VOLUME TWO.

SILVERTON, BRITISH COLUMBIA, SATURDAY NOVEMBER 5, 1898.

NUMBER 19

THE ENTERPRISE.

Figures About the big Ten Mile Property. Activity at the Wakefield.

GENERAL NOTES OF INTEREST

The longest shute of ore ever uncovered in British Columbia is now being thoroughly and systematically developed at the Enterprise mine on Ten Mile creek, a small stream emptying into Slocan Lake between Silvertown and Slocan City. The only rival to the Enterprise of having the most continuous ore body in the Province is the Payne mine near Sandon the greatest dividend paying mine ever discovered in Canada. The Payne mine lies in the Sandon slate formation and its ore bodies are long, wide and rich, but we doubt if there is a single ore shute as long, without a single break, as the ore shute now being developed in the Enterprise mine on Ten mile. A few figures showing some of the development work thus far accomplished, the length of ore body shown up and the depth at which it is tapped will show that it is destined to be no mean rival to the famous Payne mine.

The Enterprise is situated some eight miles up Ten Mile creek from the Enterprise landing on the lake, with which it is connected by a good wagon road. It lies in a granite formation and is as true a fissure as can be found. The ledge may be called narrow or small, when compared with some of the mammoth ledges found in this section, but the pay-streak is continuous and carries high values, running on an average over 200 ounces in silver and carrying a fair percentage in lead, safely netting the owners \$100. per ton. This paystreak varies from six inches to two feet in width.

It is being developed and worked by a tunnel system, there being now five principal ones, all of which are driven directly on the vein and in ore, with the exception of one cross-cut tunnel that is driven near the upper end of the claim and will tap the vein at a depth of 125 feet. This tunnel will be when completed 133 long and is now in 101 feet. This property can be drained and worked to a depth of 960 feet before it will be necessary to resort to sinking or to erect any kind of machinery. No 1. tunnel is the lowest down the mountain and has only lately been started, but it shows the ore to be the same as in the upper workings, both as to size and value. This tunnel will have attained a depth on the ore body of over 900 feet when its face is directly under the present face of No. 2. tunnel. The longest tunnel so far driven is tunnel No 2 which is in a distance of 770 feet. It has been driven in ore all the way. An upraise has been driven through to No 3 tunnel and measures 183 feet, all in ore, which shows the paystreak to be from ten inches to two feet of clean ore. From No 3 tunnel an upraise has been driven 162 feet, and No 4 tunnel is being driven to cut this raise, there being still 30 feet to drive before the tunnel, which is now in 210 feet, will tap it. All of these raises and tunnels are in ore and as the ore shute can be traced on the surface nearly 2000 feet and No 2 tunnel driven into it, without passing through it, every thing points to its being the longest ore shute yet discovered in the Province.

The Company, to our knowledge has never yet declared a dividend, but it has taken out enough ore in doing this development work to reimburse them for all monies expended on the property. A large amount of ore is now lying in the ore bins at the mine and some 600 tons are in their bins at Enterprise wharf on Slocan Lake, awaiting shipment. Besides this they have shipped over 1000 tons. The property is owned by a syndicate or close corporation of which Mr. Finch, the well known mining man of Spokane, is the head. It is under the management of George Aylard and direct supervision of Mr. DuBoise.

WAKEFIELD NEWS.

J M M Bennedum, who has just come down from the Wakefield mine, where he has been superintending the putting in of their new assay office, was seen by our reporter on Thursday. Mr Bennedum reports the condition of the mine as excellent. The assay office, he said, is only installed to be used in case of emergencies, most of the assaying to be done in Silvertown as formerly. The mine is now employing twenty four miners, six ore sorters and seven outside men and it is not likely that any great addition will be made to this force this winter. The

acomodations at the mine will not allow it and as the company will build new bunk houses at the foot of their proposed new tramway, no new buildings are to be put up at the workings. About 250 tons of ore are already sacked and this pile is being added to as fast as the six ore sorters can fill the sacks. This winter will be one of activity around the Wakefield mines.

Ladies, Take the best. If you are troubled with Constipation, Sallow Skin, and a Tired Feeling, take Carl's Clover Tea, it is pleasant to take. Sold by The Silvertown Drug Store.

MINING LOCALS.

Several miners have been temporarily laid off at the Comstock mines, as the management does not wish to have too much ore broke before the concentrator is in running order.

Development work at the Noble Five mine at Cody is going steadily on and the mine is reported as looking fine. Three air drills are kept at work and the tunnels are each being driven ahead at the rate of six feet a day.

A contract has been let to A. Trebilcock of Sandon to run 200 feet of tunnel at the Canadian Group. The lower tunnel is now in a distance of 400 feet and this additional 200 feet is to be added to it. Mr. Trebilcock was the foreman at the Canadian group at the time of the last shutdown.

The work being done at the Emily Edith mine is showing that property to be one of the biggest concentrating propositions in the Slocan region. Considerable clean ore is encountered, but the management is pushing development, and not at present trying to separate it from the concentrating ore, as a concentrator will eventually be erected and it then can be handled much cheaper than attempting to sort it at present by hand.

Dreadfully Nervous.

Gents—I was dreadfully nervous and for relief took your Carl's Clover Root Tea. It quieted my nerves and strengthened my whole Nervous System. I was troubled with Constipation, Kidney and Bowel troubles. Your Tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Harford Conn. Sold by The Silvertown Drug Store

IS THIS A MYSTERY.

What may turn out to be a mystery of some sort was unearthed near Slocan last Sunday and Recorder Christie has the affair in hand.

A. Brodman, partner of M. Markeson of Slocan City, while making a trip up Slocan river noticed a bundle caught on a small island, just off the mouth of Lemon creek in the Slocan. Mr. Brodman secured the bundle, which proved to be clothing, and carried it to Markeson's shop in Slocan City. Mr. Christie was called in and the pockets of the garments searched. Two pocketbooks were found, one empty the other containing some receipts and the naturalization papers of John McPhoe, dated in Oregon on Oct. 22nd, 1892. The clothing is now held by Mr. Christie awaiting a claimant.

Mr. Markeson gives his opinion of the affair. He thinks that some one has met with foul play and wanted to head a search party to locate the remains. His opinion was not shared by many however. Some prospectors can get his clothes at the Record Office.

POLICE COURT NEWS.

Squire Sprout dealt out justice to two bellicose citizens of Slocan City, last Friday evening, in the Government Offices in that city.

Jackson Rackliff will not be in Slocan City for about thirty days. He got that long with hard labor for assault.

Patrick MacGuire appeared before the court on the charge of d. & d. and the sum of \$5. was mulcted from him for Provincial uses. Pat came to grief over a card game, which was a good excuse, but the Gold Commissioner couldn't see it that way.

RUN OUT.

The Pig-Tails Quit the Mines Around Sandon in a Hurry.

QUIET BUT QUICK WORK DONE.

No more Chi namen are to be allowed around any of the Slocan mines, and those that were here are on their way out, the fiat has been issued and the Slocan miners will see that it is enforced.

Thursday evening about nine o'clock a body of about 50 miners appeared at the Ajax mine, where two Chinamen were employed, and asked for the manager Mr. Wright. They informed him that it was for the best interests of the Slocan mining region that the Chinese should be kept out and that those that had drifted into this section be obliged to leave. The manager and his two Chinamen were then escorted down the hill to the Noble Five Concentrator where another Chinaman has been employed. This one too was persuaded to accompany the miners, who proceeded to Daly'sville at the Payne Tramway where another Chinaman was added to the list. The four Mongolians were escorted to Sandon, where with considerable difficulty beds were procured for them, which were paid for by the miners. The Chinamen were told to hit the trail in the morning and keep going, not to return to any of the Sandon mines. The miners then quietly dispersed.

The whole proceeding, though possibly a little irregular, was conducted in a peaceable and most orderly manner. No threats or abusive language whatever were used. The country is well rid of the Chinamen and the miners are to be congratulated on the success of the undertaking.

A CONTRADICTION.

