MINING NEWS.

LOCAL and GENERAL.

Last Week's Strike.

Last week was a record week for the Emily Edith mine, as new ore bodies were struck in the No's. 1, 2 and 4 tunnels. This strike in the number four tunnel proves that the ore bodies encountered in the upper workings go down and this fact now being proved means that a concentrating plant will be erected in the spring for the treatment of the Emily Edith ores. The site selected by this company for their concentrator is within fifteen minutes walk of town.

In the north No. 1 tunnel a cross-cut is being run at a depth in of 100 feet and has already encountered seven feet of good ore and is not yet through the ore body. In cross-cut number 16, in the No. 2 tunnel, 22 inches of fine ore has been cut and in the No. 4 tunnel fully 15 inches of rich ruby silver ore has been exposed.

Philadelphia Contract.

On Thursday Jack Chisholm and Geo. Clark went up to the Philadelphia Group on Fennell creek, taking up supplies with them to last some time. They have secured a contract to drive a 75 foot tunnel upon the Philadelphia vein with an option of driving an additional 75 feet after the completion of their first contract.

The Philadelphia is a new property which is to be developed this winter. It is situated upon the opposite side of Fennell creek from the Comstock Mines and is a silver-lead property lying in the granite formation. There are two parallel veins crossing the property, varying from four to six feet in width. There has been a large amount of surface prospecting done upon these veins with the result that several good showings of rich mineral has been exposed upon them and the management has decided to open up the lower or Philadelphia vein this winter. Buildings have been erected and a good trail built to the property, everything being now in shape for the prosecution of continuous underground development work.

Arlington Mine

The Arlington mine, which is situated up Springer creek and about six miles from Slocan City, is proving itself to be one of the bonanza properties of the Slocan. At present it is working in full blast, giving employment to over 90 men. The boarding-house has been put into firstclass shape, a good office building is being erected and there is building an ore-shute with a capacity of 250 tons, so that within a few days the Arlington will be fully prepared for the approaching winter.

The Arlington vein is a fissure lying in the granite formation, with a strike northeast and southwest, dipping to the south and varying in width from five to sixteen feet in width. The character of the ore is dry, carrying sulphurets, wire and native silver. It carries little lead but is very rich in silver, averaging over 200 ounces and even the talc on the footwall is good shipping material. So far this year there has been sent out to the smelter for treatment some 640 tons of rich ore.

MINING LOCALS.

The shaft being sunk on the Lone Star has now reached a depth of 45 feet.

The Enterprise, Ten Mile, sent out a car of ore last week, and the Arlington shipped forty tons from Slocan.

A contract has been let to extend the tunnel on the Silverton Boy another one hundred feet. The force of miners who had been employed there at day's pay came down last Thursday.

An agent for electrical machinery visited the Emily Edith mine last Wednesday. Manager Rammelmeyer is contemplating installing a dynamo to light the bunk houses and tunnels at the mine.

Work on the Hoodoo, near Slocan, is suspended for the winter. J. M. M. Benedum, of Silverton, who was opening up the property, is now back. The Hoodoo was acquired too late in the season to erect buildings.

The Speculator mine is now in touch with the outside world, the Springer creek wagon road having now been completed to that property. The Speculator is being developed as rapidly as possible and is employing 30 men.

It is understood that the Guggenheims' smelting interests are to be consolidated with the American Smelting and Refining Co. The Guggenheim's smelters are at present the only large custom smelters not in the smelter trust.

Buildings are being erected at the Storm claim, which is about one mile from town, and development work will be pushed upon it all winter. The Storm is now looked upon, locally, as one of Silverton's most promising prospects.

F. J. O'Rielly P. L. S. will prospect underground on the Hazard claim for the Noonday ledge. The Hazard adjoins the Noonday on the east and it is thought that the rich Noonday lead crosses the property. A shaft will be sunk and a drift run to cut the ledge at depth.

There is being erected in Utah by the American Smelting and Refining Co., a plant for the treatment of silver-zinc ores and a similar plant is to be erected in Montana. This should be good news for the Slocan mine owners' as it will help solve the smelter problem for them by doing away with the penalty for excess of zinc in ores.

