Reliable And Up To Date Mining News

THE SILVERTONIAN.

Of The Richest Camp Of British Columbia

VOLUME THREE. SILVERTON, BRITISH COLUMBIA, SATURDAY, JANUARY 27, 1900. NUMBER 31

URNED DOWN ONCE MORE.

other Attempt to Import Men For the Mines Falls Through.

LY SIX WOULD KNOWINGLY SCAB.

d of a Carload of Fifty—They were ported By J. Roderick Robertson ho Fails To Appreciate The Manhood They Have Shown.

The second step in the plans of the Owners was made last Monday, n the management of the Enterprise attempted to run in a car of imd men for that rich property. They covered, however, that Canadians ld not be shipped around the country ked cars, like cattle, as could the eight foreigners landed last at the Payne Mine.

Monday, word was received by the Unions, from a sympathizer in velstoke, that fifty men from Vanver would reach the Slocan that day. ut ten union men accordingly as far as Rosebery to meet them to persuade them not to go to work hen the train pulled into Rosebery Nakusp it drew an extra passenger filled with men. The doors of oach were locked and the platforms arded by ropes that none could get the steps. It was only through indows that any approach to the inside could be made, but in the minutes that the train remained at bery, the union men had gained point and the imported men, not g for the coach doors to be unl, began to swarm out through the ws.

se men had been accompanied the coast by J. Roderick Robertson another herder, whose name we failed to get. These endeavored to the stampede. Their men, who been told by this J. Roderick rtson and his agent, A. M. Beatty ncouver, that there was absolutely bor trouble or strike in the Slocan, by now learned enough to show that they had been grossly de, and refused to remain any longer uring the trip between Rosebery and erton, an animated debate was going among the imported men, and th n en argued the point with J. erick. The latter expostulated, ed, threathened, and coaxed, but men, despite his objections carried their bundles at Silverton. An pt was made to hold the men's ge and the boats crew was appealed t these latter could no more hold particular baggage, which was not ed, than they could that of any passenger, As a last resort, J. ick Robertson demanded the reent of the fares from the men which ad advanced them in Vancouver which they had agreed to repay him their wages of $3.00 per day. As en justly considered themselves ved, they paid no attention to this nd, but filed off the boat here, ed by the union pickets.

t of the fifty that had been brought ly four disembarked at Enterprise ing, and none of these are fit to go rground as they know nothing at bout mining. Of the entire fifty less ten had ever seen a mine, the rity of them being seaman and bermen.

Monday evening, after the strang had been billeted among the hotels, ss meeting was held in the Union and the situation here fully exned to the men. These latter then d unaminously not to go to work agreed to leave the Slocan for the ent.

rt of them, seventeen in number, on Wednesday on their way back Vancouver and Calgary, the balance ing the same day for the south.

ey feel naturally much aggrieved at ay they have been treated by emyment agent Beatty, who knows well situation here, and by the manager Enterprise mine, by whom they der they were grossly deceived. ready to leave Revelstoke they o suspicion of any trouble here and y were after then confined in their like a bunch of sheep, they could othing but come on. They were e class of men of whom scabs are and their prompt action, after ing of the strike, should be an ct lesson for the Silver Lead Mines ociation to take to heart.

hen leaving Rosebery, Robertson d to New Denver to have a magisate meet the boat. As no unlawful act been committed, this action appears nge, unless he thought that the law was amendable at his option.

It is now rumored that he will cause the arrest of all the men who refused to work, charging them with obtaining their fare money and refusing to abide by their signed agreement. Considering the reported statements made by him on the trip, he would do well for his reputation as a Washington by letting sleeping dogs lie.

The stories of the forty odd passengers, who landed here, are similar. The following told us by William McGrann of Vancouver, is a fair sample.

He was hired in Vancouver to work in the Enterprise mine, the fact that he was a seaman apparently being unimportant as he was not even asked his occupation, or if he could mine. He was told that there was no strike of any kind here and he would receive the going wages of $3.00 per day. He came in with the party, accompanied by J. Roderick Robertson and a foreman. At Revelstoke, a man came in the car and began to tell them about the trouble here. He was ordered out by Robertson who said that the car was private. Then he had the doors locked until we got to Arrowhead. When we reached Nakusp the doors were again locked and the platform roped in. At Rosebery some men rapped on the windows and began to tell us of the strike. Robertson told us to pay no attention to them, but some of us began climbing out of the windows and then the door was unlocked. After we decided to get off the boat here, J. Roderick Robertson demanded our fares back and tried to prevent us taking off our bags. At least thirty of our party were not miners. We have refused to go to work because we were lied to before we started and while on the way. Beatty will probably send in some more men.

MINING LOCALS.

Captain Duncan, of Nelson and W. H. Sandiford of the Bosun Mine, were here on Monday and made an examination of the Noonday mine.

Considerable development work is being done at the Wakefield Mines, under the contract system, and the mine is in shape to work full blast as soon as the mill is ready to run.

A fine showing of ore has been encountered in one of the raises being put in from the lower tunnel on the Noonday property. In the face of this lower tunnel there is now exposed five feet of good concentrating ore.

The Mining Committee appointed by the local Legislature is composed of Messrs. Neill, J. M. Martin, Hume, Kellie, Smith, Helgesen, Green, Henderson, A W. Smith, Dunsmuir, Eberts, McBride, Robertson, Baker and Irving.

There is now lying on the dock part of a carload of ore from the Emily Edith mine and also part of a shipment of ore from the Hewett mine. This ore was brought down during the week, but owing to the absence of sleighing on the lower levels near the lake hauling ore from the mines has been suspended for a time.

Slocan City Happenings.

(From our own Correspondent.)

W. A. Coplan, a Slocanite, who is residing at present in Spokane, passed through here last week.

E. M. Teeters, one of the proprietors of the Wilson House, left on Tuesday for Iowa, where he will make his home. A. E. Teeters is now sole proprietor of the Wilson House.

The greatest interest was shown here in the arrival of the Vancouver men for the Enterprise mine, and their disposition. Their refusal to go to work has created much satisfaction here.

R. T. Lowery, of Ledge fame, has announced his intention of publishing a newspaper here in the near future.

Not Afraid of the Bluffers.

In the local Legislature this week Mr. Green had an opportunity of expressing his opinion on the sending of special police into the Slocan. J. Roderick Robertson was then at the Coast, preparing for his raid of the Slocan, and had persuaded Mr. Eberts to bring up in the House the matter of protecting the "lives and property" of the Payne scabs. He imagined that he would perhaps be wiring in a few days, for specials for the Enterprise. Mr. Eberts, at his request, read to the House a copy of the message sent from Sandon to the Superintendent of Police, and asked what was being done in this "urgent" case. He refered to a gentleman in the House from the Slocan as authority for the "urgency." The message, which he read to the House was:

Sandon, B.C., Jan. 16, 1900.

