VOLUME TWO. SILVERTON, BRITISH COLUMBIA, SATURDAY, APRIL 29, 1899. NUMBER 44

UNNEL AND S'HAFT.

ward Season is Retarding Development Work.

NDAY STILL IMPROVES.

lo Wants to build a Road---Our Cleanup For The week.

t the Noonday Mine, most of the w are engaged in driving a crosscut nel, which has just tapped the ore te, the ore at this point giving assay rns of 130 ounces in silver per ton. y two men are working on ore at the sent time. The size and value of the nday ore body is shown by the fact t these two men alone are mining, ing and sacking over a ton of clean per day, running over 100 ounces in er and 60 per cent lead per ton, more n enough to pay all the running penses of the mine while it is being veloped. It is the intention of the nagement, to divert the waters of d creek, which flows across the claim, l ground sluice off the top of the ledge. here is known to be a large amount float galena lying in the surface dirt, t covers the top of the ledge to the pth of several feet. Besides showing the ledge on the surface, several loads of clean ore are expected to be lected and shipped as a result of the templated ground sluicing.

THE HUMBOLT.

The Humbolt claim, on which Messrs. dle & Otto are driving a tunnel, under ntract, is situated about four miles ove Silverton and lies between the ncouver Group and the Loorna Doone im. This claim about which very le is known, even locally, has every dication of developing into a big ining proposition. The vein is proved o be a large one, lying in the Sandon late formation, with a strike northeast nd southwest and dipping to the north. A tunnel has been driven on the property over 140 feet, the first part of which is a crosscut. The tunnel is now being driven on the vein and is following the footwall, the whole face of the drift being ledge matter and there is a two foot streak of good concentrating ore next to the footwall. No crosscuts have been run as yet from this tunnel and it is not known whether the ledge is all concentrating ore or not. The contractors believe they are nearing an ore shute and we need not be surprised to hear of a big body of clean ore being struck in this property at any time.

MR. GREEN'S MISSION.

Robert F. Green is now on his way to Victoria, a special delegate sent by the City of Kaslo, to interview the Minister of Public Works on the question of building a waggon road up the south fork of Kaslo creek. The city is willing to advance the cost of the road, the amount being $10,000, provided the Government will agree to re-imburse them with a like amount within five years. The building of this needed road would be of great value to Kaslo. The road as contemplated, would start from the Montezuma mine and run past such properties as the B. & A, the Silver Bell and the Silver Bear and make an outlet to Kaslo for the Joker Group. The company operating this group have agreed to spend $250,000 in doing developement work on this and the Derby Group.

MINING LOCALS.

English capital has been again brought into the Slocan, this time in connection with the Mountain Chief mine, lying below the California, a short distance from New Denver.

Ralph Gillette is back in town from the Hamilton Group. He reports that all is well on Twelve Mile, the Hamilton looking well. The horse that was encountered in the tunnel has been driven through and the ledge and ore has again been found in place.

F. J. O'Rielly, has just completed the survey of the Burnside claim on Four Mile creek. This claim lays mostly in the creek bottom and directly below the Wakefield Mines, to which company it belongs, and will be used as a millsite and terminus for the company's tramway.

The preparation for the immediate building of a railroad into the Lardo, now under way, will revive the hope long smouldering in the breasts of the claim owners and citizens of that section. It should also have an invigorating effect on the business of Kaslo and Nelson.

A deal consumated last week will result in another working property on Four Mile creek. Chas A. Mariner and Jos. McNaught have taken up all the stock of the Prescott claim, purchasing it from N. F. McNaught, H. Brady and the estate of the late W. McKinnon. Work on the property will commence as soon as the season will permit.

G. H. Dawson, the owner of the Essex Group, on which considerable work was done last summer, returned from Montreal last Sunday. He was considerably suprised to find that the slides had not yet come down and that about eight feet of snow still covered the surface at the mine. He left on Tuesday for the Coast, intending to return and recommence work on the Essex as soon as the approach to the mine is open. He expects to erect buildings at the mine and work a considerable crew this summer.

SLOCAN LAKE ORE SHIPMENTS.

The shipment of ore from Slocan Lake points, up to and including the presen week, from Jan. 1, 1899.

HARD LUCK!