A notice will be found in this issue calling for tenders for the purchase of the assets of the Comstock Mines, Limited, consisting of the mine, mill and machinery on the Comstock group near here. There are several large holders of stock in this company in the Slocan, who are more or less in the dark regarding the inner workings, and this call for tenders will be news to them.

Two Hundred On McKinley.

A certified cheque for $200. has been deposited at this office to place on McKinley in the coming elections in the United States against $100. on Bryan, or any part of the money. If no one wants this bet the money will be put up even on Laurier for the Dominion elections. Who wants any of it?

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR. *

The new store in the Union Hall, just opened by A. Jeffrys, is now ready for business. Mr. Jeffreys will carry a full line of groceries and dry-goods at prices that invite custom. We bespeak for him a good share of Silverton's trade.

There has as yet been no word given out as to when either Galliher or MacNeill will appear before the Silverton elector or stump the Slocan. With eleven hundred votes to work on some move will doubtless soon be made.

Extra pressure on our advertising columns has cut down the amount of reading matter this week, but the ads. will be found interesting. Should this gratifying state of affairs continue we will enlarge the paper. The "growing time" is coming West.

Earnest Mansfield, the mining promoter and the best advertiser in British Columbia, spent part of the week in the Nelson gaol, the result of the non-arrival from France of funds for miners' wages. Mr. Mansfield is now at liberty, with excellent grounds for a damage suit.

Mr. McGregor, of Kaslo, has been through the Slocan appointing Deputy Returning Officers for the election. J. A. McKinnon has received the appointment here. This year there will be no polling booth at Ten Mile, the voters from there having to come to Silverton to mark their ballots. Mr. McGregor was unable to state just when the election in this Riding will be held.

Everett-Green.

Mr. Earnest F. Everett, of the Emily Edith mine, was married to Miss G. T. Green, of Aberdeen Wash., on the 9th. inst., at Portland, Ore. Mr. and Mrs. Everett are spending a few days visiting the Coast cities before returning to Silverton.

Concede Foley Seventy Five Per Cent.

From a local politician, who is in touch with the party line leaders in this Riding, but who cannot be said to favor the Independent candidate, we learn that the principal backers of Galliher and MacNeill concede to Foley seventy five per cent of the Slocan vote. They contend however that, even should he poll the expected vote here, he is bound to be snowed under in other parts of the Riding.

The Slocan vote will not be as heavy as that polled last election.

B. C. Political Crop.

In the five British Columbia constituencies there are fifteen candidates in the field; six Conservative, six Liberals, and three Independents.

In Victoria City the two former members, Earle and Prior, are being opposed by two government candidates, Drury and Riley; in Burrard Riding, Mayor Garden of Vancouver is after Maxwell's seat; McGinnis' seat is wanted by Ralph Smith, an Independent, C. Phillips-Woolley, a martial Tory, and W. Sloan for the Government; in the Westminster Riding, MacClain, Independent, is up against Morrison, the former Government member, and Dewdney, Conservative.

Two of the late members, Bostock and McInnis, are now out of the game.

Thanks.

Matters of public important are advertised everywhere in B. C., except the Slocan, by the Provincial Government. The government probably thinks that the Slocan is full of aliens or people who cannot read, although within its borders is published a paper more widely read than any other paper in the interior of this province.—New Denver Ledge.

Similkameen.

John Popham, one of our old timers, who has been spending the summer developing his copper prospects over at Aspen Grove in the Similkameen country, dropped into town during the week. Mr. Popham is a firm believer in the big future awaiting the Similkameen as a mining camp. He says that country is full of big copper ledges and promising properties are numerous, one of which the Big Sioux produced out of a 22 foot shaft, three carloads of ore that runs 35 per cent in copper and $7 in gold to the ton. Mr. Popham, who is an experienced prospector, has pinned his faith to the Similkameen country and will spend the winter in that region.

WERE DISPLEASED

Volunteers Did Not Like Col. Otter's Action.

WHY THEY CAME HOME

There Was a Misunderstanding About Their Departure.

