THE PROSPECTOR

VOL. 3, NO. 45 LILLOOET, B. C., FRIDAY, SEPTEMBER 4, 1914. $2 PER YEAR

VICTORIA B.C. SEP 8 1914 LEGISLATIVE LIB.

Annual Report of Lillooet Mining Division

(Report of Minister of Mines)

The new work no the Pioneer claim is made up of a cross-cut 300 feet in length, the portal being located at a point about 400 feet to the east of the west line of the Pioneer claim. This cross-cut is expected to cut into No. 1 vein at about 100 feet farther in, where there would be about 100 feet of backs. Additional drifting has also been done on both the veins crosscuts in the original adit; on No. 1 vein the drift to the west has been extended from 30 to 35 feet, and the drift to the east from 10 to 21 feet. On the No. 2 vein the drift to the west has been extended from 20 to 160 feet; this work has resulted so satisfactorily that, at a point 70 feet in, or 50 feet beyond the face of that drift at the time of Mr. Robertson's visit, the width of the quartz-vein matter had increased from 2 to about 12 feet, which width continued for about 30 feet, when it gradually decreased to 3 feet in the face, some 60 feet farther to the west. At the point where the increased width began, it appeared as though another vein had formed a junction with that which the drift had been run on from the crosscut, and manager thought that the two known veins encountered in the crosscut had united; but if such had happened it would have been necessary for the No. 1 vein exposed in the crosscut to have changed its line of strike from nearly east and west to north-west, thus making a turn of almost 45 degrees between the present face of that vein in the west drift and the point on No. 2 vein in the drift where the increased width was first noticed. This may have occurred, but is hardly probable, when the conditions as to regularity and continuity of lines of strike throughout the camp are considered, so I should rather favor the theory that a third vein

continued on page two

The Vauconver Exhibinion is now in full swing.

Shot Through Legs

A shooting affray has occured on the Lillooet-Ashcroft road in the vicinity of 18 mile ranch. It appears that an Italian and an Indian woman had been living together for about a year, when trouble arose over another man, which resulted in the woman being turned out and the supposed alienator getting a hiding. This occurred about a month ago, the woman is now supposed to have taken a pot shot at the Italian, with a 30-30 rifle, while he was mounting a horse. The bullet passed through both his legs, he is now in the hospital. The case is expected to come up sometime next week.

War Gleanings

The common cry of the street boys in London is "Who said German Fleet."

Queen Elizabeth of Belgium, with her children, has arrived in England.

According to the La Presse of Montreal, the Crown Prince of Germany is dead. The advice was received from Berlin under date of August 24.

London, Sept 3 — The official press bureau has issued the following statement—

"Continuous fighting has been in progress all along almost the whole line of battle. The British cavalry engaged the enemy and brushed them back and captured ten guns.

"The French army has continued the offensive and gained ground in the Lorraine district. In other reigons of the war the Russian army is investing Konigsberg. The Russian victory, which is complete at Lemberg, has already been announced."

Mr. Graham-White, has been appointed a temporary flight commander in the British navy. Mr. R. T. Gates, who recently resigned from the Royal Aero Club, has been appointed a temporary flight lieutenant.

The official casualties suffered by the Cavalry Brigad and of the three divisions, less one brigade of the British force in France follow—
Killed, 36 officers and 127 men.
Wounded, 57 officers and 629 men
Missing, 188 officers and 4939 men

This report was received in London from the headquarters of the expeditionary force in France

The "Liverpool Courier" says that Germany is preparing an active campaign in Canada in an endeavor to bring about a revulsion of the present feeling.

The "Courier" asserts that the Canadian Government recently discovered that information of British preparations was being sent by German secret agents in Canada.

From all reports the enemy has not succeeded in forcing a way through the circle which seems to be drawing closer and closer.

The Times correspondent also states that—Amid all the welter of war the British troops produced the great quality of efficicency. The spirit of Kitchener apparently pervades the whole expeditionary force. The transport and commissariat are all excellent and they have withstood the slaughtering tacticts of the German general staff with wonderful equanimity.

Toronto.—Word has been received here by cable of the first Canadian killed in action in the European war, Cap. B. Denison, son of Admiral John Denison of Toronto. Cap. Denison was serving, it is understood, with the Yorkshire Infantry.

