Norrington 's Figures July 7 th.1926.

| | | | | |
|---|---|---|---|---|
| July 7. | Lake 6.7 or | 3200 | Ac. feet | ? |
| | Water not available | 1000 | " " | ? |
| | Water available | 2200 | " " | |
| | Allowance forflats | 181 | " " | ? |
| | " for Pipe | 2019 | " " | |
| | Crooked Lake Water | 300 | " " | |
| Water available for Pipe | | 2319 | " " | |

? — This figure not stated but the final figure 2019 is supposed to allow for flat's water.

It is figured that Pipe takes 37 Ac. Ft. per. Day
and that the Pipe should run full for at least 54 days from date.

II8 &II9 Records will be cut 50 % on July 8 th.

Questions.

How about evaporation? allowance ?

What does I.9 below dam mean in acre feet per day ?

Is the I8I Ac. Ft. the full amount still to be supplyed to Flats?

I924 Lake Record July 5 th. 7.2
July I4 " 8.
" I8 " 6.7
( Crooked lake wasopened up during this time )

F. A. HEWER, MANAGER.
