Victoria 14 Apl 1864

Royal Fisk Esqr

Dr Sir

I send your pr Panama
3 Lots of Rock to crush & assay.

8 Kg 1 Lot Britannia marked Brit
12 " 1 " Magnum Bonum do MB
1 " Pacific do Pacific

R Fisk Esq

I may not have time to get the receipts in time to forward. You will please do the needful as before & if there is any satisfactory results from any of these companies please Telegraph pr Portland

We were disappointed at the result of your first assay but as it was rock taken from the croppings our expectations were not very high. In a short time I may be enabled to send you better ore & in the meantime it may perhaps be better not to state where the rock comes from

Yours truly
David Lowe

P.S. On second thought I would request to have the Britannia assayed & crushed the first & send the result good or bad by Portland immediately.
