A Matter Of Opinion.

Every Man has his own idea of what he wants in the color, quality and cut of the clothes he wears. But All agree in some things.

THE FIT MUST BE PERFECT.

THE WORKMANSHIP MUST BE THE BEST.

When in want of a Suit of Clothes give your order where it will be filled to your satisfaction, Remember that

F. F. LIEBSCHER,

Silverton's Tailor,

Carries a Line of Goods from which anyone can select a piece to suit.

A large and increasing number of Customers in the Slocan testify to the Excellence of his work.

Summer suits a Specialty.

MINING LOCALS.

Operations were resumed at the Reco mine this week.

Assessment work is being done on the Galena Farm property, near town.

The Lade Group, in the Lardeau, has been bonded for $100,000, and a first payment has been made.

On Wednesday a small force of men was put to work by the Government cleaning out the Eight Mile trail.

A two mile trail is being built by the owners of the Alert claim to connect that property with the L. H. trail.

Ore shipments from Sandon last week amounted to 174 tons—Star 109, Payne 25, Trade Dollar 20 and American Boy 20

The owners of the Ruby claim are preparing to ship a carload of their ore. A ton was sent out last week as a trial shipment.

What is believed to be the outcrop of the Slocan Star ledge has been uncovered on the Rabbit's claim adjoining the Star and belonging to the same company.

Gold miners from the Klondike who have paid the Dominion royalty of five per cent receive a one per cent premium by cashing in their dust at the Vancouver assay office.

The manager of the Vancouver group is anxious to have work resumed on that property as soon as possible and has written to the watchman to see if operations can be begun now.

Owing to the strike of the deck-hands on the C. P. R. s s. Slocan no ore has been shipped from Silverton this week although three carloads are now awaiting shipment on our dock.

An act passed by the legislature of California at its last session, and which took effect May 23rd, provides that in that state the "standard miners' inch of water shall be equivalent or equal to 1½ cu. ft. of water per minute, measured through any aperture or orifice."

STRIKE ON TEN MILE.

A strike of very rich dry silver ore has been made on the Gatineau and Simcoe claims on Ten Mile creek. These claims lie well up the creek and the owners after doing considerable work have finally traced the Hampton lead over on to their ground and have opened it up in several places. A two inch paystreak has been uncovered that gives assay values ranging from 1000 to 2000 ounces in silver to the ton and one assay taken from it gave 9358 ounces of silver. Tom Reid, one of the owners, has taken a bond and lease on the other interests and will proceed to develope the property at once.

SHIPMENTS RESUMED.

The Hewitt tramway is now completed and running smoothly working fully up to the expectations of both the mine management and builder. The carrier brings down three-quarters of a ton at a load and two minutes is all the time consumed in making the trip. The accumulation of ore at the mine is being rapidly delivered at the ore house at the foot of the tramway. From eight to twelve tons of ore a day is now being delivered at our dock for shipment to the smelter. The transportation problem for the Hewitt mine has now been solved and good dividends are in sight for the owners.

The development work done upon the Hewitt has proved it to be a first class mine and it has now probably more ore blocked out and in sight than any other mine in the Slocan. It being a dry ore proposition its ores are in big demand and the lead question has little if any effect upon its profits. The mine will now be worked to its full capacity, the force of miners will be increased and larger buildings for the accommodation of the employees erected. During the week the mine was visited by two of the directors and the consulting engineer who expressed themselves with being more than pleased with the way the property was being managed and its present appearance.

MINING AS AN INDUSTRY.

"There is yearly as much money invested in mining as there is in banking, but banking does not prove as safe or as profitable as mining. In a time of prosperity the average banking dividend seldom exceeds 8 per cent a year.....That mining produces quicker and greater profits than any other industrial pursuit is evidenced by the scores of multi-millionaires."—National Banker, of Chicago.

TRAIL TO FISH LAKE.

Duncan Grant has a crew of six men now at work building a trail from the end of the Four Mile wagon road up the creek. This is the trail promised by the government for the Fisher Maiden and the Valentine Groups. Its terminus will be Fish Lake, about 13 miles from Silverton, if the appropriation of $600 will carry it that far. This trail will be used by numerous prospectors and claim owners.

SLOCAN LAKE ORE SHIPMENTS.

Shipments of ore from Slocan Lake for the year 1899, totaled.....3078 Tons.

Shipments in 1900 totaled 4930 Tons.

The shipment of ore from Slocan Lake points, up to and including the present week, from Jan. 1, 1901.

THE METAL MARKET.

The English price for lead is £12 11s 3d Silver, 26¾d. Copper, £67⅝.

New York, July 25—Bar Silver, 58⅛ Lake copper, $17.00.

Lead—The firm that fixes the selling price for miners and smelters quotes lead at $4.37½ at the close.

WORDS OF WISDOM.

There is one natural resource that British Columbia has, and it is a resource that will make Kootenay prosperous for many years. The resource is silver-lead ore. There may be periods of depression, brought about by various causes, but the men who will stick to the silver-lead mines will come out all right. —Nelson Tribune.

EDITOR BEATON KILLED.

D. J. Beaton, editor of the Nelson Miner, met with a fatal accident last Sunday in Nelson. He was standing on the platform of a streetcar and the jolt of the car at the Stanley street turn threw him violently to the ground. He was unconscious when picked up and never rallied, dying three hours later. The deceased was 60 years of age and in splendid bodily and mental health.

LAST TO CUDDLE DOON.

A sequel to "Cuddle Doon" by the same author, Alexander Anderson.

I sit afore a half-oot fire,
An' I am a' my lane,
Nae frien' or fremit daunders in
For a' my fouk are gane.
An' John—that was my ain gude man—
He sleeps the mools amang,
An auld frail body like mysel'—
It's time that I should gang.

The win' moans roun' the auld house-en'
An' shakes the a'e fir tree,
An' as it souchs it waukens up
Auld things fu' dear to me.
If I could only greet, my heart
It wadna' be sae sair;
But tears are gane, an' bairns are gane,
An' baith come back nae mair.

Ay' Tam, puir Tam, sae fu' o' fun,
He fan' this warld a fecht,
An' sair, sair he was hadden doon,
Wi' mony a weary wecht.
He bore it a' until the en',
But when we laid him doon,
The grey hairs there afore their time,
Were thick amang the broon.

An' Jamie wi' the curly heid,
Sae buirly, big, an' braw,
Was cut doon in the prime o' youth,
The first amang them a'.
If I had tears for thee auld een,
Then could I greet full weel,
To think o' Jamie lying deid
Aneath the engine wheel.

