

LILLOOET PROSPECTOR

VOL. 7, NO. 11

LILLOOET, B. C., FRIDAY, JANUARY 12, 1917.

\$2 PER YEAR

BRITAIN AND LIQUOR

Here in Canada we have but little conception of the extent of the brewing business in England. For the Britisher likes his beer and for many generations the brewers have catered to his taste. Many of them have grown wealthy in the process. Some of them have been made peers and have taken their seats in the House of Lords. And now in this time of war and stress it is evident that the government are going to deal with the liquor business in a drastic manner.

Lloyd George, the Premier, has long been a moving force in the attempt to minimize the evils of the traffic in drink. His declaration that it was a worse enemy of the British than Germany or Austria-Hungary is vividly remembered.

The Board of Liquor Control in Britain has enforced in munition areas no-treating, limited hours, and no credit. In many munition and dockyard centres all the licences have been taken over; and the bars are operated by government agents. This has brought about big reforms so far as works in munition and navy plants are concerned. But other steps will shortly be taken.

Statistics recently to hand show that for the year ending September last the breweries required 1,224,000 tons of barley, 305,000 tons of other grain, 65,000 tons of rice and 41,000 tons of molasses. This is a total of 1,708,000 tons. Now that foodstuffs are scarce in Britain and high in price, while at the same time labor is short, economy is being insisted upon in every department of the national life. Therefore the spending of \$800,000,000 a year on drink is naturally singled out for attack. The grain used by brewers in Britain is mostly home-grown, but if it were used for other purposes the country would need to import so much less. Official figures put the saving in tonnage from the diversion of this grain and other materials to food purposes at 1,000,000 tons net of shipping. This represents about one-thirteenth of the net tonnage of the marine. These considerations show the need there is for the action of the Government under the circumstances.

We are having some glorious weather these days, even for Lillooet. Do not go to California or the Alps — Lillooet is fully as glorious.

KISSING MEASUREMENT

In an amusing article the San Francisco Argonaut calls attention to osculation as related to the moving picture industry. The article opines that since the moving picture censors in the United States are turning their attention in the direction of what may be called the film kiss it may be appropriate to inquire what constitutes impropriety in these celluloid salutes. Is it to be measured by their length, or should some other standard be adopted?

At the present time the experts are at variance, although all are in agreement that the yardstick must be employed to determine when propriety verges upon the objectionable. Pennsylvania says that eight feet of kiss must be the limit, but Ohio and Kansas are disposed to be liberal, and will allow as much as ten feet. But can we measure the morality of a kiss in this way? Ought we not to take into account the relationship of the kisser and kisse? Our knowledge of such matters is severely limited and is in no way a practical one, but we can imagine a perfectly innocent kiss that might extend to twenty feet, while there are other kisses that are distinctly undesirable and that might run to no more than a few inches. For example, there is the snatched kiss, invariably reprehensible, and to which a certain dextrous celerity is absolutely essential. Our knowledge, we may say, is derived wholly from fiction, but it seems to be unimpeachable. Kipling deals with the question of the snatched kiss in his "Departmental Ditties," and he seems to think that much may be inferred from the way in which they are received:

My son, if a maiden deny thee and scuffingly bid thee give o'er,
Yet lip meets with lip at the lastward—get out!
She has been there before.
They are pecked on the ear and the chin
and the nose why are lacking in lore.

But it may be said in all seriousness that there is a good deal too much kissing in the "movies," and especially in the pictures in the cheaper theatres. Sometimes it is a continuous kiss, and one that is rarely justified by relationship, to put it mildly. We can lay our hands on where we suppose our hearts to be and asseverate before high heaven that we are not puretannical. Thousands of readers of this column will sustain this plea of not guilty. But it does seem a pity that innumerable girls and boys should be taught by the movies to look

WEATHER STATION

A Snow and Rain station has now been established at Lillooet. It is hoped that Lillooet will be made a regular Weather station the same as at Kamloops and Barkerville because we are centrally located for the Lillooet District. Besides having telegraphic communications, Lillooet is the "Central" for fifty telephones extending 70 miles into the Bridge River mining district, 47 miles to Lytton, 47 miles to Clinton, 50 miles to Ashcroft, and can be connected at Ashcroft with the Cariboo-Kamloops Merritt and other points east to Kamloops.

Lillooet is a mining, agriculture, fruit, and live stock district, as well as a summer and winter resort. The weather is called for from many points each day and the daily publication of the weather at Lillooet would be of great benefit to all concerned.

It is noted that Mr. F. N. Dennison has been placed in charge of all the meteorological work in British Columbia.

BASKET SOCIAL

The Basket Social and Dance given on December 26th, in honor of the boys who enlisted with the 230th Forestry Battalion was well attended and a good time was enjoyed by all present. The sale of lunch baskets realized the goodly sum of \$54.05, which was handed over to the "Womens Patriotic League." Mr. P. Lewis, was the auctioneer. The highest bid for one basket being \$7.00.

