VOLUME TWO. SILVERTON, BRITISH COLUMBIA, SATURDAY, JUNE 17, 1899. NUMBER 51

FIDELITY IN NEW HANDS.

Montreal Capital Takes Hold of This Property.

NOONDAY PREPARED TO SHIP.

Strikes on New Properties Being Reported Almost Daily.

Word comes from Montreal that the Fidelity mine, near Silverton, has been purchased by Hon. A W Morris, president of the Montreal Mining Exchange, and Charles G. Griffith of Spokane. The property will be placed on the Eastern market in a short time.

The Fidelity was staked in July, 1897, by Frank L. Byron of Silverton, A Williamson and L F Holtz being his partners. The property was worked by the three for some months and 130 tons of high grade galena was mined and shipped. In August, 1898, Holtz and Williamson disposed of their interests to Scott McDonald and F J Finacune, a few months later Byron selling to the same parties, from whom the present owners acquired the property.

The Fidelity lead run through the Bosun property and nearly 1000 tons have been taken from it on this latter property since September. On both of these properties shipping ore was had at the grass roots.

On the line between the Bosun and Fidelity, a good showing of ore is exposed.

It is to be hoped that now work will be commenced on the Fidelity. The property is much too valuable to be allowed to lie idle as it has for some time.

ONE WORKING MINE.

Any one who believes that the Slocan Lake country has all of its mines tied up and business generally paralysed by the enforcement of the eight hour law, should, to have his mind disabused of this idea, take a walk up to the Noonday mine. Here he will find every thing in full swing and the merry click of the ore-sorters' hammers will be heard before he reaches the mine, evidence conclusive of the miners toiling underground. Upon reaching the mine he will find quartz mining in all its phrases, as carried on in the Slocan, going on in full blast.

The Noonday mine, which is situated about one mile from Silverton, has grown from a mere prospect into a producing mine within the last few months. An ore body varying from five to nine feet of concentrating ore, carrying from ten inches to two feet of clean ore, has been opened up for a length of 130 feet. Four stopes have been started and six men are at present engaged in stoping ore, with the result that three ore-sorters are kept more than busy in sorting and sacking a good grade of shipping ore. The class of ore being sacked is steel galena that carries considerable grey-copper and occasionally native silver and will run 140 ounces in silver and 50 per cent lead per ton. Already one carload of ore has been shipped and another is now awaiting transportation at the mine, while the third carload will soon be sacked. A jig has been constructed and placed on the dump, being operated by water power, and the fine stuff coming out of the mine is being run through it and a large amount of good concentrates are thus accumulated. The Noonday mine has now a large amount of shipping ore in sight and is becoming quite a factor among our local mines, It is held under bond and lease by J. M. M. Benedum and Stewart Bros, and under whose management it is being operated. It is probably needless to remark that this is a union mine and conforming to the eight hour law and union scale of wages.

ON THE BLACK PRINCE.

A big strike is reported as having been made on the Black Prince claim on the head of Springer creek. This property which is being worked by Murphy, Schonberg, Elliott and Gormely of Slocan City, is part of the Two Friends Group. The strike was made in the tunnel, which is being driven, at a distance in of 130 feet and at a vertical depth of 75 feet below the surface. Here a twelve foot ledge was cut, seven feet of which is ore and four feet being clean. A number of men are being added to the working force and preparations are being made to ship at once.

MINING LOCALS,

A. A. Webb made a trip to the Fisher Maiden Group on Wednesday.

A number of prospectors went up the gulch with a pack train on Thursday.

Wm. Scott contemplates taking a two months prospecting trip through the Windemere district.

Dave King, ore buyer, for the Smelter Trust, has been spending the week in town in quest of ore.

Irish dividends for the companies and checks on sand banks for the men is June's showing for the Slocan.

Chas. E. Snyder, who was one of the heavy kickers in the local club, is now working in the Silver Cup mine in the Lardeau.

Frank Ryan who has been dangerously ill in the Sandon Hospital, is now convalescent and expects to be back in Silverton in a few days.

Grant Cox, secretary of the Sandon Miners' Union, is a busy man these days a large amount of extra as well as routine work falling to his share.

The watchman at the Comstock Mines, reports several bear as hanging around that place. This is a fine chance for some of our local bear hunters.

Work is being pushed along on the Lamont claim near town, the tunnel being now in 75 feet and having an excellent showing of ore in the face.

The Evening Star mine, on Dayton creek, closed down on Monday. We are informed that this shut down is only temporary and that work will recommence next week.

On Tuesday, L. Knowles, Gus Kruger and Henry Bretzen went up to work on the Key West claim in which they are jointly interested. This is said to have a fine surface showing.

As we go to press, word has been brought in of a good strike having been made in the tunnel being driven on the Mabou claim on Ten Mile. A streak of eighteen inches of clean ore having been encountered.

A good showing has been exposed on the August Flower claim, below the Hartney on Silver mountain. A streak of clean ore from four to six inches wide has been uncovered. The property is owned by New Denver parties.

Adjoining the Currie and Noonday claims and directly below the latter, lies the Freddy claim, owned by Nixon and Turner of Nelson. Assessment work is being done on it by C. McNicholl and A. D. McDonald and they have got track of the Noonday ledge, having found quite a lot of float that is identical with that of the Noonday. They are at present engaged in trenching for the vein and it appears only a matter of work before it is uncovered.

SLOCAN LAKE ORE SHIPMENTS.

The shipment of ore from Slocan Lake points, up to and including the presen week, from Jan. 1, 1899.

PLEASURES ON THE PACIFIC.

A traveller by one of the C. P. R's China-Japan steamers writing from Yokohama on May 1st last to a friend says:

"The resident in the East has one advantage of his brother at home, and that is, he can at times travel on an "Empress" of the Canadian Pacific Line. He who has not done so, has surely missed one of the pleasures of life. For it is a pleasure to travel at anything from fifteen to seventeen knots on a huge yacht, whose means of propulsion can only be guessed at; where faultless meals are served up, with the attendance of clean, silent and picturesque Chinamen; and where a walk through the carpeted and steam-heated alleyways below, gives the impression of a first class hotel on shore. —Montreal Gazette.

THE LOCAL LAYOUT.

The Football club has received a challenge from the Kamloops club for a game later on in the season.

A spectator of Saturday's game remarked that the visiting team had some of the best kickers he had ever heard.

J. I. McIntosh has had an elegant new sodawater fountain installed in his fruit store. "Everything up to date" is his motto.

The C P R will run first class sleeping cars between Arrowhead and Vancouver and between Kootenay Landing and St. Paul, after Monday next.

F. L. Christie, Barrister of Sandon, B. C. will be at the Selkirk Hotel every Friday in the future. Anything requiring his services will be attended to by him.

Carpenters are engaged in fitting up as a Union Hall, the new block opposite the Townsite building. The Miners' Union hold their regular meetings there, commencing to-night.

Carpenters are at work putting in a new front in the Clever Block, next the Post Office. The block has been leased to Liebscher, the Tailor, who will move into his new premises in July.

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover, the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR. *

After to-morrow the running time of the Lake boat will be changed. Only one round trip will be made daily, the boat arriving here from Slocan City at 10:30 A. M., and returning from Rosebery at 3:30 P. M.

E. Brindle, who has been spending the last few months in Souris, Man., finishing up his education in the repairing of time pieces, has returned to New Denver, where he will go into business. He is looking for a share of Silverton's business. His work and prices will be found satisfactory.

Jack Chisholm and Mike Grady, of the Slocan, arrived in Trout Lake on Wednesday last. They left for the hills on Thursday. They will spend a couple of weeks hunting bear and as they have a couple of well-trained dogs they should make a record for other nimrods to work up to.—Trout Lake Topic.

A CREDITABLE INSTITUTION.

Mantained by and run under the auspices of the Sandon Miners' Union is the Union Hospital of Sandon. This institution, situated in the building formerly occupied by the Sandon Club, although not commodious, is fitted up with every convenience and is in the hands of thorough and competent attendants. Dr. Guam of Sandon is the resident physician, the nurses being Mrs. Fleming and Miss Sarah M. Chrisholm, the latter a graduate from Lowell Mass., and a trained nurse of wide experience. Since the starting of this institution there has been a large number of patients successfully treated, there being at the present time five convalescent patients in the Hospital. The mantainance of this institution reflects credit upon the miners of Sandon and is an example that should be followed by other unions.