A statement appearing in the Nelson Miner, purporting to be an interview with a gentleman from New Denver and headed "Labor Panics", has been largely commented upon. We do not know what difficulty this gentleman may have had in procuring labor, but we do know that there is no labor famine in this portion of the Slocan. At least 150 idle men, that want to and will work, can be found between Sandon, New Denver, Silvertown and Slocan City. As for men refusing to work for less than three dollars per day, it is correct and we hope it will always be so. Three dollars is small enough wage, for an honest day's work and we hope it will never be less. We want neither Chinamen or Chinese wages in this country.

For Constipation take Carl's Clover Root Tea, the great Blood Purifier. Cures Headache, Nervousness, Eruptions of the face, and makes the head as clear as a bell. Sold at The Silvertown Drug Store.

THE LOCAL LAYOUT.

J R Wood left for Spokane on Wednesday.

REMEMBER THE SHOW TO-NIGHT IN MCKINNON'S HALL!

Private, bath rooms, at Tom Mulveys. F J O'Reilly is spending a few days in Nelson.

Charles Kessler is down from the Comstock mines.

W J Barker returned to town from the Ymir country on Wednesday.

Vine-nt Lade has gone up to the Wakefield mine to pound steel.

David Matheson, of New Denver, was a visitor in town last Tuesday.

Laundry, neatly and quickly done at Mulveys's Laundry.

The Quadrille Club had another of their enjoyable dances on Tuesday last.

Mrs. Barry who has been visiting her sister Mrs. Frank at Nelson, returned home last Monday.

While making some excavations in the yard of the Royal Hotel, Slocan City, a fine piece of float was unearthed, showing plenty of free gold.

LOST:—A Waterman Ideal Fountain Pen, on Saturday last. Finder will greatly oblige by leaving same at the SILVERTONIAN Office.

S. Daigle has purchased the Bacon cottage and has had it moved onto his lot in the rear of his house. It will be made an addition to his residence.

S. C. McClure, foreman at the Galena Mines, left Monday on a business trip to the Ymir country.

M R W Rathborne left on Tuesday for Whitewater. He has accepted a six months engagement as manager of the

Jackson Mines near that town.

Since Tuesday last we have noticed considerable change in Mate Coulter's actions. We learn that a fourteen pound girl is the cause of it all. Congratulations.

Perre Altavara is back among us, and Silvertown looks natural again. The return of our old timers is a good sign. Perre is a hustler and can spot a coning loom camp as quick as the best of them.

The Win. Hunter Co. have leased the store rooms in the Brommer Block. They find their present warehouse at the wharf too small to accommodate the stock they are compelled to keep on hand.

Hill Bros. barge delivered another load of lumber at the wharf Friday. From one to two full barge loads of lumber a week is required to meet the Silvertown demand, being more than equal to that consumed by all other lake points combined.

Captain Estabrook, late of the ss Hunter, has accepted the position of captain on the new passenger ss Aberdeen on Okanogan Lake. Although pleased to hear of his appointment we regret his leaving the Slocan Lake service of which he was the pioneer captain.

Leslie Hill, manager of the Vanconver mine and Dr. Beh-Livaz, manager of the Comstock mines are making a trip through south East Kootenay. They will examine the Moyie mine, a prominent mining property near Moyie City, adjoining the St. Eugene mine, in which Mr. Hill is interested.

Colonel Lowery, the genius of the Ledge, is contemplating the publication of a monthly magazine in Rossland. The issue will be brought forth under the name of "Lowery's Golden Claim". We hope the Colonel will strike a pay-shute on the surface and never find the bottom of it.

J. A. McDonald, who has been pursuer on the ss. Slocan for some time, has left for the Okanogan country, where he has accepted the position of pursuer on the new C. P. R. ss Aberdeen which is to ply on Okanogan Lake. Mac will go well recommended from the Slocan where he leaves a host of friends.

Silvertown has a visitor in the shape of Lady Zetta, who for a consideration will put the prospectors on to many good things, mines and hidden treasures among the rest. We have not learned whether Lady Zetta holds a free-miner's license in her own name or not. Possibly she doesn't need a silver-lead mine.

George McLean, who lately had charge of the culinary department at the Galena Mines, has taken charge of the dining-room at the Lakeview Hotel. Extensive improvements have been made and every thing is neat, clean and convenient. As George will act as chef himself it is a guarantee that every thing will be first-class.

While one of Anderson & Brady's pack trains were taking a load up to the Comstock mines Thursday, some of the pack animals turned up a trail at the Condor group and in the confusion naturally arising from the taking of a wrong trail by the animals, a valuable horse was crowded off of the trail and tumbled down the mountain. The horse although not killed outright will no doubt have to be killed as he is in a bad place and apparently badly hurt.

The Second Annual Ball of the I O O F given last Friday in Slocan City was an unqualified success. The music was excellent, the floor in first-class condition and the refreshments served were all that could be desired by the most gourmandising. Dancing was kept up to an early hour and the guests who were gathered together from Nakusp, Sandon, New Denver, Silvertown and Nelson, departed well satisfied with the ball. The Order is to be congratulated on the success of their dance.

Carl's Clover Root Tea is a pleasant laxative. Regulates the bowels, purifies the blood. Clears the complexion. Easy to make and pleasant to take. 25c. Sold by The Silvertown Drug Store.

CHURCH SERVICES.

Divine Services will be conducted in the Silvertown Church on the second and fourth Sunday of the month by the Rev. C. F. Yates, at 3 p. m. You are invited, to be present.

Beginning on Sunday, November, 6th the Rev. R. N. Powell will hold services every alternate Sunday at 3 p. m. in the Silvertown Church. In addition to these, services will be held on every alternate Monday evening at 7 p. m., commencing Monday, November 13th. Everyone is cordially invited to attend.

Cure that Cough with Shiloh's Cure The best Cough Cure. Relieves Croup promptly. One million bottles sold last year. 40 doses for 25cts. Sold by The Silvertown Drug Store.

THEY WILL LEAVE MANILA

AGUINALDO GIVES HIS ORDERS

Dewey Refuses to Release the Insurgent Launches, and Says He Will Seize the Steamer Philippine Wherever He Can Find Her Unless Prisoners Were Exchanged.

Chicago, Oct. 30.—A special dispatch from Manila says:

Army officers best informed of the Filipino situation said to the correspondent of the Inter-Ocean that they were practically assured that the insurgents would make no trouble about withdrawing completely from Manila. Orders for their withdrawal came from Malolos and have reached the insurgent commanders.

The negotiations for the exchange of the Spanish and Filipino prisoners drag along slowly, Aguinaldo being preoccupied with the withdrawal of the insurgents from Manila. He told Paterno, the Filipino negotiator, that he was anxious to get rid of the prisoners if the Spanish would promise to release all political exiles.

M. Andre, the Belgian consul, is very hopeful of the success of the negotiations, which will be resumed as soon as the difficulties with the Americans are settled. General Otis and Admiral Dewey are heartily in favor of the exchange.

Aguinaldo sent his representative, Tavera, on Saturday to ask Admiral Dewey to release the insurgent launches and also the steamer Abbie, which brought arms for the insurgents. Dewey refused to do so and told Tavera that he would seize the insurgent steamer Philippine wherever he found her.

The insurgents have four steamboats—the Filipinos, Don Francisco, Tugal and Barog. Admiral Dewey wrote to M. Andre, saying that unless the insurgents agreed to exchange prisoners with the Spanish he would seize all four of these vessels.

WASHINGTON VOLUNTEERS.

Two Battalions Have Sailed for the Philippine Islands.

San Francisco, Oct. 29.—The United States transport steamer Ohio, conveying two battalions of the First Washington volunteers, has sailed for Manila. The troops are commanded by Colonel John D. Wholley.

General Miller rode at the head of the column with Colonel Wholley. At the wharf a substantial luncheon awaited the men, served by the ladies of the Red Cross. Postal cards for last messages to friends were also distributed, as well as flowers and mementoes.

The following promotions have been announced: Company A—To be corporals, Privates Betts, Mitchell, Ackerman; Delano and McGowan.