At a subsequent meeting of the League a vote of thanks was passed to Mr. W. B. French and Mr. W. Adams, for their kind assistance in arranging for the above Basket Social.

upon a kiss, even an eight-foot kiss, as a mere trivial and laughable incident, and a part of the essential business of life. Now a kiss may be by no means a trivial thing, and especially for a girl, and it may be said, moreover, that the girl who is so familiarized with kisses on the stage that she becomes inclined to a certain liberality in dispensing the real article is in a somewhat undesirable place. In point of fact she is on the broad road to destruction. Now we do not approve of censoring anything, not even sermons, but so long as the "movies" are subject to censorship it might be well to restrict the number of kisses as well as their linear dimensions.

NEAR AND FAR

The 1916 Salmon packing amounted to 995,000 cases. Each case weighs 48 pounds.

The school at Texas Creek has been closed on account of the measles.

Mr. and Mrs. G. Miller, who have been visiting at the coast, returned to Lillooet last week.

Every animal may safely ask for simple justice. It is man alone who must plead at last for mercy.

Miss Poole, school teacher, arrived in town last Saturday to take charge of the Lillooet town school.

The 1917 Ford will not be nearly so noisy. You see they've taken the brass band off the radiator — Ex.

Mr. and Mrs. J. W. Bourke, were visitors to town, and the guests of Dr. and Mrs. J. A. Asselstine.

Mrs. Geo. Prosser, who has been visiting at the coast returned home this week. George is expected home in the near future.

Miss Ryval (triumphantly),—I suppose Jack never told you he once proposed to me.

Jack's Fiancee.—No; he told me there were a number of things in his life he was ashamed of, but I didn't ask him what they were.

Mr. Pete Lewis took his "Tin Lizzie" for a spin to Lytton Thursday, and from all accounts her behaviour was good. Pete is en route for the coast city. He was accompanied as far as Lytton by Joe Russell.

A soldier whose head and face were heavily swathed in bandages, and who obviously had had a bad time, was being feelingly sympathized with by a solicitous lady. "And were you wounded in the head, my poor fellow?"

"No, ma'am," Tommy replied, "I was wounded in the ankle, but the bandages slipped."

The Medical Officer of Health for Berwick, Scotland, announces in his report, that he has made a series of microscopic investigations into the bacteria infesting the fur of the domestic cat, and he finds that there is hardly a species of disease-spreading bacteria that cannot be isolated from the cat's fur, and in epidemics of diphtheria, pneumonia, and scarlet fever it should not be forgotten what part the domestic cat may play. Cats are a positive danger to children especially, and more dangerous in spreading disease than even the house fly.

Probably no other wood burns with more resistance than Californian redwood. It seems to have been made fire-resistant by nature. In logging camps this is peculiarly noticeable, for no other wood could be so treated. Because of the enormous size of redwood trees, the logs are very heavy—a sixteen-foot butt log weight from thirty to fifty tons—it is very difficult to handle them when the ground is littered with bark, and undergrowth, and tops. To get rid of this waste, or "slash" as the lumbermen call it, he simply sets it on fire. The slash burns off, but the logs do not burn. They come through this test by fire, which lasts from eight to ten hours, with merely a slight char on the sapwood on their exterior.

NOTICE

In the Supreme Court of British Columbia.

In the matter of the Estate of Ernest Walter Cox of Lillooet, Province of British Columbia, deceased intestate, who died on 6th day of July 1916.

NOTICE is hereby given that by an order of the Supreme Court of British Columbia, dated the 5th day of September 1916, the undersigned was appointed Administratrix of the estate of the above named deceased. Take notice that all persons due the said estate are required to pay to the undersigned on or before the 31st November. And notice is hereby further given that all persons having any claims against the said estate are required to file their claim duly verified under oath, with me on or before 31st day of December 1916, after which date I shall proceed to distribute the assets of the said estate among the persons entitled thereto having regard only to the claims of which I shall then have notice, and I will not be liable for said assets, or any part thereof, to any

person whose claim I shall not then have received notice.
Dated at Lillooet this 31st day of October A.D. 1916.

Idi M. E. D. Cox.
Administratrix for the above named estate.

LILLOOET, - BRITISH COLUMBIA

LILLOOET LAND DISTRICT
DISTRICT OF LILLOOET

Take notice that John McLelland Mackinnon, of Vancouver, B.C., occupation farmer, intends to apply for permission to lease the following described lands:

Commencing at the south-east corner of lot one, group two, thence south along the west boundary of Indian reserve No. one on Fountain creek 20 chains, thence west 80 chains, thence north 12 chains more or less to the south boundary of lot 3454, thence east along the said south boundary and the south boundary of lot 702, 40 chains more or less, to the south-east corner of lot 702, thence north along the east boundary of said lot 702 nine chains more or less to the north-easterly corner of said lot 702 on the southerly boundary of said lot one, then S. 58°00' E along the said southerly boundary 10 chains and 60 links more or less to a corner of said lot one, thence N. 76°15' E along a southerly boundary of said lot one 29 chains and 8 links more or less to the place of commencement, containing 120 acres more or less.