POSTPONED.

The proposed Slocan City sports, that had been announced for the Fourth of July next, have been postponed until some time in the latter part of August or September. This announcement on the part of the committee has been made necessary owing to the plans of the C P R, who intend, after the 18th inst., tying up their steamer "Slocan" for repairs. The committee consider it useless to depend upon the accommodations provided by the "Sandon" for the transportation of their Sandon and Slocan Lake visitors. The tying up of the steamer will make a big difference in the number of visitors Nelson will get from this section.

NOTICE TO WORKINGMEN.

Owing to a reduction in miners' wages caused by the enforcement of the eight hour law, the miners are all idle and the mines have shut down. Therefore all workingmen are hereby warned to keep away from the Slocan and Kootenay country, British Columbia, until present troubles are amicably settled between mine owners and miners.

Sandon, B. C. Grant Cox,
June nd. 1899. Secretary Sandon Miners' Union.

THE LIVELY LEATHER.

The goose egg brought from New Denver by the local football players on the occassion of their visit to the Court House town, was returned with thanks last Saturday afternoon.

The New Denver Football Club had been busy during the week preceding the game. Urgent messages were sent to all the out of town players, rallying them for the game, in which Silverton was to have her football career cut off in its budding youth. How could they lose? Was not every stalwart in his place? Weren't the band instruments cached under the wagon seat, ready for the victory. Silverton was a lunch!

A special conveyance brought down the rooters, a wagon load of them, with lungs tuned to the occassion. This part of the contingent did their part well. If ever a crowd of red hot tamale rooters played a good game, that crowd did. But they played against odds.

The ball was not kicked off until nearly five o'clock. Play in the first half was fast and fairly even, the backs on both sides keeping the pig-skin in the air. On one of Silverton's rushes, a foul was made near Denver's goal. In the scrimmage resulting, Findlay made a lightining shot, scoring for the locals. At half time no further score had resulted.

During the breathing space between the halves, a stiff wind began to blow up the field, which, after play recommenced, helped Silverton considerably in keeping the spheroid always around the visitors' flags. During this part of the game, the Denver kickers played a defensive game, their forwards seldom crossing the centre line. Shot after shot was stopped by the goal keeper, only his excellent work preventing Silverton from running up a big score. Never once was the home goal in danger, Tinling getting only two long drops. The visitors, in the last half, went to pieces badly, backs, halfbacks and forwards being indistinguishable.

This leaves these two teams with a tie to play off. An effort will be made to arrange a match to be played in Nelson on the First of July.

The local line up was: Goal, Tinling; Backs, O'Brien, Mailoy; Half-backs; Watson, Bowes, McNaught; Forwards, Lade, Walker, Barclay, Findlay and Matheson,

Slocan City To-Day.

To-day, Slocan City will meet the local kickers, on Silverton's ground. In the last match between these teams, Slocan won with a score of two goals to one. Silverton goes on the field with one new man, Conroy being on the half back line. Slocan has strengthened its team in several places. A good game is assured.

Other Games.

To-day, Sandon will meet Lowery's Brownies on the latter's field. This game promises to be a close one with the odds in favor of the visitors.

To-morrow, an effort is being made to arrange a game between the local team and the Sandon boys. The match will be played in Silverton.

Matters in connection with the formation of the Slocan Football League will be settled while all the clubs are together to-day. Slocan City, Sandon and Silverton are anxious for its formation, New Denver being rather coy in regard to it.

A JUNE WEDDING.

The home of Mrs. Sarah E Bennet was the scene of a very pretty wedding Monday evening, June 12th, when her daughter, Mary Louise, was united in marriage to Mr, Alfred Rampley Bolderston, the Rev. A. M. Sanford officiating

The house was tastefully decorated with wild flowers.

At nine o'clock, to the strains of the wedding march, the bridal party took their places under a canopy of white and green. Mr Ben Robertson acted as best man, and Miss Clara Grace Bennet, the charming sister of the bride, as bride's maid.

The bride wore a handsome gown of white chiffon over white silk, and carried a bouquet of white lilies.

About thirty friends were present, several being from outside cities, and their many useful and beautiful gifts testify to the esteem in which the young people are held.

Mr. and Mrs. Bolderston have taken up their residence in their new home in Slocan City, where they will be pleased to receive friends after June 20th.

THE SILVERTONIAN adds its congratulations to the many already received by the happy couple, and joins with their many friends in wishing them a long and happy life together.

BIG STRIKE IN CLEVELAND.

THE STREET CARS TIED UP.

Fourteen Lines Are Stopped—Owned by One Company—The President says He will Arbitrate the Trouble—Strikers Run the Mail Cars.

Cleveland, June 11.—What promises to be a long and bitter contest between the Cleveland Electric Railway (Big Consolidated) and its 900 employes has been inaugurated by a strike which tied up all of the 14 lines operated by the company. These lines reach all sections of the city and they form the only means of transportation for more than 100,000 people living in a territory five miles long and three miles wide at the south end. The west side is affected but little, only one line passing through that section, while on the east side four lines of the Little Consolidated, of which Senator Hanna is president, are available for use by most of the patrons of the tied-up lines in that section. Thus far the Little Consolidated men have refused to strike and are not likely to go out.

Will Recognize No Union.

President Henry A. Everett says he is willing to concede all the other demands for the men and will adjust all other grievances when presented by his employees, but declares he will never recognize the union, whose demands he characterizes as tyrannical. It is well understood the company has employed men in other cities to take the places of the strikers, but it is difficult to ascertain whether many of these men are now in the city. Only about half a dozen cars were operated today. There were two Euclid avenue lines and they were under the guard of deputy sheriffs and were operated by imported men.

A few mail cars were run by the strikers, who say they will not obstruct the mail. There have been several riotous demonstrations, but none of a serious nature.

The Columbia Launched.

Bristol, R. I., June 11.—America's new cup defender, the representative of the best boat-building skill and materials of which the western continent can boast, was carefully lowered into the water at the Herreschoff works at 8:30 o'clock last night, and as she started down the ways, Mrs. Oliver C. Iselin christened her "Columbia." The launching of the latest protector of Uncle Sam's sailing laurels was probably one of the most spectacular that has ever occurred, for the light of the day had almost faded when she started down the ways.

A Distressing Accident.

Just as the Columbia was about out a distressing accident occurred. The explosion of a can of flashlight powder blew a leg and part of the head off Napoleon San Souci, aged 12 years, broke the legs of two other boys and severely injured several other persons. The photographer who caused the accident selected the top of a shed, the roof of which was closely packed with boys.

Burial of a Missionary Bishop.

The burial at Vancouver of Bishop Durien who for 25 years worked among the natives of British Columbia, was the occasion of a remarkable scene.

Surrounding the bier were 5000 Indians chanting a death song in the native guttural tongue, swaying their bodies in unison to measured strains of music while on an elevation in the rear of the catafalque the crucifixion of Christ was being enacted, a lay figure representing the Savior being lowered from the cross by Indians dressed in vestments of Biblical characters.

Marksman Missed His Man.

Wardner, Idaho, June 11.—Under the fire of his negro guard, Mike Johnson, crazy and desperate, made a dash for liberty by jumping into the river. Down the rapid stream he bobbed like a great black cork, while on the bank his keeper, breaking through the underbrush peppered at him with his Krag-Jorgensen rifle balls. Somehow or other the floating target evaded the fire but the treacherous eddies were too much for him, and Johnson's body was found 20 minutes later—drowned.

Baker Shot Dead.

Manchester, Ky., June 11.—During the trial of Tom Baker there were serious disturbances, and one man is reported killed, with several wounded. The militia quelled the disturbance, dispersing the crowds when the Gatling gun was brought out. For days the court has been hearing arguments on the motion for a change of venue, and the motion was granted, whereupon the court adjourned. Tom Baker, the defendant, was still out on bail, and as he was leaving the court house with the crowd he was shot dead.

Not One of the Crew Saved.

Atlantic City, N. J., June 11.—The life saving crew remained near the wreck of the four-masted schooner Georgia Howes, which capsized during a storm. The Little Egg harbor life saving station reports that so far as it has learned from that point no member from the ill-fated craft has been saved. The crew was composed of nine men.

Drowning of H. C. Relf.

Missoula, Mont., June 11.—H. C. Relf, assistant civil engineer for the Northern Pacific Railway Company with headquarters at Tacoma, was drowned in the Flathead river near Plains, about 75 miles west of this place.