Church Services

Methodist church : Morning (Sunday School) at 11. There will be the usual evening service at 7.30, Rev. R. D. Hall, pastor, will officiate.
A hearty invitation is extended to all.

GRATITUDE

Lillooet, B.C., Sept. 3.

In this hour of my deepest sorrow, the kindness shown to me by the many friends of my late husband, so lately laid to rest, has been like a ray of sunshine piercing the gloom.

To those who lent their aid at the scene of the accident, and at the hospital in the attempt to save my husband's life; to all those who, since his death, have been ready and willing to do so much by word and deed to help; to the many who expressed their sympathy by following with me the body to its last resting place; I desire to express my gratefulness.

JESSIE DUNN.

Mother's Pride and—Sorrow

Perhaps no other place in the British overseas dominions can boast of contributing from one home a similar number of brave young men to take up arms in defence of the Motherland as in the quiet little hamlet of Frog Marsh, Newfoundland, C.B.

Here in this unheard of section dwells an old lady and seven sons When a short time ago the call went out for men to do or die for England's cause it reached the little hamlet and penetrated the quiet home of Mrs. William Flynn in Frog Marsh. Instantly seven brothers, sons of the patriotic old Irish lady, responded to the call and are today on one of the battleships ready to combat with the enemy.

Identical with the above is the case of Mrs. Coffard of Penge, England, whose seven sons are at present serving under the colors. Both ladies are widows and getting on in years. May they return to add further cheer to their devoted mothers.

The "Times" correspondent at Dieppe, France has telegraphed his paper as follows—

"In the main theatre of the war, the German advance appears to continue without slacking its pace. It must be indeed an over-wearied army that they are bringing towards the forts of Paris. They have made an effort which nearly deserves to be called superhuman. Nothing like it ever before was seen in war. —Province.

London Sept 3— A dispatch to the Reuter Telegraph Company from Tokyo, via Petersgrade (St. Petersburg), says that the Japanese have occupied seven islands situated near Kiao Chow.

The Japanese, according to the despatch, have swept up more than 1000 mines which have been scattered by the Germans in the waters adjoining the stronghold.

Fire at Fountain Creek

A forest fire was reported by Mr. Reel of Fountain Creek to the Forestry Branch on Tuesday morning.

Ditrict Forester LaMare went immediately to the scene and with the help of some of the ranchers in the valley soon had the fire under control. Indians are said to have been the cause of the fire. Ranger Burkholder is now in charge.

General News of Lillooet District

Work on the Government Barn and implement sheds is progressing favorably these days.

A. E. Griffin of Griffin and Welch, contractors, passed thru town en route for the coast.

Mrs. Carrie Hall returned to the coast after spending three months among her many friends here.

We hear that a wedding took place near Seton lake this week, but up till going to press we were unable to get full details.

The contractors on the Pacific Great Eastern construction are laying off the majority of day men.

House cleaning and decorating is in full swing over-the-way, and the house will, in the near future, be occupied by Mr. and Mrs. George Prosser.

Mr. G. A. Goss of Waterbury, and Mr. H. James of New York, hunters, left for the hills this week. Wm. G. Manson is their guide.

If you are bothered with headaches, squint or cross-eye, or if the glasses you now wear are unsatisfactory, consult with Dr. Hirschberg. See notice on page four.

Quite a number of the local sports left for the hills on the First, but up to going to press we have not heard of the game having suffered very much—Perhaps game is still high.

Mrs. Asselstine, wife of Dr. Asselstine, resident doctor of the Lillooet Hospital, left this week for Vancouver, her father, Sam Penny having passed away on Monday night. Mrs. Asselstine has the sincere sympathy of her friends in her bereavement.

Mr. and Mrs. E. B. Madell, who have been visiting Mr. W. J, Abercrombie, at the Excelsior Hotel for the past two weeks, left for the States, Tuesday. Mr. Madell is a very enthuiastic angler, he reports having made some fine catches and some real good sport.

The track laying gang on the Pacific Great Eastern Railway are getting closer and closer every day. They are now about 35 miles out of Squamish, and, although there are some bad cuts to bridge or fill in, unless something unforseen happens, the rails should be laid to Lillooet by late fall or early spring.

The court house was crowded last Saturday, the occasion of the trial of Max Lamey, auto driver, for the unlawful killing of Mr. Charles Dunn. The action arose from the result of an auto accident on the Lillooet-Seton lake road. Practically no further evidence was obtained than that at the enquiry last week. The case was remanded for a week. Chief Constable Aikin acted as Crown Prosecutor and Mr. S. Henderson of Ashcroft for Defendant.

