THE LILLOOET PROSPECTOR

Vol. 1 No. 26 | FRIDAY, MAY 10, 1912 | $2.00 Per Year

RANCH PROPERTY CHANGES HANDS

PHAIR RANCH WAS SOLD THIS WEEK

The deal for the Phair ranch adjoining town on the northeast went through this week, the purchasers being the Howe Sound Northern Development Company and the price being in the neighborhood of $300 to $400 an acre. This property lies in a northeasterly direction from the Methodist church and extends to the river, comprising about 300 acres.

It is said that it is the intention of the purchasers to cut the property into acre blocks for small fruit ranches, market gardens, etc.

From its location adjacent to town, this is one of the most desirable locations in the country and has good water rights, which will add materially to its value.

S. A. Mcfarlane, local government telegraph operator, received a new 12x24 flag this week. the gift to the town of J. M. McKinnon of Vancouver. It is made of heavy bunting, well stitched and will be of service for many years to come. Mr. McKinnon, who is an old-time resident of Lillooet was the donor of the old flag which has flown from the flag pole on all state occasions for the past twelve or thirteen years, and on his recent visit to town decided that it was about time that a new national emblem was needed, so on his return to the coast lost no time in attending to the matter. The flag will be put up for the first time on the 24th of May.

RETURNS HOME FOR SUMMER

Mr. A. F. Noel, who has been wintering in Vancouver, returned to Lillooet last Sunday, to remain for the summer. He reports that there is an increase in the interest taken and in the demand for Lillooet real estate, and that every few days there are deals of importance put through.

Mr. Noel recently purchased the Joe Copeland ranch for $10,000 cash and almost immediately afterwards turned it over to the Messrs. Painter & McRae of Vancouver at a nice profit. The new owners will sub-divide the place into five and ten acre tracts and they will be put on the market as fruit lands. Messrs. Painter and McRae are expected to arrive at Lillooet in a few days to look over their newly purchased holdings.

Another of Mr. Noel's holdings is the Larochelle ranch, also located down the river. On this place he holds an option and expects parties in the near future to come to Lillooet to look over the place with a view to buying.

The Fountain ranch, 8-miles Ashcroft road, in which Mr. Noel and Mr. McKinnon, of Vancouver, are interested, was visited by Mr. Noel on Wednesday.

Mr. Noel will remain in town for a few days, closing up his pending deals and then, accompanied by Mrs. Noel, will leave for Bridge River on a combined business and pleasure trip.

INDIAN TRACKERS AFTER OUTLAWS

DESPERADOES CLOSELY FOLLOWED

Reports come from Clinton that Chief Fernie and his trained trackers are close upon the trail of the Indian murderers of Constable Kindness

A saddle and bridle were stolen from a ranch fifteen miles from the scene of the fight. The posse has been able to trace the footsteps of the murderers and are following the trail of the Indians left when they left the barn.

Forty men are distributed in different localities to waylay Spintlam and Paul should they make their appearance within a radius of fifty miles from Clinton

The latest report received in Lillooet states that the trackers are close behind the desperadoes in the vicinity of High Bar lake in the Beaver Dam country.

It is stated that the two men now have but one horse between them.

The body of Constable Kindness was laid to rest in Vancouver on Wednesday, interment being in Mountain View cemetery Rev. Dr. Fraser officiated in the final solemn cermony for the dead officer. The funeral cortege that assembled to accompany the body to the grave consisted of an advance guard of fifteen mounted policemen, immediately followed by the band of the Seventy-second Seaforth Highlanders. 100 policemen on foot and fifty firemen in uniform completed this end of the arrangements.

G. J. Jackson, M. Margison and L. Margison, surveyors, have been employed all week finishing up the subdivision of the Hoey ranch adjoining town. This work was started a few weeks ago, but was delayed. It is now announced that it will be pushed to an early completion and the new lots put on the market in the immediate future.

STEAMBOAT REPAIRED

The S. S. Brittania, which has been tied up for the past week or more undergoing repairs and improvements, is again making her regular runs up Seton lake, making her first trip this morning. Messrs. Cox and Phair, the owners, have had a new boiler put in the engine room and have had her generally overhauled and painted, putting her in first class condition for her run to the Mission and the Portage. "Captain" Phair states that freight traffic at present is heavy and that the passenger lists is on the increase, so he expects that in the near future it will be necessary to make daily trips.