F. S. Hussy, Supt. Provl. Police, Victoria, B. C.

On behalf of the Payne Cons. Mining Co I demand ample and immediate police protection for life and property. About midnight on the 14th inst, a mob of about 20 men came to the Payne tramway to prevent miners who had just arrived from going to work at the Payne mine. The secretary of the Sandon Miners' union, who was the chief spokesman, said threatheningly among other things, "If you want dirty warfare we will give you all you want." The threathening attitude and the violence of the language used on the occasion leads me to believe that I am justified in appealing to you for protection.

(Signed) C. H. HAND.
Manager Payne Mine.

Mr. Green said that for the benefit of the member for South Victoria, (Mr. Eberts) he would give the house his opinion upon the situation to which reference had been made. There was no doubt that the superintendent of police had received a telegram such as had been read, and possibly others of similar tenor. But why had these telegrams been sent? Why were special policeman asked for at the Payne mine? Simply to stir up strife and discord where none at present existed. He denied that there was the slightest liability of bloodshed or serious trouble occurring in the Slocan. If Manager Hand would treat his men properly they would treat him properly. If it should be that trouble did arise it would not be through the men of the unions using moral suasion to prevent the importation of men (aliens) to take their places in the works of the company. He was satisfied that the Attorney General would use all due precaution for the protection of life and property, but he denied that special police were necessary—no more so than when this same gentlemen had had special police hurried on a special train to Ymir, to protect life and property that never was in danger.

THE LOCAL LAYOUT.

Several local dancers are preparing to attend the Miners' Union Masquerade in New Denver on Thursday next.

The football is being once more called into use. The absence of snow on the practise field is being taken advantage of by the local playerr.

DIVINE SERVICE will be held in Silverton next Sunday evening at 7.30. everyone is cordially invited to attend.—John G. Duncan, Presbyterian Minister.

All work in the Jewelry Repairing line, left at the Silverton Drug Store, wil be promptly forwarded to Jacob Dover the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR *

The musical evening of the Literary Society was held this week at the home of Mr and Mrs. W. H. Brandon. An excellent program had been prepared, which was greatly enjoyed by the Society.

Purely Personal Paragraphs.

Frank Lowes of Sandon spent part of the week in town,

Mrs Elliot, who has been ill for some time, has, we are glad to state, recovered.

R. J. Daigle, father of S. Daigle, has moved into town from Rossland and will make his home here.

Maj. Reed, Superintendent of the Hewett mine, made a flying trip to Spokane during the week.

Harry Thorburn took several teams up to Nakusp on Tuesday, to help in pulling up the ss. Rossland on the stocks for repairs.

Read This Telegram--

Vancouver, Jan. 24.

J. R. Robertson, Nelson, B. C.

Your telegram received. Statement as to misrepresentations here not correct. Men were told in this office that mine owners and miners had disagreement re Eight Hour legislation. Miners contended for $3.50 per day of eight hours and the mine owners I represented were only willing to give $3. per day of eight hours, and they each signed agreement to that effect. They were all well aware of the fact, it being common talk on the coast. Have had many applications since you left. When do you want next contingent? Writing.

B C EMPLOYMENT AGENCY.
per A M Beatty

--Then, This Letter.

Slocan, B. C., Jan 25, 1900

Friend Harry,

I am here on a wildgoose chase. There were only 6 of the crew went to work. When we got to Roseberry the union men met us there. They knew all about it last week when they were hiring the men. They locked the doors of the car at Roseberry to keep the union men away. The boys opened the windows and talked to them. They went on board the boat and told the men how it was. Roderick Robertson the superintendent came in the car where we were locked in and made a speech. He told us these men would try to keep us from going to work, that there was no law in B C to prevent us from going right on and he would see that we would be all right. But we came here with the assurance from Beatty the employment agent that there was no trouble here. I went to Beatty and asked him if there was any trouble up there, and he told me there was not. He said he had been sending men up there all the time. The mine has been shut down for 8 or 9 months. I told Beatty if there was any trouble there I would not go. He assurred me there was no trouble but when I came here and heard the reputation he had I didn't wonder at him telling such barefaced falsehoods. Every man here I heard speak of him, where he lived for five years, said he was the most untruthful man in B C. I sincerely hope this will be a warning to all the workingmen of Vancouver to look out for him and every other scoundrel like him. I heard him tell two men in his office that any man that would pay his fare up there would get work right away. Now there are about 300 idle men here. Any man that will try to send men out in this country on such falsehoods has no principle. All he wants is the dollar he gets for it. The company didn't make much out of bringing the crowd here.

Yours truly,
JOHN DAVIDSON.

Through The Week.

The Lardeau Eagle, a proposed new paper to look after the Lardeau and Trout Lake mining districts, is announced to make its appearance in Ferguson in a short while. R. P. Pettipiece will be editor.

— — — —

We desire to call to the attention of the authorities, that while they are preparing their injunctions and warrants for the Miners' Union, there is a fine of $25. coming to them from the ss. Alberta for running into Kaslo last week with covered lights. They ought also to look into the matter of running passengers through this country in locked cars, is it not dangerous in case of accident?

— — — —

We have received inquiries from several during the week, regarding the necessary steps to be taken in securing naturalization. Our inquirers are all miners, who will make good citizens of this country if they are permitted to stay.

— — — —

Conversation on Silverton's dock between a lately imported Sweed and a local man. Ole Olson,(imported man)—"I tanks I not go to verk."

Peter Peterson (local man)—"Yes you had better go to work. I'll give you work."

Ole Oleson, "You boss?"

Peterson—"Yes."

Ole Oleson (pointing to galvanized Yankee also in the group)—"He boss to?

Peterson "Yes."

Ole Oleson,—"Hell! You boss; he boss; two boss up town all boss at mine. Where men? I not go to verk for you. Too many boss.

— — — —

We have received from the publishers, The Central Press Agency, of Toronto, a copy of their Directory of Canadian Newspapers for 1900. This is the first issue of such a directory by the Company referred to, and it is very creditable to their diligence and enterprise. The obtaining of information for such a work means a lot of energy and patience, and the book, carefully compiled as it appears to be, cannot fail to be a most useful work of reference to advertisers and all who wish to obtain information respecting the publications of Canada and Newfoundland. In addition to detailed descriptions of all periodicals and the places where issued, there are lists by counties, classified lists under all heads, etc., besides summary of the postage law customs rates on printers material and other useful information. The book is well arranged and printed and does credit to the publishers.