J. M. MACKINNON,

WATER NOTICE

USE AND STORAGE

Take notice that David B. Melville whose address is Pavilion, B.C., will apply for a licence to take and use 100 acre feet and to store 140 acre feet of water out of Gillan Creek, which flows in a Southerly direction and drains into Pavilion Creek on Lot 59. The storage dam will be located at Lot 878. The capacity of the reservoir to be created is about 100 acre feet, and it will flood about 50 acres of land. The water will be diverted from the stream at a point about 300 yards from Southwest corner of Lot 911, through Lots 878 and 63 and will be used for irrigation purpose upon the land described as Lot 3635, Lillooet District.

This notice was posted on the ground on the 16th day of Dec., 1916.

A copy of this notice and an application pursuant thereto and to the "water act, 1914" will be filed in the office of Water Recorder at Clinton, British Columbia. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

DAVID B. MELVILLE, applicant
Samuel Gibbs, agent

The date of the first publication of this notice is Jan. 5th, 1917.

WATER NOTICE

DIVERSION AND USE

Take notice that Frederick Methuen Becher, whose address is Riske Creek, B.C., will apply for a licence to take and use two hundred miners' inches of water out of Makim creek, which flows in a north-easterly direction and drains into the Fraser river about six miles above Soda Creek. The water will be diverted from the stream at a point about one mile south-westerly from the south-west corner of lot 109, Cariboo District, and will be used for irrigation purpose upon the land described as lots 152 and 1015, group 1, Cariboo District.

This notice was posted on the ground on the 20th day of July, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the offices of the Water Recorders at Clinton and Quesnel, B.C.

The water will be diverted from the aforementioned point on Makim creek and conveyed to Meldrum lake, thence down Meldrum creek, from which it will be diverted at a point near the north-west corner of lot 6049, Cariboo District.

Objections may be filed with the said water Recorders or with the Comptroller of water rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

FREDERICK METHUEN BECHER,
Applicant.

The date of the first publication of this notice is Sept. 8, 1916.

WATER NOTICE

Take notice that Frank W. Durban whose address is Seton Lake, will apply for a licence to take and use one (1) cubic foot per second of water out of White Cap Creek, which flows south easterly and drains into Portage river about 400 yards below Anderson Lake on Lot 1592. The water will be diverted from the stream at the Falls on the east side of Creek, and will be used for irrigation purpose upon the land described as the north half of Lot 1596 containing 40 acres.

This notice was posted on the ground on the 2nd day of October, 1916.

A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Clinton, B.C.

Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper.

24. Are you willing if your railway fare is paid to leave where you now live and go to some other place in Canada to do such work?

Army Service Corps Want Recruits

An Opportunity for Which Many Eligibles Have Long Been Waiting

In reviewing the recruiting returns of the different provinces of the Dominion, one is profoundly impressed by the splendid response made by the manhood of British Columbia in the time of the Empire's need.

This record is indeed one to be proud of, but there are still a very large number of eligible men in the Province who for various reasons have been prevented from doing their duty, and it is to these that the Officer Commanding No. 19 Company

Canadian Army Service Corps

with Headquarters at 1117 Seaton Street, Vancouver, B.C. issues this appeal.

Instructions have just been received from Headquarters to enlist men of the following trades and occupations for overseas service with the above corps.

Horse Transport Drivers
Supply Clerks
Mechanical Transport Drivers

Bakers Butchers Farriers
Wheelers Blacksmiths Saddlers
Electricians Fitters & Turners

The advantage of a man being able to work at the occupation he works at in civil life will be apparent.

The men as recruited will be given a little preliminary training here and sent forward in drafts.

Any further information in this connection will be gladly furnished on application to the above address (1117 Seaton Street, Vancouver).

Irish Fusiliers

The 11th Reg. The Irish Fusiliers of Canada are very busy recruiting for their overseas draft; 250 men are required for this Company and in all probability when up to strength, they will be attached to the 'Fighting Seventh.' This Battalion is still busy making history for British Columbia, and it is an honour to uphold the history and tradition of this splendid unit.

We want men, and yet more men to jump into the breaches. Any information required on this subject can be secured by writing or calling at the Irish Fusiliers recruiting offices, Lieut. J. M. Burge, 134, Hastings St. W. or in the rear of the Hotel Irving, corner of Columbia and Hastings St. Vancouver, Wake Up; the bugle sounds. The Fall In.

Engineers Wanted

The 6th Field Co. Canadian Engineers whose headquarters are at North Vancouver, are offering a splendid opportunity to the handy man.

Any man of ordinary intelligence, able to use his hands, drive a horse or motor motor wagon, or a man used to tools of any kind, can find a good opening with the Engineers. The extraordinary number and variety of jobs the engineers are called upon to handle in the daily routine of warfare, bring openings which all classes of helpers can contribute to fill.
