Dear Lois
Replying to yours of a few days ago - amount
ap for fencing & Pasture. I'd say - re the
fencing - as I think I mentioned to Mr. Heron
this matter had better wait until the transfer
of title is effected between all parties. as I
understand it, still is with the McCallister
or your Company - the O.K. Valley Land Co or
Madduck Bros not having completed the
purchase - In the matter of Pasture, will say
the arrangement was made primarily so the
cow purchased from your Company would be
herded with your own stock - i.e., taken to & fro
saving us the care & trouble in this case - as for
the pasture. There was literally none, she had to
be fed to be kept in milk when brought home,
in evidence of which I will draw your attention
to the fact that your stock almost died, up for
lack of proper feed. The summary of the matter
is, the cows of heading fell on us entirely, we
had to fetch your stock twice a day & return them
then returning your staff of any care in the respect.
I consider in the face of this - that there is no
equity in their charge of \$6.00 for Pasture -
Yours sincerely,
Daudmonie