Wee Rab—what can I say o' him?
He's waur than deid to me;
Nae word frae him thae weary years,
Has come across the sea.
Could I but ken that he is weel,
As here I sit this nicht,
This warld wi' a' its faucht and care
Wud look a wee thing licht.

I sit afore a half-oot fire,
An' I am a' my lane,
Nae frien' hae I to daunder in,
For a' my fouk are gane.
I wuss that He wha rules us a'
Frae where He dwells abune,
Wad touch my auld grey heid, an' say,
"It's time to cuddle doon."

THE LOCAL LAYOUT.

During the week Frank Culver left for a visit to Seattle.

W. Wamsley, of Nelson, was a visitor in town on Wednesday.

On Tuesday a strike of the deck-hands on the ss. Slocan took place.

Yesterday Hill Bros, our local lumber men, delivered another barge load of lumber here.

Local merchants report a general revival in business, the July trade being the best for many months.

The Slocan City Council has passed a "fair wage" resolution and will have the union label on all supplies.

The sale of New Denver town lots on Thursday gave many delinquent owners a chance to get a cheap title.

On Monday a shipment of Galt coal, consisting of two carloads, was delivered here for the Wm. Hunter Co.

Mrs. Barclay and family, who have been living for some months in Spokane, returned to Silverton yesterday.

E. Rammelmeyer, superintendent of the Emily Edith mine, accompanied by his wife and family arrived in town yesterday.

A party of Silvertonians are camping at Eldorado City, being at present the only dwellers on that government townsite.

Mr. William Barclay is now a graduate of the Blair Business College of Spokane, having passed his final examination with honors.

On August 6th the C. P. R. will sell round trip tickets to the Pan-American Exposition at Buffalo, good for sixty days, for $76.

R. G. Daigle has a good line of fresh groceries, in addition to his stock of fruit, vegetables and confectionery. All the latest magazines and periodicals.

The Kaslo Kootenaian is once again in new hands. This time it is H. A. Blackburn who will attempt to pull the Kaslo paper up out of the mud. May he succeed.

Letters of administration for the estate of the late Herbert Reeves of Silverton were granted this week in Nelson to P. E. Wilson, acting for Benjamin Reeves of Egansville, Ont.

Dr. Gomm, of Sandon, garnisheed the City bank account last week to collect a $900 account, but found that the bank had only seven cents to the city's credit. The City Treasurer had been there before him and had the wad in his jeans.

On Wednesday the steam launch Alert took a picnic party to the picnic grounds at the mouth of Six Mile creek. The excursion and picnic was given by Mr. and Mrs. C. T. Cross in honor of the visiting co-owners of the Hewitt mine and a few invited guests from Silverton and New Denver. A pleasant day was passed the excursionists returning home in the evening.

The managers of the Sandon Football Club want to run an excursion to Silverton and bring along the baseball team and the brass band. The football team wants to play Silverton, the baseballers will arrange to play with New Denver and the band would play rag-time for the drinks. Silverton has offered to put up $35 to help pay expenses. The excursion will come off early next month.

The number of summer visitors on Slocan Lake this year is much larger than ever before. As a resort for tourists however Slocan Lake has yet to be "discovered." The attractions of this section in boating, bathing, shooting and fishing, combined with the grandest of mountain scenery, far outclass those of the great majority of resorts and will be appreciated and raved about in the not far distant future.

RODE THE NEW TRAMWAY.

The starting up of the Hewitt tramway was witnessed by Mr. and Mrs. Insinger, Mrs. E. F. Cartier and F. J. Holman, of Spokane, and Mr. and Mrs. M. L. Davies of Nelson, who also took a trip over the line and visited the mine. Messrs Insinger and Holman are members of the Hewitt syndicate, Mr. Davies being the consulting engineer for the company. The party spent the week in Silverton, being guests at the Victoria Hotel.

Look for the blue cross on the back page of this paper and note carefully what it signifies. Then do the necessary.

SUMMARY TELEGRAPH NEWS

NEWS OF THE WORLD IN BRIEF.

A Complete Review of the Events of the Past Week—In This and Foreign Lands—Taken From the Latest Dispatches.

Mose La Fontise of Butte was given the decision over Dave Barry of Canada in a 20 round go recently.

Advices from Dawson, under date of June 28, state the gold shipments to the outside this year have amounted to $5,000,000 to date.

A terrible storm struck the Pleasant Point district on Carberry plains, near Winnipeg recently, doing $100,000 damage to crops and farm buildings.

A special from Big Sandy, in northern Montana, tells of the lynching of three horsethieves by a posse of infuriated ranchers on the Missouri river just below Judith.

Word reached Hereford, Tex., of a regular pitched battle and wholesale killing between Mexicans and negroes, who are working on the new Rock Island extension in Mexico, 100 miles west of that place.

Deputy Game Warden F. A. McHaney of Deta, Cal., halfbreed Indian, shot and killed W. A. Womack and fatally wounded A. L. Hinchman, who, it is claimed, resisted arrest while illegally fishing in Grandmesa lake.

The Idaho state board of pardons unanimously decided to commute the sentence of "Diamondfield Jack" Davis to imprisonment for life. Davis was under sentence to hang on next Wednesday for the murder of two sheepmen in Cassia county in February, 1896.

General Butterfield is dead. He passed away at his home near Poughkeepsie, N. Y.

The pension roll is rapidly growing. It amounts to nearly $140,000,000 for the fiscal year.

Shamrock II. sails for New York July 25. Mr. Thomas Lipton thinks she is the fastest racing yacht afloat.

Marshall, Mo., a town of 5000 people, on the Chicago & Alton road, 90 miles east of Kansas City, is reported burned.

There is an almost complete cessation of mining operations in the Lackawanna valley because of the strike of stationary firemen.

The strike in the National Steel company's furnace at Niles, Ohio, has been settled, and 350 men have returned to work.

With threatening curses and at the point of guns two masked men held up C. B. Clemmer and Con Reagan on the east bridge across the Umatilla at Pendleton.

An explosion occurred recently at the Gyttorp Powder works at Nora, province of Orebro, wrecking seven buildings. Four persons were killed and a number injured.

Leigh S. J. Hunt, the Korean millionaire, is very ill at Nagasaki, and has been compelled to give up his project of starting an opposition paper to the Post-Intelligencer of Seattle.

The steel strike in America is attracting much attention in England generally, and while long articles are being printed in the newspapers on the subject, no comment is made in the editorial columns.