Passenger Train Left the Track.

Chicago, June 13.—As the Rock Island west-bound express train pulled into Genesee, Ill., three cars left the track and crashed into a stock train standing on a siding. Fifteen persons were injured and three passenger cars demolished.

WASHINGTON.

Ex-Chief of Police Bolton Rogers is dead.

Horse thieves are at work near Kettle Falls.

Ballard was visited by two destructive fires last week.

Tacoma's city treasurer has issued 3521 bicycle licenses.

There are now in this state 5,336 pensioners. The total amount paid them last year was $780,000.

Snow fell at Pullman last Monday. The snowfall was general in the Palouse and Potlatch countries.

Many eastern Washington cattle have died from eating larkspur, the root of which is a deadly poison.

Walla Walla is now a city of the second class—at least it has been so designated by the postoffice department.

The steamer Discovery has been sold for the sum of $20,000, to parties who will operate her in Alaska waters.

John Jones, who was in the Baltimore's engine rooms during the battle of Manila, is visiting his father at Colville.

There is a movement on foot for the citizens of Whatcom and Fairhaven to purchase the Collins museum and present it to the normal school.

The body of Fred Williams, who was drowned in the bay near Port Angeles, by the capsizing of a boat, about five weeks ago, has floated ashore.

The Washington State Pioneers' Association elected the following officers: E. C. Fergeson of Snohomish, president; Ed. Bryant of Seattle; secretary, and L. S. Rowe, also of Seattle, treasurer.

The statement being prepared by the Port Townsend customs force of the business of the Puget sound customs district shows that the cash receipts of the district for the past six weeks are $31,853.59.

Prof. F. J. Van Winkle, hypnotist, and formerly a teacher in the normal school at Weston, Ore., has his skull crushed, the result of an encounter with his brother-in-law, Frank McGhee recently, in Walla Walla.

The operation of the pure food law has been suspended by the State Food Commissioner, MacDonald, for thirty days. This action was taken by Mr. MacDonald on the request of many dealers throughout the state.

Four men having in their possession fourteen head of harnessed horses and four wagons, were arrested in Pullman by Marshal Coffield, upon a description telephoned by Sheriff Canutt, and an order to hold the men on a charge of bringing stolen property into the state.

I. S. Bouchard, better known as "Father" Bouchard, who was buried the other day in the Catholic cemetery west of Goldendale, was one of the best known old-time citizens of Klickitat county. He was noted for his charitable acts and the assistance he often gave the sick.

The state printing board has let the contract for the paper and printing supplies to be used in the state work for the next year. The Graham Paper Company of St. Louis, was awarded the contract for furnishing paper; the Gane Bros., of Chicago, the bindery supplies; and M. O'Conner, of Olympia, the desk supplies.

Suit has been brought in Spokane by the Homer National bank, of Homer, N. Y., against J. E. Frost, ex-state auditor, and his bondsmen, to recover the sum of $42,800, which represents the amount of duplicate and forged state warrants issued by his deputy, George D. Jones, in 1895 to 1897, and which were purchased by the bank.

G. J. Dahlke, a Baptist minister, was brought to the county jail, in Colfax, to be held until officers arrive to take him back to Kansas for trial. He is accused of having hypnotized Mrs. C. W. Funk, wife of a prominent Hillsboro, Kan., grain dealer, of improper conduct with her and then of having drugged and abducted her. The minister was arrested while holding revival services at Seltice Junction.

John S. Johnson Wins.

Kansas City, June 11.—At the New Velodrome John S. Johnson of Minneapolis and John E. Fisher of Chicago raced the first of a series of three races for a purse of $250, to be awarded to the winner of two heats, at one, three and five miles. The three-mile heat was ridden tonight, Johnson winning by a wheel in 6:40. The one and five-mile heats will be contested Monday night.

Blamed His Mother-in-Law.

Denver, June 11.—A special from Canyon City, Col., says:

Samuel Roberts shot and killed his wife and her mother, Mrs. George Lewis, and blew out his own brains at the home of the latter in this city. Roberts and his wife, who had been married 18 months, had recently separated and it is understood Roberts blamed his mother-in-law for their troubles.

Austrian Town Burned.

Vienna, June 9.—The town of Linse, near Otensbeim, has been totally burned. Four women perished in the flames and a number of people were injured.

Deaths From the Heat.

New York, June 9.—Up to noon yesterday nine deaths from heat have been reported. The thermometer registered 81.

Sultan Dangerously Ill.

London, June 9.—A special dispatch from Vienna says the sultan of Turkey is dangerously ill.

If a spider is found on one of your garments it signifies that you will soon have a new one of the same sort.

There are in Paris three great Slaughter houses, where 300,000 head of cattle are killed annually.

Superstition never keeps people from accepting 13 for a dozen.

DOINGS THROUGH THE WEEK

NEWS OF THE WORLD IN BRIEF.

An Interesting Collection of Items from the Two Hemispheres Presented in a Condensed Form—Culled from the Telegraph Reports.

Two cases of smallpox have been discovered in San Francisco.

Frank Thompson, president of the Pennsylvania railroad, is dead.

The steamer Pelican was lost while en route from Puget Sound to China.

Brigadier General Charles King of the Philippines has been honorably discharged.

Joe Corbett, the baseball player and brother of the ex-pugilist, was married Wednesday.

Julius F. Edson, who is engaged in the engraving and publishing business in Chicago, has failed.

Dr. W. E. Moore, one of the oldest and best known Presbyterian divines in the country, is dead.

The First Bank of Skagway has closed its doors and J. G. Price has been appointed receiver.

The American Academy of Medicine has elected Dr. G. H. Hudson Makuen of Philadelphia president.

L. G. Hastings, assistant treasurer of the Rock Island railway, in Topeka, committed suicide Sunday.

The dominion government has disallowed the anti-Japanese law passed by the last provincial legislature.

The British ship Puritan has arrived in Victoria, B. C., 107 days from Cardiff. This lowers the sailing record one day.

Imports of wheat into Liverpool for the week: From Atlantic ports, 60,900 quarters; Pacific ports, none; other ports, 42,000.

Joseph LaBerga, a notorious agent of General Weyler, who outraged defenseless women and killed children, was lynched Tuesday in Cuba.

Commissioner Hermann of the general land office, has decided to refuse the request of the woolgrowers of Utah and Wyoming for a modification of the former order prohibiting the grazing of sheep on the Uintah reservation in Utah.

Two boys on May 14 found on the north coast of Iceland a small cork case containing a slip of paper, dated July 11, 1897, signed "Andree, Strindberg and Fraencekel, and bearing the words: "All well. Thrown out about longitude 81, latitude unknown."

Joseph Myers, the traveling representative in Asia of the Pabst Brewing Company, met a horrible death in the harbor of Hong Kong. While in the act of visiting some naval officers aboard the United States cruiser Charleston he was crushed and instantly killed by a boat which fell from the warship.

Sheep are dying by thousands in New Mexico.

There has been a second attempt to burn the Episcopal and Catholic churches in Carson, Nev., recently.

The record of the hottest day in New York since the establishment of the weather bureau was reached Tuesday.

The question of transportation for the troops destined for the Philippines is worrying the military authorities greatly.

Mrs. Belle Marshal Roloson, wife of R. W. Roloson of Chicago, for 25 years prominent and wealthy member of the board of trade committed suicide at her home Tuesday.

A terrible railroad accident which resulted in the instant killing of Charles Espey and his fourhorse team occurred at the crossing of the O. R. & N., one mile east of Garfield, Wash.

Chief of Police Claire of Hamilton, O. while with his wife and daughter Margaret in a carriage, attempted to cross the Cincinnati, Hamilton & Dayton railroad four miles south of there. A locomotive struck the carriage and all were killed.

Two babies, children of Mrs. Carl Dettlof of Poplar Grove, Ill., were instantly killed Tuesday. The mother left the cab on the depot platform while she stepped into the station. A gust of wind blew it in front of a fast in-coming freight train which mangled both children.

Will Hill, an alleged accomplice in the murder of Rufus Hubbard in Bibb county, Ala., has been captured. The posse left for Centerville to place the negro in jail, but had not reached there up to noon Tuesday and it is believed Hill was lynched. Hubbard died of his wounds.