There was great excitement in the company when it became known that Lieutenant Hinkley had been detached and ordered for service on the ship Tacoma, soon to depart for Manila, via Honolulu, where she will pick up a cargo of cavalry horses transported that far some time ago. It will be some months before he again joins his company.

The regiment left with almost the same number of men originally enlisted at the muster-in, losses by discharge and otherwise equalling the number of recruits added in July. The strength of the two battalions is exactly 800 officers and men. There have been but four deaths in the regiment, the last one taking place Thursday—Private Burnham of Company B.

COLONEL WARING IS DEAD.

Caught Yellow Fever While on Government Duty.

New York, Oct. 30.—Colonel George E. Waring, Jr., died of yellow fever yesterday at his home in this city, where he has been since he arrived from Havana on the Yucatan Tuesday last. He was 67 years of age. His son Guy lived for some years in Spokane, and Okanogan county, Washington.

Dr. Blauvelt, who had been attending Colonel Waring during his illness, was summoned at 1 o'clock this morning. He found Waring had been attacked with black vomit. This symptom continued all morning. Waring died at a quarter to eight. The body was placed in a hermetically sealed coffin and every precaution taken to prevent spread of the disease.

Colonel Waring had just returned from Havana, where he was sent by the government to ascertain the exact sanitary conditions and report the best methods for putting the place in first-class sanitary shape. Waring was apparently well when he left Havana and felt only slightly ill during the latter part of the voyage, but when he reached home he was obliged to take to bed. It was then discovered that he was suffering from yellow fever.

Four Boys Sentenced.

St. Joseph, Mo., Oct. 28.—In the criminal court Herbert Donovan, Alonso Artburn, Charles Cook, James Hathaway and William Hathaway were sentenced to the penitentiary for 10 years for robbing the Burlington passenger train near St. Joseph on the evening of August 11. The robbers are mere boys and are of good families.

Death of Rev. Samuel Mutchmore. Philadelphia, Oct. 31.—Rev. Samuel Mutchmore, one of the prominent ministers in the Presbyterian church, died yesterday at his home in this city.

PRESIDENT'S PROCLAMATION.

Thanksgiving for Glory of Victory and the Hope of Peace.

Washington, Oct. 30.—The president has issued the following thanksgiving proclamation:

"By the president of the United States: A proclamation: The approaching November brings to mind the customs of our ancestors, hallowed by time and rooted in our most sacred traditions of giving thanks to Almighty God for all the blessings he has vouchsafed to us during the past year. Few years in our history have afforded such cause for thanksgiving. We have been blessed by abundant harvests, our trade and commerce have been wonderfully increased, our public credits have improved and strengthened, all sections of our country have been brought together and knitted into closer bond of national purpose and unity.

"The skies have been for a time darkened by the cloud of war, but as we were compelled to take up the sword in the cause of humanity, we are permitted to rejoice that the conflict has been of brief duration, and the losses we have had to mourn, though grievous and important, have been so few, considering the great results accomplished, as to inspire us with gratitude and praise to the Lord of Hosts. We may laud and magnify his holy name that the cessation of hostilities came so soon as to spare both sides the countless sorrows and disasters that attend protracted war.

"I do therefore invite all my fellow citizens, those at home as well as those who may be at sea or sojourning in foreign lands, to set apart and observe Thursday, the 24th day of November, as a day of national thanksgiving to come together in their several places of worship for a service of praise and thanks to Almighty God for all the blessings of the year, the mildness of the seasons and the fruitfulness of the soil, for the continued prosperity of the people, for the devotion and valor of our countrymen, for the glory of our victory and the hope of righteous peace, and to pray that the divine guidance which has brought heretofore to safety and honor, may be graciously continued in the years to come.

"In witness whereof, etc.
WILLIAM MCKINLEY.
By the President, John Hay, Secretary of State."

STRIKE IN REPUBLIC TUNNEL.

Sixteen Feet of Pay Ore Running \$300 to the Ton.

Spokane, Oct. 31.—A quartz lead which rivals in richness and extent that of any ever discovered in America, which has shown already 16 feet of pay ore averaging \$300 to the ton, with promise of a wider lead, is almost at the doors of Spokane. It has been discovered in the Republic mine.

The Republic ledge has been encountered in the long tunnel at a depth of 430 feet, and it assays 15 ounces of gold. The first news of the tunnel encountering the ledge came Saturday evening, when Superintendent Harvey telephoned to the Republic office that the tunnel was just into the ledge and that the first value was \$1. That was not encouraging, but it did not cause the Republic people to lose heart. Early yesterday the great news came that 24 feet of ledge matter had been crossed, of which 16 feet is pay ore, averaging close to 15 ounces in gold, or \$300 per ton.

William Hyde Dead.

St. Louis, Nov. 1.—William Hyde, at one time managing editor of the St. Louis Republic, died Saturday at his home in this city of heart disease. He had been a sufferer from ill health for a long time, and for two months prior to his death had been confined to his home. He was 62 years old and was born at Lima, N. Y. During President Cleveland's first administration Mr. Hyde was appointed postmaster at St. Louis.

Northwest Trap Shooters.

Seattle, Oct. 29.—Tom Ware of Spokane is the king of the northwest trapshooters. Yesterday he won the Post-Intelligencer medal, representing the state championship at inanimates, for the fourth consecutive year, defeating Williamson and McBroom of Spokane, Ellis and Stevens of Seattle and Dr. Smith of Tacoma. In his first string of 25 Ware missed only one, in the second he failed on three, making his total score 46.

Montana Case Decided.

WASHINGTON, Nov. 1.—Chief Justice Fuller has announced the United States' supreme court decision affirming the judgment of the supreme court of Montana in the case of the St. Louis Mining & Milling Company against the Montana Mining Company, involving rights in mining claims.

Emperor William.

JERUSALEM, Nov. 1.—The emperor and empress of Germany are curtailing their visit in the Holy Land. They abandoned the trip to Jericho owing to European complications, and it is also believed that they will not go to Syria.

Terrific Hail Storm.

Mentone, France, Oct. 31.—This district was visited by a terrific hailstorm yesterday afternoon, which is continuing this evening. The stones are of immense size. The olive and lemon crops have been completely destroyed.

Hospital Ship Arrives.

New York, Oct. 30.—The army hospital ship Missouri has arrived from Puerto Rico ports with 271 sick or wounded patients, most of whom are suffering with malarial fever, typhoid and dysentery. Two soldiers died during the voyage.

Five Mussulmans Executed.

Candia, Crete, Oct. 30.—Five more of the Mussulmans convicted of taking part in the massacre of British soldiers September 6 were executed yesterday.

ALL CUBANS WANT OFFICE

TWO FACTIONS AMONG THEM.

Two Thousand Insurgents With Their Officers Are Claiming for Office at Santiago—General Wood Trying to Control Their Factional Troubles.

Manzanillo, Oct. 31.—The visit of General Leonard Wood, governor of the military department at Santiago, has been instrumental in bringing all the elements among the Cubans to the front. No fewer than 2000 insurgents, of whom 700 are officers, want offices, and their clamor amounts almost to a demand. There are two leading factions, one headed by General Jesus Rabi, and the other by General Rios. At present most of the offices are held by representatives of the Rabi faction, including the mayoralty and custom house inspectorship. General Wood, in order to pacify the Rios faction, has given them six positions in rural police forces and turned over to one of their people the lighthouse at Cape Cruz, together with several other minor appointments. But neither party is satisfied, each thinking that it ought to have all the offices. General Rios does not dare express his opinion publicly on General Rabi, but he feels that this is his district, as he has had the nominal charge of it for three years and that it ought to belong to him as far as appointments of Cubans to office are concerned, and all the more so because he represents General Oaxico Garcia.

Cubans Will Not Work.

The majority of the insurgents here have no money, and go about living from hand to mouth wondering what will happen next. Armed men are not allowed rations. As the Cubans will not disband and will not work, nothing remains but for them to strut about the city with machetes and revolvers. Some of them are nearly naked, others appear in long-legged patent leather boots with silver spurs, carrying superbly wrought Toledo machetes. A few wear immaculate white suits and Panama hats. They are for the most part the New York contingent, each man now a veritable bombasto furioso.