The contract for the construction of an electric railroad between Seattle and Tacoma, a distance of 28 miles, has been let to Hale & Smith of Portland. The contract price is not given out.

The mobilization of two fleets at Portsmouth and Devonport, England, for naval maneuvers of exceptional interest serves to divert public attention from the inglorious and protracted war in South Africa.

During operations with a military balloon near Schlusselburg, on an island in the Neva, 21 miles east of St. Petersburg, the balloon exploded. One person was killed and 20 were injured, several fatally.

Billy Madden, manager of Gus Ruhlin, the heavyweight pugilist, who was in Butte, states that he had been offered a purse of $20,000 for a meeting between Ruhlin and Jeffries by the Olympic club of Butte.

Official announcement has been made by J. Pierpont Morgan that he had selected James J. Hill, E. H. Harriman, William Rockefeller, H. McK. Twombley and Samuel Rea to fill vacancies to be created in the directorate of the Northern Pacific railroad.

At Rochester, N. Y., after nearly nine weeks' idleness, the striking laborers engaged in the municipal contract work have resumed work. The men are granted 20 cents an hour for an eight hour day and time and a half for overtime and double time on holidays.

Twelve miles south of Glenwood, Iowa, the charred bodies found in the ruins of the residence of Fred Fourhelm with a shotgun and razor by their side mutely tell the tale of a tragedy. Appearances indicated that Fourhelm had cut the throats of his wife and child with the razor, set fire to the house and then shot himself.

At Vienna Deputy Bakman has been commissioned by the representatives of the boot and shoe trade to question the staathalter in the lower Austrian house as to what that body intends to do with regard to the threatened invasion of the Vienna market by an American syndicate. Local boot and shoe men consider that American competition menaces the very existence of the local industry.

The ministry won in the recent elections for the councils general in provinces of France.

Brigadier General Samuel T. Cushing, U. S. A., retired, formerly commissary general of subsistence, is dead.

Captain Charles Botha, son of Philip Botha, and Field Cornets Humann and Oliver have been killed in the Orange River Colony.

J. D. Groy, a switchman for the Northern Pacific, was killed recently in Tacoma by falling from the gravity bunkers to the deck of a collier.

Earl Russell, arraigned at the bar of the house of lords for trial on the charge of bigamy, pleaded guilty after lengthy arguments against the jurisdiction of the court.

Major James O'Neil, one of the oldest pioneers of the Pacific northwest and for many years deputy clerk of the United States circuit and district courts, died at Spokane Sunday.

"It is officially reported in Shanghai," says the Shanghai correspondent of the London Standard, "that serious disturbances have broken out in the Hsing-hwa district of the province of Fokien."

The war in Cape Colony is hurting the United States trade, according to a report received at the state department from Consul General Stowe, dated shortly before he submitted his resignation to the department.

The religious enthusiasm aroused by the international convention of the Epworth League reached its culmination at the meeting held Sunday afternoon at Mechanics pavilion. About 10,000 persons were present and not a seat was vacated.

A bulletin recently issued by the census office shows there has been a decrease of the Chinese population in the United States since 1900 of 17,665, the number now being 89,600. The Japanese increased during the past 10 years from 2,039 to 24,300.

Seven women, headed by Mrs. H. H. Grover, president of the Eldorado, Kas., W. C. T. U., entered a joint run by a man named Bush in a tent in the center of town and demolished a tubful of bottled beer. They took samples of the liquor to the sheriff, who later ordered the joints to quit business.

The total number of casualties to persons on account of railway accidents during the year ending June 30, 1900, was 58,185. The aggregate number of persons killed in consequence of railway accidents during the year was 7,865, and the number injured was 50,320. Of railway employes 2,550 were killed and 39,643 were injured.

Adolph Strecker, a barber of San Francisco, at a recent shooting of the third National Bunderfest completed a score which has never been equaled in the United States on the King target and which will doubtless give Strecker the "King prize." Out of a possible 200 he has made the record score of 395 points, breaking the highest score of "King" Hayes, made three years ago, by 22 points. F. C. Ross, the first bundes king, made 371 six years ago.

TRADE REPORT.

R. G. Dun & Co.'s Weekly Review of Trade for last week says:

Anxiety regarding unfavorable possibilities in the future rather than any actual present misfortune, depressed securities and caused cancellation of some orders for merchandise by western dealers. Retail distribution of goods will not be curtailed by the labor controversy unless it is of long duration, as the men have saved money during the recent period of full employment at high wages. Similarly in some agricultural districts where there is fear that little corn will be harvested preceding bumper crops at good prices have put farmers in such prosperous condition that their purchases will not fall off materially, while the greatest crop of wheat on record has not brought a return to the low prices of previous heavy yields.

Beyond advancing prices of steel sheets and depressing the market for tin, quotations have not been affected by the strike of the Amalgamated association.

Woolen mills are generally more active than at any time this year. The tone is distinctly firmer and stocks at mills and in warehouses decreased. In cotton goods the situation is unchanged. Stability of prices seems assured in the footwear industry. The firm tone is sustained by the steadiness of leather and buyers are not seeking concessions. Factories are running full time with orders on hand for months ahead.

Calmer counsel prevailed in the grain markets. Atlantic exports show a large gain over last year's figures, for the week amounting to 3,902,775 bushels against 1,841,861 a year ago.

Failures for the week numbered 198 in the United States against 231 last year and 32 in Canada against 27 last year.

COMING EVENTS.

International Mining congress, Boise, Idaho, July 23-25.

Convention of county superintendents of schools of Montana, Helena, August 20-21.

Washington Press association, Tacoma, August 13-15.

Montana State Baptist association, Great Falls, September 24.

Montana State Trades and Labor council annual convention, Anaconda, August 20.

Montana conference of Methodist Episcopal church, South, Deer Lodge, August 22.

Montana grand lodge, A. O. U. W., Anaconda, September 9-10.

Vancouver (B. C.) street fair and carnival, August 5-10.

Helena races, September 9-14.

Elks' carnival, Tacoma, August 14-24.

Spokane Interstate fair, September 10-24.

Lewiston Interstate Fair race meeting, Lewiston, October 7-12.

Great Falls race meeting, September 11-21.

Uncle Sam Can Hold Morro.

Havana, July 22.—The report that the United States intends to hold Morro castle and the fort does not cause much adverse comment here, the public generally expecting that Morro castle and Cabanas fortress would be taken for a naval station.

Mrs. Kruger Is Dead.

