A. O. Cochrane, Esq.,
Barrister and Solicitor,
Vernon.

Dear Sir,

Re. Okanagan Centre Irrigation & Power Co. Ltd.

Mr. Knight the independent engineer appointed by the Comptroller of Water Rights after the hearing before the Minister of the Company's appeal, is in the district on some work of appraisal in connection with the amalgamation of Garners which is now taking place. I should be glad to arrange with you so that he may be given instructions as to the appraisal of the system at Winfield and Okanagan Centre. I think that you and I fully agree upon the basis upon which the report is to be made, and it only remains to instruct. As he is here now it will be a saving of expense to have the work done at once. Further the irrigation season is rapidly approaching and it is certainly advisable that progress be made with the least possible delay. I know that you are in accord with this.

Would you be good enough to let me hear from you at your early convenience.

Yours faithfully,

(Signed) T. G. Norris.