Except when he is on board the gunboat Hist, which brought him here, General Wood is besieged by these seekers of office. Among the interviews he has had was one with General Rios, who wanted the mayor of Manzanillo, one of Rabi's faction, dismissed and his own man appointed. General Wood asked on what grounds the dismissal could be sustained. He said: "Is not the mayor a competent officer? Has he not an excellent reputation? Did he not serve bravely and effectively throughout the war?"

To all this General Rios replied in the affirmative, but he insisted that his own nominee was entitled to the position because he was a Rios man. The interests of the city and locality were apparently minor considerations in the mind of the Cuban commander. But this appears to be the case everywhere among the Cuban insurgents.

ALL AROUND MARKET REPORT.

Wheat Quotations, Wool Figures, and the Price of Produce.

Following are the local quotations. Wholesale prices are given unless otherwise quoted:

Wheat at the warehouse—Country points: Club, bulk 47c, sacked 48c; bluestem, bulk 50c, sacked 49c. At Spokane: Club, bulk 48c, sacked 49c; bluestem, bulk 51c, sacked 52c.

Oats—At Spokane, f. o. b., \$19 per ton. Barley—Country points, f. o. b., 75c @ 80c per cwt.

Rye—Country points, f. o. b., 70c per cwt; Spokane, 85c per cwt.

Flour, per barrel—Gold Drop, \$3.75; Big Leaf, \$4.15; Banner, \$3.50; Planifier, \$4; Super, \$3.75; Spokane, \$3.50; Swan Patent, \$4.15; Snowflake, \$3.75; White Lily, \$3.50; whole wheat, \$4; rye, \$4.25; Graham, \$3.50.

Feed—Bran and shorts, \$11 per ton; shorts, \$12; bran, \$10; rolled barley, \$20; chicken feed, \$16@20.

Hay—Timothy, \$8 per ton; baled timothy, \$10; wheat hay, \$7.50@8.50; oat hay, \$7.50; alfalfa, \$10.

Corn—Whole, \$23; cracked, \$24.

Wool—Fine medium, @7c per lb; medium, 5@6c per lb.

Produce—Fancy creamery butter, 40 and 60-lb tubs, 28c per lb; 5, 10 and 20-lb tubs, 26c per lb; prints, 25c per lb; country butter, in rolls, 18c per lb; cooking butter, 10c lb; eastern creamery, prints, 25c; cheese, twin full cream, 12c lb; cheese, twin, skim milk, 9c@10c lb; ranch eggs, \$0.25@0.50; selected eggs, \$0.75; honey, white comb, 13c per lb; fancy, 14c per lb.

Vegetables—Potatoes, 75c@80c per cwt; cabbage, \$1.50@1.75 per cwt; turnips, \$1 per cwt; onions, 75c@90c per cwt; beans, 1c@1 1/2c per lb; carrots, \$1 per cwt; beets, \$1.25 per cwt.

Poultry—Chickens, live weight, 10@11c lb; dressed, 12@13c; spring broilers, \$2.25@3.75; turkeys, live 10@11c, dressed 12@13c; spring ducks, dressed \$4@4.50 doz; geese, live 10@11c, dressed 12@12 1/2c; wild ducks, 25@50c; pheasants, 30@35c.

Meats—Beef cows, live \$2.50@2.75, dressed \$5@5.50 cwt; steers, live \$2.75@3, dressed \$5.50@6; hogs, live \$4.50@4.75, dressed \$6@6.50; mutton, live 4@4 1/2c, dressed 7@8c; dressed veal, 7@8c; lamb, 12c whole; venison, 10@20c per lb.

Wheat.

Portland, Or., Oct. 29.—Wheat—Walla Walla, 60@61c; valley and bluestem, 63@64c; little selling; quotations are nominal.

Tacoma, Oct. 29.—Wheat—Club, 59c; bluestem, 62@63c.

Metals.

San Francisco, Oct. 29.—Bar silver, 59 1/2c.

Mexican dollars, 47 1/2c.

Lead, \$3.50.

WILL NOT PAY CUBAN DEBT.

Spain Has Given That Up—The Commissioners Firm.

Paris, Oct. 28.—The American commissioners have firmly but courteously declined to assume for the United States the entire or joint responsibility for the Spanish financial conditions, and the Spanish commissioners have finally abandoned their efforts and have agreed that the Cuban article of the protocol shall, without conditions, have place in the ultimate treaty of peace. Thus Spain agrees to relinquish sovereignty to Cuba without either terms or conditions.

All differences, if any existed, regarding Puerto Rico and the selection of the island of Guam were also arranged by mutual understanding, and the commissioners found themselves well nigh touching the Philippine question, which will be taken up next week.

The session of the joint commissioners, which began yesterday at 2 p. m., ended at 4 p. m.

One American Concession.

Washington, Oct. 28.—News of the Spanish concessions at Paris were received here with satisfaction. Inquiry in official circles developed the fact that the one concession as to Cuba our commissioners will make will be to guarantee for the United States that life and property shall be secure in Cuba. This responsibility the United States will assume only until such time as a stable government shall be operative in Cuba.

CATTLE ON WESTERN RANGES.

Wonderful Increase in the Number of Calves.

Salt Lake, Oct. 28.—William Penn Anderson, of the railroad bureau of live stock statistics, Union Stock Yards, Chicago, has just completed a canvass of the range cattle in the country for the Associated Press. He says all along from southern Texas to northern Montana the grass on the ranges, with the exception of a few drouthy spots in the fall, was excellent. An abundant hay crop was harvested, and a greater number of cattle, in proportion, will be sustained through the coming winter than ever before.

There is a wonderful increase in calves, a gain of from 10 to 20 per cent over the season of 1897 being found, as shown by the records of "round up" foremen on the open ranges. The movement of cattle and sheep to feed lots and other eastern markets during October is almost without parallel. There is a veritable stock-car famine in the Rocky and intermountain states. There are thousands of cattle being held in close herd waiting shipment. Telegraphic reports from the principal range shipping points in Montana and the northwest are favorable as to weather.

MILLS DESTROYED BY FIRE.

Loss of Several Hundred Thousand Dollars at Vancouver.

Vancouver, B. C., Oct. 27.—Fire broke out yesterday morning at 3 o'clock at the Hastings sawmill and entirely destroyed it. Two hundred and fifty men are thrown out of employment. The mill was one of the most complete on the Pacific coast, having a capacity of 300,000 feet a day, or 9,000,000 feet per annum. All the valuable machinery was destroyed, as well as the wharf and company's mills. The owners are the Royal City Planing Mills Company, and the loss will amount to several hundred thousand dollars. Three lumber ships were saved by strenuous efforts.

Troops After Indians.

Denver, Oct. 31.—A special from Vernal, Utah, says:

Reports from over the line in Colorado are that the troops from Fort Duchesne are still in pursuit of the runaway Utes but the redskins have thus far eluded them. It is reported that Game Warden Wilcox is gathering a force of cowboys to drive the Indians back. The Indians have announced their intention to kill a ranchman named Thompson, who lives in the vicinity of the tragedy of last year and who the Indians believe betrayed them to the state authorities.

A Murderer's Defense.

San Francisco, Oct. 31.—In view of the fact that the Tennessee regiment was leaving for Manila the depositions of several witnesses in the Walter Rosser murder case were taken Saturday. The testimony was all in Rosser's favor, the witnesses telling of his previous good standing and orderly conduct. One or two soldiers who were with him on the day that he murdered Henry Hildebrand said that Rosser had been drinking and that he appeared to have been drugged. General W. H. L. Barnes, who has undertaken the defense of Rosser, will make his plea for his client on these lines.

Have Reached Jerusalem.

Jerusalem, Oct. 31.—Emperor William and Empress Augusta Victoria, with their suites, arrived in perfect health at the encampment outside the town Saturday.

At 11 o'clock their majesties entered the Jaffa gate and at 3 o'clock visited the Church of the Holy Sepulchre. The streets presented a lively appearance and the buildings were lavishly decorated.