Paris, July 22.—A dispatch from Brussels says that ex-President Kruger has been notified by cable that his wife died Saturday at Pretoria.

MINES AND MINING NEWS

OUR NORTHWESTERN MINES.

Items Gleaned From Late Reports—All Districts Are Being Developed—A Prosperous Year Is Predicted—Mining Notes and Personals.

L. K. Armstrong, superintendent of Washington's mining exhibit at the Pan-American exposition, has been released, his official head falling at the end of the present month. Elmer E. Johnston, the new executive commissioner for the state, who succeeded O. M. Moore, will in future be in general charge of the state exhibits personally. He relieves C. L. Knox, who has been in charge of the exhibits. The latter takes the position vacated by Mr. Armstrong. The move is said to be made in the interests of economy.

Republic.

There are only two men employed on the Gold Ledge tunnel.

Good progress is made daily on the shaft of the Trade Dollar.

The Butte & Boston has nothing now to report in regard to developments.

The last work has been done at the Republic mill and all employes discharged.

The California contractors, who are sinking a shaft from the 300 foot level, are making good progress.

Manager Hedges of the Wauconda mine has received information that the machinery for the Wauconda mill has reached Midway, B. C.

Progress has been slow lately on the Princess Maud on account of the rock. The bottom of the shaft is almost 400 feet below the tunnel level.

They are still driving the crosscut on the Chico, which is being driven at the 400 foot level. It is expected to reach the ledge before the end of the month.

The El Caliph is more than fulfilling the expectations of the company, as at every foot of development the ore body grows more solid and maintains a high grade of value.

The shaft on the Morning Glory, which is progressing favorably, is not following the ledge, as that has changed direction somewhat, but they will crosscut to the ledge after sinking about 20 feet further, and determine the condition and value of the ledge on the 300 foot level.

BRITISH COLUMBIA.

Four feet of high grade ore has been struck on development on the May and Jennie near Nelson.

Some of the richest ore ever found in Phoenix camp has been struck by the diamond drill in the Idaho, owned by the Dominion Copper company and located in the heart of Phoenix.

Three seams of soft coal averaging four feet thick were recently found 60 miles north of Grand Forks. Grand Forks people are enthusiastic over prospects of having their own coal near at hand.

The working mines at Rossland are the Iron Mask, I X L, Homestake, New St. Elmo, Spitzee and Big Four. The Iron Mask is keeping up its shipments to the Trail smelter and will continue to do so regardless of the closing down of the copper furnaces there.

After many delays caused by the mechanics' strike the aerial tramway at the Hewitt, near Silverton, is at last working, and the mine once more joins the list of regular shippers. It is the intention of the management to ship a carload of ore every other day until the lower tunnel is completed and connected with the upper workings. After that, provided the ore goes down, the shipments will be much increased.

The St. Eugene mine at Moyie, in East Kootenay, has quit breaking ore and the force, except about 80 men on development, has been laid off. It is expected that the force will be reduced still further to 50 men. The St. Eugene company had a contract with a Belgian company to ship 9,000 tons of ore within six months. There is enough ore, concentrated and ready for shipment at the mine, to fill the Belgian contract. The St. Eugene has paid $210,000 in dividends this year, but the money was largely earned from shipments made last year, when the price of lead was higher.

What is probably the most important strike ever made in Ymir district is just reported from the Ymir mine, which has now a proved ore body of such dimensions and richness as is surpassed by but few of the great mines of the west. Twenty-six feet of $40 ore is now exposed on the No. 4 level at the Ymir and when it is borne in mind that up to the present the large profits made by this company have been made from ore averaging less than $9 per ton, it will be readily recognized that the present strike is of somewhat sensational character, indicating a time when these present profits will be more than quadrupled.

The week's shipments from Slocan have not been as numerous as expected, though in total they have been satisfactory. The Arlington was the only shipper, sending out 60 tons. Its figures for the year are 1905 tons, the heaviest in its history. Ore is being sacked at the Esmeralda for shipment, and the same is being done at the Fourth of July. Frank Dick has been prosecuting work on the Rose, on the north fork of Lemon creek, chiefly by ground sluicing. Tom Lloyd, Al Owens and Gordon Sutherland, New Denver, are developing the Morris group, on the north side of Springer. The Radcliff brothers have been opening up the Little Giant group of three claims at the head of Lemon creek. L. T. Larson of Nelson and C. Newhaus of Three Forks are coowners with them in the property. Things are in an encouraging condition at the Tamarac. Six men are working at the Phoenix, with the certainty of an early increase..

MINING NOTES.

The Snow Storm has shipped another carload of ore to the smelter. The Snow Storm is a copper property, situated three or four miles above Mullan, Idaho.

There is a growing impression that the reported discovery of rich gravel in the big bend of the Snake river near Ontario, Ore., has more to it than has been supposed.

It is rumored that W. A. Clark of Montana during his recent trip to Europe came to St. Petersburg and Moscow incognito, and with a certain unnamed count invested 10,000,000 rubles in Ural copper mines.

Murray, Idaho, has been experiencing a genuine stampede because of reported discoveries of rich rock "up the North Fork." That is a very indefinite expression, but it is as good as can be given by anyone who is not already off on the stampede.

A most peculiar deposit has been discovered near Asotin and Lewiston, Idaho. The product has a woody fiber and burns with a bright flame like dry wood. There is on occasions a sputtering like there might be oil in the substance, but there is no book on bitumens that treats of it in any manner.

Drifting has commenced on both ledges in the Humming Bird, near Burke,, where the strike was made in the second ledge recently. While the first strike was not so great as first reported, the ore being largely concentrating instead of all shipping, yet in both ledges there has been a marked improvement since drifting began.

What is said to be one of the richest strikes ever made in southern Idaho is reported from Owyhee county, not more than three miles from Silver City. The property is owned by another man, Robert Noble, the Owyhee sheep king and another man. They have found a ledge over eight feet wide and the ore runs over $100 a ton.

According to the statement of C. A. Jones, a Spokane prospector, who has arrived in Spokane from the Bitter Root district, the country around Orofino, Wash., certainly contains a variety of minerals. He brought with him some samples of onyx and magnesia which he says he has recently uncovered within three miles of Orofino.

Charles Sweeny has been made defendant in another mining suit involving an eighth interest in the famous Skookum mining claim at Wardner, Idaho. The suit is similar to the case tried at San Francisco in which Kennedy J. Hanley was plaintiff. The plaintiff in the second suit which was filed in the United States circuit court at Moscow by Attorneys Graves & Graves, is W. C. Murphy, a wholesale grocer of Missoula, Mont.

