the water Recorder at Clinton. Objections may be filed with said water Recorder or with Comptroller of water right, Parliament Building, Victoria, B.C.

WATER NOTICE

For a License to take and use Water

NOTICE IS HEREBY GIVEN that THE PACIFIC GREAT EASTERN Railway Company of Victoria, B.C. will apply for a license to take and use 0.150 cubic feet per second of water out of a spring located near the Government road, and the water from which flows in a North Easterly direction, through D.L. 18, District of Lillooet, and empties into an irrigation ditch flowing in a Westerly direction to the Fraser river. The water will be diverted at the spring head and will be used for railway purposes on the land described as the right of way of the PACIFIC GREAT EASTERN RAILWAY COMPANY.

This notice was posted on the ground on the 18th day of May, 1914. The application will be filed in the office of the Water Recorder at Clinton, B.C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

CONTRACTOR & BUILDER

LILLOOET, B. C.,

Water Act, 1914.

Before the Board of Investigation

In the matter of all streams flowing from the east into the Fraser River between the northern boundary of the Railway Belt and the mouth of Pavilion River including the Pavilion River and tributary streams.

All streams flowing from the west into the Fraser River between the northern boundary of the Railway Belt and the mouth of Seaton Creek, Cayuse Creek, Cayoosh Creek and Seaton Creek excluding Seaton Lake and its tributaries.

A meeting of the Board of Investigation will be held at Lillooet on the 14th day of July, 1914, at 10 o'clock in the forenoon, when all claims to water rights or privileges on the said streams which have been filed, all objections thereto, and the plans prepared for the use of the Board will be open for inspection.

All persons interested are entitled to examine these, and to file objections thereto in writing if they deem fit.

At this meeting claimants who have not previously done so shall prove their title to lands to which their water records are appurtenant. This may be done by producing, in case of Crown-granted lands, the title deeds, or a certificate of encumbrance; or in case of lands not held under Crown grant, by producing the pre-emption record, the agreement of sale, the mining record, or other documents of title.

Objections will be heard forthwith if the party objected to has received sufficient notice of the objection.

The Board at the said meeting will determine the quantity of water which may be used under each record, the further works which are necessary for such use, and will set dates for the filing of plans of such works, and for the commencement and completion of such works.

And whereas there may be persons who, before the first June, 1912, were entitled to water rights on any of the said streams and yet not have filed statements of their claims with the Board of Investigation; such persons are required to file on or before the 9th day of July, 1914, a statement as required by section 294 of the "Water Act, 1914. Forms (No. 50 for irrigation, and No. 51 for other purposes) May be obtained from any Government Agent in the Province.

Dated at Victoria, B.C., the 1st day June, 1914.

For the Board of Investigation.

J. F. ARMSTRONG,
Chairman.

The water rights maps and tabulation of records will be open for inspection at 9 o'clock in the forenoon, on the said 14th day of July, 1914, at Lillooet.

Water Notice

Application for a License to take and use and to store or pen back water, will be made under the Water Act of British Columbia, as follows:

1. The name of the applicant is Franklin Benjamin English
2. The address of the applicant is 150-mile House, Cariboo road, B.C.
3. The name of the stream is a spring. The stream has its source about 80 chains S. E. of lot 3225, flows in a westerly direction and sinks into the ground about 200 yards from the source
4. The water is to be diverted from the stream at a dam site about 220 yds. from the source
5. The purpose for which the water will be used is irrigation.
6. The land on which the water is to be used is described as follows:—Pre-emption record No. 1864
7. The quantity of water applied for is as follows:— 10 miners inches
8. The quantity of water to be stored is—100 acre feet
9. The reservoir site is located 220 yards from source of spring
8. This notice was posted on the ground on the 21st day of May, 1914.
9. A copy of this notice and an application pursuant thereto and to the requirements of the "Water Act" will be filed in the office of the Water Recorder at Clinton. Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

Will Not Work on The Sabbath Day

Revelstoke, June 11 — T. R. Cummins left yesterday for Downie Creek. In the Big Bend he has gangs surveying 302 timber limits for Pennsylvania people on which the owners are paying $35,000 annually in taxes.

No trace has yet been found of the relatives of Charles Elliott, a member of the Christie & Dawson surveying party, who was recently drowned at Downie Ck. A Mrs. Hodges of 821 Sheridan avenue, Chicago, has written to Postmaster Young asking whether the name of the dead man is Elliott or Ellicott, and it is hoped that some clue may be obtained from her.

Mr. Cummins says that the surveyors, who were reckless at first in crossing streams, are now much more careful. When they first went into the Big Bend they agreed to work on Sundays, and only rest on wet days, but since Elliott was drowned on Sunday they have decided not to work on Sundays, regarding his death as a bad omen.

Terrible Experience

Among the Liverpool survivors who reached home last week was William Clark, who has had the terrible experience of passing through two of the greatest sea tragedies known. He was fireman on the Titanic and fullfilled the same duty on the Empress of Ireland. His first thought when they struck, he said, went back to those terrible scenes on the Titanic. It was his first voyage on the Empress and of course on the Titanic, which was her maiden trip. He added: "There is a sort of superstition among sailors and I believe it applies on land as well, that the third time is fatal, but that does not worry me. I'm going back to Liverpool to find a job on another steamer."

Clark said that he saw none of the crew neglecting their duty or who was not trying to save others immediately the great plumge came.—News.

Wireless Waves are Used to Locate Ore

Germany, June 9.—The society for investigating the Internal structure of the earth yesterday declared it has discovered by wireless telegraphy subterranean springs and ore deposits. It states that it also has ascertained their depth by the use of electical waves applied according to the method invented by Prof. Leimbach of this city.

Prof Leimbach on March 23, 1911, used wireless telegraphy for underground communication between the Potash mines in the northern Harz Mountains when he sent messages a distance of nearly a mile and a half at a level of 1000 feet below the surface.
