Royal Fisk Esqre

Dr Sir

We authorized Mr Pochin to write to you p last steamer & consign some sacks of mineral which we should wish crushed & assayed as soon as possible. We have taken some original stock in several companies on the Islands & may have occasion to forward you frequently some Quartz for assay, if you wish to invest, you can have the first chance. The Quartz sent is from the croppings & may not be very satisfactory but we have more on hand much better looking, and as the locality is only two hours ride from Victoria & easily accessible it may prove a valuable investment later.

Yours truly
