

POCKET GOPHER POISON BAIT. Oregon formula.

Water ..... 1 qt.

Irish Moss .....  $\frac{1}{4}$  oz.

Strychnine sulphate ... level teaspoonful.

Saccharine .....  $\frac{1}{2}$  teaspoonful

Dandelion ..... 12 qts.

Boil moss until dissolved- strain through  
cheese cloth. Place strychnine in clean  
vessel that may later be destroyed- add  
half cup of water and boil until dissolved.  
Mix with Irish Moss- make up to 1 qt. and

place in bottle labelled POISON. When cool stir dandelions in solution until all the leaves are coated. Place leaves on piece of cheesecloth in free circulation of air and allow to dry. Place bait in burrows before it becomes wilted.

CAUTION. All vessels containing the poison must be thoroughly cleaned or destroyed.

Placing Bait. Select place several feet back from latest work. Place only in MAIN runway.  
Dept. of Agriculture. Hort. Branch. Vernon.
