NEWBURY.

My dear Jolliffe,

I have not had a letter from you since June, & in consequence have no idea what to expect, & think it is unfair to go on so much that No news is good news, one does now & then like to have ones fault confirmed, especially – a district like ours, where anything

anything happen to us means loss
– a very short time, I do like
to get your letters, & to be able
to say to myself well we are alright
so far anyway". How you will be
as busy as possible, but I wish you
would write me a short letter every
now & then; I look with us, I
do not look for a mass of detail
& do not want it, but news of
the crop, & a guess at the market
conditions would act as a strong
pick-me-up, besides I do like to
know how you & your family are.

The address on this paper will
be mine – perhaps so you can
always write here. I sent you
some papers the other day & if you
like to keep the Field I can send it
& any others which come here. We
are never more or less settled, but
still plenty of work under foot.

This summer has been the
driest, perfectly perfect & it rains & rains, the garden is
a bog & I don't dare to. Down to

the case. Will you make
arrangements with the Veracca
Fruit Farm to send me
3 bots Yellow Newton No: 163[s]
3 " Winesap. "Honest to God
Orchard Sugar !!
I like them small. Can't we
have an out-Camping meeting
here, I have not W in years, et
is up to you & Mac Allister to
come E. once. All love wishes
to you & remember me to Jane wife
& children.

Yours

R H Borden.
