

November 12th. 1928.

Dear Sirs :-

The Last of the packed fruit moved out Saturday 10th. The Salome was in Winfield storage on Nov.the 3rd.

The enclosed statement shows the yield as it stands to day , counting the Salome at 2000 packed boxes.

1928 crop exceeds 1927 by 15,569 . Most of this gain is in Jonathan which means very little so far as returns are concerned.

No one will venture a guess as to the final returns, but so far as I can see we will have very little to the good on the years operation.

The books are not in shape for taking off figures at the moment for this letter, but I wanted to give you the yield at once.

We have only received \$3000. from the Union up to date and it went to the Saw Mill for Shook.

We have exceeded our credit at the bank as well as my authority to borrow, and now have notes at the Bank amounting to \$25,500. We also still owe \$7000. for Shook. There will be a carry over of Shook of about two thousand Dollars. This carry over was caused by the necessity of having boxes to pick into so as to finish up early enough. and ofcourse the left over boxes from the fifteen cars of Bulk Jonathan.

I will write later when we have figures and information about markets.

We have a letter from Mr. McAllister Nov.5th.

The ( Drug Stores ) mentioned are cars going to country points with every thing that the Valley grows mixed as to variety, grade and size.

We had about ten degrees of frost in the orchard during the last week of October, but since that the weather has been mild. There has been practically no rain this summer and the orchard is very dry, so much so that ever since the packing stopped we have been running water to protect the trees from dry freezing in the Winter.

Yours truly,

To R.S. Dormer  
J.E. McAllister

James Goldie.