A Farmer, but not a farmer, journeyed from Silverton to the city limits of Rossland. He bore with him a valise, filled with handkerchiefs and a revolver—a deadly combination. For a few short minutes he withdrew his gaze from his effects, beguiled by the city scenery. For a few moments only, but time enough for an enterprising Rosslander to rifle the valise. Deprived of his gun, our townsman could not avenge the loss of his handkerchiefs, and without these he could not gracefully weep for the loss of his gun.

CHOOSE YOUR TRUSTEES.

A public notice is posted in town calling the attention of the public to the establishment of the Silverton School District, comprising all that tract of land lying within a circle having a radius of three miles with the centre located at the Victoria Hotel.

Further notice is given, that an election for choosing three fit and proper persons to act as trustees for the coming school year. The date of election is set for Saturday, May 6. Balloting will take place at the school house.

The present Board of Trustees is composed of only two members, Messrs. Bowes and McKinnon. These gentlemen have devoted considerable time to their duties, and it is chiefly owing to the efforts of Trustee McKinnon that the vote of $1,500, for a school house was included in the Provincial estimates. It would be a courteous recognition of their services to re-elect them by acclamation, finding a third member to assist them. The duties of the next Board will be more important than those of any previous year and good men will be needed. It would be well to secure as a third trustee, someone, the father of a family.

All resident householders or freeholders are entitled to a vote, Chinese and Indians excepted.

CELEBRATION NEWS.

The Celebration Committee have not been idle during the past week. A glance at the program prepared by them, which is printed in another column, will show that if good purses can attract good contestants, there will be an exciting day here on the 24th next.

Already entries are being made for the various Caledonian sports, and judging from the numerous inquiries being received by the Secretary, the cream of the athletic fraternity of the Kootenays will be here.

A match race between Gusty of Sandon and Dill of Kaslo is being arranged. Gusty's backers being the challengers. Sandonites are prepared to back their man against either Campbell or Thompson of Nelson. It is quite probable that all these speedy men will meet here in the hundred yard dash, the purse for which will be in the neighborhood of $50.

The Horse Races, especially the Free-for-all, should prove exciting. With substantial purses to be won, it is expected that some fast horses will be brought in. The Local Race for Slocan horses will be, among local sports, one of the events of the day. Silverton will have two or three entries in this event.

The track over which the races will be run, is known by local horsemen as a good one and it is being further improved by some additional grading at the north end.

The Drilling Contest is in the hands of the Miners' Union, which is an assurance of its success.

ABOUT PEOPLE WE KNOW.

E. Patterson, manager of the Wakefield mine returned from Victoria on Wednesday.

Constable Forbes expects to be shortly removed from Three Forks and stationed on Slocan Lake.

C. Van Goblinz, who has been working for the last year at the Emily Edith mine, left on Monday for Chicago.

L. H. Briggs and M. Grady went down to Twelve Mile on Tuesday, to put in a few days hunting. They went thoroughly equipt for the hunting of big game.

Chas E. Hope, of the Emily Edith mine, who during the absence of Manager Rammelmeyer was in charge of that property, left for his Vancouver home on Wednesday.

IN WEST KOOTENAY.

Nelson will have a street railway system.

Silverton is to have a celebration!

Kaslo will have one too!!

So will New Denver?

Kaslo will have a Boom (capital "b" boom) this summer.

It will, in spite of its newspapers.

New Denver will have an awakening some day.

Sandon will have a good time when it moves to Silverton on the 24th.

Nelson will have a new post-office—after a while.

New Denver will have its fire hall on the same date.

Slocan City will have a substantial payroll before next winter.

Sandon will have some Spring, if they send enough to go round.

ASSAYERS' EXAMINATIONS.

The examination for assayers, who are practising their profession in British Columbia, and for those desirous of securing a certificate, will be in the following subjects;

(A) Sampling:—Sampling ore or furnace products and the reduction and preparation of sample for assay, including also the melting of gold dust and sampling of bar for assay.

(B) Qualitative Determination:—In ores or furnace products of the following; copper, iron, nickel, antimony, arsenic and sulphur.

(C) Quantitative Determination—Assaying;

BULLION—Gold bullion, for gold & silver.
Copper " for copper, gold and silver.
Lead-copper bullion, for lead, copper, gold and silver.

COAL—Determination of moisture, volatile, combustible matter, fixed carbon, ash and sulphur.

