

15 KING STREET WEST  
TORONTO

November 24th, 1915.

Jas. Goldie Esq,

Okanagan Centre, B.C.

Dear Mr. Goldie:

I arrived in America on the 18th inst, and since then have been moving so quickly between Toronto, New York and Northern Ontario, that I have been unable to take up anything. I left for Europe in such a hurry, I could not get together any of the Ranch papers to take up with Dormer, which was not very satisfactory, but we talked a good deal about the Ranch. I told him that as I remembered your estimates, we could look for very little this year, and he says that unless Rainbow pulls him out, he is all in.

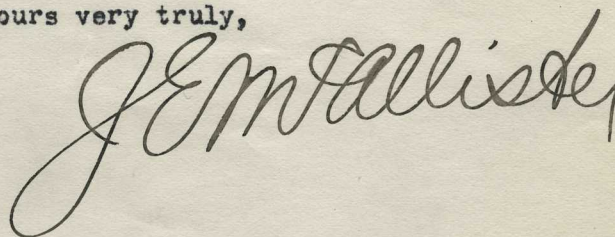

He looked well, and there are no signs of the wound in his face. I expect by this time he is back in France.

I have your letters of October 10th and 31st, and your subsequent letter of November 16th addressed to my brother, and enclose herewith your original inventory with a copy of the same, also copy of your estimated crop for 1915, unpaid vouchers at June 30th, 1915, and your estimated expenditure for the year 1915-16. I trust these are the papers which you want. If there is anything else, let me know.

As soon as I have had time to go into things in detail, I will communicate with you again.

In the meantime, with best wishes,

Yours very truly,

Encls-
