

THE PROSPECTOR.

VOL. 2, NO. 24

LILLOOET, B. C., FRIDAY, APRIL 25, 1913.

\$2 PER YEAR

BRIDGE RIVER MINING.

Pioneer Best Claim on the Hill, Says 'Billy' Leach.

BIG MONEY AT CORONATION MINE.

Encouraging Results Attend Progress of Recent Development.

"I wouldn't give it for any claim on the hill," said "Billy" Leach to The Prospector, discussing the Pioneer mine. Mr. Leach has for some time been working "contract" at the mine, and is enthusiastic regarding the showing which is being made.

One tunnel has been driven 312 feet, and a second is into the rock a distance of 300 feet. Twelve feet of ore is in sight, according to Mr. Leach, all of it containing high values in gold.

Similar success is being experienced on the workings at the Coronation group. At the Countess a two and a half foot lead has been struck in very rich ore. The Little Joe is working at the present on an eighteen inch to two foot lead, upon ore in which gold can be seen all through.

Water has been turned on the recently-acquired Blackbird, and this promising claim is being ground-sluiced in an effort to pick up the lead there.

Under the direction of Supt. Copp work is being steadily pushed on all the claims in the group, and big developments are expected this year. With plenty of capital behind the venture, and with full confidence of operators on the mining exchanges, Coronation should this year do much toward advertising the rich gold wealth of Bridge river.

To the consummation of this end the operation of the ten stamp mill this summer will contribute. As announced last week in The Prospector, arrangements have been made for the services of a competent foreman to put the mill in shape and superintend its operations.

Martley Home Endangered by Fire Early Tuesday Morning.

Fire seriously endangered the Martley premises at the west end of town early Tuesday morning. Only by the strenuous efforts of neighbors was the fire prevented from destroying all the buildings on the place.

Fires burning in connection with spring cleaning spread to a wood pile close to the house. This was well ablaze when the reflection from the flames awoke Mrs. Haylemore at three o'clock. Hurriedly dressing, Wm. Haylemore secured the assistance of Donald Manson and Arthur Martley. These fought the flames until nine o'clock and succeeded in saving house, barn and outbuildings, only loss being six cords of wood.

PROVISIONS OF THE NEW GAME ACT.

Exemptions for Prospectors and Farmers.

Have you taken out your gun license? If not get busy, for deputy game warden J. Russell will from this date enforce the provisions of the new Act. This came into force April 1st, but has not been enforced owing to delay in securing licence forms from the King's Printer.

According to instructions from the provincial game warden the Act applies to unorganised, as well as organized, districts throughout the province. The only men having exemptions being Indians, farmers and prospectors. Farmers may secure permits to hunt on their own land without payment of a fee. They may also hunt deer all the year round, if in need of meat. In applying for permit farmers must give the acreage and description of their land. The permit only grants permission to shoot over their own land.

Prospectors are also entitled to a licence free of charge and are exempt from restrictions when in need of fresh meat. Whereas the farmer is restricted to deer, out of season, all game is fair prey to the prospector when actually engaged in his work.

Licences can be obtained from deputy game warden J. Russell, or government agent Caspar Phair. No licence

will be issued to boys under 16 years of age, unless at the request of a parent or guardian, who must undertake responsibility.

Use of pump or repeating shot guns is prohibited. No repeating shot gun may have a magazine capable of holding more than one cartridge. It should be noted that this provision applies only to shot guns and not to rifles.

In a communication received by Mr. Russell from the provincial game warden, the latter says: "The free farmer's licence and the ordinary farmer's licence do not in any way alter the old Act. The same applies to the free licences for prospectors. The Act stands exactly as it did before, except that it is now necessary for them to have a licence.

Ordinary Licence, \$2.50—This licence only permits the holder to hunt birds and deer (but not moose, wapiti, and caribou).

General Licence, \$5.00—This licence permits the holder to hunt birds and all big game.

Special Licence, \$10.00—This licence will permit the holder to hunt birds, all big game, and also to trap.

