Queen Charlotte Islander

A Weekly Newspaper Published in the interests of the Settlers, and to promote the development of the Queen Charlotte Islands.

VOL. 3, No. 46 MASSETT, GRAHAM ISLAND, B.C., SATURDAY, SEPTEMBER 5, 1914 5 Cents per Copy

Oil Promotions On Graham Island.

A few of the Councillors of Prince Rupert have protested against the sale of promotion stock in connection with the development of the oil field on Graham Island, and have sent in a protest to the Attorney-General on the matter. They have made no definite charges; but appear to consider it inadvisable to keep the money at home that is flowing towards Calgary and other places where it will do little good to the communities at home. It has been the endeavour of a number of persons to interest people in the oil fields of the Queen Charlotte Islands. There is little doubt that a vast bed of oil will be struck when drills are introduced and boring operations are carried on as they should be. A number of Prince Rupert people are interested in the exploiting of the islands and have invested in stock in the various companies floated. Whether the companies are in good standing or "wild catting" is certainlly a question for the authorities to decide. The residents of the island, and all who have the advancement of the Queen Charlottes at heart, trust that no schemes are being formulated whereby the purchasers of stock will be fleeced. There has been too much of that kind of work indulged in this Province; but we trust the Councillors of Prince Rupert and the general public in that city will take enough interest in the Queen Charlotte Islands to aid an undertaking that would mean the most important that ever was before the country—the finding and producing of petroleum in large quantities in the immediate neighborhood of the terminus of a transcontinental railway. When we have something that means wealth to a country, and money is being invested in exploiting it, a set men who should know better are agitating to withhold the capital required in proving whether the country should go ahead or keep in a groove that means stagnation. The Council of Prince Rupert is elected to look after the welfare of the citizens and to do their duty faithfully and fearlessly. There are evils in that city requiring more attention from them than interfering in the advancement of another section of the country. It is possible that the people of Prince Rupert who are responsible for their Council will ascertain the potentialities of the adjacent islands and that they will assist in the development of the industries that are now dormant though the near-sightedness of such men as the people elect to carry on their business from year to year.

Pigs For Sale—Two sows in litter; also young pigs.—Apply Dave Rutten, Oeanda.

From Behring Sea With Large Catch.

The "Albert Myers," a three-masted schooner, belonging to the Canadian Fish & Cold Storge Co., Prince Rupert, arrived at Naden Harbor on Wednesday from the Behring Sea. She had on board 250 tons of codfish, the result of a five and a half month's fishing trip in northern waters. An officer of the ship arrived in Massett Thursday for the purpose of sending a message to Prince Rupert notifying the owners that she had arrived there, and to send over a tug to tow her to port, but was unable to do so owing to the wireless station being closed. The big wind-jammer will be detained at Naden Harbor for several days as she is unable to make Prince Rupert under her own sail. She carries a crew of 37 and is in command of Capt. Daniel Martin.

Slight Quake Felt At Massett.

A slight earthquake occurred on Friday morning about seven o'clock. The tremor only lasted a few seconds and was the means of getting a few local people out of bed a little earlier than ususal.

Proposed New Regiment.

Capt. J. B. Gillatt, of Sandspit, has, we understand, offered his services to the military authorities in connection with the formation of a regiment on the Queen Charlotte Islands. It is proposed to form two companies, one at Queen Charlotte City and the other at Massett. Capt. Gillatt was formerly a commissioned officer in the British army, and his offer to organize and instruct the proposed regiment, will, we hope, be granted by the authorities.

Islands Have 430 Voters.

In the report of the meeting on redistribution in last week's issue a tpyographical error occurred in the figures relating to the number of voters on the Queen Charlotte Islands. At the last revision court there were 430, and not 330 as reported. We are quite confident that the number on the list will be well over 500 by next court.

FOR SALE.—One fine heavy milch cow.—Apply Ceaser Verhyden, Oeanda.

The meeting of the Synod of the Diocese of Caledonia has been postponed indefinitely.

Two gasoline fishing boats visited Massett this week to outfit and overhaul their gear.

The Calgary Oil Boom Explodes.

