Dear Mr. Hewer -

I read your letter of the 10th instant which reached me on the 21st instant with much satisfaction & I am glad to hear what you have to say about Gravel. I believe that it will be Gerald's aim by acquiring every information in his power & by steady & regular

application of all his energies to all he can for the success of the Ranch which I sincerely hope may have a great future in store for it -

I notice with pleasure the progress of your country & I have had an interesting conversation thereon with Mr. Hawker whom I am glad to find is much enjoying his stay. I am, Yours very truly,
Cornwallis. Bailey