George Larochelle, representing the Moore Gasoline Light Company of Vancouver, is in town transacting business. He is well known in this district having resided in this place for some time.

Dan Harley, accompanied by D. K. May, of Spokane left this week for the Lorne mine on Cadwallader creek.

There will be an excursion up Seton Lake on the new launch "Premier" on Sunday.

Jack Jones, road superintendent, came down this week to superintend taking the grader up to the Bridge River road camp. He was assisted by Leo Boyd and Robert Dickey. They left on Friday's boat.

FRIDAY, MAY 10, 1912

Since the strike has been on along the line of construction of the C. N. R., quite a number of the I. W. W. strikers have drifted into Lillooet and have already succeeded in creating something akin to a disturbance. So far as Lillooet is concerned it is far enough away from the scene of the trouble that it should not be materially affected by the strike, and does not want the radicals and agitators of any labor organization to hold it back now that the district is well on its way to the long-looked-for time of prosperity.

The mines in this section pay as good wages and afford as good accommodation for their employees as any place in this section and until the recent agitatition by few of the discontented members of the striking organization, there has never been labor trouble anywhere in the camp.

We hold out for good wages and short hours for the laborer, but when employees are satisfied that they are fareing as well as men in other sections and when the employers are willing to grant anything within reason, we fail to see cause for outside trouble-makers to come in and undertake to create unrest among the miners.

I. W. W. agitators are not welcome in Lillooet by either employees or employers.

Since attention was called to the fact that the Sunday closing of stores run by aliens in Lillooet was not as closely observed as it should be there has been quite a little interest taken in the matter, and it is now reported that a movement is on foot to see that the law is more closely observed.

If the weather man keeps up his batting streak it will be safe to take off one's heavies by the first of July.

The deposed emperor of China gets $2,000,000 a year which ought to make it unnecessary for him to become a laundry apprentice.

Vancouver now has several skyscrapers—but it's still far from Heaven.

George E. Torey, Managing Director, Vancouver, B. C.

With respect to the presentment of the grand jury at the recent assizes at Clinton it was noticed that the grand jury was taken entirely from Ashcroft and its vicinity and possibly had its members been taken from all over the district, as formerly, the opinion might and probably would have been different. As to the condition of the government buildings, these buildings have been in existence a number of years and they, while good when new, are out of repair and insufficient for the needs of the district As to the best location at the present time the court at Kamloops is for cases along the line of the C. P. R. and it seems to us that the best location for the new court house would be at Lillooet as when the Pacific Great Eastern is built, and according to the railway bill passed last session, it is to be built in the immediate future, the same advantages which the grand jury claims for Ashcroft apply to Lillooet and that with such an arrangement the law can be administered at the greatest convenience and at a mininum of expense to the country

---

Elsewhere in this issue will be seen a communnication to The Prospector in regard to the removal of the court from Clinton to Ashcroft, which owing to a mistake was not credited. It should be signed "Lillooet Juror."

INDIAN MURDERERS

It must be manifest to the public of the province that the capture of the two Indian outlaws who murdered Provincial Constable Kindness near Clinton is imperative if safety of life and security of property, especially in the neighborhood of Indian reservations, are to be assured. The task of locating and capturing them, however, may prove more difficult than is at present imagined. Little question can exist that the Indians all over the province sympathize with these murderers; some openly with them and all secretly and the consequence is that they will lend them every assistance in eluding discovery and capture. The fugitives may be passed from tribe to tribe until they get into the forests of the north, where they may practically bid defiance to their pursuers, as Gaunnot did, another notorious Indian Outlaw, who is still at freedom, although the search for him was zealously conducted for many months and cost the province many thousands of dollars.

It may be true that there is no great fear to be apprehended from the disaffected Indians of British Columbia, but if any outrages committed by members of the tribes are allowed to pass unpunished if will be an encouragement to others to go on what is termed the war-path. The result might be the murder of white men in isolated districts and acts of robbery against settlers. It is this danger that must be guarded against by the infliction of prompt and severe penalties upon those guilty of violence or illegal acts of any kind.—Vancouver Sun.

