SURVEYS AND REPORTS ON  
IRRIGATION WORKS  
APPLICATIONS FOR WATER LICENSES

*Kelowna, B.C.* 4th. February 1930 192

Jame Goldie Esq  
Okanagan Centre, B. C.

Dear Sir.-

Reformation of an Improvement or Irrigation District at Okanagan Centre, I would beg to draw your attention to the fact that once an irrigation district is formed, the owners of all lands within the boundaries of that district having conditional licences, (not final licences) have the privilage of brining any of the land ~~now~~ not under irrigation at the time when the district was formed, to which the conditional licences are appurtenant, under irrigation when ever it pleases them to do so, and the Department of Water Rights will issue no final licences as long as the Irrigation District is in existance.

It will therefore be necessary before forming an Irrigation District at the Centre, to see that Final Licences are issued for all the Companies lands <sup>now irrigated</sup> prior to the formation of the District, or else to see that the boundaries of the District be so drawn as to exclude all the Companies lands not now under Irrigation ~~plus the 200 acres~~ ~~which it was agreed that they should have the privilage of farming~~ ~~under irrigation some of my years ago but they do not have an~~ ~~been brought under irrigation~~. The same also applies to the Rainbow Ranch and all other land owners for whoes property final licences have not been issued.

Yours truly

*F. W. Groves*