DOINGS THROUGH THE WEEK

NEWS OF THE WORLD IN BRIEF

A Complete Review of the Events for the Past Week in This and Foreign Lands—Summarized From the Latest Dispatches.

Thomas Lewis of Greenwood, B. C., was recently found dead in the roadway near there.

Captain Luhn, retired, has been appointed military instructor at Gonzaga college, Spokane.

There is no truth in the alleged uprising of Canadian tribes, as the Indians are quiet and content.

A bill providing for an increase of the German navy has been submitted to the federal council at Berlin.

William Coss, a tailor from Rossland, B. C., committed suicide recently in Spokane by the morphine route.

Anarchy in Venezuela has caused French citizens to appeal to that government for protection.

Governor Stanley Northcote of Bombay, who was created a peer at the beginning of the present year, has assumed the title of Lord Northcote of Exeter.

Senator Pettigrew says President McKinley is responsible for the Philippine war and declares that the blood of the soldiers is on McKinley's hands.

Thomas Sharkey, the pugilist, is not recovering from the injuries received in his recent fight with Jeffries as rapidly as he desires.

After the settlement of the Bosimare-Caccavelli claim in Santo Domingo Admiral Richard of the French navy dined with President Jiminez.

The fishing steamer Grayling, Captain Sullivan, reports the probable drowning of three men, the crew of the Ruby Ann, a small sloop which was found off Whidby island.

The fine passenger steamer Lexington, owned by the Carr line of Charleston, W. Va., while racing with the opposition packet Argand, struck the lock wall near Scary, Ohio, breaking in twain and sinking immediately. The Argand went to her assistance and took off the passengers and crew. The steamer will probably be a total wreck.

Plague has caused the death of 28 persons at Honolulu at last reports.

All grades of refined sugar have been advanced in price one-tenth of a cent per pound.

China will show fight, as she has received encouragement to resist foreign aggression.

Thos. B. Hildebrand of Albia, Iowa, is to be receiver of public moneys at Rampart City, Alaska.

Osman Digna, the principal general of the late Khalifa Abdullah of the Soudan, has been captured.

The Livestock Association has wound up business at Fort Worth and will next meet at Salt Lake City.

The German bark Marie has been seized by a British cruiser because flour for the Transvaal was on board.

The Germans insist upon fairness, and say their ships shall no longer be seized at will. England will be asked to mend her ways.

Martin Bergen of Worcester, Mass., a member of the Boston baseball team, shot and killed his wife and two children at his home in North Brookfield.

Mrs. Susan G. Tevis of San Francisco received nearly all the estate of her late husband, Lloyd Tevis, by a decree of distribution from Judge Coffey. It is valued at about $7,000,000.

The Mormons holding fat offices are being investigated. Federal jobs may be held by men of plural families, but the president has never been advised of it, according to Congressman Grosvenor.

At every point the Yankee fighters are victorious in Manila. Hughes is cutting a swath through Panay. MacArthur is capturing Filipinos and their arms and supplies. Schwan and Wheaton are pushing the insurgents hard.

The Bundesrath at Berlin has abrogated previous regulations and granted permission for the importation of dried American fruits, and also fresh fruits, on the condition of their examination at the Basle custom house.

A special from Redwood Falls, Minn., says a report has reached there from relatives of old man Slover, recently died in California, and that he made a confession to the effect that he killed Mose Lufkins in this county some 12 years ago, instead of William Rose, who was afterward hung for the crime.

ROBERT IRVING, Manager,
Kaslo, B. C.

MR. GAGE URGES MORE SILVER.

But Wants the Treasury to Say How Much Shall Be Coined.

Washington, Jan. 23.—Secretary Gage was before the house committee on weights and measures, and spoke in favor of the adoption of the metric system. Mr. Gage also referred to the need of fractional currency. He pointed out that at present the demand for fractional coin was so urgent that issue ran considerably beyond the $550,000,000 authorized by law, and he recommended that this legal restriction be repealed, leaving the treasury to determine the proportion of fractional coin necessary.

Gold Rushed in Again.

New York, Jan. 23.—The financier says:

The New York clearing house banks added no less than $11,536,000 to their cash holdings last week, bringing the total cash on hand to $275,546,200, an amount larger than they have had in their vaults for months past. The surplus reserve fund rose about seven and one-half millions of dollars and stands at present at $24,184,675. This contrasts quite sharply with the actual deficit existing 60 days ago.

The rapid recovery is due of course to the return of money from the interior and to the disbursement of treasury funds into active channels of commerce.

Counting the fifteen millions of gold exported it appears that no less than $46,000,000 in cash has come into New York banks in six days. The fact that surplus reserves are correspondingly larger is due to the growth of deposits which are about twenty-seven and a half millions heavier than two months ago. This, of course, necessitates enhanced cash reserve.

Bicycles Lighter in Weight.

Several hundred of the leading manufacturers of bicycles, bicycle accessories and bicycle sundries, not to speak of a score or more makers of automobiles, are represented by large exhibits at the fifth annual bicycle show, which will be formally opened tonight in Madison Square Garden, New York. The big amphitheater has been divided into 150 spaces on the main floor, devoted exclusively to bicycles and automobiles, with several hundred additional spaces on the first balcony in which are displayed a bewildering variety of contrivances and luxuries for bicycle riders. The advance guard of manufacturers and dealers has been here for the last few days and the crowd at the opening promises to be a record breaker. The display of models of bicycles for 1900 show many radical changes and improvements. The machines are much lighter than those shown last year, the difference in weight being particularly noticeable in the chainless models.

Canada's Foreign Trade Grows.

Ottawa, Jan. 23.—According to figures compiled by the treasury department Canada's foreign trade is growing rapidly. The exports for the first six months of the present fiscal year show an increase of $25,000,000 over last year, and the imports have increased about $5,000,000. Exports and imports for the six months ending December 31, total $203,491,615.

Earthquake at Mexico City.

Mexico City, Jan. 23.—A sharp and prolonged shock of earthquake was felt here. The duration was one minute, according to the observatory. Many houses and churches were damaged but no loss of life was recorded.

Men Are Quitting.

Wallace, Idaho, Jan. 23.—There has been an unusual number of men quitting from the different mines up Canyon creek recently, although the exact number can not be learned. People not in sympathy with the state administration assert that there are scores of them.