Thin men will be in fashion this year, accordlng to the tailors, but fat men with fat bankrolls will be passable

MINING MAN PRAISES CADWALLADER CREEK

Bright Prospects For Bridge River. Fifty Men at Work on New Road.

"It would be hard to find a camp in British Columbia where the prospects are so good and which has been neglected," said a well known Victoria mining man recently, speaking with regard to the Bridge River District. "I have been in nearly every mining camp in the western country and nowhere have I seen more promising indications for a big camp than in this section. The mineral bearing area of the Cadwallader section, where several claims are now being successfully worked consists of a broad dyke of diorate extending in a north westerly and south easterly direction and carries numerous veins of free milling quartz. These veins are remarkable for their lateral length and uniform width. I have had my eye on this section for a number of years and have known where many thousands of dollars have been taken out in the course of a few week's work. There is bready two stamp mills on the creek. One on the Lorne property and one on the Coronation, while several other claim owners have announced their intentions of putting in plants as soon as the wagon road is completed to insure a more economical mode of transportation. The wagon road will be a great factor in the making of the camp. It will not only mak it possible for the owners of mines to install machinery to develope and operate their properties on a scientific and extensive scale, but will render it much more convenient and rapid to get supplies into the mines. At present there is something like forty or fifty men employed on the road, rushing it to completion and at the present rate it should be finished by the middle of the season. I conscientiously believe that Bridge River will yet make the best mining camp in the province."

PROSPECTORS GOING TO BRIDGE RIVER

George Bell, who with Grant White, is interested in the recent strike on Eldorado creek, a tributary of Tyaughton, was in town for several days this week making arrangements for supplies to take into their new find. He reports that the snow in that section is now going off and that it is only a matter of a few weeks until they will be able to push in and open up their claims. It is their intention to do extensive development work this year and to install an arrastra with which they will handle the ore until such a time that they have opened up the property enough to warrant more extensive machinery. Mr. Bell will leave this week with supplies which he will take to Grant White's ranch to be in readiness to go in to the claims as soon as the snow will permit.

MINERAL CLAIMS RECORDED

Already the result of the numerous prospecting parties in the district is being shown by the claims recorded in the govertment office. Since the snow is sufficiently gone to allow prospectors to begin operations the the number of claims recorded shows a marked increase. The totals for the year thus far by sections of the district is as follows: Bridge River 9, Cayoosh Creek 4, Blackwater 6, Fraser River 4, Seton Lake 2, Tyanghton 3, Townsite 1.

GREATEST TRIUMPH OF EDISON'S CAREER

Thomas A. Edison, it was learned today, has accomplished the greatest triumph of his career. He has perfected a method of separating paying elements of ores that will mean hundreds of thousands of dollars a year in the productive wealth of the country.

The inventor is not at this time prepared to give out details of his new method, but it is learned that a plant that required $250,000 to operate can be carried on by the new Edison method for $60,000.

The object of this method is to do away with the term "low grade" ore. With the new system valuable metal can be extracted from all ores. The machinery is said to be so simple that a child can operate it. Those closely associated with the inventor declare he believes his new invention is the most valuable he has given to mankind.

Water Notice

For a Licence to Take and Use Water

NOTICE is here by given that Charles Wesley Magee of Empire Valley, Lillooet District, will apply for a licence to take and use four miner's inches of water out of Big Flat Spring which sinks near same. The water will be diverted at spring about 20 chains NW of SW corner of Lo 935 and will be used for domestic purposes on the land described as Charles W. MaGee's pre-emption Lot 935.

This notice was posted on the ground on the 4th day of April, 1912. The application will be filed in the office of the Water Recorder at Clinton.

Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Building, Victoria, B C.

BEGIN SURVEY WORK ON LINE ALONG HOWE SOUND

The actual location of the much-talked-of-line from Vancouver to Fort George will be commenced next week by a survey party which is now being organized in the city under the direction of Mr. John Nelson of this city, recently of the staff of Cleveland & Cameron, engineers. This survey party will make the final location of that portion of the Pacific and Great Eastern Railway line from North Vancouver and Newport at the head of Howe Sound. Mr. John Callaghan, chief engineer of the Pacific Great Eastern Railway, who recently left a similar position in the service of the Grand Trunk Pacific, and who has been in the city for the past week, is actively supervising the work of outfitting the initial survey party.