Mrs. Botkin Arraigned.

San Francisco, Oct. 31.—Mrs. Botkin was formally arraigned before Judge Carroll Cook Saturday upon an indictment filed by the grand jury charging her with the murder of Mrs. John P. Dunning of Dover, Delaware. Mrs. Botkin pleaded not guilty and the case was held over until Saturday next to be set for trial.

New Central American Republic.

New York, Oct. 28.—The Herald's correspondent at Managua sends word that the provisional federal government of the United States of Central America, composed of the republics of Nicaragua, Salvador and Honduras, will be inaugurated at Amapia, the provisional capital, on November 1.

HOME AND FOREIGN NEWS

ITEMS FROM FAR AND NEAR.

The Minor Occurrences of the World in Brief Paragraphs—Accidents and Crime—Business Affairs and Interesting Events—Notes of Miscellaneous Happenings.

It is reported that several large vessels have been engaged on French account to load grain at American ports.

Extraordinary precautions are being taken to ensure the safety of Emperor William in Palestine, and a well known anarchist is under arrest.

An order has been issued by the war department relieving from further duty in the volunteer army James G. Blaine as captain and assistant adjutant general. At the expiration of a 60 days' furlough he will be mustered out.

John Stephenson & Co., the car building firm, have been placed in the hands of receivers on proceedings for voluntary dissolution. The liabilities are approximately \$700,000. The cause of the firm's failure, it is said, is the enormous outlay of money on the new plant just completed at Rahway, N. J.

Excitement over the discovery of a gold mine near Malvern, Ohio, continues unabated. The big crusher is nearly ready for operation.

A report that President Faure of France was assassinated proved to be untrue.

Dr. Koch, who has been attending the victims of the bubonic plague in Vienna, together with Herr Hegger, another of the nurses, have developed symptoms of the disease.

Rear Admiral J. N. Miller, commanding the Pacific station, will be retired November 22 by operation of the law on account of age. Commodore Albert Kautz, recently in command of the naval station at Newport, is now on his way to San Francisco to relieve Admiral Miller.

Terrific storms have swept over Macedonia, doing an enormous amount of damage and causing considerable loss of life. In one instance they struck a caravan, consisting of 400 persons, 100 of whom were engulfed in the River Galice and drowned.

The Turkish troops in Crete began evacuating the island last week.

Timber wolves are more numerous this fall in Michigan than in many years.

The army is short of staff officers and no more will be mustered out at present.

Rich diamond discoveries in Western Australia are attracting thousands of miners.

Terrible loss of life has been caused by typhoons and sand storms in the Orient. General Lee will command the first expedition to Cuba, unless he asks to be relieved.

This year's crop of peanuts in Virginia promises to be very large and of fine quality.

The cost of guns alone for United States coast defense during the war was \$4,821,000.

United States Senator Proctor of Vermont, has been re-elected by the legislature.

The coal mining town of Wellington, Vancouver island, is sinking, and a great disaster is feared.

France seems to be preparing for war. She is fully manning all her coast forts and mobilizing her fleet.

The report that Li Hung Chang had been married to the empress dowager of China was a newspaper joke.

There are seven United States transports in the harbor of San Francisco, waiting to convey troops to Manila.

Secretary Long will ask congress to increase the number of sailors allowed for the navy from 12,500 to 20,000.

Six thousand distressed farmers recently invaded Tokio, Japan, and petitioned for an extension of the period of tax exemption.

President McKinley has ordered that Jefferson Barracks, St. Louis, be made a large military post as any in the country.

Reports from consuls show that American imports into China continue to increase, while those of all other countries decrease.

At Pittsburg, Pa., last week, at night, Corcoran brothers cut away 6 feet of a double frame house which encroached on their land.

"Billy" Walker, the pugilist, who was knocked out by "Andy" Dupont at Omaha, died after having been unconscious fifty-six hours.

The United States transport Berlin sailed for Santiago, Cuba, from New York with 500,000 rations for starving Cubans.

The war department has issued a compilation of notes on the Philippines, both historical and geographical.

Swedish papers state that traces of Prof. Andree's balloon polar expedition have been found in Franz Josef land.

General Otis has cabled the war department from Manila that the better class of Filipinos do not want independence.

The cruisers Hannibal and Hornet and the monitors Puritan and Terror have been laid up in reserve at Norfolk navy yard.

Last Sunday the Cubans at Santiago celebrated the thirtieth anniversary of the declaration of Cuban independence.

The Vermont legislature has passed an act making a bounty on wolves, panthers and bears, \$12; lynx, \$5; foxes, 60c, and rattlesnakes, \$1.

President Ruffly of the Swiss confederation, still continues to receive threatening letters from anarchists, and is closely guarded by the police.

At Boston, Mass., Patrick Rosch and John Crice quarreled on the roof of a four-story building, grappled each other in a fiendish struggle, fell to the ground and died.

President Lawrence of the Ohio Wool-growers' association, advocates a combination of cotton planters and woolgrowers to bring about a high tariff on raw materials.

At San Francisco, Cal., Franklin Brown,

a hypnotist of note, died at the German hospital. He tried to hypnotize a lion several months ago, but the animal bit him, causing blood poison.

Recent statistics show that under 15 years there are more boys than girls, but over 75 years there are more women than men, and from the ages of 90 to 100 the proportion is about three to two in favor of the women.

At the recent New York meeting of the directors of the O. R. & N. Co., these gentlemen had a conference with the ruling powers of the Northern Pacific railway, the result of which conference is said to have been an agreement to a plan whereby the recently talked of "cut off" of the Northern Pacific through the Bitter Root mountains is to be built by the Northern Pacific and the O. R. & N. jointly and to be operated by them in a similar manner.

The distribution of fire rations in Santiago province is demoralizing the Cubans.

"Wild Bill" Turner, a desperate mountain character of Kentucky, has been killed.

All the British North American squadron has been ordered to mobilize at Halifax.

The United States supreme court has decided that a live stock exchange is not a trust.

Another fierce battle has been fought between Japanese troops and native savages in Formosa.

A Newark, N. J., inventor is experimenting with a propeller which works upon the principle of the tail of a fish.

The right of Puerto Ricans living in this country to American citizenship is to be tested in the New York courts.

Don Carlos is expected to issue his promised manifesto soon, reaffirming his right to the crown and throne of Spain.

The belief is strengthening in Washington that the Spanish-American peace negotiations at Paris will be deadlocked.

The judges of the Puerto Rican supreme court have received American naturalization and been reintegrated into office.

The apple crop of the United States this season is smaller than it has been since reliable statistics have been gathered.

Havana will not be occupied by the United States military forces until the date set for the ending of Spanish sovereignty in Cuba.

General Lee's army will start for Cuba in about two weeks. The first expedition will land at Matanzas, fifty miles from Havana.

The overflow of the Yellow river in China drowned 2000 people, and left 100,000 homeless, besides utterly destroying all growing crops.

The panic in Vienna and other parts of Austria caused by the fear of an epidemic of the black plague is assuming wide proportions.

Kaslo & Slocan Railway.

TIME CARD.

Time card No. 2, taking effect at 1 o'clock a. m., September 1, 1898, Pacific or 120th meridian time.—First class passenger trains:

Every Action

And every thought requires an expenditure of vitality which must be restored by means of the blood flowing to the brain and other organs. The blood must be pure, rich and nourishing. It is made so by Hood's Sarsaparilla which is thus the great strength-giving medicine, the cure for weak nerves, scrofula, catarrh, and all diseases caused by poor, impure blood.

Hood's Sarsaparilla
Is America's Greatest Medicine. \$1: six for \$5.
Hood's Pills cure indigestion. 25 cents.

WE WILL HOLD THE ISLANDS

SPAIN HAS BEEN NOTIFIED.

The Peace Commission Has Presented in Writing the Statement of the Intention of the Americans to Hold the Philippine Islands, Assuming Part of the Debt.

Paris, Nov. 1.—At the meeting of the peace commission yesterday the Americans presented the written expression of the purpose of the Americans to take the entire group of Philippine islands and to assume such proportion of the Philippine debt as had been incurred for the benefit of the islands in public works, improvements and permanent betterments.