ORES AND FURNACE PRODUCTS

Fire Assay—Gold, silver and lead by crucible method.

Gold and silver, by scorification method.

Wet assays—Copper, by electrolitic, gravimetric, colermetric and volumetric (cyanide or other approved) methods.

Iron, by volumetric and galvimetric methods.

Nickel, by electrolitic method.

Lead, lime, zinc, sulphur and silica, by any approved methods.

The entrance fee will be $10.

The fee for a Certificate will be $15.

Examiners; the Provincial Mineralogist, the Provincial Assayer and Mr. Pellew-Harvey.

The Minister of Mines may appoint other examiners, to act without fee, receiving a certificate for their services.

THE LOCAL LAYOUT

Silver is 61, Let her climb!

Cascade will celebrate the Queen's Birthday.

Gardening is the fashionable pastime just now in town.

Mrs. Farmer left on Friday to join her husband in Rossland.

Speaking of the weather, of course you will be in Silverton on May, 24th.

Several disciples of Isaac Walton are meeting with fair luck among the ripples and pools on Four Mile.

Wednesday was generally observed by the business men of Lake Ave as Arbour Day. About thirty trees were planted. Let the good work go on.

Several of our enterprising merchants and hotel keepers now light their places of business with gasoline. It gives a good white light, much to be prefered to oil.

All work in the Jewelry Repairing line, left at the Silverton Drug Store, will be promptly forwarded to Jacob Dover, the well-known Nelson jeweler. All repairs are GUARANTEED FOR ONE YEAR. *

New Denver's merchants are introducing an early closing movement. We did not think it was as bad as that. Will it be early in May that they will close, or sooner?

Wm. Hunter has been doing some extensive cribbing along the banks of Four Mile creek, above his powder house. He believes the town to be in perfect safety now from high water.

W. J. Twiss of Kaslo paid Silverton a flying visit yesterday. Mr Twiss looks forward to a busy season in Kaslo during the coming summer, and is doing some building there to show his good faith.

A Bill has been introduced in the Senate by The Hon. Mr. Mills to prevent the repetition of such flagrant abuses of employees by contractors, as was shown to exist during the Crow's Nest Pass construction.

The number of Silvertonians who attended the performance of the Metropolitan Opera Company in New Denver, could be counted upon the fingers of one hand without reaching the thumb. They report the show as having been an excellent one.

The New Denver Ledge speaks of "fake reports and telegrams" sent out from Silverton. We do not intend to deny the report. The publication publishing it will doubtless have the good grace to take it back when its sense of truth reasserts itself.

Charles Burt, representing the Kootenay Cigar Manufacturing Co. was in town on Wednesday. This Company is a strictly local one, employing union men and turning out a high grade cigar. The deserve the support of lovers of local industry and good smokes.

Member Green paid Silverton a visit on Thursday. He has been suffering from ill health, this accounting for his not being here before since the close of the session. Mr. Green talked informally of the doings of the Legislature and expressed a determination to keep bringing up his motion regarding defaulting co-owners, until he can persuade a majority of the members to agree with him. He remained here for a short time only, being on his way to the coast.

NOT OUR FAULT.

It is not the fault of the SILVERTONIAN if the district around Slocan Lake which it serves is not well advertised. And really with over 1,000 tons of ore to the shipping credit of that place and New Denver this season there is reason why people should desire to hear of the region. —News-Advertiser.

A Complete Review of the Events for the Past Week in This and Foreign Lands—Summarized From the Latest Dispatches.

Rt. Hon. Sir John Robert Mowbray of London is dead.

The condition of Vice President Hobart continues to improve.

War is on between the ship owners' association and the seamen's union in San Francisco.

The navy department has authorized the first payment to be made on the battleship Maine.

President Rafael Iglesia, of Costa Rica, has arrived at New York on his return from Europe.

A new first class theater to cost, with the land, $400,000, is to be erected in San Francisco.

W. B. Storts, wanted in Saline county, Missouri, for embezzlement, has been arrested in Los Angeles, Cal.

Coast survey steamer Patterson is being fitted out for survey work at the mouth of the Yukon and in Bering sea.

D. C. Corbin has withdrawn his application pending before the Canadian dominion parliament for the Kettle Valley railway charter.