Karl Buehling has organized the Helena brewery workmen as a branch of the Butte Brewers' Union. This is a gain of 10 members for the union.

BRITISH AND BOER BATTLE

THEY FOUGHT FOR HOURS.

Generals Warren and Cleary Make Big Advances—Artillery Did Good Work—The Enemy Is United—The Latest Military Move.

Spearman's Camp, Jan. 22.—A party of picked shots from Methuen's mounted infantry took a position close to the river before dawn and when it became light fired on the Boers, killing one and hitting three horses.

A correspondent was in a position where he could watch General Warren advancing from Mount Alice. At the same time our front was advancing, using a balloon to locate the Boers and with skirmishers in front. The naval guns and howitzers of General White kept shelling the Boer positions.

At 4 p. m. General Warren was still shelling the high ridge running at right angles behind Speerkop with shrapnel, which was bursting right above the Boer trenches. A grass fire was burning between the British and Boer positions.

During Lord Dundonald's engagement at Acton Homes it is reported that the Boers raised a white flag. Major Edison stood up and was immediately fired on. Thereupon he sent a Boer prisoner to the burghers to say that unless their arms were laid down and their hands thrown up no notice would be taken of white flags. The Boers fired on the prisoner while returning.

Boer prisoners declare the Orange Free State and Transvaal burghers are good friends and have no idea of giving up the fight, even when defeated. The Boers fired Mauser volleys and used a Nordenfeldt gun this evening.

General Warren fought for 12 hours. He gained two positions. The British loss is believed to have been small. Artillery was used for the protection of infantry and the generals had not been in haste but had led their men cautiously. Clery, by judicious use of field guns, had fought his way from ridge to ridge for a distance of three miles. The main position was still in front of them, but they had made a good beginning and had not suffered heavily.

Lord Dundonald's cavalry advance guard is now in position to try to advance by the Dewdrop road through a comparatively open country direct to Ladysmith, or may try to cut off the Boer retreat through Van Reenan's pass by pushing on to Ladysmith along the Harrismith railway. Lord Dundonald must be governed by what is possible for Warren. The former has been able to get northwest of the Boers' entrenched position, which must be thrust back or turned by the troops now across the Tugela.

Military opinion is divided between an attempt at penetrating the long Boer line, or, while Clery's division holds them in front, for Warren to turn their right. It is generally assumed that if Buller finds Boer positions too strong for him he will fight on as far as possible, while White will cut his way through from Ladysmith, bringing, at whatever sacrifice, the remnant of his force to Buller's camp.

Later.

London, Jan. 23.—General Buller cables to the war office:

"Spearman's Camp, Jan. 23.—General Warren has been engaged chiefly on his left, which he has swung forward about a couple of miles. The ground is very difficult and as the fighting is all the time up hill, it is difficult to say exactly how much we have gained, but I think we are making substantial progress."

He has forced the enemy from their position. The Lancashire and Irish brigades are advancing steadily. The fire is very severe occasionally.

Main Army Is Fighting.

London, Jan. 23.—The war office has received the following from General Buller:

"In order to relieve the pressure on General Warren and to ascertain the strength of the enemy in the position in front of Potgieter's drift, General Lyttleton made a reconnaissance in force yesterday. This kept the enemy in their trenches in full strength all day. Our casualties: Third battalion, King's Royal Rifles, two killed, 12 wounded, two missing."

Boers Fight Stubbornly.

London, Jan. 24.—Nothing has been received thus far to indicate that any conclusive result has been reached by the British forces in the region of the upper Tugela, and the lack of information regarding what men and munitions the Boers have in reserve prevents an accurate determination of the measure of real success attending the two days' hard fighting. All that can be said is that the British seem to be doggedly advancing in the face of an equally stubborn resistance.

At the close of Sunday's fighting the republicans had merely evacuated their first line of defense to take up another semi-circular position a short distance in the rear, recalling the old burgher ruse, by which the Boers have previously managed to entice the British into fatal traps.

The Boers stuck to their rock fastnesses with great tenacity and at the conclusion of the day the British had only advanced across a few ridges. The Boers apparently have but few guns and they did little damage.

Captain Hanley of the Dublin Fusileers fell mortally wounded while leading his men to seize a fresh point of vantage.

German Bark Is Released.

Berlin, Jan. 24.—A dispatch received here from Durban says the German bark Marie, loaded with sulphur, which was captured early in January by the British cruiser Fearless and taken to Port Elizabeth, has been unconditionally released.

British railroad workers have decided to demand an 8-hour day.

Routed the Insurgents.

Washington, Jan. 24.—General Otis informs the war department of recent military operations in the Philippines in the following dispatch:

Major Johnson, commanding a battalion of the Forty-sixth infantry, Wheaton's brigade, reports from Lemery to the effect that he drove the enemy through Batayang eastward on the morning of the 18th, capturing 17 rifles and one field piece. A few hours later he drove them through Calaca, captured four prisoners, four horses and equipments and six rifles, and killed three insurgents. He advanced toward Lemery that afternoon, capturing the enemy's outpost, three men and six horses. He advanced on the town at 5 p. m. and found the enemy strongly entrenched. He sent by a navy gunboat to Bantangas for assistance, when three companies of Muir's battalion of the Thirty-eighth were sent to Taal, the insurgents' headquarters. Johnson drove the enemy through Lemery to Taal, where he attacked the southern portion of the city and Muir the northern portion. The enemy dispersed, retreating in many directions.

Johnson's casualties were one killed, one seriously and two slightly wounded.

Four field pieces and a quantity of rifles were captured. This movement of Johnson's was ably conducted and important in results.

The enemy is reported in large force and strongly entrenched at and near Santa Cruz, Laguna de Bay.

Schwan is swinging his troops on that point, his left at the town of Bay, a few miles east of Calamba, his right consisting of cavalry at the right of Tayabas.

Colson Held for Murder.

Frankfort, Ky., Jan. 22.—The grand jury has indicted ex-Congressman David G. Colson, who was colonel of the Fourth Kentucky regiment, for murder on two counts. The first charges the willful murder of Lieutenant Ethelbert Scott, one of the principals in Tuesday's triple tragedy, and the other with the murder of Luther W. Demarree, one of the bystanders who was killed. The grand jury was granted a further extension of time and it is understood that more testimony is to be heard as to the killing of Charles Julian, the other bystander. Colson's attorneys will ask for bail and Colson will testify. Among those who have volunteered their legal services in Colson's defense are Congressman Bailey of Texas, Congressman Houck of Tennessee and Attorney General A. F. Mynatt of Tennessee.