The Northport Smelting & Refining company filed articles of incorporation with the county recorder at Wallace, Idaho. W. B. Heyburn, E. M. Heyburn, W. B. Sams, D. C. Corbin and James W. Morrison are the incorporators. Wallace is named as the principal place of business and the $1,000,000 capital stock in $1 shares is all subscribed by the directors, W. B. Heyburn, Bernard O'Neill, Louis Odell, Bernard McDonald and T. Mayne Daly. Mr. McDonald, as trustee, subscribed for 999,996 shares and the other directors for one share each.

Frank E. Johnesse has just come out from the Crook's Corral district, on Salmon river, Idaho, where he has been developing the Blue Jacket mine, on which he has a bond. This is the property developed by Finch & Campbell, who threw up the bond after expending $15,000 in development work. Since that time Mr. Johnesse has run a crosscut from the 200 foot level, cutting the ledge, where it shows 12 feet of pay ore. He has 500 tons of shipping ore on the dump and estimates that the stopes show $150,000 worth of good smelting ore which would all stand shipping if a steamboat should be put no the upper Snake river.

BAKER CITY, ORE., MINES.

The Concord is stacking up rich ore and it is rumored that the owners have bought several odjoining claims.

The new hoist of the Red Boy is the finest in the west and is working like a watch. While the new depth attained is only about 200 feet, the ore body is showing increased richness.

The May Queen, it is said on good authority, will within two weeks put in a hoist and deep sinking plant, which will add another rich mine to the list of eastern Oregon producers.

From Stice's gulch, 15 miles southwest, at the foot of old Baldy mountain, comes the story of a big find. "Uncle" Dan Dillabaugh has come in with a $42 nugget which he picked up from the grass roots on the Kenyon and Brown placer ground in Stice's gulch.

The mining season is on in Baker City and trading is lively. The Big Hump group in the Virtue district was sold for cash. About $20,000 was paid. That and the sale a few days before of the Uncle Dan mine in the same district for $30,000 has brought the old Virtue district to the front again. Mining men say that it will be the active camp of the future.

Iowa Town Burned.

Minneapolis, July 22.—A telephone message to the Times from Riceville, Iowa, says that the town, with a population of 800 to 900, was practically wiped out by fire. Loss estimated at $200,000.

Boy Killed.

Everett, Wash., July 22.—Basil Murphy, a 7 year old boy of Monte Cristo, was instantly killed by being run over by a heavily loaded ore train car at the Monte Cristo concentrator.

To Mothers of Large Families

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

We make a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid.

To women, young or old, rich or poor, we extend an invitation to accept free advice. Oh, women! do not let

MRS. CARRIE BELLEVILLE.

your lives be sacrificed when a word of advice at the first approach of weakness, may fill your future years with healthy joy. Address a letter to Mrs. Pinkham's Laboratory, Lynn Mass., and you will not be disappointed.

"When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to the Pinkham advice and medicine I am now well, and can do the work for eight in the family.

"I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—MRS. CARRIE BELLEVILLE. Ludington, Mich.

In the performance of her duty Ida Hathaway, a nurse at the Hartford hospital, contracted ophthalmia from a child patient and became blind. Hartford people have raised a fund of $8000 for her support.

It's an easy matter for a married man to get next to the latest word in use.

Piso's Cure is the best medicine we ever used for all affections of the throat and lungs. —Wm. O. Endsley, Vanburen, Ind., Feb. 10, 1900.

Chekib Bey, the new Turkish minister to this country, is a keen going sportsman and extensive breeder of thoroughbred horses, in which he takes a great interest.

Impaired Digestion

May not be all that is meant by *dyspepsia* now, but it will be if neglected.

The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system

STATUS OF FIREMEN'S STRIKE

IT MAY SOON BE AT AN END

Insist That the Mine Workers Define Their Position Definitely Once For All—Official Statement Issued From Firemen's Headquarters.

Willkesbarre, Pa., July 22.—The stationary firemen's strike will soon be at an end. At a meeting of the executive officers of the United Mine workers and the officers of the firemen's order, the firemen insisted that the mine workers define their position definitely once for all, as it was impossible to carry on the strike if the United Mine workers opposed it. With that object in view the executive officers of the mine workers agreed to come to this city and meet the strikers. The United Mine workers were represented by 26 officers of the three districts. The Stationary Firemen's association was represented by J. F. Mullahey, president of the association; Thomas Barrett, vice president; J. A. Gerrity, secretary; Brodus Langdon and J. F. Wade.

T. D. Nicholls, president of District No. 14, opened the discussion. He said the strike was inopportune at this time. It was detrimental to the miners, who were under agreement with the operators to remain at work for one year and if the United Mine workers remained out it would mean the sacrifice of the good will of the coal operators.

President Fahey of the Ninth district, also spoke against the strike. He claimed the strike was inopportune and that his men were opposed to it. President Duffey of the Seventh district, said the firemen in his district did not go out on strike. This showed lack of unity and the strike could not succeed.

The following official statement was issued from firemen's headquarters tonight:

"After the officers of the three districts of the United Mine Workers defined the attitude they contemplated assuming toward the firemen should their strike continue we thought that it would be to the interest of all concerned to bring it to a speedy termination and in consequence thereof we made propositions to them which were adopted, after which we instructed the firemen to pursue all honorable means to have their positions returned. Although the strike is not yet declared off until after the answers are received from their employers, yet it seems to be the prevailing opinion that should they be favorable the action of the delegates Monday evening will end the strike. But should any one now out of employment on the ground of the strike be discriminated against the end would be as far off as ever. The firemen are determined to stand by those who sacrificed their positions before they would take our places. All of the firemen who are still at work shall remain until after this convention.

"J. F. MULLAHEY,
"President.
"THOMAS BARRETT.
"Vice President.
"JAMES GERRITY,
"Secretary."

Prices Paid in Spokane.

Poultry and eggs—Chickens, old, 9@10c per lb, live weight; ducks, $4 per doz; geese, dressed, 12c per lb; turkeys, live, 10@12c; dressed 12@13c; eggs, fresh, $4.25 per case.

Crops Failed.

London, July 22.—A dispatch to the Evening Standard from Odessa says that according to the reports of special agents the Siberian crops appear to be nearly a total failure.

Stops the Cough and Works Off the Cold.

Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, No Pay. Price 25 cents.

Wireless Telegraphy.