Guide Licence, \$5.00—This licence only allows the holder to act as a guide.

Ashcroft Deprived of Light and Water When Dam Bursts.

Frank Engerman, of Ashcroft, was in town early this week and brought first-hand news regarding the water and light difficulties in that town. Owing to the break of the old dam, which has done duty for 17 years, Ashcroft is without both light and water. Some attempt is being made to supply the town with water from the C. P. R. mains, but owing to low pressure the service is very unsatisfactory. To repair the dam has been found impracticable, and the Ashcroft Water and Light Co. is therefore forced to commence construction of a new one. This will not be completed until four or five months. In the meantime an attempt will be made to run the dynamo by gasoline engine, in order to temporarily restore the light service.

Fred. Kinder leaves for the Britannia group, on Cadwallader creek, next week, to open the properties. Mr. Kinder is backed by eastern capital to a considerable extent.

Magistrate Saul's Decision in Liquor Case to be Appealed May 20.

William Abercrombie, proprietor of the Excelsior Hotel, and Frank Powers, bartender, have appealed the decisions of Magistrate Saul, in which each were fined \$100 for supplying more than one imperial quart of liquor to Wm. Leach on April 4.

Appeal has been granted on the ground that the defendants did not contravene the Act. Although several bottles were sold Leach, only one was supplied at each single vending.

The case will be heard in Lillooet on May 20 before the County Court. It is expected that Judge Calder will preside. Defendants will be represented by Messrs. Long & McDougall, of Vancouver.

William Abercrombie now has his butcher shop in first-class shape. New equipment has been installed, and Mr. Abercrombie now has facilities for handling about 15 carcasses daily for home consumption and construction camp supply. All beef is stalled and imported from Alberta.

LILLOOET MUSEUM.

Centre Should be Provided to Preserve Relics.

SOME INTERESTING INDIAN FINDS.

Jade Chisel, Ancient Musket and Pestle Discovered at Seton Lake.

Several interesting finds of Indian relics have been made during the past few days. On Friday last Mr. G. Ferguson turned up a fine specimen of jade chisel, about twelve inches long, inch and a half wide and half an inch thick. The instrument was in good condition, with a well-ground sharp edge. At the same time Mr. Ferguson found an old pestle. Both instruments were discovered while plowing through some teepee holes on the Cox ranch at Seton lake, adjoining an old rancherie which has long been out of occupation.

A few days previous workmen engaged on grading the P. G. E. at Seaton lake came upon an ancient Hudson Bay musket. Numerous other finds have been made at various times.

In view of the fact that conditions at Lillooet are changing, that the romance of the early pioneer days is giving place to the changed environment of modern commercialism, it would be well to preserve the old-time associations as far as can possibly be done. Splendid material is available as a nucleus for a museum. This might not only embrace Indian and other local relics, but might also contain a collection of geological and floral specimens of the district, together with preserved fruits. Last, but certainly not least, mounted specimens of the game of the district would be an imposing and valuable feature.

Provision could be made in the proposed new town hall for space in which to stage the exhibits. Not only would such a museum keep green the memory of early days and its pioneers, but it would be a valuable asset to the town from an advertising standpoint, and, if properly developed, would attract scientific visitors to the town of Lillooet.

Britannia New Schedule.

For convenience of passengers traveling on Seaton Lake, Capt. Cox has arranged to start all trips one hour earlier during the summer months. The new schedule came into effect Wednesday last. The Britannia now leaves for Mission, Short Portage and way points, at 8 a. m., returning from Short Portage at noon.

Henry Cargyle and A. Glen-cross came in from Ashcroft on Tuesday.

THE PROSPECTOR.

Published to promote the Welfare
of the Lillooet District.

ISSUED EVERY FRIDAY.

HERBERT BOOTHMAN,
Managing Editor.

APRIL 25, 1913.

BRIDGE RIVER MAIL.

"Why is it that we only get one mail a month on the Bridge river?" asks a correspondent to The Prospector, whose letter is published in this issue. Sorry we are unable to answer 'Miner's' question, which is one of pertinent importance, not only to the miners and ranchers of the Bridge river, but also to merchants of Lillooet.