It was also set forth that the United States would not assume any part of the Philippine debt which had been incurred by Spain for the furtherance of military or naval operations to quell insurrections of the natives.

The session was adjourned until Friday, in order to give the Spaniards time to prepare a reply. The session lasted a little over an hour.

Ten State Tickets in Colorado.

DENVER, Col., Nov. 1.—The time allowed by law for making changes in the state tickets has expired. The middle-of-the-road populists will have no state ticket, the court having decided, at the last moment, that the party has no standing. There are ten state tickets, but only four candidates for governor.

While You Sleep.

Do not have too much air blowing through your room at night, or neuralgia may creep upon you while you sleep. But if it comes, use St. Jacob's Oil; it warms, soothes and cures promptly.

Much has been said of late in regard to the wholesomeness of apples, and a Paris specialist says that women who want to have clear complexions ought to eat three or four apples a day. They act on the liver.

The number of blind persons in Australia in proportion to the number of the population is considerably less than in most other countries.

REPORTS ARE GOOD AND BAD.

Lemhi Indians Are Worthless, but Many Others Are Doing Well.

Washington, Nov. 1.—The majority of annual reports of Indian agents to the commissioner of Indian affairs are of encouraging nature and indicate progress generally along civilized lines.

Some of the reports, however, are not so gratifying, and make some surprising statements. Unusual in the annual report is the following arraignment in the report of the Lemhi Indians in Idaho. He says:

"They are addicted to gambling, horse-racing and dancing and the influence of the so-called medicine man operates to the disadvantage of the tribe. Their real advancement has not been what it should or what it was possible to have been under the circumstances. In the agent's annual report for 1882 on the Lemhi reservation I find 29 Indian families were engaged in farming; 15 years after I can report but 41 following agricultural pursuits, an increase of 12, not one convert a year."

Agent Fuller of the Blackfoot agency, Montana, referring to the opening of the ceded portion under mineral land laws last April, says prospecting has been practically fruitless and predicts abandonment of the so-called mineral strip before the first of November.

CIENTFUEGOS IN BAD SHAPE.

The Sanitary Conditions There Are Wretched.

Havana, Nov. 1.—Major Almy and Captain Page returned here from Cienfuegos. They report the sanitary conditions there as bad, especially at quarters and camps occupied by the Spanish soldiers. Reports of skirmishes between Spaniards are incorrect.

It is understood that eight battalions of troops remaining along the Jucaro military line will arrive at Cienfuegos this week preparatory to being embarked for Spain. In all about 25,000 troops are expected to concentrate at Cienfuegos for embarkation home.

The Spanish mail steamer Puerto Rico sailed from Cienfuegos Wednesday carrying 1000 troops.

The Cuban delegates who have been in session at Santa Cruz del Sur are expected to continue their sessions at Marino.

The government has ordered officers and soldiers who are evacuating Cuba to be paid in preference to other obligations.

Caught in Yukon Ice.

San Francisco, Nov. 1.—Ice was making on the Yukon and there was thin ice at Dutch harbor when the Portland sailed on October 11. The tug Sadie has gone into winter quarters at Dutch harbor. At least a dozen river steamers are stuck on sand bars in the Yukon and all will probably be lost. The Dawson City is a total wreck. The Herman and Tacoma are aground and the other boats are in such perilous positions that when the ice breaks up they may go to pieces.

Fire Loss of Half a Million.

Bombay, Nov. 1.—The great fire in Serinagar, one of the capitals of Cashmere, in the vale of Cashmere, destroyed all the public buildings and many residences yesterday. One man was killed. The damage is estimated at 10 lakhs (\$500,000).

The Stoneware Trust.

AKRON, O., Nov. 1.—It is announced that a combination representing 85 per cent of the entire production has been formed to control the production of white, black and salt glazed stoneware in the United States. R. F. Kent of Akron is president of the concern.

Mining Notes.

Several men left Wallace, Idaho, to commence work on the buildings for the workmen engaged in putting in the new tunnel for W. A. Clark on Sunset park.

The dredging plant of the Bon Accord Company at Bannack, Mont., is said to be a total wreck. Last week the boat sank, submerging the machinery, and on Saturday night the boat turned over, and it is not thought that anything can be saved.

The proposed site of the Washoe smelter, east of Anaconda, has been jumped by a man named Graham, who has staked out a quartz location, which he calls the Waterloo, and is sinking a shaft upon the ground, which he claims contains mineral. The location notice was posted upon the property October 10, but it is claimed it has not been filed in the office of the county clerk and recorder.

The pending deal involving the Seven Devils copper properties, in Idaho, that has been in progress of completion for four weeks past, is reported to have been consummated. The deal involves the building of a railroad into the vicinity of the Peacock mines from Weiser, and it is said that the railroad must be begun within 60 days and pushed rapidly to completion. The railroad reaches a point within 3000 feet in elevation from the Peacock.

Near Three-Mile creek, a short distance above Virginia City, Mont., Dr. F. F. Ellis has a prospect which is making a most excellent showing. It is called the Iron Wedge. Years ago the float from the ledge was found by prospectors, and time and again the lead has been prospected for, but with no success until the past few months. Now 40 feet of tunneling has been run, which exposes an ore body four feet in thickness, assays of which go into the hundreds.

Last week a land office decision was made by Register William H. Ludden and Receiver S. A. Wells involving the land near Cheney, on which mineral strikes have lately been made. Samuel T. Mal-moe made homestead entry for the south-east quarter of section 32, township 24 north, range 42 east. The decision today gives him only 50 acres in the western part of the quarter section. On this he makes final proof. The rest of the land on the contest of George W. Engle and a number of others was declared mineral.

SAVING SPANISH CRUISERS

HOBSON WISHES TO TRY IT.

He Thinks That the Colon and Vizcaya Can Be Raised and Docked for Less Than a Million Dollars, and Desires to Head a Wrecking Company.

Washington, Oct. 31.—Naval Constructor Hobson arrived in this city Saturday. He appeared before the board of naval chiefs for the purpose of explaining the condition of the Spanish ships wrecked off the coast of Santiago and the progress and prospects of efforts which are making for their recovery. It is said over a million dollars will be required to continue the operations.

Constructor Hobson was with the board all the afternoon and gave a great deal of detailed information as to the condition of the wrecks. He was certain it was useless to continue the wrecking company any longer, and that conditions did not permit the \$800 per day paid them.

Constructor Hobson said that in his opinion the Colon and Vizcaya could be raised and brought to dry docks at New York or Norfolk at a cost of \$500,000 for one and \$400,000 for the other, and possibly they could be brought in for \$400,000 each. The government would, of course, take the risk of spending \$200,000 on each of the vessels and in the end might find it was unable to raise them.

Mr. Hobson wanted to be placed at the head of a wrecking company which he should organize and be authorized to expend \$800,000 or \$900,000 on the two vessels. He said the hull of the Vizcaya was intact and proposed to build a cofferdam around her and bring her to the surface after making repairs necessary to float her. Mr. Hobson also gave the bureau chiefs information regarding the Reina Mercedes and the Merrimac. The former could be easily raised, he believed, for it was apparent that she had been only slightly scuttled. The Merrimac could be raised and he said she must be removed from the mouth of the harbor.

WASHINGTON.

Kittitas county has shipped 60,000 sheep this year.

R. H. Andrews of Centerville has just sold 1500 head of ewe sheep to a party in The Dalles for \$2.50 a head.

Flerchinger Bros. of Asotin county have brought their sheep out of the Blue mountains and will drive them down to Sheep gulch, on Snake river, where thousands of sheep find pasturage all through the winter on the hillsides.

Not in five years have there been so few idle men in Ellensburg. It is almost impossible to get a man to do odd jobs and the services of all classes now have to be engaged far ahead.

Ex-Marshall Parker, of Fairhaven, who departed for South America with about \$40,000 of the city's funds a few years ago, is said to be in Dawson City. John De Fries, in a letter to Mrs. De Fries, says he saw Parker on September 10.