A second battle with the dynamiters of the Union Pacific express train has been fought in the mountains 40 miles north of Casper, Wyoming, by the sheriff's posse which has been in pursuit since Sunday morning, and as a result one man and probably more lie dead. The first battle was fought Sunday on Teapot crek, 30 miles north of Casper. No one was wounded during this engagement but several horses were killed.

Richard P. Bland was slightly better on Monday.

Lieutenant Colonel Picquart has been provisionally released from custody in Paris.

Thomas Gardiner, one of the oldest and best known publishers on the coast died at San Diego.

Hon. Timothy Guy Phelps, chairman of the board of regents of the University of California, is dead.

The American line steamer Paris, which ran on the rocks off the Manacles May 21st, is now known to be lost.

The Grand Prix de Paris in the Paris races was won Sunday by Perth, with Velasquez second and Alhambra third.

S. Clark, of Armour, S. D., shot and fatally wounded his wife and 15-year-old daughter near Belmont, and then disappeared.

It is stated in official circles in the South African Republic that President Kruger will advise the abolition of the dynamite monopoly.

The strike of architectural iron workers inaugurated several days ago in St. Louis is still on, with 650 men out and ten shops closed.

The Harriman party of scientists have arrievd in Juneau, Alaska. After a brief stop the steamer sailed for the head of the Lynn canal.

A desperate attempt was made in Oakland, Cal., to murder H. K. Belden, San Francisco manager of the Hartford Insurance company.

H. M. S. Egeria, of Vancouver, B. C., is making final preparations for her work on the all-British cable project from Vancouver to Sydney.

Thirteen well trained "peds" started in the first relay of the big six-day go-as-you-please race at Madison Square Garden on Sunday.

Twenty-five hundred children's jacket makers employed by manufacturers or middle men in the East side sweat shops, New York, have struck.

Bellamy Storer, United States minister, Mrs. Storer, Stanton Sickles, secretary of the legation, and their servants, have arrived in Madrid.

Count Christiana will, it is announced, make a full apology to President Loubet of France, when he is placed on trial for assaulting the president.

The Indians living in the neighborhood of the upper waters of the Stewart river are in a most deplorable condition. A terrible famine prevails.

A tornado struck two miles southeast of the little town of Salix, 16 miles from Sioux City, Iowa, and killed three people outright, and one more will die.

A telegram received at the navy department from Admiral Kautz, from Honolulu via San Francisco, states he was to arrive at San Francisco on June 22nd.

The Pacific coast Great Northern Flyer jumped the track near St. Michaels, Minn., and rolled down an embankment into the soft mud. No one was injured.

The "Hole in the Wall," near Casper, Wyo., for years the refuge of outlaws, promises to be cleansed of its desperate inhabitants by a determined raid by the authorities.

Roland B. Molineux, of New York, has been released on $5,000 bail. He was immediately re-arrested on a warrant charging him with the murder of Katharine J. Adams.

J. G. Murphree walked into the postoffice at Mansfield, Texas, and without warning shot and killed Sherman Goulden, assistant postmaster, and wounded R. S. Goulden, the postmaster.

At the arena of the Coney Island Athletic Club James J. Jeffries defeated Robert Fitzsimmons, world's champion in two classes—middleweight and heavyweight—in 11 rounds of whirlwind fighting.

The report that 28 men were killed at Ross Hollow, in northern Arkansas yesterday afternoon is denied by the contractors. Several men from the camp are at Little Rock, and report no accident having occurred.

All the Japanese immigrants examined bw Major Walker in Tacoma on the steamship Tacoma passed muster and were admitted, but 16 who left the ship at Victoria, will return across the international boundary line.

The British government has consented to reconsider its attitude toward the Pacific cable project as the result of urgent representations from Canada and the colonies and is now inclined to utilize British credit in providing the necessary capital.

The steamer Auguste Victoria, which has arrived in New York from Hamburg, Southampton and Cherburg, reports the death and burial at sea of Lieutenant Commander Wainwright Kellogg, U. S. N., who was a passenger on the vessel.

In the Minnesota House, 242 Main avenue, Spokane, Corporal Wm. Wilson (colored) of Company M, Twenty-fourth infantry, shot Charles Dix through the right lung, inflicting a wound which the doctors believe will prove fatal; and shot a brother soldier, Corporal Beverly Williams.

The Savage Club in London gave a banquet to Mark Twain (Samuel L. Clemens) last week. It was one of the most brilliant gatherings given under the auspices of the club since the famous banquet of the Savages to Henry M. Stanley.

Serious riots have broken out in the Tinnevelley district of Madras presidency between the Marivars and Kulars on the one hand and the Shanari on the other at Sivikasi. Several villages have been attacked and plundered and a number of houses burned and several lives lost.

He Forged Warrants.

Olympia, Wash. June 11.—Ex-deputy State Auditor George D. Evans of Washington is in the custody of Chief McLaughlin of the Portland police force, having been arrested there by a detective. Evans was deputy auditor under L. R. Grimes and J. E. Frost, and forged warrants to the amount of $10,000—possibly more—that many having been unearthed.

Dead Man Found.

Spokane, June 13.—The bones of a dead man were found by two men who were out shooting in the woods north of Hillyard. The remains were brought to the city, and Coroner Baker made a careful examination, but nothing was found which determined the identification of the man.

Will Train Her Sons to Murder.

Barbourville, Ky., June 13.—The troops with Jim and Wiley Baker arrived here from Manchester, delivering their prisoners to the county jailer.

Mrs. Baker says she will train her 11 sons so that the height of their ambition will be to kill a White or a Howard.

Charged With Perjury.

Easton, Pa., June 9.—Dr. I. N. Johnson, a member of the legislature from this county, was arrested charged with perjury before the recent legislative bribery committee.

The punch bowl is more dangerous than the pugilistic punch.

FRENCH CABINET RESIGNED.

AGAINST THE GOVERNMENT.

Dupuy's Ministry Comes to a Sudden End—The French Crisis—Socialists and Radicals Carry the Chamber of Deputies—Investigation of the Police.

Paris, June 13.—The cabinet has resigned.

President Loubet has accepted the resignation of the cabinet ministers, but requested them to remain in their offices until their successors are named.

It is presumed M. Loubet will summon the presidents of the chambers in order to consult with them on the formation of a new cabinet.

On leaving the chamber M. Dupuy observed to a group of deputies in the lobby: "We hand over the business to luckier, but not to more courageous men."

The chamber of deputies was crowded and there was considerable suppressed excitement when M. Vaillant, socialist, interpellated the government on yesterday's police outrages at the Pavilion d'Armenonville, and demanded to know the instructions the government gave the police in regard to the socialists, who, he said defended the republic against reactionaries.

Premier Dupuy replied that he realized that yesterday was a fete day for all republicans. He realized that there had been incidents and the only instructions to the police were to maintain order.

The chamber after further debate, adopted, by a vote of 321 to 173, the order of the day proposed by M. Ruemau, radical, which the premier refused to accept. The text of M. Reumau's motion was as follows:

"The chamber is determined to support only a government resolved to defend vigorously republican institutions and to secure public order and passes to the order of the day."

After the vote was announced the socialists shouted "Vive la republique!"

The ministers left the house and the chamber adjourned.

The prefect of police M. Blanc, has ordered an inquiry into the charges of police brutality. If they are sustained the men at fault will be severely punished.

Sad Ending of a Wedding Day.

Wichita, Kan., June 13.—While a party of young men were serenading Mr. and Mrs. Ray Higgins, near Watonga, O. T., the bride and groom of two hours appeared on the front porch and ordered the serenaders to leave.

The party, composed of about 20 friends of the young married people, refused to go. Instead, they continued to make deafening noises by beating on pans and firing shots. One of the party, Harry Randall, deliberately pointed his gun at the young people and fired. The bride's face and breast were filled iwth buckshot. She fell fatally injured, shot through the lungs and died an hour later. The groom Was also shot in the face, but not fatally. After the accident the charivari party fled. No arrests have been made yet. A small brother of the bride was also wounded, but not seriously.

Grain Crops of Europe.

London, June 13.—The Mark Lane Express, in its weekly crop report says Belgium, Holland, Italy and parts of Austria-Hungary promise average wheat crops.

In France, Germany, Spain and Poland the crops are fair and there are hopes for a full crop.

In Russia the drouth is too prevalent to allow hope of a full yield of either wheat or rye.

In Roumania, Servia and Bulgaria a short wheat crop is regarded as inevitable.

Preparing to Thrash Boers.

