

Post Office ,Prince Rupert B.C.

August 20th '08

Dear Mr Goldie /

I was glad to hear from you/ also glad to know that you like British Columbia so well that you are going to stay at least for some time . Construction seems to be going ahead all right from this end, notwithstanding what you have heard to the contrary, but I expect you refer to the laying out of the Town site . The Surveyors started to work last Monday morning, five parties are out so far, and I expect the work will be rushed ahead, however I expect it will be too late to put the lots on the market this Fall . We are having splendid weather, in fact the last week has been a little too warm for comfort. Mrs McIntosh has just returned from a trip to Hazelton and wishes to be very kindly remembered .

Hoping you are recovering from the "crack on your shin" as you put it. I hope it was nothing serious, but I expect it was to lay you up, and with my kindest regards believe me

very sincerely yours

R. McIntosh

Write me if I can at any time do anything for you 1/2

J.S.
I have had a shivers' time at times in the P.O. but was fortunate to get a young lad who happened along just in time the next was on - I understand a family of about 1000 was that it looks as though the lots must not be on the market before next Spring