Mr. Nelson's party will have the difficult task of endeavoring to secure an easy grade and avoiding as much unnecessary costly work as possible along that portion of the route extending from Port Atkinson to close to Newport. The shore line along the eastern side of Howe Sound is almost as bad as the Fraser canyon and it is expected that many short tunnels and heavy rock cuts will be necessary in order to get anything like a straight line. Owing to the proximity of the towering mountains that line that that picturesque arm of the gulf there is one thing left for the engineers to do in locating the railway line, and that is to skirt the shore at a safe height above the tide level. It sounds very simple but anyone who has been along that portion of the coast knows what a difficult task it will prove.

In about two weeks time a second survey party will will be outfitted here to survey that portion of the line from Newport to the Green Lake summit. Later on, three or possibly four more parties will be organized and outfitted here to make the final survey of the line from Green Lake to Fort George. The greater part of this survey work will be completed by fall, according to statements of the company's engineering staff and construction will probably be started at some point between North Vancouver and Newport by July 1, in accordance with the railway company's charter with the provincial government.

ASHCROFT WANTS THE COURT HOUSE

At the assizes recently held at Clinton the grand jury in their presentment recommended the removal of the court from Clinton on account of the court house being too small and the accomodation of the jurors both in the court and in the town being insufficient.

Now, while this is perfectly true in the present state of transition of the upper country the transfer of the court from Clinton to Ashcroft as the grand jury recommended seems premature.

There is already one court house where the assizes are held at Kamloops within 50 miles of Ashcroft, and to transfer the Clinton court there would be taking it farther away from the country where the most of the trial cases come from.

When the Pacific Great Eastern Railway is built the court should be here or at some point on the railroad so that the judges, counsel, jurors, etc., can all reach the court by train, whereas if the court is at Ashcroft the prisoners and witnesses from up-country points would be brought down to Lillooet and then transferred to Ashcroft by stage or auto and likewise the jury unless the people of Ashcroft desire a monopoly of furnishing the jury as well as the court house.

Water Notice

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the Lillooet Division of Lillooet District.

a The name of company in full Portage Creek Power and Light Company, Limited. The head office 514 Fort Street, Victoria, B. C. The capital, how divided, showing amount paid up $50,000.00, divided into 500 shares of $100.00 each. Amount paid up.

(If for mining purposes) Free Miner's Certificate No.

b The name of the lake, stream or source (if unnamed the description is) Portage Creek.

c The point of diversion above the Falls between Seaton and Anderson Lakes.

d The quantity of water applied for (in cubic feet per second) Fifteen Cubic Feet.

e The character of the proposed works the erection of a dam andstorage facilities, flumes, pipe lines, power house and electrical transmission lines.

f The premises on which the water is to be used (describe same) is on vacant crown land between Seaton Lake and Anderson Lake.

g The purposes for which the water is to be used for development and sale of electrical energy and power.

h If for irrigation describe the land intended to be irrigated giving acreage.

i If the water is to be used for power or mining purpeses describe the place where the water is to be returned to some natural channel, and the difference in altitude between point of diversion and point of return. To Portage creek below the falls and the difference in altitude is 800 feet.

j Area of Crown land intended to be occupied by the proposed work, five acres.

k This notice was posted on the 27th day of April, 1912, an application will be made to the Commissioner on the 27th day of May, 1912.

l Give the name and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet.

a The construction or operation of works or the supply or utilization of water under the "Water Act."

b To apply for and obtain under the provisions of the "Water Act," or to purchase or otherwise acquire water records or water licenses.

Attach copy of such parts of the Company's memorandum of association as authorize the propose application and words.

Lillooet Thirteen Years Ago

(From The Prospector, May 12, 1899.)