Toronto, Oct. 23.—Letters received here yesterday from officers of the first Canadian contingent go to show that the departure of tha regiment from South Africa was preceded by a regretable misunderstanding, owing to Col. Otter assuming the responsibility of intimating to Lord Roberts that the whole force was willing to remain till the end of the war without consulting the regiment, which was at that time broken up in small detachments and stationed at various points.

When the men learned of Otter's action in pledging them to remain without their knowledge they were angry and stated that they would have willingly consented to remain had they been asked, but objected to Col. Otter giving a promise off hand. So strong was the feeling that eventually all the men who had volunteered were ordered home. The remainder, consisting of the permanent corps, were grouped together and now form a company which remains under Col. Otter.

Two Hurdred Indians Dying

They Caught No Salmon This Season and the Country Flooded

Vancouver, B. C., Oct. 23.—A special from Agassiz, B. C., says that two hundred Indians are starving at Pemberton Meadows, 150 miles north of Agassiz. An Indian rider brought the news today that fifty Indian families are dying and that it is doubtful if supplies can be sent to them quick enough to save their lives. They have caught no salmon this season, their potato crop has failed and their stock has been drowned by the floods. Recent heavy rains have caused the Harrison river to overflow its banks and the whole country is said to be flooded. Conditions are said to be worse now than during the disastrous floods of 1894, when the district was under six feet of water. Supplies are being rushed from Vancouver to the starving Indians.

A Political Estimate

Ottawa, Oct. 22.—An estimate of the strength of the parties in the house of commons at the close of the late session, vacancies being counted according to their former representation, shows as follows:

	Con.	Lib.

Quebec	14	51
New Brunswick	8	6
Nova Scotia	8	12
Prince Edward Island	2	3
Northwest Territories	1	3
British Columbia	2	4
Manitoba	2	5
Totals	77	136

This leaves the Conservatives with a majority of 59 to overcome, requiring a change of at least 30 seats, or 15 per cent of the whole.

It then descended slowly to the water which it reached near the point of departure at 25 minutes past 5 o'clock. The king and queen of Wurtemburg witnessed the trial.

DETAILS ARE NOT YET OUT

Another Case of Over-Confidence in an Old and Trusted Employe.

New York, Oct. 23.—C. L. Alvord, note teller of the First National bank, at Broadway and Wall street, is accused of heavy thefts and has disappeared. Alvord had been with the bank for years. Officers of the bank refused details of the information this afternoon, but will give out a statement covering Alvord's wrong doing later in the day. The man has not yet been arrested but will probably be apprehended before long.

The bank is one of the most important in the city, doing a very large business. Its reserve is in excess of $50,000,000.

GOODS NOT DELIVERED,

Reported Lot of a Toronto Man Who Subscribed $10,000,

Toronto, Oct. 22.—Sir Wilfrid Laurier's emphatic denial of H. H. Cook's statement in regard to the offer made him of a senatorship on receipt of $10,000 is likely to be followed by a decidedly interesting development. Mr. Cook says his statement with reference to the offer of a senatorship was true in every particular. He said he was careful not to make his charge without being able to support it by facts.

In connection with the question of trafficking in senatorships, a a pretty straight story comes from a friend of a prominent Toronto capitalist, who stated personally that he actually subscribed the necessary $10,000 for a seat in the senate and was bounced out of the position.

President's Proclamation

Put the Flag at Half Mast on Sherman's Funeral Day.

Washington, Oct. 23,—The president has jssued the following proclamation:

"In the fullness of years and honors, John Sherman, lately secretary of state, has passed away.

"Few among our citizens have risen to greater or more deserved eminence in the national councils than he. The story of his public life and services is as it were the history of the country for half a century.

"In the congress of the United States he ranked among the foremost in the house and later in the senate. He was twice a member of the executive cabinet, first as secretary of the treasury and afterwards as secretary of state. Whether in debate during the dark hours of our civil war, or as the director of the country's finances during the period of rehabilitation, or a trusted counselor in framing the nation's laws for over 40 years, or as the ex onent of its foreign policy, is course was ever marked by devotion to the best interests of his beloved land and by able and conscientious efforts to uphold its dignity and honor. His countrymen will long revere his memory and see in him a type of patriotism, the uprightness and the zeal that go to moulding and strengthening a nation.