The Washington State Dairymen's Association will hold its annual meeting at Ellensburg on December 28 and 29. J. L. Smith, Spokane; B. F. Reed, J. P. Sharp, R. P. Tjossens and J. C. Goodwin are the committee on arrangement, finance and reception.

State Grain Commissioner Wright said the other day: "I find there will be a large number of farmers throughout the state who will do summer fallowing next season, and give their land a year's rest. If they do so, they can afford to hold their present crop for many months, and then, if there should be a shortage in the southern countries, they can sell at an immense profit."

The commissioners of Kittitas county made the following levy at their meeting last week: For county current expenses, 4 mills; for county bond interest, 2.5 mills; for county road, .5 mill; for county bridge, .5 mill; general state purposes, 2.7 mills; general school purposes, 3 mills; general military purposes, .2 mill; general interest, .2 mill. Salaries of county officers, \$16,045; superior court expenses, \$3500; justice court, \$810; sundry county expenses, \$8525. Total, \$29,930.

Ex-Treasurer Lockwood of Pacific county, who recently returned to South Bend and surrendered himself for trial on a charge of embezzling county funds, had a hard time of it during the six months he was a fugitive from justice. He waited on table at Victoria, B. C., for a starter. Then he went to California, and visited 19 counties in his search for work. The places he held were: Driver of a four-mule team in a logging camp, poll tax collector, cherry-gatherer in an orchard at 50 cents a day, cook in a San Francisco saloon, and kitchen man at a summer resort.

A Beautiful Girl's Affliction.

From the Republican, Versailles, Ind.

The Tuckers of Versailles, Ind., like all fond parents, are completely wrapped up in their children. Their daughter Lucy, in particular, has given them much concern. She is fifteen, and from a strong, healthy girl, three years ago, had become weak and kept falling off in flesh, until she became a mere skeleton. She seemed to have no life at all. Her blood became impure and finally she became the victim of nervous prostration. Doctors did not help her. Most of the time she was confined to bed, was very nervous and irritable, and seemed on the verge of St. Vitus' dance.

"One morning," said Mrs. Tucker, "the doctor told us to give her Dr. Williams' Pink Pills for Pale People, which he brought with him. He said he was treating a similar case with these pills and they were curing the

patient. We began giving the pills and the next day could see a change for the better. The doctor came and was surprised to see such an improvement. He told us to keep giving her the medicine. We gave her one pill after the other until eight boxes had been used when she was well. She has not been sick since, and we have no fear of the old trouble returning. We think the cure almost miraculous."

FRANK TUCKER.
MRS. FRANK TUCKER.

Subscribed and sworn to before me this 28th day of April, 1897.

HUGH JOHNSON,
Justice of the Peace.

These pills are wonderfully effective in the treatment of all diseases arising from impure blood, or shattered nerve force. They are adapted to young or old, and may be had at any drug store.

ENGLISH NAVY IS ALERT.

Government Assembling an Emergency Squadron.

London, Oct. 31.—There has been the greatest activity at Devonport, the site of the largest arsenal in Great Britain, and two of the finest dry docks in the world. The government is assembling an emergency squadron, which it is understood will go to Gibraltar. Despite that the wind has been blowing almost a gale the second class battleship Colossus arrived from Holyhead; a first class battleship came from Queenstown and the first class battleship Ben Bolt from Greenock. The third class cruiser Calliope, which was on the way to the Canaries, was intercepted and returned unexpectedly to Plymouth. Other warships are coming to join the squadron and to coal. The government has ordered 200,000 tons of coal.

Artillery for Havana.

Boston, Oct. 31.—The transport Mississippi, with four batteries of the First Maine heavy artillery, sailed last evening for Savannah and will probably go to Havana.

Sail for Manila.

San Francisco, Oct. 30.—The transport Zealandia, with the first and second battalions of the First Tennessee regiment, comprising 590 men, sailed yesterday afternoon for Manila.

Exports of Wheat and Corn.

Philadelphia, Oct. 31.—More than 600,000 bushels of wheat and corn cleared the custom house Saturday on steamers bound for European ports.

Jeff Gray Arrested.

Boise, Idaho, Oct. 30.—Jeff Gray, the man who it is now claimed shot Wilson and Cummins, for killing whom "Diamondfield" Jack Davis is under sentence to hang, has been arrested and is in jail at Albion.

Just the Time.

This is just the time of the year we feel the muscles all sore and stiff, and then is just the time to use St. Jacob's Oil to relax them and to cure at once.

Spain has greater mineral resources than any other country in Europe, including iron, copper, zinc, silver, antimony, quicksilver, lead and gypsum.

ATTEMPT TO WRECK A TRAIN

A RAIL PLACED ON THE TRACK.

The West-Bound Overland on the Great Northern Railway Derailed Near Odessa While Trying to Make Up Lost Time.—No One Injured.

Wenatchee, Wash., Oct. 31.—Conductor Miller of the Great Northern train which arrived here about 9 o'clock Saturday evening, tells of an attempt to wreck the train, probably by thieves bent upon robbery.

The westbound passenger was running at full speed to make up time. It was an hour behind the schedule time and was reeling off the distance at the rate of fifty miles an hour. About 7 o'clock, at about four miles east of Odessa, the engineer felt his machine jar and then it began to bump along the rails, running 300 yards before it could be stopped. The train hands went back and found that a 30-foot steel rail had been taken from the side of the track, where a supply is left for repairs, and placed across the rails at right angles.

When the pony truck struck the obstruction it was thrown from the rails, but the big drive wheels clipped off one end of the steel rail intended to hurl the train from the track, and in an instant an offending piece of steel flew past the engine cab and the balance of the rail was pushed off on the other side. The train ran a quarter of a mile, the front trucks bumping along on the ties, but the drivers keeping in their position.

After the train hands put out warning signals for approaching trains from either end the engine trucks were hoisted upon the track and the passenger came on to Wenatchee.

In the vicinity of the wreck there are numerous coulees, and it is believed the men who placed the rail on the track did in one of these, expecting in the excitement and confusion of a disastrous wreck to rob the train.

The Seattle city officials who have been visiting Spokane were aboard in the Wagner car, and there were 30 or 40 other passengers.

Detectives will be put to work to fathom the case, and if possible catch the offenders.

Coal is dearer in South Africa than in any other part of the world. It is cheapest in China.

THE DUTY OF MOTHERS.

Daughters Should be Carefully Guided in Early Womanhood.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

The following letter from Miss MARIE F. JOHNSON, Centralia, Pa., shows what neglect will do, and tells how Mrs. Pinkham helped her:

"My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my side and back. I was also troubled with irregularity of menses. I was very weak, and lost so much flesh that my friends became alarmed. My mother, who is a firm believer in your remedies from experience, thought perhaps they might benefit me, and wrote you for advice. I followed the advice you gave, and used Lydia E. Pinkham's Vegetable Compound and Liver Pills as you directed, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."

Dr. Lukens, The Old Reliable Specialist.
OLDEST in experience—RICHEST in medical knowledge and skill—CROWNED with 25 YEARS of unparalleled success—the sufferer's friend—the people's specialist. He has cured thousands and can cure you. All Chronic, Nervous, Blood and Skin Diseases, Stricture, Gleet, Varicocele, Rupture, Piles, Gout, Cancer cured without cutting or detention from business. Dr. Lukens treats all curable chronic and difficult diseases at the home of the patient with unfailing success. If you cannot call, write your symptoms for the most perfect mail system. Advice free. Kline-Rosenberg building, No. 425 Front Ave., Seattle, Washington.

It Can Be Made to Go.
"The melancholy days have come"; has rheumatism come with them? It can be made to go right off by the use of St. Jacob's Oil, which cures and leaves no trace behind.

MEN-OF-WAR FOR MANILA.

Dewey Says There Is Need of Light Draft Gunboats.

New York, Oct. 30.—A dispatch to the Herald from Washington says:

Two more men-of-war will probably follow the auxiliary cruiser Buffalo to the Asiatic station. Orders have already been given to the gunboat Helena to prepare for her long trip through the Suez canal to the far east, and as soon as she is ready she will start.

