GENERAL FLOAT

There are 30 hotels in Edmonton, and 428 real estate offices.

In nine months this year 165 building permits were issued in Vernon.

There promises to be a shortage of supplies west of Fort George this winter.

A fire which started Wednesday in Canton, China, is still raging unchecked and thousands of persons have been made homeless and the property loss will reach a vast total.

The Dominion Royal Commission have received deputations advocating an empire trade mark. If the proposed trade marks were instituted, it would mean that the province producing such article would get credit for it.

To carry on its costly war the Greek government has decided to authorize a million dollar loan among the Greek residents of Canada and the United States. The bonds are of a five dollar denomination and are to run ten years without interest.

Bad Roads

Something should be done to overcome the difficulty that freighters and automobile men are having on the Lytton-Lillooet road. The road is in very bad condition on the Lytton end and a great amount of trouble has been experienced during the past two weeks.

Build Residences

This week J. A. and Austin Welch started a force of men at work building their residences at the construction camps. J. A. Welch will have his place at Anderson Lake and Austin Welch will have his about mid-way up Seaton Lake. They expect to have them completed in about a week's time.

Improving Hotel

Several Improvements have been made to the Excelsior hotel during the last week. Everything is being put in readiness for the comfort of their guests during the winter.

Back From North

Mr. T. P. Reed returned last Friday night via stage from Ashcroft. He has been through the northern country for the last six months and is greatly impressed with it. He will remain here this winter.

FRIDAY, NOVEMBER 15, 1912

The saloonkeeper always has plenty of fall goods on hand.

Probably there is method in a lazy man's madness. He may not care to take chances of injuring his health by working between meals.

This week's Prospector is the first issue of its second year. Our first year has been a prosperous one and we have to thank all who stood by us during that time. We again rely on your help and co-operation in making this journal an effective and popular spokesman for Lillooet and the district of which we are all so proud, The Prospector, as you know, lives to "boost," but to "boost" only on facts. Let us boost all we can for Lillooet, and we ask the support of all in doing so. You can help if you will and it means so little to you. Just as no paper can live without advertisements, so no advertisements can last without subscribers. It is to their readers, therefore, that every paper looks ultimately for financial, as well as moral support. Are you a subscriber? If not, drop us a line, enclosing two dollars, and we will send you "The Prospector" post free for a year. But don't let your support stop there. If you wish to serve your town and district give it a "boost" to your friends. Get them to subscribe. Or send us one of your friend's names and addresses, and we will send each of them sample copies of "The Prospector" wherever they live (yea, even unto the North Pole), so long as it's a place with a "post."

To our advertisers we have too live a sense of gratitude for the splendid support already accorded to ask for much more from them. But we want to be able to give more to them, and for that reason we ask their aid.

Racing In B. C.

Application will be made to parliament at the coming session for an act incorporating the Canadian Western Racing Association with power to conduct horse races, athletic contests, entertainments and exhibitions throughout Canada but more particularly in Saskatchewan, Alberta and British Columbia. The company will seek power to "conduct bookmaking, pool selling, betting and wagering upon the race courses or other grounds of the association during the actual progress of any or all the race meetings conducted."

Canadian Finances

The Dominion financial statement for the month of October shows that Canada's prosperity continues unabated. The consolidated revenue for the month aggregates $14,758,946, an increase of over two millions over October last year. For the first seven months of the fiscal year the aggregate revenue was $96,137,597 against $76,291,178, a similar increase of twenty millions. The revenue for the year will eclipse all records, and promises to reach $160,000,000. During October the net debt was decreased by $4,022,000.

Preserving Ties

Canada is now using thirteen and a half million railway ties each year. Seventy five per cent. of this number of ties goes to replace old ties on railways, for some years in operation, and only 25 per cent. goes into new roads. It is encouraging that some of the larger railways are preserving their ties in all future construction. The railways and the government should get together on this subject in a legislative way, as the preservation of ties seems to be a matter of mutual benefit.

Earn Millions

It will perhaps surprise many people to know that the earnings of the Indians of the Dominion aggregate over five million dollars. The pursuit of agriculture leads the list with a total of $1,884,347 to its credit. Then the red men receive $1,616,059 in wages paid by white employers.