That such a prosperous and famous district, with its ever-increasing settlement and development should only be served monthly by mail service is a matter of surprise, and calls for comment. Perhaps the Dominion Government has so many claims upon its revenue that it cannot afford, as Col. Lowery says, to put in a mail service and a navy at the same time. Have the claims of Bridge river been properly presented by our member at Ottawa, or has the attention of Hon. Martin Burrell been so occupied with agriculture, in the abstract, that the interests of men and their affairs have been forgotten?

Coronation and other valuable properties of the district have been so prominent in the eyes of the mining world during the past few months that it is certain a big influx of settlers to Bridge river will be seen this year. This fact adds force to the demand for improved facilities for communication with the outside world.

Co-related with the mail question is that of the telephone service. In connection with this complaints have reached us that no stations are maintained between Tyaughton and the Coronation, a distance of 22 miles. In this section, which is bridged by the wire, are a number of properties upon which development work is now being carried on. Included are the Wayside, South Fork, Marconi, and the Gun Creek ranch. Nearest telephonic communication from these is either from the Coronation or Tyaughton.

Exactly why this condition of affairs should continue is difficult to understand. The wire is already strung from here to Cadwallader creek, and as a call rate per message is charged, it would benefit the revenue of the line to install additional stations, as well as confer a very real boon on settlers.

Opening of Road.

Development of the south end of Lillooet is being retarded by reason of the delay in opening the road through the Chinese quarter. The erection of several buildings at the west end of the section is planned, but cannot be proceeded with until the cut is filled and the grade established. Apparently one cause of delay is the existence of a row of shacks across the roadway. These only consist of an unsanitary Chinese rookery. For the maintenance of good health these should be removed. In any case they should not be allowed to interfere with legitimate development. Promises in number have been given by the provincial authorities that this work should be proceeded with. The time has now arrived when action should be taken and the work proceeded with.

A Word of Thanks.

The editor expresses thanks for the many kind words of appreciation regarding the broadening of this paper's sphere of usefulness. In order that this journal may become an organ of useful service to the community the co-operation of citizens is essential. The editor must have means of sustenance and cannot live on "pi" alone. Merchants are asked to support their home paper when making their advertising appropriations, and subscribers are reminded that in many instances a cheque for \$2 is due, and that its receipt will be appreciated.

What Radium Is.

Radium is an elementary substance, just as iron and copper are elements. It is found in exceedingly minute quantities in pitchblende, a mineral which is mined in Bohemia, and has not been found in any other part of the world thus far, although many claims have been made that it has been found in other places. There is no reason why it might not be found elsewhere in quantity by one who knows the character of rocks and minerals, and who should study the locality to find if such rocks might exist in that locality. Pitchblende is a shiny black rock, which might be taken for a piece of anthracite coal at first glance. It is very much heavier and harder than coal. There is not enough energy in a piece of pitchblende to show any energy, nor would there be in a ton of the rock.

EDITOR'S MAIL BAG.

Editor Prospector:—Why is it that we only get one mail

a month at Bridge river? For four weeks at a time we are cut off from the outside world unless somebody happens to bring letters to us from town. Even then we have to wait for the monthly mail to get a newspaper several weeks old. Bridge river is an important district and many miners are now settled here. There are good trails, and there is no reason why we should not have a mail at least once a fortnight. Application has been made to the government for this, but apparently they are taking no action in the matter.

MINER.

New Wagon Road from Pemberton Meadows to Summit.

Angus Stewart is in charge of the construction of a wagon road from Pemberton Meadows south up the valley of Green river to the summit of the Coast Range to connect with the wagon road now being extended up Cheakamus valley. This work will be started at once, and the entire work is expected to be finished in two months.

STOLEN FROM THIEVES.

Solicitor: "Have you ever been to this court before, sir?"

"Witness: "Yes, sir, I have been here often."

Solicitor: "Ha, ha! Been here often, have you? Now tell the court what for."

