

Mar 13th 1933.

Dear Bob.

The enclosed is just to give you advance information as to what the Annual statement will look like. It may be a couple of weeks or more before you get these statements.

The Domestic market is taking more fruit than expected and the dump will not amount to much. The Export returns are poor.

Thanks very much for your letter of Feb 24th. I will write you later in reply. I want to get this away on the morning mail.

The weather has been quite good from an orchard standpoint. Indications are for a fairly good crop. Water conditions are good.

Am opening up my office in a room which I have constructed inside the tractor house. Not much to look at from the outside, but inside it will be quite decent.

Yours sincerely
Jim.