"In fitting expression of the sense of bereavement that afflicts the republic I direct that on the day of the funeral the executive offices of the United States display the national flag at half mast and that the representatives in foreign countries shall pay in like manner appropriate respect for the illustrious dead for 10 days"

A Big Fire.

Charged With Slandering

A Returned Soldier Secures a Writ Against a Minister.

St. Thomas, Ont., Oct. 23.—A writ has been issued on behalf of Gunner Geo. A. Barrett, who has just returned from South Africa, against Rev. Dr. Philip, pastor of the First Methodist church, for alleged slander in his sermon last Sunday evening. The reverend gentleman said he was sorry to see, in connection with the return of one brave boy, a carnival of drink and dissipation, which he hoped would not be repeated,

GOT THREE YEARS

William R. Hockey Convicted of Bigamy.

FACTS IN THE CASE

His Plea in the Witness Box—Thought His First Wife Had Secured a Divorce,

Nelson, B. C. Oct. 23.—[Special] Three years imprisonment was the sentence imposed on Wm. R. Hocking, of Cranbrook, charged with bigamy. Hocking was married at Salt Lake, Utah, in 1895. They afterward separated, and in 1898, he received a Salt Lake paper in which was advertised the fact that he had been made the defendant in a suit for divorce instituted by Winnie Hocking, and that if no counter plea was entered within 60 days the decree would be granted by default.

Hocking asserted that he took no action and thought the matter of his firrt marriage was disposed of. Later, in 1899, he met Miss Montgomery and married her. A damaging piece of evidence was given by the second wife who testified at Moyie that Hocking once said to her in a fit of passion: "You have no hold on me." The prosecution held this statement indicated that Hocking knew his second marriage was not binding and therefore bigamous.

In reply to the query as to whether he had anything to say before sentence was passed Hocking made the neatest speech ever delivered from the prisoner's box in the court house. He urged his honor to deal leniently wirh him, maintaining strenuously that he was wholly guiltless of any intention to break the law or wrong the woman who had become his wife at Cranbrook. He was anxious to have an opportunity to see Miss Montgomery before being taken to the penitentiary in order to turn over what money and valuables he possessed to her and would also, if the law permitted, marry her at the earliest possible moment in order that her unborn child might have a name.

Hocking's remarks were neatly worded and created a marked impression. The sentence of three years was then passed and the case closed.

She Was Not Dead

Undertaker Discovers Life in a Supposed Corpse.

New York, Oct. 23.—A special from Pippinsburg, Pa., says that after lying all night on an undertaker's cooling board preparatory to the preparation of her body for burial, Mrs. John Streke was found to be alive and there is a possibility that her existence may be prolonged.

The undertaker had been ordered to embalm the body, but he thought he detected a twitch of an eyelid and left the supposed corpse on the cooling board over night. This morning there was still evidence of life and a physician was summoned, who discovered the woman to be in a state of coma. She was immediately placed in bed. Her disease has been diagnosed as acute nephritis.

Nelson's Vote

When the assizes end, Candidate MacNeill will visit the cities and towns along the main line of the C. P. R. The first poll of the committees in Nelson gives these figures for the electors of that city, MacNeill, Conservative, 326; Galliher, Liberal, 280; Foley, Independent Labor, 210.

THE BOUNDARY MINES.

Encouraged by Low Freight and Treatment Rates at Trail.

While in the Boundary, a few days since, J. G. Sullivan, engineer of construction in British Columbia for the C. P. R., said to a Gazette representative that the company intended to handle the freight business of that section and improvements would be made in the service as fast as they were found necessary. The tonnage at present was very fair and constantly on the increase.

The low freight and treatment rate offered at Trail was proving an incentive to the development of mining property in the Boundary and he expected to see large numbers of the mines on the shipper list before many months.

He Stole Much Jewelry

Got Away with Forty-Five Thousand Dollars Worth.