Colonel Colson's friends expected only a manslaughter charge. The weapons used by the combatants were turned over to the court. Colson's mail from all over the country, as well as from Washington City, Kentucky and Tennessee, is very heavy. Many society women have written him words of sympathy. Some are strangers. Colson is a batchelor and largely interested in business in Kentucky and Tennessee.

Seducer Got His Deserts.

Captain Frederick J. Mills, late lieutenant governor of Idaho, was recently acquitted of the charge of murder in Salt Lake. The jury was out only a quarter of an hour, just long enough to elect a foreman and take a ballot. Such a finding was expected by everyone and the announcement of the result of the ballot was not followed by anything sensational.

Mills was charged with the murder of John C. Omelveny, chief engineer of the Oregon Short Line, in that city, October 3, last. The evidence showed that while the defendant was absent serving as an officer in the volunteer army of the United States his wife and Omelveny became criminally intimate. The defendant learned of these facts on the day of the tragedy, his wife making a full confession. The killing followed. The defendant pleaded the Utah statute, which justifies a husband who kills his wife's seducer, and also set up the plea of insanity. Mills will probably return to Idaho in a few days. His wife remains in Salt Lake.

Seattle's Luck.

Washington, Jan. 23.—The supervising architect said to Representative Jones today he would recommend $775,000 or $800,000 as the very lowest limit for a public building at Seattle, and that in his judgment a million dollar building should be constructed there, and he would assure the committee there should be a million dollar building erected there.

Surgeon General Sternberg stated to Representative Jones that while Vancouver was the best place for a military hospital in the state of Washington he will advise no appropriation for a hospital, as he does not think it will be needed at all. Mr. Jones stated he will still work with the committee in an endeavor to secure a favorable report on his bill for a hospital.

Nicaragua Is Not Averse.

The Nicaragua minister to the United States has advised Secretary Hay that as an indication of the friendship of his government for the United States it has appointed an arbitrator to determine whether the Maratime Canal company is entitled to an extension of its concession. The Costa Rican government still recognizes the concession of the Maratime Canal company and no matter how the arbitrators appointed by President Zelaya may decide the protest of the company, Nicaragua will stand bound either by the concession of that company or that held by the Eyre-Cragin syndicate.

Major Kingsbury Sued.

Spokane, Jan. 24.—Major B. C. Kingsbury, the widely known mining man of this city, has been made defendant in two suits aggregating $50,000 damages for alleged breach of promise and seduction of Lizzie Schumacher, a 17-year-old girl residing in this city.

The simplest patriotism is the hardest to practice.

MINES AND MINING CAMPS

METALS OF THE NORTHWEST.

Items From the Rich Regions of the Pacific Northwest—News From All the Principal Mining Camps—Personals—Mining Notes.

The excitement over the recent substantial developments in the South Fork district near Mount Idaho is daily increasing and by spring the district promises to be the scene of perhaps the greatest mining activity in Idaho county. New outfits pass through Mount Idaho almost daily en route to the district to begin development operations, and a day does not pass without the consummation of new deals.

REPUBLIC.

The Gopher shaft is 130 feet deep and is now in solid ground.

Fourteen men are employed on the Mud Lake and Knob Hill claims.

Several loads of Mountain Lion machinery are arriving every day.

There is two feet of the ore body in the Butte & Boston that averages $104 to the ton.

More machinery for the mines has arrived in Republic the last week than ever in its history.

There is a report that work is to be resumed on the Flag Hill within a few days, but this is not official.

The Stray Horse is giving employment to six men divided into two shifts. The crosscut is in 48 feet.

The Blacktail is demonstrating its title to the name of mine. It is one of the big ones of the camp. The winze which was lately started in the rich ore shoot is down 35 feet.

The Delta shaft is full of quartz, and all is not taken out. The ore ranges in value from $8 to $26 per ton. The shaft is 96 feet in dept[h]

At the Tom [illegible]mb two shifts are sinking the new working shaft and two shifts are working in the south drift on the 150-foot level. The face of the drift is in quartz and there is several feet left on the wall.

The south drift on No. 4 ledge on the Lone Pine has been driven 50 feet. The ledge is six feet wide. The ore averages $80 per ton. The north drift has been driven 20 feet. The ledge is five feet wide and the quartz averages $20 per ton.

The building of the Republic Reduction Company's mill is progressing rapidly. About 50 men are engaged in framing timbers. The foundation is completed and the timbers will be in readiness to raise the structure in about 10 days. There are three carloads of machinery at Grand Forks. The rest is expected within the next week. The mill building will be quite an extensive affair, being 210x90 feet.

Sixty men are on the Republic pay roll. Some stoping is going on from No. 3 tunnel. The ore is assorted and sacked and will be sent to a smelter as soon as teams can be had to haul it to Grand Forks. There is nearly 3000 sacks of ore ready. It is difficult to estimate anything like its real value. Some of it is fabulously rich and all is of high grade. It will undoubtedly be the richest shipment ever made from the mine.

BRITISH COLUMBIA.

The richest War Eagle ore is found on the 750-foot level of the mine.

zA second ledge has been struck in a crosscut from the south drift of the Gertrude at Rossland.

The Payne mine asks for protection, as it claims union miners in the Slocan have threatened employes.

The ore shipped over the Kaslo & Slocan railway for the year 1899 was 25,700,224 pounds, which shows a decrease of 16,602,891 from that of 1898, says the Kaslo Kootenaian.

A new lead furnace has been blown in at the Trail smelter. There is a stock of ore on hand sufficient for several months. The furnace is a large as anything in the United States.

The development of the Butcher Boy in Greenwood is by a shaft which has reached a depth of 45 feet. The ore being taken out from the bottom of the shaft shows considerable arsenical iron, mixed with copper pyrites and iron pyrites.

The first dividend of $30,000 has been declared by the new management of the Center Star, and it is probable they will hereafter be a monthly occurrence. The mine is shipping at the rate of 900 to 1000 tons a week, and will probably keep up this rate indefinitely.

A Greenwood dispatch of the 19th says: Two Boundary district mines made their first shipments today. The B. C. in Summit camp, the well known mine which is the property of the same syndicate which controls the Republic mine in Republic, Wash., and the Payne mine at Sandon, B. C., shipped three carloads to Trail. It is a trial shipment, but the value of the ore has been so well determined that the management has little doubt of the outcome. The ore averages about $40 per ton. The other shipper joining the rapidly growing list today was the Winnipeg mine, in Wellington camp. One car went to Trail. It is the first of a steady run of shipments contracted to go forward from this mine.