Witness (slowly): "Well, I have been here at least half-a-dozen times trying to collect that tailor's bill you owe me."

The teacher was intent on the lesson, and continued impressively:—

"And vast swarms of flies descended on the land and came into the houses of the Egyptians and covered their clothing and tables and all their food, but (emphatically) there were no flies on the children of Israel."

A small boy from the rear of the room interrupted:—

"Please, ma'am, there ain't now, either."

A story is going the rounds about an American gentleman who put up at one of the big London hotels without first taking the precaution of asking the price of his rooms, meals, and so on. When he got his bill he was staggered at the size of it, but he was a very wealthy man and paid it without comment. As he was about to leave, however, he asked for the manager, and when that gentleman came he asked:—

"Have you any penny stamps?"

"Yes," replied the manager, a little surprised at such a request being made to him. "How many do you want, sir?"

"It depends," was the reply, "on how much you charge for them here."

"Are you playing bridge, Mrs. Brown?"

"Not this month."

"Indeed! Why not?"

"This is Mr. Brown's month to play poker."

Cancellation of Reserve.

NOTICE is hereby given that the reserve existing upon Crown lands in the Cariboo and Cassiar Districts by reason of a notice, bearing date September 12, 1907, and published in the British Columbia Gazette on September 12, 1907, as well as the reserve existing upon Crown lands within the Land Recording Districts of Cariboo and Lillooet and the Kamloops Division of Yale Land Recording District by reason of a notice, bearing date April 3, 1911, and published in the British Columbia Gazette on April 6, 1911, is cancelled in so far as the same affect the acquisition of lands under the provisions of the "Coal and Petroleum Act."

ROBT. A. RENWICK,

Deputy Minister of Lands,
Department of Lands,
Victoria, B. C., April 14, 1913.

Water Notice

For a Licence to take and use Water.

NOTICE is hereby given that Clinton H. Brigman, of Lillooet, will apply for a licence to take and use 10 miners' inches of water out of a spring which flows in an easterly direction through Lots 292 and 3096 and empties into Fraser River near Lots 292 and 3096. The water will be diverted at source and will be used for irrigation purposes on the land described as Lot 3096.

This notice was posted on the ground on the 13th day of April, 1913. The application will be filed in the office of the Water Recorder at Clinton, B. C.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Building, Victoria, B. C.

C. K. BRIGMAN,
Applicant.

By E. L. BOULTBEE, Agent.
April 15th, 1913.

Water Notice

For a Licence to take and use Water.

Notice is hereby given that C. J. Payne, of Clinton, Lillooet District, will apply for a licence to take and use 150 inches of water out of Kelly Lake Creek, which flows in a westerly direction through Cut-off Valley and empties into Fraser River, near Big Slide.

The water will be diverted at Valley Lake, and will be used for irrigation purposes on the land described as Lots 270, 271, 272, 273, 274.

This notice was posted on the ground on the 26th day of Feb., 1913. The application will be filed in the office of the Water Recorder at Clinton.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

BREAK FOR FREEDOM.

Desperadoes Make Daring Escape From Jail.

ONE IS FREE; ONE RECAPTURED.

Harry Brewer, Wanted in Kamloops for Attempted Murder, at Large.

Using a watch spring saw, a timber wrenched from a partition and a rope made from torn prison blankets, Harry Brewer and Clifford Sargent, two prisoners confined in the city jail on Railway street, made their escape at 7:30 Sunday morning only five minutes being occupied from the time the men were released for their morning wash until they were running for liberty down the railroad right-of-way.

Brewer, the more desperate of the pair, who is wanted in Kamloops for the attempted murder of Police Constable Gibbs and several alleged holdups, has not been apprehended, but Sargent was recaptured on the shore of Burrard Inlet, in Burnaby, by policeman Jelsburgh, of the Burnaby police, who surprised the pair. At this time he fired four shots at Brewer, who disappeared into the bush, and is of the opinion that he wounded the convict in the right arm.