Seattle, Oct. 23.—Detectives have arrested in a down-town hotel C. E. Mather, who is accused by several wholesale jewelers and diamond merchants of New York city of the theft of jewels valued at not less than $45,000. He was going under the name of J. C. Moore and was bound for Australia. He came Thursday.

Chenoweth Acquitted

Nelson, Oct. 23.—Without leaving the box the jury in the Ernest Chenoweth case returned a verdict at 3:30 this afternoon of "not guilty." There were loud cheers in the court room when the verdict was announced.

The Chenoweth murder case was opened at the assizes yesterday afternoon at the conclusion of the Hocking trial, says the Nelson Tribune. Four crown witnesses were examined before court adjourned for the day, H. A. MacLean conducting the prosecution and A. H. MacNeill of Rossland cross examining for the defense.

A startling announcement was made by Mrs. Wright, one of the crown's witnesses, who stated positively on oath that since the preliminary examination before the magistrate at Rossland in May last her husband had been approached by two Chinamen who offered him $500 to bring evidence which would secure the conviction of little Ernest Chenoweth. This testimony will doubtless have a material bearing on the case as supporting the contention of the defense that Mrs. Chenoweth's Chinese servant was murdered by his fellow-countrymen at the instigation of Highbinders, or a secret society of similar nature.

The extreme youth of the little prisoner, whose head barely reaches to the top of the prisoner's box, coupled with the gravity of the alleged offense, makes the trial unique in the annals of Kootenay courts, and the case is not paralleled in the recent history of Canadian justice. Chenoweth is hardly eight years of age. Had the lad been under seven years he could not have been tried for murder, but between the ages of seven and fourteen years the law holds a boy responsible for crime provided it can demonstrated that the defendant is capable of realizing the nature of the offense he commits and the consequences which may arise therefrom.

At yesterday's sitting the fact of the Chinaman's death was established and medical evidence submitted as to the cause of death. The physicians called could not determine whether the deadly bullet was fired from within or without the room in which the body was found. It was also brought out that on the day previous to the murder two suspicious looking Chinamen were seen about the Chenoweth house.

THE TWO POWERS

Agree to Maintain China's Territorial Integrity.

TERMS OF THE ALLIANCE

Want the Ports Kept Open to the Peoples of All Countries.

London, Oct. 20.- -Germany and England have formed an alliance to maintain the territorial integrity of China and to keep the ports open. The terms of this important agreement of the two countries, which was arrived at between Lord Salisbury and Count von Hatsfeldt, German ambassador to England, are officially given out as follows:

"The German government and Her British Majesty's government, being desirous to maintain their interests in China and their right under existing treaties, have agreed to observe the following principles regarding a mutual policy in China:

"Firstly—It is a matter of joint permanent international interest that the ports on the rivers of China should remain free and open to trade and to every other ligitimate form of economic activity for the peoples of all countries without distinction, and the two governments agree on their part to uphold the same for all Chinese territory, as far as they can exercise their influence.

"Secondly — Both governments will not, on their part, make use of the present complications to obtain for themselves any territorial advantage in the Chinese dominion, and will direct their policy towards maintaining, undiminished, the territorial condition of the Chinese empire.

"Thirdly—In case of another power making use of the complications in China, in order to obtain under anv form whatever such territorial advantages, the two contracting parties reserve to themselves the right to come to a preliminary understanding regarding the eventual step to be taken for the protection of their own interests in China."

The United States.

Washington, Oct. 20. — The United States will closely adhere to the principles contained in this agreement, and if Russia can be brought to accept its terms as binding upon herself, there can be no doubt, according to the official view here, that a substantial movement will have been achieved toward a final settlement of the Chinese trouble.

HANDOUTS.