The Center Star in Rossland is soon to be equipped with an entirely new plant of machinery, operated by steam power, one feature of which will be a new plant for ore sorting, designed on different lines from any now in use in the camp. It will make an improvement both in economy and in time-saving. Revolving trommels or screens will be introduced to eliminate the fine ore, leaving the large chunks to be assorted by hand. The screening will be done in the lower half of these trommels, while the ore will be washed automatically in the upper half, instead of with a hose, as heretofore. The steam hoist, which has been ordered, will be capable of hoisting a four-ton load 900 feet per minute from a depth of 2000 feet. The building for the 40-drill compressor is in course of erection.

Ymir District.

On the Katie D. Green group at Erie the shaft is down 60 feet and shows fine ore, from which the last samples assayed $37.70.

The Yellowstone mine at Salmo is erecting a 20-stamp mill.

The total output from the Silver King mine for 1899 reached 32,700 tons, against 51,568 tons in the previous year.

The long crosscut on the Big Horn, owned by the Simcoe company, is in 600 feet and promising indications have been met.

Three feet of pay ore has been uncovered in the shaft on the Houston claim, owned by the Erie Mountain Consolidated Company.

Shipments are being made from the Arlington mine, near Erie, and from now on a carload of ore will be sent to the Northport smelter each day. The ore is a high-grade galena.

The Leo Gold Mining Company is actively developing the Leo group, near Hall siding. A shaft has been sunk to a depth of 75 feet, at which depth some fine mineralized rock has been struck.

A good strike has been made on the Union Jack group, owned by Dougald Cameron and others. During the last month the tunnel on the Queen claim has been running in an additional 60 feet, making the total length 180 feet.

The Wilcox mine, owned by the Broken Hill Mining & Development Company, will enter the list of shipping mines this week. Arrangements are being made for rawhiding the ore from the Fourth of July shaft down to the wagon road. The ore, which is a high-grade galena, will go to either the Northport or Nelson smelters.

MINING NOTES.

Parties just down from Frosty creek, the new mining district 20 miles from Ellensburg, Wash., report a rich strike of white quartz, in which the gold can be seen with the naked eye.

Another rich strike has been made in the Cle-Elum district, and this time on the Ida Elmore property on Hawkins mountain, about 25 miles from Ellensburg. A blind ledge has been struck containing very rich ore. A rough estimate of its value places it at $1200 to the ton in gold.

The Standard Mining Company at Wallace is preparing to made some repairs to its mill, and to build its Canyon creek flume a board higher, and in order to facilitate the work the mill will be closed down during the day and run at nights.

The Queen of the West group at Florence, Idaho, was sold by John Wells, C. T. Cone and Evan Evans to eastern parties for $10,000 cash. This group is the only patented mine in the district, and is developed by two vertical shafts which have four and six-foot ledges, netting from $12 to $18 gold per ton.

Judge Beatty of Idaho has issued a temporary injunction in the case of J. F. Forbis et al. vs. the Buffalo Hump Mining Company, restraining the Buffalo Hump company from disposing of ore from the Tiger-Poorman mine at Burke unless it shall deposit one-third of the gross receipts in the bank subject to the order of the court. The motion for a permanent injunction has been set for hearing on Feb. 1.

The Hecla Mining Company at Burke is enlarging its tunnel so that it can handle ore on an extensive scale. The tunnel was run mainly for prospecting purposes, and while thousands of dollars' worth of ore have been taken out through it, the shipments for months past running two carloads per day, it is too small to work the mine on the scale which it is proposed to work it this year. While this is being done most of the men have been laid off.

Americans Ambushed.

Washington, Jan. 20.—The first untoward happening in the highly successful campaign now going on in Luzon is announced in the following cablegram:

"Manila, Jan. 20.—A pack train of 20 ponies, transporting rations between Santo Tomas and San Pablo, Laguna province, and escorted by 50 men under Lieutenant Ralston of the Thirtieth infantry, was ambushed yesterday. Two of the men were kiled, five wounded, and nine are missing. The pack train was lost. Lieutenant Ralston and 34 men returned to Santo Tomas with the killed and wounded. The affair is being investigated.

"Doret of the Fifth infantry found insurgents in the Batangas mountains prepared in ambush to meet him. He killed eight, wounded three, captured 17, one Spaniard and six rifles. His casualties were two men slightly wounded.

"OTIS."

Influx of Japanese.

San Francisco, Jan. 22.—The steamer Doric which arrived from the Orient, landed 700 Japanese at Honolulu. This completed a list of 1000 inside of four days. The records of the immigration bureau at Honolulu show that since June 15, last 1700 Japanese have been landed there.

Boy Drowned at Winona.

Winona, Wash., Jan. 22.—The infant son of Frank Stanfield, living four miles south of this place, was accidentally drowned. The boy was three years old. He had been playing near a small water tank and fell in.

M. Labori to Lecture.

London, Jan. 22.—A contract has been signed by M. Labori, counsel for Dreyfus, during the late trial at Rennes, to lecture for 13 weeks in the United States during the autumn of the present year.

Five hundred and sixty trade unions of France report five per cent of their members unemployed.

WOMEN OF THE UNITED STATES

Regard Peruna as Their Shield Against Catarrh, Coughs, Colds, Grip and Catarrhal Diseases.

MRS. BELVA A. LOCKWOOD, LATE CANDIDATE FOR THE PRESIDENCY.

Mrs. Belva Lockwood, the eminent barrister of Wsahington, D. C., is the only woman who has ever been a candidate for the Presidency of the United States. She is the best known woman in America. As the pioneer of her sex in the legal profession she has gathered fame and fortune. In a letter to The Peruna Medicine Company, she says:

"I have used your Peruna both for myself and my mother, Mrs. Hannah J. Bennett, now in her 88th year, and I find it an invaluable remedy for cold, catarrh, hay fever and kindred diseases; also a good tonic for feeble and old people, or those run down, and with nerves unstrung." Yours truly. BELVA A. LOCKWOOD.

Catarrh may attack any organ of the body. Women are especially liable to catarrh of the pelvic organs. There are one hundred cases of catarrh of the pelvic organs to one of catarrh of the head. Most people think, because they have no catarrh of the head, they have no catarrh at all. This is a great mistake, and is the cause of many cases of sickness and death. "Health and Beauty" sent free to women only, by The Peruna Medicine Co., Clumbus, Ohio.

DANGLING FROM THE TREES.

Half Brothers Swing in the Jail Yard at Fort Scott.

