Friend Gulchi

I've been expecting to hear from you almost every day since I arrived home. How about that Board bill of mine I left for you to pay? You had better be collecting. You know its nearing Xmas, and money is always scarce after the holidays is

Will Gulchi I'm having a most H— I at a time with my Dye house starts me had a big blow up on my return home and looks now as if the only thing to be done will be to close matters up and seal the place and I may have to pay it in to make my self whole so I guess you boys will have to account in