Rear Admiral Dewey has impressed on the department the necessity of having a large number of light draught gunboats among the Philippine islands. The Yorktown, it is understood will be placed in commission on the Pacific coast and start for Manila.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Address: P. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

The smallest book ever printed is the story of Perrault's little "Hop-o-my-Thumb," lately published. The book is one and one-quarter inches thick. It can be read only by the aid of a microscope, but is complete in every way, and has four engravings.

When coming to San Francisco go to Brooklyn Hotel, 208-210 Bush St. American or European plan. Room and board \$1.00 to \$1.50 per day; rooms 50 cents to \$1.00 per day; single meals 25 cents. Free coach. Chas. Montgomery.

A new catalogue of the higher plants of North America north of Mexico has 14,534 entries, including 15 palms and 210 orchids.

No household is complete without a bottle of the famous Jesse Moore Whiskey. It is a pure and wholesome stimulant recommended by all physicians. Don't neglect this necessity.

The United States is about the only country which has no established harvest customs. In some parts harvest celebrations are held, but we have no traditions such as they have abroad.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FREE 25-cent bottle and treatise. DR. R. H. KLINE, Ltd., 26 Arch Street, Philadelphia, Pa.

The largest organ in the world is in the Cathedral of Seville, Spain. It has 58 pipes and 110 stops.

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. All druggists refund money if it fails to cure. 25c.

It was stated in a London police court recently that 8 or 9 shillings a day can be made by begging.

I shall recommend Piso's Cure for Consumption far and wide.—Mrs. Mulligan, Plumstead, Kent, England, Nov. 8, 1895.

Law court records show that the defendant wins his case in 47 out of every 100 cases tried.

In the fall cleanse your system by using Dr. Pfunder's Oregon Blood Purifier. Theatrical posters must have the approval of a committee of the city council in Hartford.

Use Dr. Pfunder's Oregon Blood Purifier now. The screw of an Atlantic liner costs about \$20,000.

Try Schilling's Best Tea and Baking Powder.

Members of the Mexican board of health have just imported from Europe an X-ray apparatus. It is to be used for inspecting cans of preserved meats and fruits, "to determine if they are fit for consumption."

Boston has a municipal telephone exchange.

You cannot buy Schilling's Best tea except in packages.

THE PRODIGAL'S RETURN.

Jest got a letter here from Joe, our boy, that said he'd got disgusted livin' on the farm an' guessed he'd take a trot into the busy, rushin' world, an' try to make a name. That in the comin' years'd be close coupled up with fame. He'd got a irresistible desire to gather wealth. An' said that if he held his grip on his surprisin' health. He'd some day take us all to town to wear store-boughten clothes, An' with the upper-teethers jackan eleven nose.

We tried to turn him from his course with calm advisin' words, But might as well have chattered to the little dickie birds. For Joe was set in all his ways, an' when he'd fix a pint. A stroke o' lightning couldn't knock his 'rangements out o' flint. An' so we told him he could go but we'd be sure to catch the stranger unaware.

I drew a hundred dollars from the pile I had in bank. An' told him fur to shove it down securely in his bank. An' then he kissed his Ma goodby, an' gave my hand a grip. Both o' us fightin' an' attack o' tremblin' of the lip.

EDITORIAL OUTCROPPINGS.

Our town is bound to be a lively one this winter. The amount of merchandise handled by our merchants in transit to the mines, daily, is proof conclusion that the mine owners are preparing to work large crews and consequently send large shipments of ore down the hill. The more men at work, the greater the trade our merchants will do. Day by day it becomes more apparent that a banking establishment is an absolute necessity to our town. The miner coming down with his cheques, the merchant with his increasing amount of business, the broker negotiating the sales of mining properties, all are now handicapped by the necessity of having to go to some neighboring town to secure banking facilities.

We venture to call this fact to the attention of the Silvertown Townsite Company. They may be able to help us secure this necessary factor to a successful town. We offer this as a suggestion. The Company does not like to be advised.

The strange action taken by Justice Walkem in the case of Pender v. War Eagle mine, when he rendered his verdict in direct opposition to the finding of the jury, must appear strange to the average man, who doubtless thought the finding of a jury as final. That twelve men, under oath, should be discredited in this manner is not complimentary to the average jurymen or to the jury system.

Neither are the arguments at all sound that gave excuse to the Judge's decision. He said: "he couldn't agree with the jury because they were evidently in sympathy with Pender. Moreover Pender disregarded any impending danger and never acquainted the company of the risk he was running of his life. It was consequently taking unfair advantage of his employers to back against them when he got hurt."

How long would a miner remain in the employ of any corporation if he attempted to advise them as to the safety of the mine or of the danger to

the men? Not long, we may be sure and yet this is what Pender is told he should have done!

The Toronto Globe, which voices the sentiments to a great extent of the Government, is devoting considerable space to the Kettle River railway question and from its utterances it seems to be preparing the way for the granting of the desired charter to Mr. Corbin. Speaking of the C. P. R.'s position in the matter, it says:—

"The tariff gives a decided advantage to the Canadian manufacturer and trader, and the Canadian Pacific Railway is heavily subsidized in monies and land and enjoys other special and valuable privileges. To say that besides all this we shall adopt a policy of excluding other railways in that district, and preventing a company from building a railway with its own money and without favors or privileges of any kind, seems to us to pass the bounds of reason and justice. The question is not so much one of the rights of Mr. Corbin and his associates as against the C.P.R., as of the rights and interest of the people of the territory to be served. It is they who ought to be consulted mainly, and it would perhaps be better if the matter had been finally decided in the British Columbia Legislature. We should grumble pretty loudly in Ontario if it were proposed to shut us off in a similar way from connection with the American railways."

MINING RECORDS.

Following is a complete list of the mining transactions recorded during the week for the Slokan Mining Division:

NEW DENVER—LOCATIONS.

Oct 25—Lady Franklin, Reco Hill, T. G. Johnson; Lancaster, Twin Lake Basin, J. R. Cameron; Big Fractional, Payne Mt. M. R. Rathborne.

27—Sea, Glacier creek, J. B. Martin; L. A. M. Howson creek, John Vallance; Frank F. near Noonday, Jos. Brandon.

31—Rawhide, Mill creek, D. McLaughlin; Mill Creek, same, W. Thompson.

ASSESSMENTS.

Oct 26—Eldorado, 31—Reichville.

CERTIFICATES OF IMPROVEMENTS

Oct 26—Elvira, to G. D. McMartin and Peter Durham.
Mucking Bird, to Granville Mining Co.
Nov 1—Rawdon, to Jas. I. Montgomery, Dan C. Corbin and G. D. Pater.

TRANSFERS.

Oct 25—Vulture, Vault, E. M. Sandilands, F. A. Henneburg and M. L. Grimmer to John T. Carroll, agreement to sell all interest, Oct 24.
Adirondack 2-10, Wm. Niven to Chas. S. Rashdall, Oct 25, \$400.
Oct 27—Athabasca, C. M. Wilson to C. E. Johnson, Sept 21.

Same 1/2, same to J. A. Griffith, Sept 21.
Paymaster 1/2, J. A. Green to John Vallance, June 3, 1897; Adirondack, 1-9, A. Muller to Wm. Niven, Oct 23; Same 1-9 Wm. Hunter to H. Verine, Aug 1; Hobson 11-64, Cuba 1/2, Inquisitor, E. Marvau to J. N. Peckart, July 21.

Oct 28—Black Diamond, N. McMillan to H. M. Walker, Oct 24.
Oct 30—Hobson 19-64, Cuba 3 1/2, Inquisitor, E. Marvau to F. S. Borgard, July 23; Black Eagle 1/2, Chas. Neubaus to Jas. D. Ryan, Oct 27; Arab 1/2, same to same, Oct 27.

ABANDONMENTS.

Hard Scabble and Hidden Treasure, S. K. Green; Wilson, E. C. Pease.

SLOKAN CITY—LOCATIONS.

Oct 28—Snow Flake, Ten Mile, J. W. Kite.
