## **No 1 Winter**

# **TREE SPRAY**

**SULPHUR, LIME & SALT**

---

This spray is made by directions of the B. C. Department of Agriculture, and is strongly recommended by them for destroying all kinds of pests, such as Oyster Bark Louse, Woolly Aphis, Codlin Moth, Green Fly, Green Aphis etc. It will also kill moss and keep the trees clean and healthy. To get good results the following directions should be carefully followed.

---

### **DIRECTIONS**

Dilute one pound of the spray in proportion to one gallon of boiling water. Thoroughly dissolve, apply with a spray pump while warm. One application should be made in the fall and another in the early spring while the trees are dormant to ensure entire success.