Moha Rain Chart

Correct reading actual rainfall for the month ending July 31st, 1914—0.14 inches.

from page one

had crossed the No. 2 vein, and I think that drifting will demonstrate such to be the case. The backs above the two veins crosscut in the adit are about 60 feet, and, after this ore is stoped, sinking must be done to develop more ore as at this point the portal of the adit is on the bank of the creek and only about four feet above high-water mark.

A sample taken across 3 feet at the face of the west drift on No. 2 vein, representing about an average of the ore, assayed: Gold, $16; silver, 1 oz. a ton.

The old arrastra and waterwheel described by Mr. Robertson are still on the ground, but have been allowed to go to ruin.

COUNTLESS

On August 17th I examined the Countless mineral claim. This adjoins the Little Joe claim on the east, and was acquired by the Coronation Mining Company about the end of 1910. The old workings, described by the Provincial Mineralogist in his report for 1910, have caved in, but about a year ago the Coronation Mining Company drove a crosscut adit about 500 feet in length and having 210 feet depth of backs at the face; for the first 100 feet this adit was driven through surface sand and gravel, requiring close timbering, which was very well done, but beyond that no timbering was necessary. After passing through the surface work about 360 feet of the diorite country-rock was crosscut, when a quartz vein 3 feet in width was cut, with a strike nearly east and west and dipping 60 degrees to the north. Beyond this, after driving through 35 feet of country rock, to within a foot of the face, a second vein of white quartz, 10 inches wide, with ribbon structure, was exposed; its strike is nearly east and west and dip 65 degrees to the north. This second vein looks very similar to the Little Joe vein.

The first vein, where it was crosscut, was somewhat broken up and mixed with country-rock. No drifting has been done on either of these veins, but I am informed by the president of the company that they will be thoroughly prospected and developed during the coming winter, so that ore may be milled from this claim next season.

NOTICE

IN the Matter of the Estate of David Coughlan late of the town of Lillooet, deceased.

Take notice that Probate of the Will of David Coughlan deceased has been issued to the undersigned.

And further take notice that all persons having any claims against said estate are required to send full particulars thereof duly verified to the undersigned on or before the 29th day of September 1914 and all persons indebted to the said estate are required to pay the amount of their indebtedness forthwith.

After the said 29th day of September 1914 I shall proceed to distribute the estate of the said deceased among the persons entitled thereto, having regard only to the claims of which I shall then have had notice and I shall not be liable for the said assets or any part thereof to any person of whose claim I shall not then have received notice.

Dated this 19th day of August 1914, at Lillooet, B.C.

JOHN DUNLOP,
Executor, David Coughlin estate.

NOTICE

Dissolution of Partnership

Notice is hereby given that the partnership hitherto existing between J. H. Kriege and C. B. Clear as the Lillooet Motor Car Company has this day been dissolved by mutual consent.

The business will be carried on as the Lillooet Motor Car Company by J. H. Kriege who will pay all indebtedness owing by the late firm and will receive all monies due to the late firn.

As witness our hands and seals at Lillooet this 18th day of August, A.D. 1914.

J. H. KRIEGE
C. B. CLEAR

Signed sealed and delivered in the presence of Samuel Gibbs, Notary Public.

WATER NOTICE

STORAGE

Take notice that Nairn Falls Power Company, Limited, whose address is 811 Rogers Building, Vancouver, will apply for a licence for the storage of 100,000 acre feet of water out of Soo River which flows Westerly and drains into Green River, about half mile South of Southern boundary of Lillooet Land Recording District. The storage-dam will be located at a point on the Soo River. The capacity of the reservoir to be created is about 100,000 acre feet, and it will flood about 3,000 acres of land. The water will be used for Power purpose upon the land described as D.L. 552, Group 1, Lillooet District. The licence applied for is to spplement a right to take and use water as per Water Record No. 123, Lillooet, dated 9th January, 1907.

This notice was posted on the ground on the 10th day of August, 1914

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914" will be filed in the office of the Water Recorder at New Westminster. Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

The territory within which its powers is respect of the undertaking are to be exercised extends from Lillooet to Vancouver via Pemberton Meadows.