Investigation of the means used by the prisoners disclosed the fact that the two bars in a large cross section fixed at one end of the jail had been half sawn through, and then forced by the piece of 2x4 timber, evidently wrenched from a nearby partition.

Compared with the cells in the old police station, those in the temporary jail on Railway street are quite flimsy and the conditions are much more favorable for a successful escape. It is not thought that Jailer McLean, who has been in the service for a number of years and is a trusted and efficient police officer, will be held responsible for the mens' escape, taking into consideration his many duties and the construction of this temporary jail.

After the men had once succeeded in getting through this barred partition to the windows, which were unbarred, it was a simple matter to climb over the frame and gain the tracks, from thence being but a moment's work to slip uptown.

Dentist In Town.

Why suffer with toothache or other dental troubles? For a few days an opportunity is offered to secure relief. Dr. Alward, a well-known Vancouver dentist, will be at the store under Santini's Hall during the next week, where he will be prepared to receive patients for all kinds of dental work.

C. P. R. Will Spend Many Millions in Western Canada This Year.

Announcement comes from Winnipeg that the Canadian Pacific Railway will spend \$46,000,000 in Western Canada this year. This vast sum is more than twice the amount of \$19,000,000 spent by the company last year, and it is a record amount ever devoted to construction by any one road on the continent in any one year.

The natural resources department of the road also has some huge irrigation and industrial schemes on hand which will easily raise the amount to \$50,000,000.

The main works include a tunnel through Rogers Pass, which it is estimated will cost six or eight millions, the continuations of the work of double tracking, continuation of work on terminals, yards at Trascona, Winnipeg, and Calgary and Coquitlam; the building of many large bridges such as that over the Red River at Winnipeg, the Saskatchewan at Medicine Hat, the Bow at Calgary and the Pitt in British Columbia; the additions to the depots and hotels, and Vancouver and Winnipeg.

Discoverer of Fraser River Dead Over Half a Century.

It is over a hundred years since Simon Fraser first saw the site of what is now New Westminster and viewed the Gulf of Georgia from a point adjacent to the mouth of the Fraser.

In 1807 Fraser received instructions to explore the Fraser, of which only the head waters were known to the traders, and which had not been named. Under the impression that he was following down the Columbia river the pioneer reached the end of the stream which now bears his name and which is now overlooked by his monument at Westminster, and those who have seen the Fraser canyons can realise to some extent the courage and hardihood of the explorer.

Service Sunday.

Farewell services will be held in the Methodist Church next Sunday, as follows: In the morning at 11 o'clock, and evening at 7:30. Rev. H. W. W. Bromwich will preach.

Business Openings.

There are good business openings in Lillooet for a smart lawyer, a watchmaker, and a tailor who can undertake repairs and pressing.

"Billy" Leach passed through town on Tuesday, on his way from Cadwallader to the coast, where he intends spending a vacation.

Scotch Lassies to Replace Japanese at Fraser River Cannery.

The employment of Scottish girls in a fish cannery on the Fraser river is the innovation planned for this year by Capt. H. M. Fleming, manager for the Canadian Canning Co. He is bringing out twenty-five girls from Scotland who are experienced in the fish-canning business, and will employ them in the company's cannery at Steveston. He will also employ nine young Scotsmen, who are already here, to fish on the Fraser during the big run of salmon. This is an experiment on this coast in replacing Chinese with white labor. Quarters will be established for the white employees on the cannery premises along the lines of those in the old country. Another innovation in this cannery this year is a machine to manufacture the cans required right on the property. They will have a plant with a capacity for the manufacture of 160,000 per day. This is the only cannery to manufacture its own cans wholly.

P. G. E. Files Plans.

Plans have been filed with the District Registrar at Kamloops, the location of the P. G. E. railway at Seaton lake, north, from Mile-0 to Mile-13. The district covered by the drawings extends from above the Mission to the sawmill.

