My dear Jim;-

Your letter of the 23rd July was forwarded to me here, where I have been for some little time recently on the Canada Machinery Corporation affairs.

Cambridge Corporation meeting at the time was postponed and I believe it was to have been held in Montreal last week. As I have not been near there for some little time, I do not know the result, but I expect to return shortly and will look the matter up and advise you.

I think I acknowledged receipt of your scrip at the time you sent it, but this I will also advise you definitely. Things are very quiet in a business way down East at the present time, nearly everybody being away on their vacation. I was down in St. John N.B. on your old stamping ground for a few days about ten days ago, and Latter was asking if I ever heard anything of you. He is located now in Halifax.

I will write you later, but, in the meantime, with kind regards, and trusting you are enjoying the best of health, believe me,

Yours sincerely,
