Dear Goldie,

Just a line which I hope will find you keeping quite well as it leaves us at time of writing battling colds.

The Vet came up from Kelowna yesterday and fixed up the mouths of all horses battling black cold, some of them certainly needed it bad, I have kept a couple of mementos to show you when you come back, he said the old Bill horse should be alright for some time now.

I also asked him if he could tell me why those mares did not catch he said no but sometimes they will miss a year or two and then breed right along for a period, but he said they should be opened up before mating and then would stand a much better chance provided horse is sure

I saw Mr. Code on Wednesday and he asked me if we had any wheat to sell I said yes so he will take all we can spare asked him what price he was paying it he said had been paying mill \$38.80 guess that price will suit us.