London, June 13.—Commander-in-chief Wolseley has been busy for several days and evenings at the war office preparing for possible eventualities in South Africa.

The effective lists of the first-class reserve have been prepared and transportation for the first army corps has been provisionally arranged. The officers on furlough have been warned to hold themselves in readiness to return to their regiments.

The general trend of news, however, is more pacific.

Car Riots in Cleveland.

Cleveland, O., June 13.—After a quiet Sunday, the struggle between the Big Consolidated railway and its employes was renewed in lively fashion yesterday.

The company started the first car from the Lakeview barns at 10 o'clock, guarded by deputies and manned by imported men. The crowds jeered and some missiles were thrown. The next two cars dashed from the barns across the railroad crossing without stopping, violating the city ordinance. The strikers secured warrants for the crews of these cars, and both of the new motormen were arrested.

It Was Murder.

Marcus, Wash., June 12.—A fight took place here last night. It lasted about a minute. Percy Foster lies dead with a bullet through his brain. "Doc" Campbell is in jail at Colville with visions of a noose mingling with his memories of the swift battle of a short time ago.

Send the Colored Soldiers.

Washington, June 13.—The war department has under consideration an order sending the Twenty-fourth and Twenty-fifth infantry to Manila.

Bland Is Growing Weaker.

Lebanon, Mo., June 11.—Mr. Bland rallied somewhat from his sinking spell, but is much weaker than at any stage during his illness.

If a peahen calls, a donkey brays, pigs carry straw, geese flap their wings, a pot boils dry or the clouds move northward it will rain.

IDAHO.

It is reported that 75 filings were made in one day last week upon land in the Marysville country.

The placer miners about Murray have enjoyed a pretty fair run of water for two weeks now, and the water promises to last throughout the present month.

Major F. J. Edwards has received an honorable discharge from service in the Idaho National Guard. Mr. Edwards petitioned for the discharge some time ago.

The Johnson-Fuchs land contest at Lewiston has been compromised, each party taking 80 acres and paying his own costs. This case has been in the courts four years.

A party of 13 emigrant wagons have arrived in Wallace, having come over the mountain from Thompson Falls. They had a hard time of it, having to make "go-devils" and put their wagons on them to haul them over the snow, besides shoveling out the road for a long distance.

Julius A. Andrews, the convicted exagent of the Lemhi Indian agency, has been placed in the penitentiary. Andrews was fined $1,200 by Judge Beatty the judgment being that he would be released from prison upon paying the amount. Andrews was given his freedom for some time in order that he might secure the amount, but failing, he was finally sent to the penitentiary.

It is thought now that the big iron bridge across the Snake river will be completed in the next ten days and ready for crossing. The main towers that support the big cantilever span across the main channel of the river are in their place and the work of making this skillful part of the engineering well under way. The bridge connects the towns of Lewiston, Idaho, and Vineland, Wash.

Involuntary bankruptcy proceedings have been commenced in the United States court against S. L. Rice, of Chehalis. The proceedings were commenced by H. E. McElroy, the Boise attorney, on behalf of San Francisco creditors of Rice. Their claims amount to about $3,000. This action was precipitated by Rice giving S. L. Rogers a chattel mortgage on his goods. Rice is restrained by an order issued by Judge Beatty from disposing of any of the property, pending the bankruptcy proceedings.

Fire destroyed the chop mill in Genesee, owned and operated by L. K. Krum. The fire is supposed to have started by waste lubricating oil coming in contact with the exhaust of a gasoline engine. About five tons of chopped feed was destroyed. The gasoline engine which is supposed to have caused the blaze was of 14-horse power and was owned by Ernest Miller, who is agent for the Charter Company. It was valued at $1100 but is believed to be not seriously damaged. Mr. Krum carried $1,000 insurance which covers a small amount of his loss. He will at once rebuild.

The Siberian railway carried 175,000 passengers in 1896, 413,000 in 1897, and 650,000 in 1898.

Kaslo & Slocan Railway.

Kaslo, B. C.

MINES AND MINING CAMPS

METALS OF THE NORTHWEST.

Items From the Rich Rigions of the Pacific Northwest, News From All the Principle Mining Camps—Personals—Mining Notes.

When selecting a site for a tunnel to develop or work a mine, do not go so low that the ore cannot be run from the tunnel directly into a mill on the breaker floor, from which the ore would descend by gravity through the different processes until it passes out of the mill, says the *Mining and Scientific Press*...If there is a heavy fall in the canyon or gulch below the proposed tunnel site, the tunnel may be started lower and the mill may be built some distance down the gulch in order that the ore may be trammed into the top of the mill.

Republic.

Work is still in progress on the Dora.

Work is still being prosecuted in the Troubadour.

All work has been suspended on the Mark Tapley. No reason is assigned for so doing.

There is over four feet of solid quartz in the face of the drift in the Princess Maud.

The shaft on the Delta is 75 feet in depth and high grade ore is carried across the shaft.

The Summit-Republic vein in the shaft still improves in size and quality of quartz with depth.

The shaft on the Ben Hur is going down very slowly. The size of the shaft precludes rapid work.

The shaft on the Morning Glory is going down rapidly. There is not the least doubt that the shaft is in fine ore.

The Chespa-Blue Jay shaft is going down with reasonable speed. It will be several weeks before the shaft will reach the 100-foot level.

Some fine silver-lead ore is said to be coming out of the cross-cut in the Independent. It lies north of the Lorna Doone about one-fourth mile.

The Black Tail is showing fine ore in the cross vein, as well as on the Surprise ledge. Every foot of development brings new surprises.

The Gold Ledge is making a fine showing. The average assay is upward of $40 per ton. The ore that is being passed through greatly resembles that obtained at the depth of 50 feet.

Some fine ore has been found in the Mabel. It is a steel galena carrying considerable copper. No assay has been made hence its value can only be surmised. There is no ore in the camp like it.

The Gold Ledge Extension is also showing up well. Sufficient work has been done to demonstrate its course and also to prove beyond doubt that it carries the same vein as the Gold Ledge

The Gold Mountain shaft is 33 feet deep. The outlook is promising There are several other properties in the vicinity of the Gold Ledge that are likely to be as rich as that now famous property.

The Lorna Doone in Cody Camp is showing up a little better every day. The entire shaft is in high grade ore. This week the shaft will have reached the 100-foot level when the ledge will again be crosscut.

The Republic Giant ore is steadily improving in value and the ledge gets stronger with depth. The outlook for the property grows brighter every day.

The Palo Alto tunnel is being driven along the ledge.

High grade ore is still the story that comes from the Republic. There is no change that is worthy of record from day to day. There is no apparent diminution in the width or value of the ore taken out. The mill is doing good work and everything is working satisfactorily.

The record of development work for May is most gratifying. The increase over April is about 600 feet. This will come as a surprise to many, as it was generally conceded that the total would be considerably less, owing to the closing down of numerous properties. While it is true that there was a material falling off in many claims and some were not worked at all, the great mines of the camp—the Republic and Mountain Lion—nearly doubled their April record. The Republic has 865 feet to its credit and the Mountain Lion 413 feet. The total for the month foots up 4,088 feet, or nearly four-fifths of a mile. If the amount of development in Summit, Gold Hill and Cody camps were added it would foot up almost a mile.

British Columbia.

The big crosscut tunnel of the Jumbo, at Rossland, is now in a distance of 247 feet.

The Cariboo, the Camp McKinney dividend payer is putting in a seven-drill air compressor.

Following are the shipments for the past week: Le Roi, 2,240 tons; War Eagle, 165; Iron Mask, 55; Centre Star, 223; total for the week, 3,683 tons.

The Kamloops claim, in Camp McKinney, is to be subdivided into town lots, which will be placed on the marken in a chort time.

Shipments this year: Le Roi, 36,019 tons; War Eagle, 17,677; Iron Mask, 1,070; Evening Star, 36; Deer Park, 18; Centre Star, 50; total shipments for the year, 55,360.

The necessary arrangements for beginning work on the St. Elmo property have been made. This claim is on the south slope of Red Mountain, one and a quarter miles from Rossland.

The superintendent of the Evening Star at Rossland has been busy getting the road from the mine to the railway (about a half mile in length) in condition to ship ore. There is about 100 tons of ore on the dump and the intention is to take more out of the stopes in the upper and lower tunnels.