TOO GLIB OF TONGUE.**Indiscreet Letter and Too Much Talking.****CHARGED WITH EMBEZZLEMENT.****Alfred H. Goby Said to Have Stolen Valuable Securities in England.**

Glibness of tongue and an indiscreet letter to a girl in England, landed Alfred Hugh Goby within the clutches of the law on Tuesday, charged with embezzlement in Scarborough, England, of securities valued at \$500. He was brought before Magistrate Saul Wednesday, and remanded to Kamloops for hearing.

Accused was arrested under a warrant issued at Scarborough, England, and endorsed by Chief Justice Hunter. In his home town Goby was chief clerk in an office. The securities alleged to have been stolen by him were the property of fellow clerks. Following the theft he decamped to Canada, and arrived in the town of Lillooet four months ago. Since that time he has worked as cookee at Welch & Kennedy's construction camp under the name of Smith.

Some remarks that he made about his home town caused the local police to suspect that he was the man wanted for the crime. At the same time a letter written by accused to a girl in England came into the hands of the police authorities there. These circumstances led to his arrest by constables Daunt and Arken. An officer is on his way from the old country to take him back to stand trial there.

No Increase in Rate of Remuneration for Jurors Until July.

Alas! The shadow of trouble hangs over the fair town of Clinton, one of its resources having been throttled by the grim hand of Law. Not in fruit or scenery; not in big game or mining has been the chief source of its revenue, but in juror's fees. But with the present increased cost of living these have not been so profitable as in the past, and the hope has been fostered that the rate of remuneration would be increased. Again, alas! the hope is false, at any rate as far as the spring assize is concerned.

At the close of the assizes in Vancouver, when the jurors were paid off, they found that their cheques had been made out at the old rate of \$2.00 per day instead of at the new rate of \$3.00 per day as provided for in the new Jurors' Act, passed at the recent sittings of the Provincial Legislature.

A letter was drawn up, calling the attention of Mr. Justice Morrison to the grievance, and asking his lordship if he could make an order that they should receive payment at the advanced rate.

"I am sorry, gentlemen, that I cannot do anything for you in this matter in the way you suggest," said his lordship, after reading the recommendation. "I may say that I entirely sympathize with you in your request, but unfortunately the new act

Lillooet Ball Team Backed for \$1000 In Series Against Lytton.

A \$1000 wager for a three-game series between the baseball teams of Lillooet and Lytton was made the other night between Arthur Noel of Lillooet and J. J. Farrell of Lytton. The first game will be played at Lillooet on May 3, the second at Lytton on May 10, and the deciding game on neutral grounds either Ashcroft or Kamloops, on May 17th.

Where is the Lillooet ball team? What practice are they having? The above news item from the Vancouver Province indicates that considerable confidence has been placed on the team by Mr. Noel. It is up to the boys now to see that the Lillooet man does not lose his wager. Then again there is the Merlin & Grim cup to be competed for. Get out, boys, and play ball.

Timber Limits Retard Agricultural Development of Pemberton.

Mr. and Mrs. Louis Gold, E. Thompson and P. J. Salvat arrived in town last evening from Pemberton Portage and are registered at the Victoria.

Speaking with The Prospector last night, Mr. Thompson was enthusiastic regarding the agricultural possibilities of the Portage, which he regards as being in every way equal to Pemberton Meadows. One of the disadvantages under which settlers have been laboring is that large tracts of splendid agricultural land is covered by timber licences.

"There might be 500 families between Anderson lake and the Portage, were it not that it is blanketed by timber limits. In many cases there is very little timber on it, especially in the bottom lands. I know of several 160 acre pre-emptions on which there is not 2000 feet of available land to the acre, the rest being covered by timber permits," said Mr. Thompson.

Land in the district is now selling at from \$150 to \$350 an acre. Potatoes and roots grow to enormous size, are of fine quality and keep well.

Blast Wrecks Phone.

A heavy blast on the construction work at Seaton lake put the telephone line out of commission on Wednesday. No communication with Bridge river points has since been available, the line being clear only to Welch's headquarters at the east end of the lake. A repair crew is out fixing up the line.

does not come into force until July. All that I can do is to forward your letter to the attorney-general, which I will promise to do at once, and to assure you that I am in entire sympathy with your request."