Portland, July 22.—Experiments with wireless telegraphy for reporting incoming ships will soon be made between Tatoosh island and Neah bay, at the entrance to Puget sound.

"The Hawaiian islands are full of beautiful women who are willing to become wives of ambitious young Americans who go to Hawaii to make their fortunes," says Miss Rose Davidson, who is to represent Hawaii at the Pan-American exposition. And they are heiresses, too, many of them, she says.

The Spokane Interstate fair will be opened in that city at 10:30 Tuesday morning, September 10, by a grand exhibition of the noblest of all animals and a parade of horses of every breed and variety, such as this section of the country has never before witnessed.

SCHOOL CLOSED

The Teacher Injured In a Runaway Accident and Reported to Have Gone Insane.

In October, 1896, one Monday morning the Rushford school did not open and it was reported that the teacher had gone insane. The physician in attendance pronounced the trouble nervous prostration and said that school work was mentally and physically impossible. The teacher, who is now Mrs. L. A. Gullickson, of Rushford, Minn., in a recent interview published in the Star of that place, gives the true story of the event.

"To begin at the beginning," she said, "when I was about seven years of age a sudden fright brought on a dreadful condition of nervousness. When, in 1896, I was injured in a runaway accident, this, combined with my former trouble, made me so ill that I was unable to open school the following Monday."

"Was it true that you were reported to be insane?" asked the interviewer.

"Yes, and the members of my family thought that I was becoming so. Words do not express the agony I endured with my head and eyes. The least noise would cut through my nerves like a knife. I was hot and cold by flashes, had piercing pains in my temples and in the back of my head and a red mist was constantly before my eyes.

"I was dizzy and faint with fearful nausea, which nothing relieved. I could take no solid food for 10 days, but lived on milk and lime water. When the doctor had treated me for nearly six weeks without helping me, Mrs. J. Webster, a nearby friend, recommended Dr. Williams' Pink Pills for Pale People. I took them faithfully for not quite three months and was perfectly cured. I have never heard of a single case where they did not prove beneficial and know of several persons who have taken them successfully for rheumatism."

Dr. Williams' Pink Pills for Pale People are not like other medicines. They act directly on the blood and nerves. This makes them invaluable in such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of the grip, palpitation of the heart, pale and sallow complexions and all forms of weakness either in male or female.

At all druggists or direct from Dr. Williams Medicine Co., Schenectady, N. Y. Price 50 cents per box; six boxes $2.50.

MUCH ADO ABOUT NOTHING.

Giant Trees of the Pacific Coast Have Never Been in Jeopardy.

Statements in the California papers that the sequoias have no commercial value are apt to create surprise at all the effort that has been needed to begin the work of making these giant trees public instead of private property in order to preserve them. If they have a sentimental value only no great price should be asked for them. Indeed, that is the argument addressed to the eastern owner of the Calaveras grove, with whom the national government is dickering. Hitherto he has been threatening unless his price was paid to convert the trees into lumber, when "every lumberman knows that the trees are of no value for milling," says the San Francisco Chronicle.

In the first place, the San Francisco paper explains, the cost of felling any one of the ninety-two big trees on the 500-acre tract would be excessive. It would take five men twenty-two days to bore enough holes through any tree thirty feet in diameter. After being felled the trunk would have to be cut into forty-foot lengths to be serviceable. A block of wood, say, thirty-three feet in diameter by forty feet in length, would weigh about 600 tons and no machinery has yet been built capable of handling it. No saw could work on such a section, if it were possible to get it to a mill, and to split it with dynamite, as Mr. Whiteside once suggested, would shatter the log and spoil the lumber. In other words, the big trees are vastly too massive for commercial use.—New York Evening Post.

High heels, it is said, owe their origto to Persia, where they were introduced to raise the feet from the burning sands of that country.

The average man gets angry every time he is in the wrong and knows it.

A crust and a kind word are better than a feast and indigestion.

Wisdom is often nearer when we stoop than when we soar.

YOU KNOW WHAT YOU ARE TAKING

SYSTEMIC CATARRH

Peculiar to Summer Weather Promptly Cured by Pe-ru-na.

MISS MARIE COATS.

Miss Marie Coats, president of the Appleton Young Ladies' Club, writes the following concerning Peruna:

Appleton, Wis.

The Peruna Medicine Co., Columbus, O.:

Gentlemen—"I find Peruna an excellent spring and summer medicine and am glad to call the attention of my friends to it. When that languid, tired feeling comes over you, and your food no longer tastes good, and small annoyances irritates you, Peruna will make you feel like another person inside of a week. I have now used it for three seasons and find it very reliable and efficacious."—Marie Coates.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, president of The Hartman Sanitarium, Columbus, Ohio.

Among the lucky youngsters who will inherit great wealth is the 3-year-old marquis of Blandford. Some day this boy will be twice a prince, a duke, a marquis, twice an earl and twice a baron. He will rule over 23,000 acres of land, be lord of Blenheim palace and inherit a good share of the Vanderbilt fortune.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAINS MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure and get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists, price 75c per bottle.
Hall's Family Pills are the best.

A Misunderstanding.

"Henry," said Mrs. Oldham, "this is May Summer's gal's intended."

"Ah!" exclaimed the old gentleman. "Glad to know ye, Mr. Legion."

"Brown is my name, sir."

"Ye don't say? Why, she told me her beau's name was Legion."—Philadelphia Press.

If a man looks all right as an angel, with nothing on him but a thin bath robe, why wouldn't he look all right in the same sitting on his bock porch at home?

There is one good thing about a boy's dirty hands—they will wash. Some dirty things, some dirty reputations, can't be gotten rid of.

What has become of the girl who had the baby stare?

Some men in performing a duty look as if they were hired to do it and were doubtful of being paid.

A bright man never wastes much time gazing on the gloomy side of life.

TARIFF TALK IN GERMANY

WAS A LIVELY DISCUSSION.

Wheat and Meat Cost Much More According to New Schedules—War Predicted—Violent Storms Are Ruining Vineyards and Beet Crops

Berlin, July 20.—A lively discussion of the tariff question broke out last week on the publication of the new agricultural schedule by the Stuttgart Boebachtter, which claims to have authentic information on this matter on recent tariff conference.

The most striking features of the schedule are the high duties and the minimum and maximum charges on cereals. The figures are the lowest admissable in commercial treaties, while the maximum charges are 65 marks per ton on wheat and 60 marks per ton on rye and oats. The minimum charge on wheat is 55 marks per ton and on rye and on oats 50 marks. The present duties on rye and wheat are 35 marks per ton and on oats 28 marks.