The impression is prevalent that a newspaper is a sort of "associated charities," and there are more people on this earth waiting for "handouts," than would stock a good sized wood yard. Business men want "puffs," and the man who is trying to sell stock wants "a good word" for his property, and another man with a scheme wants it presented to the public "as a news item, you know," and the fellow that figures that he can make a little money for himself by guaranteeing a concert company wants you to "keep it hot," and the man with the fancy show window, who does not advertise, says the paper is "no good," because mention of that particular window is not made in the editorial column, and another man who does not advertise just wants you to make a note of the fact that he has moved to a new place of business, and the church entertainments, societies, clubs, picnics, parties, dances and the like that want free notices, are something awful. Of course, we are not unmindful of the fact that there is a reward in the hereafter, for all this, but a fellow is expected to pay a few bills here below. In nine cases out of ten, the various schemes above mentioned are money making propositions for somebody and they should payfor their advertising just as the manager of the theatre pays for his. Sometimes people bring "complimentary" tickets in consideration for which they want a half column write-up before the show and one of equal length after it. We don't want tickets, so don't bring any. We want cash. If, when Saturday night comes, we tried to work off on the printers part cash and the balance in tickets to a pie social, the typographical union would justly support their objections.

A newspaper has space for sale, just as a merchant has merchandise for sale, and there is no more sense in asking a paper to print a three or four inch "free" notice for a meeting than there is in asking a livery man to lend you a hack and driver to take you there. Every line of type in a newspaper represents cash paid to printers. Don't forget that

Imprisonment for Lifetime

Verdict of the Jury in the Goebel Shooting Case.

(By Associated Press.)

Georgetown, Ky., Oct. 20.—"We, the jury, find this defendant guilty and fix his punishment at life imprisonment."

This verdict was returned by the 12 men who were selected to try Henry E. Youtzey, formerly Governor Taylor's stenographer, on the charge of being a principal in the shooting of Governor Wm. Goebel in front of the executive building at Frankfort Jan. 30.

They Don't Count

Signs indicate very little at times. Every other day I have a fine washing on a line back of my office but I do not run a laundry. Just after it rains all the cows in town line up to my water barrel but I do not run a dairy. I sometimes find golden hairs on my coat collar but I have no wife. I often find money in my pocket but I do not run a mint. Hens roost on my woodpile but I never sell eggs. Signs are not to be depended upon any more than some of my numerous bashful subscribers.—New Denver Ledge.

THANKSGIVING DAY.

In acknowledgment of the bounties and blessings bestowed upon the people of the Dominion of Canada, the governor general has, by proclamation, designated Thursday, October 18, as a day for thanksgiving. Its observance was noted by a general cessation from business, and all banks and public institutions were closed.

Perhaps nowhere, more than in British Columbia, does it seem fitting that such an occasion should receive due recognition. Nature has endowed this province with resources of untold wealth, which, directly or undirectly, is today redounding to the betterment and benefit of every individual who has chosen to make his home within its confines. More keenly is this to be appreciated, when one stops a moment to reflect on the reverses which have visited other communities, beset by storms, droughts failures and ike mistortunes. Here where employment is plenti ful, and the wage is fair, one is apt to lose sight of conditions in less favored countries, where the means of maintenance for the family and schooling for the little ones is more limited. The people of Kootenay can truly join in one voice of thanksgiving, for the bounty and plenty which they enjoy and in gratitude to Him who has spared to her loyal subjects our beloved Sovereign Majesty, Queen Victoria.

God save the Queen.

Court at Nelson

The case of Regina vs. Albi was before Mr. Justice Walkem in Nelson today, but no result had been reached up to the time of going to press.

Sherman Passed Away

The Venerable Statesman Died Early This Morning.

Washington, Oct. 22, Hon. John Sherman, who for a period of 40 years occupied a prominent place in the legislative and administrative branches of public affairs in the United States died here at 6:45 o'clock this morning of brain exhaustion. Funeral service over the remains will be held in this city and at Mansfield, Ohio.

John Sherman was born in Lancaster, Ohio, May 10, 1823. In 1844 he was admitted to the bar. He was elected to congress where he took his seat December 3, 1855. He was president of the first republican convention in Ohio. Mr. Sherman was a United States senator from 1841 to 1877, and again from 1881 to 1897. The author of many important laws, he had long been known as a famous statesman. In 1896 President McKinley appointed him secretary of state, but soon after taking up the portfolio ill health compelled him to resign.