Fort Scott, Kan., Jan. 23.—George Silbee and Ed Meeks, half brothers, who were convicted of murder here, were lynched by a mob in the county jail yard. At a later hour their bodies were found dangling from two trees in the yard. The two men, who hailed from Kansas City, had been convicted of murder in the first degree, their victim being a young German farmer named Leopold Edlinger, whose murder occurred near this city in October last.

Eleven Men in a Sewer.

Los Angeles, Cal., Jan. 23.—Sunday morning the west end of what is known as the Third street tunnel, which is under construction between Hill and Hope streets, a distance of three blocks, caved in and entombed 11 laborers and bricklayers and fatally injured W. T. Lamble, an inspector in the employ of the street department. The entombed men are: Jerry Mohn, John Eckhart, Frank Paylessur, John Mitchell, William Paully, — Kimberley, Max Costello, — Bradden, John Bejoe, J. B. Washburn, Bert Garrett.

At Coventry it used to be the custom to eat what were called God's cakes on New Year's day. They were of a triangular shape, about half an inch thick and filled with a kind of mincemeat.

The city ordinance of Evansville, Ind., relating to temporary or transient stores, upon which a heavy license is imposed, has been declared unconstitutional by Judge Mattison in the circuit court.

Better Demand for Silver.

London, Jan. 23.—The idea that the Indian government will shortly have to buy silver has stimulated the demand. Indications that the silver reserve of the Indian currency department has been heavily depleted and will be further reduced are found in the large sales, telegraphic transfers upon India, the further ear marking of gold for the account of the Indian government and the dispatch of gold direct to India. According to the Statist, should a further 2,000,000 pounds in gold be sent to India during the next two months the silver holdings of the Indian government will be probably reduced to about four crores. Before such a figure is reached purchases of silver for coinage ought to be made, unless the Indian government is prepared to incur risks which might bring disaster.

The Statist insists that the government must buy silver without delay and have it coined as quickly as possible and reasons that India ought not to be subjected to further trials on top of the famine, also pointing out that if troubles occur on the Afghanistan frontier silver alone will be usable.

Macrum Located in Rome.

Rome, Jan. 22.—Charles A. Macrum, former United States consul at Pretoria, who left Lorenzo Marquez December 28 and landed at Naples last Thursday, has arrived here. He refused to be interviewed.

Killed Himself in Jail.

Salem, Or., Jan. 23.—Joseph R. Willard, who killed T. D. Perry about three months ago committed suicide in the county jail by hanging himself with a piece of window cord. Willard leaves a wife and eight small children.

THE GOVERNMENT OF CUBA

CIVIL AND MILITARY AT PEACE

General Wood Has Issued His Orders—Only in Extreme Cases Is the Army to Interfere With Internal Affairs—Island Will Prosper.

Havana, Jan. 24.—The full text of the order relating to the duties of civil and military authorities has been issued. The most important provisions in addition to those already cabled are that after February 1 all communications between civil and military officials will be transmitted through civil channels. Secretaries and members of the cabinet having charge will present the matters they have under advisement, which will require immediate action, to the governor of the island personally for final discussion. Civil officials are charged with the conduct of civil affairs under the supervision of the military governor alone. Department commanders are charged with the maintenance of public order in the general sense of the term.

Military officers, the order directs, are not to interfere with the civil authorities except under extreme conditions, where, in their opinion, public order, life and property are in serious danger.

In this case they are authorized to suspend the offender temporarily, reporting immediately by wire and letter to the governor of the island.

The military authorities are also charged with the inspection of prisoners throughout their district at least once a month, reporting on them independently of the civil reports. Military officers must not interfere with the public press, unless such action shall be absolutely necessary by the publication of matter intending to provoke a serious disturbance of the public peace, or unless necessary to prevent obscene publications against public morals.

The order declares that the civil law will be found ample to right private wrongs.

The military authorities are charged with the capture of bandits, who are to be turned over to the civil authorities, the military supplying the judges with all the evidence possible.

Department commanders shall cause, once each quarter, an inspection of the public schools in their respective departments by army officers.

The chiefs of the public works in each province and the military engineers in each department will be associated for the purpose of instruction in the methods employed by the engineering department of the United States in estimating upon construction and contracts.

After September 1 the public works in the various provinces will be under the direct control of the provincial chiefs of public works, a military engineer officer continuing on duty in each province solely for the purpose of inspection.

The bakers have gone out on a strike, demanding $45 in gold per month, without food, instead of $25 in silver with food. Civil Governor Nunez says he does not think the strike important, and expects the difficulty will soon be arranged.

An American cattle importer at Matanzas, finding himself unable to sell his cattle, started in the butcher business, lowering the price of meat from 25 to 10 cents a pound. This gratified the people of Matanzas, but the other butchers promptly bought up his stock in order to get him out of the way. He says the undertaking was profitable and that he may kill in Havana. If he could succeed in lowering the price of beef here it would be very welcome, as the present prices are considered exorbitant.

This morning 150 persons who had been imprisoned on excessive sentences or had been held for an unreasonable time awaiting trial, were released. On emerging from prison they were greeted by many friends and an affecting scene ensued.

General Wood has issued an order appointing a commission to look after and to control the archives of the island. The commission will consist of four members.

Earthquake in Mexico.

Mexico City, Jan. 23.—News is arriving from the interior points affected by the recent earthquake. Much damage was done to property in Guadalajara and the city of Colima, capital of the state of the same name, was the scene of terrific experiences, accompanied with loss of life. The City of Mexico came off comparatively unscathed in the earthquake, few accidents occurring here. One church in the suburbs was cracked and will be closed for repairs.

The Craving for Stimulants

Has lately attracted a great deal of attention. The use of them seems to be increasing. This clearly shows an exhausted condition of the nerves and blood, which may be remedied only by strengthening the stomach. Hostetter's Stomach Bitters will do this for you. It cures dyspepsia, constipation and nervousness.

Labor will be represented in the next Ohio legislature by 23 farmers, a puddler, molder, engineer, metal polisher, miner and a carpenter.

The striking Kansas City leather workers have been injunctioned by the courts.

"It is an Ill Wind That Blows Nobody Good."

That small ache or pain or weakness is the "ill wind" that directs your attention to the necessity of purifying your blood by taking Hood's Sarsaparilla. Then your whole body receives good, for the purified blood goes tingling to every organ. It is the remedy for all ages and both sexes.

Hood's Sarsaparilla Never Disappoints

Sympathy With the Boers.