Animals and meats are without minimums. The duties on swine have been raised from 50 marks per ton to 100 marks per ton. Meat, lard and calves are scheduled for considerable increase. Sausages are raised from 170 to 450 marks per ton, butter and cheese from 15 and 20 marks to 30 marks per ton and eggs from 20 to 60 marks. The conservative and agrarian papers ignore or doubt the story printed by the Stuttgart Boebachtter, which other papers have, however, investigated on their own account and substantially confirm the Boebachtter schedule.

The Frankfurter Zeitung avers that the commercial treaties will be impossible under such duties and says: "Tariff wars are in Germany's future, if the government realizes its intention."

The Tageblatt considers the schedule to be monstrous, and prints statistics showing that the new duties, on the basis of the imports for 1900, mean an increased expenditure of 66,000,000 marks to the consumer, not to mention the rise in prices on domestic products, and argues that the United States and Russia, two of Germany's best customers, would adopt reprisals were the duties put into effect.

The Voerwaerts characterizes the published schedule as usurious. The Hamburger Correspondent says the government will publish the tariff bill in a few days.

The trial of the Russian cruiser Nowik, built at the Schichau ship building yards, shows that vessel to have an average speed of over 25 knots.

The weather has been unusually hot throughout almost the entire country, and the drought is extensive. Violent storms have been announced from various points in the empire, and the vineyards in portions of the Hartz mountains have been almost wholly destroyed. The beet crop has been injured in some places by the drought. The rains have helped other sections. The water in Weiser and other streams is so low that shipping is attended with difficulty.

A Balloon Ascensionist Killed.

A balloon ascensionist was recently killed while making one of his daring trips. Life is too valuable to trifle with in foolhardy adventures. It is better to employ ourselves in peaceful pursuits where we may be secure. Then if we take care of our health, we can live to a good old age. The best means of prompting good health is Hostetter's Stomach Bitters. This medicine cures dyspepsia, indigestion, constipation, flatulency and insomnia. Be sure to try it.

At Buffalo.

Buffalo, N. Y., July 22.—A new feature of exposition work that has been undertaken by the Washington state representatives at the Pan-American is the collection of names of those showing an interest in the state's resources.

Abolish Sweatshops.

New York, July 22.—Members of the executive board of the United Garment workers met and ordered a general strike.

Boy Shot.

San Francisco, July 22.—The young sons of General Kobbe, now stationed at Manila, have been arrested and held for assault with intent to murder. Their victim is young Paul Wissig, whom the boys shot in the lungs with their rifles. Eric and Herman Kobbe, 15 and 16 years old, for several weeks have been shooting with rifles near Black Point. There are no houses on the beach, but men in boats have complained of the boys' recklessness. Wissig, with three companions, was in a rowboat when several shots fell about them, and Wissig received a rifle ball through the lungs, which surgeons think will prove fatal. The Kobbe boys claim they were firing at a target on the beach and did not see any boat, but the younger one admitted to his mother that he might have shot Wissig.

Destructive Fire at Winters.

Winters, Cal., July 22.—A $100,000 fire occurred here. The principal losers were the Winters Dried Fruit company, $40,000, fully insured; S. B. Chandler lumber yard, $15,000, insurance $6000; the California Prune association, $6000, fully insured; the Granger Warehouse association, $15,000, partly insured; Henry Traner, $20,000. A number of small outbuildings valued at $6000 and three car loads of grain belonging to McNeill were burned.

Exchange Is High.

City of Mexico, July 22.—Exchange on New York has reached a premium of 1.15 above par. This is a wholly unprecedented rate. There is talk of the consolidation of the great banks in order to offset growing American financial and business influence. It is reported that the entire street railway system of this city and the federal district will soon pass into the hands of Americans.

Express Company Is Loser.

Seattle, July 22.—The Great Northern Express company has lost a package containing $750 addressed to the Puget Sound National bank at Seattle. F. A. Maughan, general western agent of the Great Northern Express company, is here to trace the missing package. One of the employes of the local office of the company has been dismissed. No proceedings have as yet been taken.

Fort Canby.

Washington, July 22.—General Young, commanding the department of California has assigned companies of coast artillery just arrived at San Francisco from the Philippine stations as follows: Thirtieth company to San Diego; Thirty-second company to Fort Lawton, Wash., and Thirty-third company to Fort Canby, Wash.

New Grain Commissioner.

Tacoma, July 22.—William H. Reed has been appointed by Governor Rogers a member of the Washington state grain commission to succeed himself.

ECZEMA

Eczema sets the skin on fire. The acid poisons in the blood are forced out through the pores of the skin, causing intense redness, burning and itching. So terrible is the itching at times, especially when the body is overheated, that the almost distracted sufferer feels that he could tear the skin to pieces, and that he must scratch or go crazy. He knows from experience that this only makes matters worse, but, made desperate by the terrible burning and itching, he is for the time being indifferent to after effects. There are several forms of Eczema, the moist, or weeping kind, that comes in little pustules which discharge a watery, sticky fluid, which dries and peels off in bran-like scales. So profuse is the discharge at times that large scabs or crusts form, which are both painful and troublesome, and not easily removed. Red, disfiguring bumps and sores are symptoms of Eczema. The dry form usually attacks the head, hands and feet; the skin, becoming hard and rough, often cracking open and bleeding, and attended with much itching. Eczema depends upon a poisoned condition of the blood, and local applications, while soothing and cooling, and may to some extent relieve the inflammation and itching, cannot be considered cures, because external remedies do not reach constitutional or blood diseases. Salves, ointments, powders, lotions and soaps do more harm than good, by smearing over and sealing up the pores of the skin, thus forcing the poison back into the blood. S. S. S. antidotes and neutralizes the acid poisons and drives out of the circulation all impurities and humors, and the pure, rich blood that is carried to the diseased skin quickly allays the inflammation, opens the clogged up pores, and the skin becomes soft, smooth and ready to perform its proper functions. To be rid of Eczema you must first purify and build up the blood, and nothing so surely and effectually does this as S. S. S., the only guaranteed purely vegetable blood purifier. Send for our book on blood and skin diseases, and write our physicians for any information or advice you may desire. Medical advice and book free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Mr. L. Marno, Escondido, San Diego County, Cal., writes: "My body broke out with a rash or eruption which in spite of all efforts to cure continued to get worse. The itching, especially at night, was simply terrible; it would almost disappear at times, only to return worse than ever. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely, removing every blemish and pimple from my body. I shall not fail to recommend S. S. S. whenever an opportunity occurs.