The large tannery and yards of the United States Leather Company at Lincoln, Maine, have been destroyed by fire. The loss was $150,000.

The Army and Navy League of Chicago will close its affairs and disband on May 1. This action was decided on at a meeting of the executive committee yesterday.

Katie Dibble Baker, aged 14; Mamie Braddick, aged 15, and Delia Taylor, aged 7, inmates of an orphan home at Berne, Adams county, Ind., were burned to death.

Four spurious $5 gold pieces were passed on a San Francisco barkeeper last week. John Keogh, a recent arrival from Puget Sound, an associate of the man who passed the money, is under arrest.

Simon Hotonia, a Cherokee Indian, confessed to the murder of a man and two women at Cold Springs, I. T., last week. Sickness among the Indians was ascribed to these supposed witches. So he killed them.

Mrs. Catherine A. Gilbert, police matron at Four Courts, St. Louis, is dead from an overdose of morphine, taken to relieve pain from a recently vaccinated arm.

The steamship Glenogle of the North American Mail Steamship Company's Tacoma-Oriental line crashed into the big steamer City of Kingston about 4 o'clock Sunday at Tacoma off Brown's

Internal revenue officers have seized in Denver 140,000 cigars bearing counterfeit revenue stamps.

Sergeant Major Albrecht of the One Hundred and Twenty-ninth regiment, who was arrested at Bromberg, Prussia, and was being taken in chains to Spandau, nine miles from Berlin, where the state prison is situated, has escaped from his guards and has not yet been recaptured.

"Kid" Lavelle, of Chester, Penn., is believed to be dying at his home from the effects of a knock-out blow delivered by John Cavanaugh during a prize fight last week.

The Third Georgia regiment has been mustered out at Camp McKenzie.

The First North Carolina regiment was mustered out of the service last week.

Point, cutting the City of Kingston in two just abaft of the boilers. The 12 passengers and the Kingston's crew of 70 were saved through the prompt action of officers of the Glenogle and Kingston and ships lying in the harbor which lowered boats and assisted the people on the Kingston to reach the Glenogle. The Kingston is a total loss and the Glenogle is damaged.

Mrs. R. H. Martins, of Colfax chose a horrible but certain method of ending her existence. Seating herself in a chair beside the kitchen stove she placed the muzzle of a single barrel, breech loading shotgun against the bridge of her nose and pushing back the hammer with her foot blew her brains into the ceiling.

Rear Admiral Melville will shortly submit to the board of construction a proposition for fitting the proposed armored cruisers with triple screws, and it is believed that the suggestion will be adopted promptly.

Unusual interest is attached to the return of competition of Arthur A. Zimmerman, in the bicycle races, who, more than any other rider, possessed the right to sign himself world's champion.

The North Atlantic squadron, the flagship New York, the Brooklyn, the Indiana, the Massachusetts and the Texas have sailed from St. Lucia for St. Pierre, Martinique. The squadron is now working slowly northward.

Unusually elaborate preparation was made for the reception and entertainment of the duke and duchess of York by the different Welsh towns where the royal pair visited this week.

Four young people were run down last week by the Chicago & Northwestern fast mail at Crawford's crossing in Wisconsin. Three were instantly killed, as follows: Bennie Tullbs, Kittie Marshall, Nellie Welch. Injured, Frank McDonald.

John McCann, a laborer in Oakland, Cal., was beaten to death last week during a quarrel which began during a game of dice in a barber shop. Cornelius Townsend, democratic county central committeeman, is accused of striking the blow which proved fatal.

Professor Jerome J. Green continued his experiments in wireless telegraphy Sunday with uniform success. He sent signals from the Illinois Savings bank

Ernest Roeber, the champion Graeco-Roman wrestler of the world, has issued a challenge to Hyder Ali, the "terrible Turk," to wrestle Graeco-Roman style for the championship.

to a tug for a distance of a mile and a half.

In the 50-kilometre bicycle race in Paris Tom Linton, the Englishman, won in 55:30 3-5, Edouard Taylore was second, and A. F. Walters third.

The Missouri river has continued to rise steadily and is now above the danger line.

Every now and again some prominent Spaniard calls upon Major General Brooke and endeavors to learn in a more or less diplomatic way how long the United States government intends to occupy Cuba. Such a caller usually says that his stay will be only as long as that of the American troops, and that when they go he will go.