The Bosun of New Denver has made a 20-ton shipment, the last that will go out until the labor troubles are settled. This property has shipped 100 tons per month from the date of its opening, and wound up May with a record of 500 tons since January 1st. The ore bodies are improving continually.

On the Mountain Chief, close to New Denver, the force has been increased to 12 men. Tests are being made of the ore in the stopes and on the dumps, and other preliminary work is being done preparatory to starting up the property. A force of 100 men will be put on when they can be had.

A large force of men have gone to Ten Mile to move the hundreds of tons of Enterprise ore lying on the wharf and on the dump at the mine. This will be shipped within the next ten days, and will realize the new Enterprise owners about $50,000. All preparations are being made to open the mine on a large scale as soon as the labor troubles are settled. One hundred and fifty men can be worked advantageously in the mine.

MINING NOTES.

The bond which Clark & Sweeny held on the Big Buffalo has been given up.

During May the Columbia, North Pole and May Queen mines shipped to Baker City from Sumpter, 182,356 pounds of concentrates and ore.

Some assessment work is being done at Buffalo Hump, in spite of the drawback of unfavorable weather, this being among the things that cannot wait.

The Butte & Boston company has sued Heinze Brothers for $50,000 damages and an injunction to restrain work on the ore body apexing on the Michael Davitt claim.

The Delamar Mining Company have purchased the Big Buffalo mine for $500,000, the first payment of $25,000 to be made July 15th. This mine is the original discovery of the famous Buffalo Hump.

A charge of perjury against George A. Blodgett was dismissed on motion of the county attorney. Blodgett submitted an affidavit in the supreme court endeavoring to show collusion between District Judge Clancy and John MacGinnis in the receivership of the Boston & Montana Company.

J. R. Hunsaker and son and Bert, Wm. and Jack Vaughn, who discovered and recently sold the Vaughn copper mine, on the Oregon side of the Snake river have received from Glass Bros., of Basin, Mont., the second payment on the purchase price of the mine. A few days ago the Hunsakers and Vaughns bonded another copper property near the Vaughn mine, for $50,000.

The Red Boy mine has sent to the First National Bank at Baker City its clean-up for May. The output was about $26,000. One who is interested in the mine says the May clean-up was almost the same as that of April, which at the U. S. assay office, Boise, weighed 125 pounds. This mine, if it continues to yield at the same monthly rate, will produce $300,000 during 1899.

The register and receiver of the Helena land office have received a decision from the assistant commissioner of the general land office, in the action brought by W. B. Gaffney and others against Davis C. Turner and others, that is of great interest to mining men in this state. The assistant commissioner in effect holds that if a person acquire the right to a patent for mineral lands, under the statute of limitations of the state, they do not forfeit that right by failure in subsequent years to perform assessment work on the property.

Continual rain and snow render travel and work almost impossible, and make life in Buffalo Hump even duller than usual. The army of prospectors is getting impatient for the disappearance of the snow. Small patches of bare ground, however, are beginning to show on the hillside south of Lake creek and down near Fish lake, though the main body of snow is still three or four feet deep all the way from the lake to the headwaters of the creek.

It is claimed that there is more efficiency in a single heavy stream—2,000 of 3,000 inches under a high head—than can be obtained from the same amount of water under a like head divided into two streams when directed against a gravel bank, according to the *Mining and Scientific Press*. The proper method of using two streams at a hydraulic mine is to use one stream to cut the bank down and the other to wash the loosened gravel into the sluices.

Two of the Party Drowned.

Stockton, Cal., June 11.—At midnight last night a party of 21 young people who were enjoying a pleasure ride in the steamer Catamaran on the river were precipitated into the water by the overturning of the boat. A desperate struggle for life followed and for a time it was reported that many had been drowned, but nearly the entire party was accounted for. Rescue parties from the shore saved many of the young people and strong swimmers who were in the party managed to land the rest of the half-drowned party safely. How the accident occurred is a mystery. Later it developed that Miss Mabel Kafitz and Walter Henderson, the engineer, were drowned.

Saved by Running Ashore.

Green's Farm, Conn., June 9.—The New Haven line steamer Northam was run ashore here early this morning to keep her from sinking. During the night the steamer is said to have been in collision with the steamer Peck of the same line. No one was injured.

The number of children and youth in the United States is 21,082,472. Of these, 9,718,432 are enrolled in Sunday schools.

AGUINALDO STILL DICTATOR

NO MORE FILIPINO CONGRESS.

It Said to Have Been Dissolved by the Chief—Proclaims Himself the Ruler—Condition of the Philippines—Returning Soldiers—Transports.

London, June 9.—A special dispatch from Manila says it is reported Aguinaldo has dissolved the Filipino congress and proclaimed himself dictator.

The Rebels Scattered.

"Manila, June 9.—Adjutant General, Washington: The result of the movements in Morong province was to drive the insurgents into the mountains, capturing Antipoli and other towns in that section. They retreated and scattered before our advance, leaving 25 dead on the field. Our loss is four killed and a few wounded, mostly slight. The city of Morong is garrisoned. All other troops are withdrawn.

"Inhabitants of the provinces profess friendship, and ask protection. Large numbers wish to enter Manila, but were refused, as the city's population is increasing too rapidly. The leading natives about the island, including active insurgent leaders, ask permission to send their families to Manila, as it is considered the only place of personal security."

The conclusions drawn by the war department officials concerning the condition in the Philippines, given in the dispatch of General Otis, are that the insurgents are little more than a marauding band which will continually decrease when the men find there is life and liberty under American government. The people who are coming into the American line asking protection are considered like those who sought protection in the forts during the early stages of American development in the west.

Nothing is said as to the intention of Otis to continue active hostilities, but this matter is left wholly to his discretion and he will no doubt fight or rest as the circumstances determine.

Return of the Volunteers.

The Oregons request to defer the time of their departure until the 12th. They will leave for Portland on the transports Ohio and Newport. The Sixth infantry's arrival will relieve the Californians at Negros. The Hancock sails in a few days with the Nebraska and other troops.

General Otis has been advised that it is the wish of the president that all arrangements be made to give the returning troops a comfortable voyage and that the best care of them be taken so that no sickness may break out among them.

It is also said that precautions will be taken not to load the transports too heavily so that the returning troops may have plenty of room.

The battleship Oregon will soon be stationed off Dagupan, in the gulf of Lingayen, on blockade duty.

BRITISH COLUMBIA.

Tolls on Esquimalt drydock have been reduced about 50 per cent.

Kettle river is showing the effects of rains and melting snows. It rose six feet last week.

D. C. Corbin's telegraph bill has been pased by the government and the line will now be built immediately.

The Dominion government has disallowed the anti-Japanese law passed by the last B. C. provincial legislature.

Marcus Daly, the great Anaconda mining man, is attempting to corner the copper mines of British Columbia.

Hugh McDermott, an old-time resident of the Similkameen river, about two miles above Princeton, was drowned recently.

The Boundary Creek Telegraph & Telephone Company has secured its supplies and has ordered the business houses to be wired in Greenwood.

R. G. Sidley, customs agent at Sidley's, seized a five-stamp mill, boiler and engine on Monday last for irregularly passing through the customs at Osoyoos.

Frank H. Jell, of London, Ont., manager of the Surprise mine, Texada island, was killed by a premature dynamite explosion last week. The body was horribly mangled.

Three survivors of a party of nine from Halifax, Nova Scotia, who started into Alaska a year ago over the Edmonton route, have arrived at Victoria. All were residents of Halifax.

England Is Excited.

London, June 8.—The report of the breakdown of the Bloemfontein negotiations has created considerable excitement in political circles, and there is much speculation as to the next move of the British government. While Great Britain does not mean war, it is generally thought there will be military preparations.

Governor Pingree Will Quit Politics.

Detroit, June 13.—Governor Pingree will not be a candidate for office either this year or next, according to a statement made by one of his closest friends and advisers. It is said that his family desire his retirement for social reasons, and also that the governor has political reasons.

Postal Clerks Assessed.

Indianapolis, June 9.—The postal clerks' convention today decided to assess each member $1 to pay the expenses of a committee to Washington to secure legislation favorable to the reclassification bill.

Looks Like Murder.

Chicago, June 8.—Martin Meier, a wealthy and eccentric Swiss, was found dead at his home, which for years he has occupied alone. The condition in which the body was found points to murder, with robbery as the object.

"Durability is Better Than Show."