Washington, Jan. 22.—The Grand Opera house, the largest auditorium in Washington, was packed to the doors Sunday night with an enthusiastic audience that expressed its sympathy with the Boers in their fight with Great Britain. The speakers included members of both branches of congress, and on the stage were other public men who came merely to add their moral support. The keynote of the speeches was that the Boers were fighting for their independence as our forefathers had done in 1778. The gathering assembled under the auspices of the United Irish Societies, and a number of leading Germans in the city joined in the movement. The decorations were American flags, with a fair sprinkling of the green of Erin. Among those who occupied seats on the stage were Senators Mason of Illinois, Allen of Nebraska, and Tillman of South Carolina; Representatives Clark, De Armond and Cochran of Missouri, Bailey of Texas, Carmack and Cox of Tennessee, Rhea, Jones and Lamb of Kentucky, Shafroth of Colorado, Dovener of West Virginia, Myer of Louisiana, Sulzer of New York and Lentz of Ohio, and Mr. Van Sicklen of New York, and representatives of the United Irish Societies and others.

A large delegation of Irish-Americans and German-Americans from Baltimore was in the audience.

The meeting was called to order by the chairman of the executive committee, M. T. Moran, the national treasurer of the Ancient Order of Hibernians, who, after a few words of welcome, introduced Congressman Sulzer as the presiding officer. Mr. Sulzer was greeted enthusiastically, after which he made a talk.

Vessel Ashore.

Lewes, Del., Jan. 23.—The Fenwick Island life saving station reports a vessel throwing up rockets about eight miles off shore. It is thought to be a steamer ashore on Fenwick Island shoals. The tug North America has left Delaware breakwater and gone to her assistance.

BOWEL BREATH!

You can always smell a "dead one."
He has a costive-looking face.
His breath knocks you down.
He drags his feet.
Listeners to his talk turn their heads the other way.
His breath poisons God's pure air.
He ought to keep clean inside;

—that means sweet breath, quick brain, swift moving feet. You can't feel well and act well with your bowels clogged, sending poison all through your system. Clean them out gently but thoroughly and keep them clean with CASCARETS Candy Cathartic, and you will find that all bowel ills and the nasty symptoms that go with them are quickly and permanently

The value of fish as food is just beginning to be felt among the agricultural classes. A well-stocked fish pond is an inexpensive luxury and affords food that is a welcome relief from the usual pork or bacon that graces the farmer's table.

$100 REWARD, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENEY & CO., Toledo, O.

"HE WANTS HIS MONEY BACK!"

J. Roderick Robertson has demanded from the C. P. R. officials the return of the fare money advanced by him for the men who hired with him for the Enterprise.

Oh where, Oh where, is the princely air
And the step so firm and true;
The eagle eye and the heavy hand
Of the mighty Roderick Dhu?

Are these the very lips that swore
To break the Unions' might?
The cunning brain devised the scheme
To run men in at night?

Are these the very hands that laid
The bold Canadians low?
Who dared invade the Ymir wilds
Scarce fifty days ago?

He left the coast with his mighty host,
And his armoured train was fast,
And he felt a King of a mighty thing
Like Xerxes in the past.

He started with his pocket book
The despot of the track—
He's lost his men; he's lost his grip
And he wants his money back!

EDITORIAL OUTCROPPINGS.

Among the forty odd men lately brought in for the attempted opening up of the Enterprise mine there were sailors, lumbermen, clerks, roustabouts and five—possibly six—miners. These men are quite possibly skilled workmen in their several lines, but they would have formed a woeful combination with which to take dividends out of the Enterprise, where the rock is noted among miners as being the hardest north of Rossland.

Last week, as has been reported, the Payne Mining Company imported over a score of foreigners and put them at work in their mine. Now there comes a report from Sandon of an accident at the Payne, in which several of the Finlanders have been injured. This rumor gains credence by the fact that the mine has lately been visited daily by a phpsician. If such an accident has really happened, it will be no surprise to those familiar with the dangers to be met with while working underground, especially to an inexperienced hand. There should be a visit paid to the Payne mine by the Mining Inspector. No one else is allowed to visit either the mine or the bunkhouse.

From Mr. Green's speech on the "Want of Confidence" motion:—"The hon. senior member for Esquimalt has stated that the miners were not in favor of and did not want the eight-hour law. I say that the miners do want the eight-hour law and it has come to stay."

The importation of green men to work in the Slocan Mines may be alright from the standpoint of the mine-owner, and there is no law to stop it; looking at it from a common sense all will agree that it should be stopped The very men who are doing it know this, for none should know better than they that to put a lot of farmhands, sailors and lumbermen into one of our Slocan mines is little better than murder.

Unable to protect themselves against accidents, ignorant as to the soundness of the walls and unaccustomed to the handling of explosives, as surely as they are put underground by themselves so surely will there be men mained and crippled for life or killed outright.

Yet there are men, who, in their greed for wealth and utter disregard for the lives and rights of their fellow men, are attempting to do this very thing. A short time ago, the management of the Payne mine at Sandon put a few ignorant men into their mine and now it is reported that there are a few cripples at those workings. As they allow no one to visit that property or talk with any of their men, it is not possible to verify this report. The government should see that the Mining Inspector investigates, however, and if the report be true, an example should be made that will teach the managers that they cannot send ignorant men to almost certain injury, without becoming amenable to the Criminal Code. Criminal negligence, such as this would be, calls for a term in the penitentiary.

The following is the text of a highly interesting pamphlet, now being distributed throughout the Province. It is self-explanatory and calls for no comment on our part.

Silverton, Jan. 22, 1900.

NOTICE:—

We, the undersigned, wish to publicly denounce the actions of J. Roderick Robertson, of Nelson, B C., in bringing us to the Slocan under absolutely false and misleading representations.

Mr. Robertson or his agent, A. M Beatty, represented to us that there was absolutely no labor trouble or strike existing in the Slocan and that the management of the Enterprise mine and its employees were in harmony and perfect accord; that the standard and prevailing rate of wages was $3.00 per day.

Now we find that the Enterprise mine and all the other mines of the Association are lying idle and that the prevailing rate of wages is and always has been $3 50 per shift.

Any man going to work under the circumstances existing in the Slocan is a scab of the vilest sort.

(Signed.)

NOTICE TO WORKINGMEN.

Owing to a reduction in miners' wages caused by the enforcement of the eight hour law, the miners are all idle and the mines have shut down. Therefore all workingmen are hereby warned to keep away from the Slocan and Kootenay country, British Columbia, until present troubles are amicably settled between mine owners and miners.
