A Specialist Discusses Poultry Raising.

The following is a synopsis of an address by Mrs, Ida Tilson, of West Salem, Wis., who has been conducting a series of poultry institute meetings in Nova Scotia:

We may build a dry, sunny, warm hen house. feed well-balanced rations, and be kind, faithful masters, yet defeat ourselves in poultry culture by allowing nasty parasites on and around them.

There are about nine kinds of lice and four kinds of mites infesting poultry. Some of the lice, notably the large, grey head louse, are blood-suckers, but most of them are filth feeders. The pests differ in size, color and shape, but remedial measures do not differ so much.

A few general directions are:

Remove manure daily if possible, and scrape the perches. Provide a mellow dust box free from lumps, in which the fowl may clean themselves. Keep it it in a sunny place and stir and renew it often. Sifted coal ashes under the beak. wings and vent will help to rid the birds of lice.

It is necessry, for thorough cleaning to have movcable nests and perches.

Wide perches prevent crooked breast bones and are a necessity for large fowl.

Premier Prior's Policy

Premier Prior and the Provincial Secretary arrived in Vancouver in the beginning of the week. It is stated that they intend visiting Ottawa to consult with the Federal government.

Among the important points to be taken up will be the Mongolian and the Fisheries questions. The Government of this Province is convinced, the premier stated, that traps are necessary to the success of the fishing industry in Canadian waters. He would approve of a more liberal policy to encourage the salmon canners in competition with the United States on Puget Sound. The Natal act is to be re-enacted. As is well known, the educational test is applicable to chinese as well as Japanese. Premier Prior says Japanese are to be excluded as far as it is in his power to do so. The Government has promised economy in the administration of the revenues and is determined to replenish the treasury by collecting all taxes in arrears. The railway policy is to be very liberal. Assistance is promised to all roads that help materially in developing the resources of the country. The premier strongly favors in general terms a rail way from Vancouver to the north, and intimates that such would have the assistance of the Government.

The news has reached Mr. Jos. Dickey of the death of one of his sons at Vernon.

Ross Wins In By-Elections.

The Liberals under Premier Ross carried all three seats in the Ontario by-elections last Wednesday. The results are:

North Norfolk—Little (Liberal) defeated Snider (Conservative) by 55.

North Perth—Brown (Liberal) defeated Monteith (Conservative by 172, with two polls missing.

North Grey—McLay (Liberal) defeated Boyd (Conservative) by 236 with one poll missing.

A Chance For Temperance.

Belated returns from outlying districts indicate that the total vote cast on Dec, 4th is coming very near the required 212,000 votes to put the Liquor Act into force. The returns received last are from East Victoria and swell the Temperance vote to over 200,000. There are yet three Ridings from which no returns have been received, namely, Fort William and Lake of the Woods, Grenville and North Nipissing.

With Premier Ross in the ascendancy the belief is that the open bar and the treating system must go.

Gothenburg System

It is said that the Manitoba Government intends introducing legislation at the approaching session of the Legislature, providing for the adoption of the Gothenburg liquor system, as a compromise for the Temperance people. Principal Patrick, of Manitoba College, a friend of the Attorney General strongly urges its adoption, and his sayings are inspired by the Government.

Fatal Accident at Clinton.

A very sad accident occurred at Clinton last Wednesday night. While coasting, young Fred Soues, only son of Mr. F. Soues, Government agent, was so severely injured that he died at two o'clock yesterday morning. Young Soues was a promising youth of about 14 years. Mr. and Mrs. Soues will have the heart-felt sympathy of the whole community in their sad bereavement.

Sir Wilfred's Health.

Sir Wilfred Laurier is now as strong mentally and physically as he was five years ago, says Arthur Dansereau, editor of La Presse, Montreal, who has returned from a visit to the Premier in Florida.

Principal McCabe's Will Disputed

Joseph McCabe, son of late Principal McCabe, of Ottawa, is contesting his father's will. Dr. McCabe married two weeks before his death and made over all his life insurance to his young bride.

Castro Defeated.

According to despatches, a severe battle took place last Saturday night, within three miles of the city of Caracas, resulting favorably for the revolutionistts. They are cutting all the telegraph lines. and are hourly expected in the neighborhood of the city. It is no longer a secret that the allies are assisting the revolutionists.

A Surprise.

The election for Mayor of Toronto has resulted in a great surprise. It was generally conceded that the fight lay between the candidate who had the support of the Conservatives and the Liberal nominee. Mr. Urquart, the Temperance candidate, who, it is said, had not the support of a single dailo paper, was the choice of the people.

Brief Despatches.

The Bank of Montreal has increased its capitalization by $2,000,000.

Russia's efforts to secure control of the Manchuria Customs are being blocked by Great Britain and Japan.

A detachment of 100 Boers who have volunteered for military service in Somaliland sails from Cape Town next week.

What They Say

The visit of Messrs Teeple and Gethman to Lillooet has renewed confidence in the report that this year will see a stir in mining operations in this section. Mr. Teeple has, of course, most to say about the preparations that are being made for building the monster dredge on the Iowa-Lillooet Company's property. He remarks that he has spent months in examining the Fraser gravels and is fully convinced that no better opportunity exists than that offered by the Lillooet gravels for extensive and profitable dredge work.