The Calgary oil boom has gone clean up in the air, and the Vancouver Mining, Engineering and Electrical Record of the latest date publishes a scathing article on the promoters of many bubbles and gas schemes that were responsible for drawing millions of dollars from the "people born every minute," as described by the late P. T. Barnum. In summing up the Mining Record states: "There is, of course, the other side of the question. While the extremities to which the boom has gone are most regrettable, it has resulted in several legitimate prospecting enterprizes in Alberta, Flathead, the Fraser Valley and Queen Charlotte Islands being financed and money contributed to and expended in legitimate development, even if no immediate results are obtained."

Hunting Season Opens.

The hunting season opened last Tuesday and a number of local people have been successful in securing fairly good bags. One local resident has not been so lucky and although he has been out every day since the season opened has failed to secure his first bird.

The following regulations apply to the Queen Charlotte Islands:

Duck and Snipe, September 1st to January 31.

Geese, September 1st to February 28.

Grouse, October 1st to December 15.

Quail, October 1 to December 15.

Bear, September 1st to April 1st, 1916

There is no open season for any of the deer family (including caribou) on the Queen Charlotte Islands.

Sale of game—Duck, geese and snipe, from October 1st to October 31st.

Hunting licenses can be secured from M. J. Condon, provincial constable.

Weather Report—August.

C. HARRISON.

Next Monday will be Labour Day and will be observed as a public holiday throughout the Dominion.

Fishing for cohoe salmon has been engaged in off the mouth of Massett Inlet and one fisherman is credited with having caught thirty-two salmon with a trolling line in one day.

Latest War News.

Sept. 5th.—Germans advancing on Paris. They are only twenty miles away and French are preparing for big siege.

Terrible slaughter of men on both sides. Germany sacrificing thousands of men. They keep advancing and are regardless of their loss.

News is very scarce and complete silence reigns regarding the navy.

Russians making great headway on their side of Germany and are swarm- into that country.

According to papers the advance on Paris is not as serious as one would think. The Allies are falling back, but are not being beaten.

A tennis tournament and dance will be held at Port Clements on Monday.

FOR SALE—Holstein Bull (Government bred) weight 1600 pounds.—Apply Dave Rutten, Oeanda.

The residence of Chas. Adam at Graham Centre was totally destroyed by fire last Monday. The loss is estimated at $500.

W. A. Brown of Hydah, was married at Queen Charlotte City last week to Miss Lea Delcusse of Kenmore. Mr. Brown is an old timer on Graham Island and was among the first to locate near Lawn Hill.

The Massett and Skidegate Indians arrived at their reserves last week from the river canneries on the steamer Coquitlam which was specially engaged to bring them home from the Oceanic Cannery.

The Massett Indians have gone to their river fishing grounds to prepare their winter supply of salmon. It is their intention to smoke and salt a large supply and it is possible that a quantity will be prepared for export.

Dave Rutten, the well known Oeanda rancher, spent a few days in town this week. The settlers, he says, have all been busy putting up hay, and the crops are in excellent condition. Messrs. Walsh, Verheyden and Rutten are working on a big ditch 10 ft. wide and about 600 ft. long.

During the week a flag-staff 64 feet in length was erected at James Martin's store and the Union Jack now floats gaily to the breeze over that well known establishment. A popular resort like the St. Ives Hotel was not one whit behind in showing its loyalty and "The Flag" floats there too.

Massett, B.C., Saturday, Sept. 5, 1914.

