For Mr. Goldie's  
information

Trustees meeting

Monday July 20

To discuss ways & means extension to  
By-pass. -

It was decided to point out to the  
flat users that the D. E.'s threat to cut off  
the pipe or turn the waters of Beaver L.  
into Duck Lake would result in a heavy  
blow to the Company's users and would in  
no way benefit the D. Creek users. Therefore  
we "The Trustees" will assist in any  
way towards the construction of a  
flume from the Ry. crossing of the By-pass  
to the Smallwell Bridge.

A quotation of the Winfield  
Lumber Co of \$19.00 per M. for 1 1/2" x 12" x 16  
dressed fir suitable for flume purposes  
and delivered on the job, was  
considered a reasonable offer, and delivery  
could be completed within 10 days of  
placing order.

Jim.