Familiarity with the conditions that prevail only tends to intensify the conviction that things on the Company's property are exceptionally favorable. For some miles above the claim the river flows throuh a narrow, rock-walled gorge, and heavy material is swept on to points below the Lillooet bridge, where the channel widens out and the current is comparatively slow. Here, the long stretch of wide channel, the comparative absence of rocks, and the extensive acreage of low bars, present a picture that "fills the eye" of the gold-seeker.

The Ballot-Box

The cry of corruption, bribery and personation comes simultaneously from Montreal, Toronto and North Victoria. Mr. Joseph Brunet, of the St. James division of Montreal, has been unseated and disqualified for seven years. A fine of $50 each has been imposed on personators hired by liquor men to falsify the recent referendum vote in Ontario, and now charges are made that personators gave Paterson the majority in North Victoria. This has not been proved, but we hope that, if the charge is proved, something more than a mere fine will be meted out to the offenders. To insinuate, as some of our exchanges do, that both parties use these methods, does not lessen the guilt nor the necessity for drastic measures against offenders. To play tricks with the ballot-box is the highest treason against our free institutions and should be treated as such.

Where there is no excess all things are cheap. Where there has been little waste there is little want.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler
Rabbi of the Cong. Bnai Israel.
New York, Jan. 3, 1901.

DRS. TAFT BROS.' MEDICINE CO.,

Gentlemen: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,

REV. DR. MORRIS WECHSLER.

AVON SPRINGS, N. Y. Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO.

Gentlemen: write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as that of many others, I chanced to see your sign upon your windows on 130 street, New York. I at once obtained a bottle of asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radica improvement. After using one bottle her asthma had disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO., Feb. 5, 1901.

Gentlemen: I was troubled with Asthma or 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

Correspondence

The following extracts from a letter received from an old fellow-townsman, J.H.S. Bottom, may prove interesting to many of our readers. It will be remembered that our friend recently left town on his faithful but feeble cayuse bound for Seattle. Ed.)

—Letter No. 1.—

Continued from last week.

I have never forgotten the Vicar of Wakefield you used to read to me, and at trading I could give little Moses pointers, I can assure you.

The mare surpassed my expectations and proved to be the very best of packhorses. It took us four days from this place to reach Princeton, which was gained before our supplies gave out. Had not the grouse been fairly plentiful it would have gone hard with us.

Princeton is a somewhat small and quiet town, with one street running direct between the Similkameen and Tulameen rivers. At each end of the street there is a bridge over each river. There is a coal mine being worked on the Similkameen. I visited the mine and from the appearance of the coal I should say it is of good quality.

At this point my companion decided to seek all the information obtainable as to the route we would have to take to find Slate River, Washington territory, and he asked me, as a favor not to make any inquiries, as we might confuse each other, but he assured me that once we were on the summit of the Cascades all our troubles would be over as he was quite at home there. I devoutly hoped he would be, but I wondered what his idea of home meant. However I carried out his wishes, and made no inquiry which I much regretted afterward. My companion was, apparently, quite satisfied with the information he had obtained and recklessly invested two dollars and twenty-five cents in grub which, he assured me, would be quite sufficient for our needs as we be at home in a few days. We started on the left bank of the Similkameen river on the Roach river trail which we reached in two days. At Roach river my companion produced his map and written instructions. His map was the funniest thing I ever did see, beat yours hollow, and his instructions took the cake for ambignity. We deciphered them as follows: Follow Similkameen until you reach Roach river, cross this river until you strike the proper head of the Similkameen and this will bring you to the summit of the cascades and in the vicinity of Slate Creek.

No information was given as to how we were to distinguish Roach river from Friday Creek, or Similkameen or Tysaton rivers.

Lillooet District
is
Attracting Attention
on account of

1. Its Fraser River Placers.

As far back as the year 1858, successful placer mining was carried on at Horse Beef bar, near the town of Lillooet. The adjoining ground is being worked with profit at the present time.

A company is now working a gold dredger on the Fraser, with gratifying success, and a new company has been formed with a capital of $350,000, to operate an improved dredge near the town of LILLOOET.

2. Its Promising Mineral Lands.

ANDERSON LAKE and BRIDGE RIVER mining properties will prove themselves sufficient to form a prosperous camp. Yet there are miles of territory that remain unprospected.

3. Its Fishing and Hunting Grounds.

Increasing numbers of tourists from all parts of the globe testify that the sportsman's Paradise is here. Mountain sheep, bear, deer, and all kinds of large and small game abound. Anglers find the lusty trout where least expected, and fresh salmon cease to be a luxury.

4. Its Salubrious Climate.

In the dry belt, and at an altitude that renders the seasons temperate and equable, the climate is most suitable for health-seekers. Semi-tropical fruit may be grown, and at the present time, November, rosebushes and geranium plants may be seen in bloom in the gardens of the town

Nearest Railway towns are ASHCROFT and LYTTON, on the CANADIAN PACIFIC RAILWAY.

To Recognize Purity.

Adulteration has grown to such a fine art, that it is almost impossible for a woman now-a-days to detect the false from the true; but a chemical analysis will always detect adulteration. Prof. W.