M. Cantacuzena has formed a cabinet to succeed the ministry of Demetrio Strudza, which resigned on April 11. The premier will also take care of the portfolio of the interior. M. Lavovary will take care of the portfolio of foreign affairs.

In accordance with the action of the executive committee of the council of administration, G. A. R., at Philadelphia, April 12, Senior Vice Commander in Chief W. C. Johnson of Cincinnati has assumed command and established the national headquarters at No. 321 Pike building there.

Selborne school for boys, an Episcopal institution located one and a half miles from San Rafael, Cal., was destroyed by fire and one of the pupils, Felix Armstrong, perished in the flames. The loss on the property, which was owned by William Babcock, is $30,000, insurance $20,000. The origin of the flames is unknown.

B. F. Patten of Terre Haute, a specialist in the care of cancer, and proprietor of large sanitariums, is lying dangerously ill from the effects of arsenical poisoning, which he claims was administered by his wife.

An official denial is made at the Chinese legation of a published statement that Minister Wu has resigned or been recalled.

Representative Cannon of Illinois has announced that he is a candidate for Speaker Reed's place.

Rev. G. J. White of Stanford, Ill., known for 60 years as a speaker and writer against the Roman Catholic church, is dead.

It is reported in Europe that Archbishop Ireland will deliver the principal discourse at the Joan of Arc celebration on May 8 at the old French town of Orleans, which gave the name of the Maid of Orleans to the girl saint and soldier.

The warehouse of the Kingman Implement Company, located on Pacific street between Ninth street and the Burlington station, Omaha, was totally destroyed by fire, together with all contents. The loss is $170,000, of which $100,000 is on stock. Insured for three-fourths of the value.

The Missouri river has reached three inches above the danger line in Kansas City, and was still rising.

Jack McDonald, of Victor, Col., a cousin of Alex McDonald, the Klondike king, was killed last week by rock falling down a shaft of the Little Montana mine. A top man named Crary has been arrested for carelessly handling the ore car.

General W. R. Shafter stopped in Denver en route to San Francisco. He took dinner with General H. C. Merriam.

In the presence of nearly 2000 people at Newman, Ga., who sent aloft yells of defiance and shouts of joy, Sam Hose, a negro, who committed two of the basest acts known in the history of crime, was burned at the stake in a public road one and a half miles from there Sunday.

The senatorial elections for the new cortes were held in Spain, passed off tranquilly throughout the country. They have resulted in giving the government a large majority in the chamber of deputies and senate. It is asserted in different reliable quarters that the attempt of Don Carlos to raise a loan on the security of his Italian and Austrian estates has failed.

A drykiln and storehouse at the St. Paul & Tacoma Lumber Company's mills at Tacoma burned Sunday, entailing a loss of about $50,000, partly covered by insurance.

For some time there have been rumors of probable trouble between the management and miners of the Bunker Hill & Sullivan at Wardner, Idaho.

Twelve of Crew Drowned.

Jacksonville, Fla., April 23.—A special from Oak Hill, Fla., says:

The steamer General Wheaton, Captain Hawthorne, sank 50 miles east of Cape Canavarel today. One boatload of 16 men attempting to land at Mosquito Lagoon house of refuge, upset and 12 men, including the captain, were drowned. The chief engineer, assistant engineer, fireman and one sailor were saved. The captain's body has been recovered. Fifteen men in another boat are still unheard from.

Parson Pulled His Pistol.

Parkersburg, W. Va., April 23.—At Spanishburg two mountaineers were arrested in church by the minister. The minister was also a deputy sheriff. During the services he saw two mountaineers for whom he had warrants in the congregation. The minister drew his revolver and handcuffed the men. He then placed them near the pulpit, finished the services and took his prisoners to jail.

New Roads in Minnesota.

St. Paul, Minn., April 21.—The Minnesota Railway Company has filed articles with the secretary of state increasing its capital stock to $7,500,000. The fee paid to the state amounted to $3750. The company will retire some bonds, and use the surplus for improvements and building an extension into the iron fields of northern Minnesota.

MINES AND MINING NEWS

OUR NORTHWESTERN MINES.

Items Gleaned From the Late Reports—All Districts Are Being Developed—A Prosperous Year Is Predicted—Mining Notes and Personals.