The wealth of the multi-millionaires is not equal to good health. Riches without health are a curse, and yet the rich, the middle classes and the poor alike have, in Hood's Sarsaparilla, a valuable assistant in getting and maintaining perfect health.

Hood's Sarsaparilla
Never Disappoints

Shoemaking is one of the principal industries of Valparaiso, Chile. Five large factories employ 1000 operatives. No children's shoes are made in Chile, but are all imported from Switzerland.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out, and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

It is now estimated that the cost of printing the official "Records of the Rebellion" will be $3,000,000, and that the work, which was begun in 1880, will not be completed till 1900.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes tight or new shoes feel easy. It is a certain cure for Ingrowing Nails, sweating, callous and hot, tired, aching feet. We have over 30,000 testimonials. Try it *today*. Sold by all druggists and shoe stores. By mail for 25c. in stamps. Trial package FREE. Address, Allen S. Olmsted, Le Roy, N. Y.

Thomas Paine has a monument on the old Paine farm, in New Berlin, N. Y., and it is to be surmounted by a newly modeled bronze bust, costing $300.

Chronic Constipation Cured.

The most important discovery of recent years is the positive remedy for constipation, Cascarets Candy Cathartic. Cure guaranteed. Druggists, 10c, 25c, 50c.

The Mennonite church in this country is about to establish its first foreign mission. It will be located in India.

There was a young man from Lenore,
Who boldly went off to the war;
The "beef" made him sick,
He recovered quite quick
By the prompt use of old Jesse Moore.

But few men ever make their way through the world on the strength of their phrenological developments.

Fence and Iron Works.

If a pen drops and sticks in the floor the owner's lover lives in the direction toward it inclines.

IF CLAIMANTS FOR PENSION write to NATHAN BICKFORD, Washington, D. C., they will receive quick replies. B, 5th N. H. vols., Staff 20th Corps. Prosecuting claims since 1873.

MONTANA.

Sixty-two carloads of produce were shipped from Stevensville during the month of May.

Mrs. Mattie E. Todd, the wife of Thomas Todd, of Fort Benton, is dead. She was well known throughout the northern part of the state, having come to Montana in 1877.

Sixty cars of cattle from Texas and New Mexico have just been received at Billings. The stock is consigned to the Bloom Cattle Company, and will be driven to the company's range on the Musselshell.

F. E. Parker, formerly quartermaster sergeant of Grigsby's rough riders, and who enlisted in South Dakota with Company G, was instantly killed last week in the West Colusa mine in Butte by falling down the shaft.

It is known definitely that one of two sites has been selected for the federal building in Butte,—either on the corner of Copper and Main or the block on Montana, Park and Broadway, opposite Sutton's theatre.

The report of Silver Bow county clerk for last month shows that receipts and disbursements were as follows: Cash on hand May 1st, $248,877.71; received during the month, $35,743.07; cash on hand June 1st, $284,820.78.

The machine and blacksmith shops of the Western Iron Works, together with all the valuable patterns, were destroyed by fire in Butte last week; loss, $75,000; insurance, $15,000. The fire originated in the blacksmith shop. The heaviest loss is on the pattern and machinery.

The new road law passed at the last session of the Montana legislature has been declared unconstitutional. The decision was rendered by District Judge Moody, in the case of the county of Ravalli against Surveyor Golden. The court held the law invalid because it proposed to change the emoluments of the surveyor's office during his term.

The Christian Endeavor Society has more than 3,300,000 names on its rolls.

INDUSTRIAL NOTES.

The new flouring mill in Reardan is nearing completion.

The sale of timber lands in Skagit county, Wash., is on the increase.

The ranges on the Snake river are well stocked with cattle this spring.

A new double-block shingle mill will be built immediately on the site of the one recently burned in Cosmopolis.

About 2,600 acres of grain were sown this spring in the Highland district.

C. F. Scheilner, of Grand Coulee, Wash., is putting out about 3,000 tomato plants.

Wheat in Sherman county, Ore., looks well, and there is no doubt of a large yield.

George Small, of Silver Lake, Ore., recently disposed of 91 mules at $45 per head.

Cutworms are unusually plentiful at Rosalia this year, and are doing much damage to vegetation.

In the past twelve days over 100,000 head of sheep have been shipped from Heppner, Ore., to the east.

It is estimated that sales of sheep in Morrow, Ore., during the last two weeks of May aggregated $60,000.

A boycott was inaugurated recently by the Flour Mill Workers Union, of Spokane, against the Centennial and C. & C. mills.

Wheeler county (Ore.) sheepowners have finished shearing. While the clip is somewhat lighter than usual, the quality is good.

The Catlin Land & Live Stock Company in Montana sold 80 head of yearling steers to a Mr. Agno of Illinois, for $23 per head.

About 4,000 bushels of wheat were purchased from farmers in the vicinity of Tekoa recently; 40 to 42½ cents was the price paid.

Before long two new shingle mills of extensive capacity, with a united pay roll of $2,500 per month, will be in operation in Olympia.

Reports from the Palouse country state that the late rains have been so abundant that farmers are encouraged to believe that a large yield of grain is assured.

The cattle business in Wyoming is being revolutionized, says one who has large stock interests in the Big Horn basin of that state. Cattle men are going into the sheep business.

A large number of sheep are being driven east this season from Morrow, Ore., and Gilliam county; recently about 40,000 head having recently been started over the road.

Seventy-five carpenters are working on the cannery building of the Pacific-American Fisheries Company, at Fairhaven, Wash., and the mammoth building will be ready for occupancy by July 1st.

Fish Culturists J. W. Berriam and Bert Greenman, of Oregon City, are removing the temporary apparatus at the falls, used for handling steelhead salmon eggs, to the Clackamas hatchery. The season for catching steelheads at Oregon City has closed. Over 300,000 steelhead salmon eggs were secured during the season, and the entire output has ben shipped east, except 10,000 removed to the Clackamas hatchery.

Fatal Result of a Drunken Brawl.

San Francisco, June 13.—John Landsman, a grocer's clerk, was stabbed fatally and three other young men were slightly wounded during a street brawl at a late hour last night.

Fred Trueworthy who is supposed to have committed the murderous attack, made his escape from the scene and has not been arrested. Landsman died while being removed to the receiving hospital. Overindulgence in liquor was the cause of the row.

Slot machines have ben suppressed at Eugene.

COULD NOT SLEEP.

Mrs. Pinkham Relieved Her of All Her Troubles.

Mrs. MADGE BABCOCK, 176 Second St., Grand Rapids, Mich., had ovarian trouble with its attendant aches and pains, now she is well. Here are her own words:

"Your Vegetable Compound has made me feel like a new person. Before I began taking it I was all run down, felt tired and sleepy most of the time, had pains in my back and side, and such terrible headaches all the time, and could not sleep well nights. I also had ovarian trouble. Through the advice of a friend I began the use of Lydia E. Pinkham's Vegetable Compound, and since taking it all troubles have gone. My monthly sickness used to be so painful, but have not had the slightest pain since taking your medicine. I cannot praise your Vegetable Compound too much. My husband and friends see such a change in me. I look so much better and have some color in my face."

Mrs. Pinkham invites women who are ill to write to her at Lynn, Mass., for advice, which is freely offered.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children durng the teething period.

Fully 800,000 domestic animals, valued at 1,200,000 pounds, are annually devoured by the wolves in Russia.

I never used so quick a cure as Piso's Cure for Consumption.—J. B. Palmer, Box 1171, Seattle, Wash., Nov. 25, 1895.

If a person's two front teeth are wide enough apart to place a gold coin between them he will always be rich.

A man with an elastic imagination is apt to mistake it for his conscience.

Shot and Beaten by His Family.

New York, June 9.—As a result of a family quarrel, Morris Foley, a mechanic, 56 years of age, lies in the hospital suffering from two bullet wounds and several cuts in the head. There is no hope for his recovery.

Foley accuses his wife and her daughter, Hannah Poole, of attempting his murder. He says his wife held him while his step-daughter shot and beat him. The women deny the charge.

PILES

"I suffered the tortures of the damned with protruding piles brought on by constipation with which I was afflicted for twenty years. I ran across your CASCARETS in the town of Newell, Ia., and never found anything to equal them. To-day I am entirely free from piles and feel like a new man."

METALLURGY AND ASSAYING.