The war has almost paralyzed business in all parts of the world. Although looked for, it came with a suddenness and involved so many nations that even the United States government, with all resources at its command, found the demand for money a difficulty. There is no denying the fact that foodstuffs will increase in value, despite the fact that our wheat fields are the most extensive and it will be hard to ship grain to European ports. The United States, taking advantage of our difficulties intends to register shipping, with little or no restrictions, which is an unprecedented thing to do while nations are at war. It is problematical whether the belligerents will allow shipments, under the United States flag to be made to Great Britain, or Germany. Commerce will suffer more than cities, through the large fleets patroling the sea. Especially on the Pacific coast there is great danger to vessels running to the Orient and the first overt act on the part of our enemies will bring Japan to the front on our behalf. Whether the Monroe doctrine will cover the Pacific province is also a question. The United States would not permit the German government to rule the possessions in China and South America with a mailed hand even in time of peace and it is questionable whether the United States will now permit Germany or any other nation to seek land bordering on the republic. Although Canada is an integral part of the British possessions, the people of the United States are not likely to stand idly by and see any part of the Dominion laid waste by foreign warships. There is a large German and Austrian element in the United States; but there is no danger to be expected from them. The despotic rule of the Kaiser and the overbearing attitude of their own governments were reasons for emigrating from Germany and Austria, and there is now little in common between them and the powers that control affairs in the country of their birth. The two railway lines to the Atlantic are capable of pouring in troops from India, while the Russian fleet at Petropoulosky could be concentrated in our waters at short notice. Thousands of well drilled fronteirsmen are still available from the prairies and interior cities and towns, and unless the war lasts for some time, there is no danger to be expected from foreign war vessels or troops that cannot be overcome by the forces easily available. Throughout the Province there are few men who do not understand the carrying of a rifle and how to use one. All along the line of railways the frontiersmen are all capable of handling horses and doing active service. Company after company of men used to hardships and ready for any emergency may be found. The only danger is along the coast where naval bases may be required. Our waters are strange to foreign craft and there would be no stragetic point gained in bringing either ships or men of a foreign nation to our islands. There is little necessity for alarm in this neighborhood, at the ame time something should be done to keep us in touch with the outside world and afford an opportunity to understand what is going on and what is required of us.

Jack Maben, E. Whettle and Jack Bunting came in from the Blue Danube for supplies during the week.

Miss Portmore, who has been visiting her brother Frank at Woden for some time, left for the south on Thursday.

Miss Long, who has been visiting her brother and sister-in-law, Mr. and Mrs. J. C. A. Long, at the West Side Ranch for several weeks, left on Thursday for Victoria.

Proclamation

"Since the weather conditions indicate that there will be little risk of forest fires reaching dangerous proportions during the remainder of the season, the following district, the northern portion of Graham Island, from Cape Ball southwestward, including the headwaters of the Yakoun River, is, by the authority of the Forest Board, hereby exempted from the fire permit provisions of the Forest Act from September 1st to October 31st, the close of the season. In accordance with this notice settlers may set out fires without first obtaining a permit therefor from a Forest Officer. They are not, however, relieved from responsibility for keeping fires under control and within the boundaries of their land, and will be held responsible for damage committed should fire escape to adjoining property."

(Signed) H. S. IRWIN,
District Forester.

Kitchener's Message.

Field Marshal Earl Kitchener reveals a new side of his charactsr in the excellent advice given every British soldier leaving for active service on the continent. Every soldier was presented with a little pamphlet signed by Kitchener, with orders that it be kept in his active service pay book, and the brief personal message is one that may well be read by every British subject.

"Remember," says Earl Kitchener, "that the honor of the British arms depends on your individual conduct.

"Never do anything likely to injure or destroy property and always look on rioting as a disgraceful act. You are sure to meet with a welcome and to be trusted. Your conduct must therefore justify that confidence and trust.

"Your duty cannot be done unless your health is sound, so keep constantly on your guard against unwise excesses.

"In this new experience you mnst find temptation both in wine and women. You must entirely resist both temptations and while treating all women with perfect courtesy, you should avoid any intimacy.

"Do your duty bravely. Fear God and honor the King."

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territery the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORRY.

Deputy Minister of the Interior.

N. B.—Unauthorised publication of this advertisement will not be paid for.

The above articles are almost new and can be bought cheap.—Apply C. H. Curtis, White Creek, or Islander Office.

What's the matter with you Pessimists?

If you knew as much as I do about the future of Delkatlah Bay you would be chasing me up with payments on your lots.

The farming may be a little slow in developing, and the coal seams hard to trace in paying quantities, but Delkatlah is on the eve of development as a Winter Tourist Resort which will place it only second to Prince Rupert in Northern British Columbia.

I am not a prophet, for such prophecy only requires the application of ordinary common sense.

Buylng lots in Delkatlah is like sowing seed—the money disappears like the seed in the ground only to spring up and yield ten fold.

Canada needs no summer resort, it has all the summer climate it wants, but from Nova Scotia to the Rockies it needs a winter climate, and that's what we have. The Spring is the time to sow seed. Sow your wages in a lot at the rate of $5.00 a month and have a home in town.

Immediately back of Delkatlah pre-emptions are being taken up at the rate of ten a week. That will soon increase values.
