

March 25th. 1930.

Dear Sirs :-

Our Audit was finished some time ago, and by this time I expected to be able to send you the Statements.

I asked the Auditor to put through a Dividend of 20% and show it on this years Balance Sheet. It looks as if we would have to declare about 40% to take care of the advances from the 1930- 1929 crop. It would seem that it is good business to split this up and make two Dividends of twenty.

Last night I had a letter from the Auditor ^{saying} that he could not put this Dividend through until he has letters from both of you authorizing it. So if you have no objections please write at once stating that you are in agreement with the declaration of 20 % Dividend.

Our Income Tax Return showing Dividends paid during the calendar year 1929 is as follows. March 1930.

Date of declaration.	Date of payment.	Rate.	Total Amount.
Feb. 28th. 1929	Feb.28th. 1929	35%	\$17,780.00

The Vancouver Office (Inspectors) demands that Mrs. Goldie show as her income for 1928 \$4750. This is the amount of difference in her balance shown on our Balance Sheet.

I have my statement of Expenses and Returns in shape but will hold them until the Auditors Statement comes in, There is no very outstanding change from the figures of a year ago. The Profit shown is about \$12,000.

We have the Wagner and Delicious Account Sales. they are not far from what I have been figuring on.

Yours Truly,

James Goldie.

J.E.McAllister Esq.
Capt. R.S? Dormer.