W. Pellew-Harvey, F. C. S., Member inst. Mining and Metallurgy, London, and for many years with Vivian & Sons, Swansea, and at present their representative in this country, has extensive Metallurgical Works at Vancouver, and is making a specialty of advising on the cyanide treatment of ores, and making tests by amalgamation, chlorination and concentration. Another feature of the business is checking smelter pulps, assaying in all its branches, with chemical analyses.

Having had ten years' experience with the ores of B. C., in addition to a long practical training in Europe, the results reported by the above can be entirely relied upon There are no pupils kept in he business, the assistants being;

METALLURGISTS AND ASSAYERS. Cecil Bryant, Associate Royal School of Mines, London. A. F. McEwen, Fellow Chemical Society, and late Chief Chemist and Metallurgist with the Cassiar Central Railway Company.

ANALYTICAL CHEMIST. A. A. Watson, Fellow Inst. of Chemistry, London, and Bachelor of Science, with honors in Chemistry, who has had a long and varied experience in Chili and Queensland.

W. Pellew-Harvey represents the following firms in Canada, viz:- Messrs. Vivian & Sons, Swansea; The Elliott's Metal Co., Burry Port; The Cassel Gold Extracting Co., Glascow; Messrs. James Bros. M. E. London; and is also special Government examiner for the Provincial Assayers' examination.

Further particulars on application at the office, Fairfield Block, Vancouver, B. C.

EDITORIAL OUTCROPPINGS.

The importation of dollar-a-day men to this country, to take the places of the miners now on strike, is something that will not be tolerated by the business men of this country and the government will, in justice to her citizens, interpose the strong arm of the law to stop any such outrageous proceeding on the part of the mine owners. A large proportion of the miners of the Kootenays is composed of those men, who, taking their packs on their backs, struck into this country when it was a barren wilderness, facing the hardships and taking all the chances. It is to these men that the whole country is indebted for the discovery and prospecting of this, the richest portion of our Dominion. It is to these men we are indebted, these men who froze and starved, bucked snow and built trails, smoothing the way for the iron horse, the business man, capitalists and prosperity.

Surely these men are entitled to be at least allowed to earn, by the sweat of their brow, a decent living in this the land they have made. Their demands are not that they should be kept in idleness at the expense of the community or the rich mine owners, many of whom they have made, but that they should be paid a sufficent wage to live like men and not like peons.

It will not be a pleasant surprise to the stockholders of the Vancouver Group, when the shipping season comes around again next winter, and the mine fails to send down her usual amount of high grade ore. When explanations are asked, and they are informed that developement was stopped during the summer owing to the mine closing out of sympathy for the Mine Owners' Association(although having no grievance of their own), some stockholders may kick. Sympathetic lockouts, like strikes, are fashionable but cost money.

The Committees arranging for the big sports in Nelson in the forthcoming celebration are kicking at the shortness of their funds. They have collected $3500, just twice what was subscribed by Silvertonians for their one day celebration. Nelson has over 5000 people, Silverton has 200. Figure out the relative subscribing capacites of the two places.

In the mines of British Columbia are hundreds of American citizens, native born or naturalized, many of these latter being born Canadians. This fact was shown in a striking manner during the last Provincial election, the smallness of the vote in comparison with the number of workmen, being surprising. In the natural course of events, these alien workmen would never have become citizens of Canada, no matter how long their residence here. While these men were receiving fair treatment and good government, they were content to leave the franchise to others. Now, their votes are needed by the party who has legislated for them in the Eight Hour measure, having made by this legislation, enemies of the capitalists and their class. In justice to the government that has placed its political life in the hands of the working class, every man, who is in sympathy with their actions, should see that his name is found on the next list of voters for the Province. If an alien, he should become a citizen if possible; if a British subject, he should not rest unashamed until he receives the franchise

It is only by their votes that they can secure legislation favorable to the masses.

The Nelson Miner grows hysterical over the resolution passed by our local Union last Saturday, a copy of which will be found in another column. It proposes to imprison the passers at once. Most of this outburst can be traced to the fact that the Miner has made itself obnoxious to the Unions, who have not hesitated in saying so. If the Miner would confine itself to highly interesting fish stories and graphic descriptions of thunderstorms, it would be doing better service for itself and for the community.

RESOLUTIONS.

Passed By The Silverton Miners' Union, June 10th, 1899.

Whereas the wonderful advance of invention has increased and is increasing the productivity of labor to that point where laborers are being rapidly displaced by machinery and larger numbers are thus yearly forced to idleness and competition for places to work, thereby bringing about a condition that tends to the reduction of wages:

And whereas, if the wage system and the system of private ownership shall continue along with the advance of invention it is plain to be seen that the condition of wage-workers must grow rapidly worse unless arbitrarily altered,

Therefore, though we favor such political action as shall as soon as possible abolish said systems and substitute therefor a system based on the rights and duties of men.

Resolved, that while struggling for the Co-operative Commonwealth and the establishment of justice and equality among men we favor, for temporary relief, the reduction of hours of labor as our best defensive weapon.

And whereas the B. C. parliament, at its last session enacted a law creating an Eight Hour working-day for underground miners, which law, it is asserted by the Silver-Lead Mine Owners' Association of B. C. and others, was unsought and undesired by us:

Therefore be it resolved by the Silverton Miners' Union No. 71. W. F. M., that the contrary is true; that we favor the law and its enforcement and that we shall seek such further reduction of hours as shall make a demand for the daily labor of every man willing to work, and as shall, by creating such increased demand for labor have a tendency to increase wages.

And Resolved, That we will support with our votes the govern ment enacting and enforcing this law and such other laws as tend to restore to labor its just reward.

Resolved, That it is an improvement of our condition that we are seeking; that we do not feel called upon to mantain that as much work can be done in a few as in many hours or that it is right for us to continue doing as much work as heretofore in order that we may justly demand the same pay. We assert that we have done too much work for the money, that we were not getting ten hours' pay for ten hours' work; and we deny that we are asking "ten hours' pay for eight hours' work."

And whereas it is wise for us to vigorously use every resource at our command in order to speedily effect the ends we are seeking.

Resolved, That those who oppose us are our enemies and that those who aid us are our friends, and that we will treat them accordingly.

Resolved, That we will not love our enemies, that we will not "turn the other cheek;" that we believe that Retaliation is Right,

And Therefore Be it Resolved That we denounce as unworthy of our patronage such papers as the SPOKESMAN-REVIEW of Spokane, the MINER of Nelson, the MINING RECORD of Vancouver, and all others that, like them, delight in special sophistical and parasitical pleading for those who despoil us and support them from a small portion of the spoils.

And to the business man, the merchants and hotel men; to the professional men, the lawyers, doctors and preachers, all of whom, at periods of intenser struggles between employer and employee, usually affiliate with the former and deplore the agitation that discourages investment—to you we have this to say:

We know that the rich would become richer if we would consent to give them a larger rake-off. But not only is a juster and wider distribution of wealth in our interest, it is in the interest of the State or country, and we are therefore your best citizens. We seek to "encourage" men to hope for the largest possible share of what they produce and are entitled to. You ask us to "encourage" capital to come in, by promising to give it rich rewards. You ask us to "encourage" men with a hundred thousand dollars to see that they can here increase it to a million. But we deny that it is desirable to have any man in possession of a million, and maintain that we rightfully refuse to aid you in encouraging capitalists to come here with such greedy hopes. The higher wages and fewer hours that we favor would fill this country with the most intelligent, effective and happiest workmen of the world, a citizenship to be proud of. The dollar a day laborers that would most encourage the capitalist would drive every self-respecting citizen out of the country, and leave only cabins here for houses, while palaces would be built in Spokane, Butte, Salt Lake and London. And we say to you business and professional men that we propose to "encourage" business and professional men who do not give aid and comfort to our enemies.

Resolved, That we do not consider ourselves any better than the miners of the Coeur d'Alenes. Outrageous and arrogant wrongs have ever provoked and should provoke violence. The history of no country needs to be closely searched to find records of violent resistance to tyrants. Good citizens of America disguised as Indians, threw overboard the sacred property of the capitalist on the occasion of the Boston Tea Party.

Cromwell and other good people of England cut off the sacred head of Charles the First.

Caesar had his Brutus.

The Capots had their guillotine.

The Coeur d'Aleners blew up the Bunker Hill mill.

Let tyrants take warning!

In conclusion we firmly declare that we are good and true citizens, organized to secure justice, and not to wrong any man. But we are not fools, and we will not reject the use of means effectual, just because they may not be conventionally popular.