EDITORIAL OUTCROPPINGS.

The Nelson Tribune this week republishes the rumor contained by these columns some weeks ago concerning a shifting about of the Cabinet members at Victoria, consequent upon the early retirement of Finance Minister Turner. The portfolio of Mines will be taken by Robert F. Green, member for the Slocan.

This confirmation of the report, for the Tribune statement may be taken as almost an official announcement, means that this Riding will soon be thrown open, as an acceptance of a portfolio will necessitate re-election for Mr Green. Whether he would have the walkaway as a member of the Dunsmuir government that he had as an Independent candidate remains to be seen. The Slocan does not favor Mr. Dunsmuir and his government but as Minister of Mines, Mr. Green would be a hard man to beat in a bye-election.

The Mine Owners' Association has addressed a petition to the Governor General in Council asking that a Royal Commission be appointed to enquire into the mining laws of British Columbia and some of the acts of the Dominion Government, which they claim are strangling the mining industry of this Province. The stagnation of the industry is due, they state more to the unequal share of the taxation it has to bear and to laws limiting their operations than to any other cause. The mineral area is unlimited and the effects of bad management, over capitalization, stock swindling &c are no worse in their effects than they have been and are in every other new mining field.

The petition complains of and asks relief from the following:

1. Custom duties which increase the cost of mining about 12 per cent.

2. The two per cent tax on the output of the mines levied by the Province.

3. Excessive incorporation and registration fees.

4. Excessive fees for boiler inspection, recording fees, timber dues and miners' licences.

5. The Eight Hour Law.

6. The passing of class legislation consequent upon the struggle between capital and labor.

7. The extension of the Eight Hour law to certain surface employees.

8. The demand of information for statistical purposes from the Minister of Mines.

9. Certain provisions of the Mines Inspection Act.

10. The steady increase of taxation and threatened legislation which is keeping out new capital.

11. The "Master and Servants Act."

12. The Dominion "Alien Act."

The mining industry, the petition says, pays 50 per cent of the taxes raised in the Province, 22.7 per cent of the entire mineral production going to the Provincial treasury.

The sudden death of Editor Beaton, of the Nelson Miner, will be generally regretted by all who knew him, either personally or through his writings. His three sons have the sympathy of the newspaper fraternity of Kootenay in their loss.

Some labor papers have been crying out that the Labor Commissioners appointed by the Dominion Government are no good except to draw a fat salary, We know nothing of the labor commissioners in the East, but in British Columbia Ed. Bremner, one of the appointees, has certainly earned his salary and has accomplished a large amount of good, being instrumental in settling more than one dispute between employer and employees. He is a conservative man looks at both sides of a question in dispute and is conscientious in the performance of his duties. Both labor and capital in this Province are indebted for the good work done by Ed. Bremner and should give him credit for it.

Many members of the Mine Owners' Association are not in favor of the lead refinery being built by the C. P. R. And with very good reason. The C. P. R should never be allowed to secure a stronger cinch on the lead mining industry than it has at present. It is unreasonable to suppose that the lead bounty would help the lead miner any if it had to pass through any C. P. R. hands. The Dominion has given enough already to this corporation without allowing it to draw any more bonuses.

If the Slocan was a county, with powers similar to such a division in the Eastern Provinces, half our troubles over roads, bridges, trails and schools would be done away with.

A large amount of space is now being used by some of the Canadian press in advising union men in Canada to cut loose from any affiliation with the unions in the United States. Most of the papers giving this advice to union men have never before been noted for their love of unions and unionism. They appear to overlook the fact that labor unions like the railroads have been reduced to a business proposition and recognize no flag nor boundary line, but are run on the principle of "united we stand; divided we fall." Canadian workingmen have full representation, according to their strength, on all boards of managers of their respective unions and in some unions, notably the Western Federation of Miners', they have a larger representation than their numbers would entitle them to. In case of strikes or lockouts the great trouble has always been to keep other workmen from coming in to fill the places of the men out and experience has shown that only by unionising all laborers can that be prevented.

The Nelson Miner was on Tuesday last sold by the Sheriff for a debt of $5400, being bid in by Messrs Miller & Richards of Toronto, presumably for someone who will still continue the publication. The Miner has, during the last three or four years been fighting the popular side of nearly every movement which has come up in West Kootenay and its financial embarassment is the natural consequence.

The Chinese and the Boer questions are all over and settled, by the newspapers, all that remains to be done now being to whip the Boers, find out some method to make the Chinese pay up and then divide the spoils. An easy proposition, especially the latter part.

Toronto and Winnipeg pride themselves on their rowers, and send them to gather garlands in Philadelphia. Slocan City and Sandon also have rowers, but they keep them at home as members of their city councils.

A KANSAS GRIEVANCE.

A wholesale liquor dealer in Kansas City lately received from a customer the following appeal and lamentation:

Coldwater, Kan 1901

Dear Sir: I take my pen in hand to let you know that while I a'int neither a bigot nor a phanatic the vile stuff you are a-sending out here is but durned little short of diabollycal. It fills our armhouses full of porpers and our abdoughmens full of great holes and when poured into a glass it takes right hold and itches it in fine shape, and who I ask you wants his stomak itched all over with phantastic patterns like a goshblamed tattooed man turned outside in? A man takes a drink of it to-day and day after to-morrow shakes his head and is drunk again; and yet I spose you wonder how we tollyrate Mrs. Nation. If the feet of the vile stuff you traffic in don't take hold in hell, as the feller says, I don't want a cent.

John E. Swaggerty, a friend of mine, he took but two consecutive drinks out of a jug of liquor he got from you and he died a-hollerin' he'd swallered the Salvation Army. Now no licker dealer who wants to get along in this life can affort to waste his customers like that and if you don't take to sending us a better grade of goods in return for our money, you'll drive us all into the Prohibition ranks in self defence. A word to the wise is or ort to be sufficient.

Yours truly, J. H. Klawback.

The citizens of the function loving cities on the Coast should be warned in time not to spend all their money in entertaining the Duke of York. We will take a trip to the capital ourselves in the near future and look for our share of welcoming.

CEYLON AND INDIA TEA.

Green or Black.

Trade Is Confederating The Empire.
Britain Is Canada's Best Customer.
Britain Cannot Buy if She Does Not Sell.

Use TEA Grown In a British Colony By British Capital.