A Park Tragedy

Buffalo, N. Y., Oct. 22.—A special to the News from Corry, Pa., says:

"A horrible murder and suicide occurred here early this morning. About one o'clock two shots were heard in the park. No attention was paid to them, however, until this morning, when the dead bodies of Harry Bettis and Daisy Blydenberg were found on a seat under a tree. Both were shot through the temple. The revolver with which the deed was done was clenched in Bettis' right hand. It is thought by many that the deed was premeditated.

The young couple attended church last night and spent a pleasant evening together at Miss Blydenberg's home and later called on friends. When bidding them goodbye, they said; "Well, good-bye, you will never see us again." A letter was found on Mr. Bettis addressed to his mother, the contents of which are yet unknown. Harry Bettis, who was 22 years old, and Miss Blydenberg, who was 19, moved in the best society, and were highly respected.

IN NEW YORK JAIL

Rossland Defaulter Caught-- Will be Extradited

THE SON OF A MILLIONAIRE

Fred Yuengling, Defaulter, Arrested at the Instance of Lion Brewing Co. Rossland

Rossland, B, C., October 22.—Fred Yuengling, who left several mementos in Rossland when he hurriedly departed as manager of the brewery, has been brought up with a sharp turn. He will be extradited and returned to British Columbia on the charge of embezzlement. Yuengling went it thick and fast while here, and when he departed he borrowed right and lett and issued checks which have been framed. Of him the New York World says:

"One more checker has been added to Fred Yuengling's already checkered career. Hero of the tenderloin and son of the millionaire brewer, he nevertheless spent last night in Ludlow street jail. He was locked up there yesterday morning accused of embezzling $387 in July of last year. His accusers are the Lion Brewing company, of Rossland, British Columbia.

"The young man bobbed up in New York a week ago after four years absence from town. An irate father was to blame for his sudden departure, but reports reached the tenderloin that the young spendthrift was settling down in British Columbia and doing a fine business there. But the reports were not quite accurate, for Deputy Marshall Bernhard had a warrant in his pocket for the young man's arrest a week ago, and he was looking high and low for him.

"Yuengling avoided the tenderloin and that was where Bernhard naturally sought him. But he caught him yesterday morning in New street just after he walked out of the Hoffman House cafe.

"'Is this Frederick D. Yuengling?' asked Bernhard.

"'Yes.' replied Yuengling, all unsuspecting. 'Why do you ask?'

"'You are my prisoner,' was Bernhard's answer.

"A few minutes later Bernhard had his man before United States Commissioner Alexander in the federal building.

"'What have you to say?' asked Commissioner Alexander of Yuengling.

"'Not one word,' replied the young man.

"'I request,' said acting Cousel-General C. Clive Bayley, of Great Britain, 'that the prisoner be held till extradition papers can be made out. Then we can arrange for the return of the prisoner to British Columbia.'

"The commissioner granted the request and committed the millionaire's son to Ludlow street jail to await a hearing on October 22.

"A few years ago Yuengling was one of the most widely known men about town. His father owned one of the biggest breweries in New York, and his pocketbook was always open to his boy. So Yuengling went the pace. He aspired to be the best fellow in the tenderloin. He was—while his father's money flowed freely enough."

HE MUST REMAIN

Talk of Salisbury's Retirement is Silenced.

HE CANNOT BE SPARED

New Cabinet Changes and Those Anxious to Fill the Seats.

New York, Oct. 22.—Lord Salisbury's diplomatic success in making terms with Germany and intervening in the China negotiations without authority, silences all talk about his retirement from the foreign office, says the Tribune's London correspondent. The most industrious cabinet makers now admit that he cannot be sparred from the office and that he must be allowed to hold it and the premiership as long as possible. Lord Landsdowne is now relegated by the rumormongers to Dublin. Lord Balfour of Burleigh is named for the war office, and Mr. Richie for the admiralty. Mr. Wyndham and Mr. Brodrick are promoted to the cabinet. Each day produces a new combination from the friends of ambitious or restless statesmen.

C. P. R. Agent Arrested.

Ashcroft, B. C., Oct. 19.—E. D. Medherst, for some time agent for the Canadian Pacific railway at Cranbrook, was arrested this morning and is now in jail at this place. It is alleged that some irregularities existed in his account while at Cranbrook.