With this consolation in their minds the jurors repaired to the registrar's office and drew their cheques.

PETITION FOR STATION**Neill's Ranch Suggested as Advantageous Location.****GOVERNMENT INFLUENCE SOUGHT.****Pemberton Meadows Settlers Desire Depot at Portage Bridge.**

Strong representations have been made to the Provincial Government asking its influence toward the location of a station on the Pacific Great Eastern, at the point where the upper Lillooet river is crossed by the Pemberton Portage bridge. The proposed location is at Neill's ranch.

The resolution was the outcome of a public meeting held on April 12th, at Pemberton Meadows. The gathering was well attended and represented all parts of the district. That the suggested point was an advantageous situation for a station and one at which a depot should be located, was unanimously conceded.

No information concerning the location of stations in the district could be obtained of P. G. E. engineering staff in Lillooet today.

Appreciation from the Coast.

Says the Vancouver Sun, under date April 22:—"Under the able guidance of Mr. Herbert Boothman, formerly employed in the editorial department of the Vancouver Sun, who has assumed the managing editorship, the Lillooet Prospector, which is quite a newsy newspaper, makes its bow under the new management. The appearance of the paper is a great improvement, and, in no uncertain way, it reflects the progressiveness of Lillooet, which is now humming with many developments. To a great extent the paper is for the purpose of making Lillooet and the surrounding country known to the wide world, but the local happenings of only interest to those in the section is in no wise ignored. In fact, the paper is published on a comprehensive basis and clearly indicates that it will look after the interests of Lillooet in the matter of publicity. "Bob" Hume, an old-timer of Lillooet, has charge of the mechanical department of The Prospector.

FOR SALE.

One team of grey horses—gelding and mare—weight about fourteen hundred pounds each—guaranteed true to pull, for immediate sale. Will take \$350.

Apply to
F. C. JONES.
Half-way House, Lytton Road.

Around the Town.

Martin Welch, Spokane was in town Thursday.

Fred. Parsons was in town on Thursday, from his ranch on Seaton lake.

Dr. Sanson arrived in Lillooet on Saturday, returning to Ashcroft Sunday.

Angus Nicholson was in from the camp Wednesday, returning Thursday.

A. G. Rebagliati, the Lytton merchant, spent a few days in town this week, on business.

Frank Keeley returned to Lillooet, Tuesday, from Vancouver, where he has been on a business trip.

J. Conklin, one of Merritt's leading citizens, has been in Lillooet during the past few days in search of business openings.

Without any boasting, Lillooet can certainly lay claim to having two of the best tonsorial artists on the coast.

Joe Place, of Dog Creek, was a visitor in town over the weekend, and reported business brisk in his district.

The P.G.E. are known to have land at the Portage bridge, and it is therefore the opinion of the old-timers and others that the station will be located there.

Billy Durban's fine new gasoline boat will be launched at Seaton lake in a few days. It will then be placed in commission on the regular run to lake points.

John Dunlop, the energetic Seaton lake merchant, reports business brisk in his line, having just forwarded several large orders to the Bridge river district.

Mr. and Mrs. William McIntyre and daughter left Lillooet on Sunday for a few weeks' vacation on the coast. After staying in Vancouver for a day or two, the party went on to Victoria.

Commencement has been made on a sewerage system in Lillooet. A drain is to be put in to serve the centre of the town and to lead to the irrigation ditch on the flats. Among the initiators of movement are Messrs. Keeley Bros., Mark Eagleson, W. Abercrombie, W. Duguid, E. Darcy, Jim Man Lee and Wo Hing.

Louis Gold Sells Ranch.

Louis Gold, of Pemberton Portage, and in days gone by a good little policeman of that district, today sold his ranch on the Portage to Mr. E. Thompson for the consideration of \$50 an acre.

DR. R. W. ALWARD**DENTAL WORK in ALL BRANCHES****PAINLESS EXTRACTION****Specialist in Crown and Bridge Work**