Arthur Noel returned last Saturday afternoon from Cadwallader, where he has been pushing the work of moving the machinery for the Bend'Or mill. With five boats and a gang of 26 men he succeeded in getting the machinery up the river in quick shape to Sucker creek. At this point the boxing will all be taken off and the material taken in on horseback with the exception of several pieces which have to be taken in on a "go-devil." A few of his men have been working on the trail between Sucker creek and the Bend'Or mine, fixing it up where necessary and widening it out in places. Some of the smaller pieces of machinery are already at their destination and the whole lot will be at the mill site by the first of June. Mr. Noel has moved the machinery along with greater success than was expected and will have it all on the ground before the completion of the building.

An old fashioned camp meeting will be held on Cayoosh creek next Sunday afternoon.

A. Lochore was in from his ranch on the Lytton-Lillooet road last Saturday.

J. J. Patterson has been placer mining up the Fraser spent a few days in town this week.

Messrs. Young, Coughlan and McPhail are putting things in shape around the Lorne group. They have some rich ore in sight and will make an exceptionally good run this season.

NOTICE

A general meeting of the Lillooet District Hospital Society will be held in Santini's Hall on Tuesday evening the 14th day of May, 1912 at 8 o'clock p. m., to receive the statement of the directors and to elect officers for the coming year.

The hospital will be open for inspection by the public on Saturday afternoon, the 11th of May from 2 to 4 p. m.

Samuel Gibbs,
Honory Secretary.

Lillooet, April 22, 1913.

HOSPITAL OPEN FOR INSPECTION

Charles Noel has been employed all week getting the Cottage Hospital in first class condition ready for the public inspection day, which will be tomorrow afternoon (the 14th). He has the furniture, which arrived recently, all in place. The rooms have been thoroughly cleaned and the plumbing fixtures are installed. The directors are desirous that all those who can possibly do so will be on hand to see just what has been accomplished by way of furnishing the institution. The general meeting will be held on Tuesday, the 16th, in Santini's Hall, and the definate arrangements will be made for the opening date of the hospital, which will undoubtedly be in the near future.

TWENTY H P AUTO TRUCK

Artie Phair, of the C. A. Phair store, purchased a 20-horse power Tudhope motor truck, which he will use to transport freight between town and the Seton Lake boats and to deliver about town. He made a trial trip to the lake Wednesday taking out supplies for the "Dolly Varden" and reports that the new truck is satisfactory and will make about 16 miles an hour.

TAILOR SHOP FOR LILLOOET

W. R. Howell, a Vancouver tailor, will arrive in Lillooet on the 15th of the month and will open up a tailor shop with a choice line of gents furnishings in the store room on the old Cumming's property, recently vacated by Ah Song. Mr. Howell has been in the tailoring business in Vancouver for some time and established a host of friends and patrons in the coast city, but was so strongly impressed with Lillooet's climate and possibilities on his recent visit to this place that he decided to return and establish a tailor shop here.

Once tried, always satisfied—that's The Prospector. $2.00 per year.

LILLOOET BRANCH J. N. CRAN, Manager

NEW FIXTURES FOR BANK

The new fixtures for the local branch of the Bank of B. N. A. arrived this week and were duly installed. The new fixtures consist of a teller's cage, a counter and office furniture and gives the bank a decidedly improved and business-like appearance. The new safe, which arrived several days ago, has been put in place, the room is at present being repainted and re-papered, a new gold-leaf sign has been hung out and other details attended to, which gives Lillooet a banking institution to be proud of.

WILL OPEN POOLROOM

Messrs. Mercheson and and LeVelle have been busy for the past few days putting the room in the old Pioneer hotel in shape to open up a poolroom with cigars, confections, stationery, newspapers and periodicals as a side line. They have had the room re-papered and repainted and have petitioned off their newsstand with a separate outside entrance so that it may be entered without going into the poolroom. They have purchased the the table from Billy Page's poolroom and have two more coming in. They will put in only the three tables at present but if business warrants it they will add several more They are at present installing a gasoline lighting system and expect to be open for business by the fifteenth of the month.

SANTINI BUILDING NEARLY COMPLETED

Billy Page and his crew of carpenters are putting the finishing touches on the new Santini building and will soon have it ready to turn over. The lower floor has been rented to parties who will open a restaurant in the near future. The second storey has been divided off into office rooms. Ab Brett and Barney Rodenberg are now employed with the painting and papering of the new building.