The deposits of the Bank of Montreal are the largest in the history of the institution, and its business generally has never been equalled. It has $55,578,597 deposits in Canada and besides $10,181,066 in its American and English branches. Its total loans amount to $73,265,916, which, with its investments in bonds, gives a total of more than $75,000,000 employed funds.

EXPENSIVE RED TAPE.

The Victoria civil servants seem unable to do anything in a hurry, no matter what the necessity. Last week permission was wired for by Road Inspector Moore to expend a paltry one hundred dollars upon the Galena Mines road. This sum if used before Saturday would do what double the amount will not do to-day, and such information was supplied the Department of Lands and Works. but as yet the Department has not been heard from or any of the telegrams answered. This being now a government road, private parties do not feel justified in repairing it. As a consequence the delivery of the Hewett supplies is held up, in spite of the fact that they have completed at their own expense a first-class wagon road from the mine to the Galena Mines road.

Nothing has been heard by Mr. Moore or by the officials at the Record Office regarding the Red Mountain road. Each day's delay means more expense when the road is finally begun, if indeed it is begun at all this fall.

The Victoria cobweb crop must be extra big this year and Silverton has been given the razzle-dazzle.

THE INGRATE NOT HOUSTON.

The Nelson Tribune, which poses as an independent paper, and which lives up nearer to its pretentions than any other paper published in this province, has been accused of being fickle to the labor cause. Such is far from being the case as the Tribune has been as fair as possible to all three of the political parties in the present campaign and has well mantained its reputation as an independent newspaper. Because Mr. Houston has not run after a political party and consulted its wishes and interests he has by a few, we are glad to say only a few, been called an ingrate. Do they think that they own John Houston? Because if they do they never made a bigger mistake in their lives. John Houston is to-day the same as ever, a man with convictions of his own and fearless in expressing them. There is no man in this province amongst the labor leaders who has done so much for the toilers and received so little pay for it as John Houston, and his paper the Tribune. The labor leaders, unless they wish to earn the reputation of forgetting friends and being most ungrateful for past favors, should muzzle those of their followers who are casting insinuations upon a man because he dares to exercise his right as a citizen and happens to differ with them in his political views.

PROBABLY POLITICAL ONLY.

It is rumored that the Dominion Government is going to disallow the Kettle River Railroad Bill, passed last session by the Province of British Columbia. If this is not merely a political roorchbach it would seem that the C. P. R. can win when they will at Ottawa, even if checked for a moment at Victoria. The Grand Forks and Kettle River R. R. is needed in the Boundary. There the people demand it, and they should be the final judges, not the members at Ottawa, ninety per cent of whom do not know where the Kettle River is, or why a company wishes to build a road there, and take their tips from the C. P. R.

CANADIAN COINAGE.

The government of Canada has secured permission from the Imperial authorities to establish a branch mint in Canada, for the coining of Canadian bullion. It is now up to the Canadian authorities to secure or take permission to coin a Canadian gold coin. Coining sovereigns in a country where the decimal system of currency is in use is rather ridiculous. A Canadian coin should pass muster wherever a sovereign would.

All three of the political parties now in the field in this Riding are composed of three classes of men. The indifferent, the earnest, and the bitter partisans. The first is so bound up in himself that he is indifferent how his country is governed or progresses; consequently he is not what would be called a good citizen. The second class is composed of men thoroughly in earnest and striving according to their lights to improve the condition of their country. These men, although perhaps differing in their views, are good citizens and patriots. The third, the bitter partisan, is so narrow in his views that he places party before country and is no better and perhaps a more dangerous citizen than the first.

Punctuality.

We look at him with silent awe,
The man who's never late,
His record is without a flaw,
The man who's never late.
He's always where he said he'd be,
Right on the dot you always see
(Proud of his punctualitee)
The man who's never late.
And yet he loses lots of time,
The man who's never late,
Although his promptness is sublime,
The man who's never late.
In fact his life is full of care,
For when he turns up anywhere
The man who said he'd meet him there
Is usually late.