Prospector Ads Pay.

WILL START RESTAURANT

C. E. Peters, a late arrival from the coast, has taken a lease on the lower floor of the new Santini building and is making preparations to open up a restaurant in the near future. At present he is putting in counters and fixtures and he promises to open up an up-to-date eating place. Mr. Peters also has secured an option on the forty foot lot next the new building and announces his intention of building as soon as he can make arrangements.

LAUNCH NEW BOAT

Billy Durban's new 30-foot gasoline boat was launched in Seton lake this week and has already made several trips up to the Mission and Portage with passengers and freight. It has a 8-horse power engine built by the Hamilton Engine company of Hamilton, Ont. Mr. Durban now has a force of carpenters at work building wharves and warehouses. and will soon be in a position to cater to the travelling public. The name of the new boat is the "Premier."

NOTICE

In the County Court of Yale Cariboo in Probate.

In the matter of the estate of William Caril Riley, late of Pachelqua, Lillooet district, deceased.

Notice is hereby given that all persons having any claims or demands against the estate of the late William Caril Riley, who died on the 7th day of December, 2911, at Pachelqua, Lillooet district in the province of British Columbia, shall forward to the undersigned agent of William Caril Riley, the executor of the estase, their names and addresses and full particulars in writing of the claims and statements of their accounts and the nature of the security, if any, held by them, and take notice that after the 10th day of July 1912, the said William Caril Riley will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which he shall have had notice and that the said William Caril Riley will not be liable for the said assets or any part thereof to any person of whose claim he shall not then have had notice.

Dated at Lillooet, B. C., the 8th day of May 1912.

SPICY NEWS OF THE WEEK

I Know Not What the Truth May be—
I Know That This Was Told to Me.

Murdock McIntyre, the hotel man from Merritt, came in by auto Monday and spent several days in town looking after business interests.

James Dickey, of the Black Hill ranch, was in for supplies on Tuesday. He reports that all the ranchers along the Fraser in his locality are keeping a sharp look out for the outlaw Indians.

Henry Swanson was a town visitor for several days this week.

Dave Yule drove over from Ashcroft in the big Stoddard Dayton on Sunday last bringing with him Mr. and Mrs. Waldo Matherson and wife, who made a brief visit to this place, returning to their home in Vancouver on Wednesday.

Charles Johnson and Billy Miller will leave tomorrow for a prolonged prospecting trip, outfitting from the local merchants for a month or six weeks stay in the hills. They will investigate the large unprospected field between Lillooet and Lytton.

P. L. Clement, the popular proprietor of the Commercial hotei in Vancouver, writes that the pending deal by which he hoped to retire from business life has fallen through, and that he is back in the harness again, and will always try to give the upper country folks visiting in Vancouver a right hearty welcome. "Cal" the well known head clerk, who it was announced would leave the Commercial, will still be on the job, and that popular hostelry will lose none of its attractions for the traveling public.

J. B. Tiffen, of 18-mile, was a Lillooet visitor this week.

Miners and prospectors are reminded that their licenses expire at the end of this month.

Lee Harrison, the Lytton-Lillooet stage driver, is in Montana on a short visit.

Joe Shuster and Pearl Mays have just completed the assessment work on the National, Jewel, Taft and Upheavel claims on Cadwallader creek, the property of Fred Kinder. They uncovered an 18-inch lead on the Jewel and 2-foot lead on the Taft, which they stripped for 120 feet. Both leads made a good showing.

Walter Keeble, the well known automobile magnate of Lytton, registered at the Victoria today.

B. Swanson, the well known Anderson Lake rancher, is spending a few days in town attending to business.

Joe Shuster and George Bell will leave for Bridge River tomorrow.

J. C. Birch, mail carrier from Moha, was in this week on the monthly trip for the mail.

Jack Logan, who has been employed at Pavilion for several months, was in town a few days this week. He departed Wednesday for the Dr. Jones ranch, where he will be employed.

Herb Taylor was in town for several days this week.

Charles Tisdell, the well known sporting goods man of Vancouver, was a Lillooet visitor this week.