A decision of more than usual interest has just been made by the commissioner of internal revenue at Washington, who declares that deeds for the sale of unpatented prospects must be stamped at the rate of 50 cents for each $500 of the consideration. The ruling is an important one, for in sales of mining properties where the price runs into the tens of thousands, the necessary revenue stamps will be an item of considerable expense.

The Okanogan country extends from Lake Chelan on the south to the Canadian boundary line on the north, and from the Colville Indian reservation on the east to the Cascade mountains on the west. This territory is larger than the state of Massachusetts and embraces a number of different mining districts, known as the Twisp, Methow, Similkameen, Chelan, Horseshoe, Ruby and Slate Creek. The ores of these districts are gold, copper and silver, the two former metals predominating.

Gold and silver are always weighed in troy—12 ounces to the pound, 480 grains to the ounce. Gold is $20.671824 per ounce and $0.0430663 per grain. One grain gold button from an assay ton of ore, 437½ grains, one ounce avoirdupois, is $1,38712 for the ton of ore, 32,000 ounces and 32,000 grains of gold. One one-hundredth of one grain gold button from same assay ton is $13.7812 for the ton. One-tenth of one-hundredth of one grain gold button from same assay is $1.37812 for a ton.

The management of theZela M. Gold Mining Co., of Sheridan camp, in the Toroda district, is shipping about a ton of sacked ore to the Tacoma smelter for a test. It is said it will average between $300 and $400. The districts of Toroda and Sheridan are within 30 miles of the Okanogan river, where a good wagon road can be operated, and if the river is opened for navigation by a small amount of dredging necessary, the ore from many large properties in operation can beshipped to the Sound for treatment, at an advantage. This improvement will be done by the government this summer, as the appropriation is available and the survey made.

Work has again been started on the Pingo, a gold and copper property located about six miles west of Bossburg, on the slope of the Kettle river. About 300 feet of work has been done on this property, and there is considerable good ore in sight.

The experience of Jimmy Doyle, the millionaire mayor of Victor, in the Cripple Creek district, also illustrates the element of luck in mine finding in Colorado. Doyle, who had learned the carpenter's trade, but did not follow it, was driving a hack in Manitou when the Cripple Creek excitement began in 1891. In Colorado Springs was a young plumber named Jimmy Burns. The two were acquainted, and together they went to Cripple Creek to try their luck. Neither knew anything about mining. Battle mountain, near Victor, was then covered with location stakes. There was a piece of land comprising about one-sixth of an acre that had no owner because it was considered worthless. Doyle and Burns took up this land in the belief that something was better than nothing. They sent for John Harmon, who was employed in driving a street scraper in Colorado Springs, to come and help them dig on their claim. Harmon's mining experience consisted of what he had learned as a child in picking slate for the screens of Pennsylvania coal mines. For months the trio put in hard work sinking their shaft without a sign of pay ore. Their acquaintances sought to discourage them, but they persisted, and were rewarded by striking a vein that made them millionaires.

The Last Chance is keeping up its splendid record of one car per day and from the appearance of the mine it is safe to say that the record will be kept up during the entire year. This ore nets from $1,200 to $1,500 per car.

At a meeting of the directors of the Boston & Montana Mining Co., the regular quarterly dividend of $4 per share was declared, as was also an extra dividend of $2 per share, an increase of $1 per share over previous dividends.

The shaft at the Hunter in the Coeur d'Alenes, is now down 15 feet. It is a double shaft and some remarkably fine galena shows all through it.

On the Winnipeg mine in Wellington camp they are down to the 300-foot level and have crosscut a six-foot ledge and drifted on it in a southerly direction 80 feet. The other workings consist of levels at the 50 and 100 foot depths.

The ore shipments for the week ending April 22 and for the year to date (from Rossland mines) are as follows: Le Roi, 2,520 tons for the week, 21,530 for the year; War Eagle, 1,360 for the week, 7,165 for the year; Iron Mask, 36 for the week, 742 for the year; Evening Star, 36 for the year; Deer Park, 18 for the year; total tons for the week 3,916; total for year, 29,491.

Republic.

The raise on the Morning Glory has been completed. This connects the tunnel with the surface, and affords good ventilation to the mine. The work of driving the tunnel will now be rushed. Foul air caused a suspension of the work for several weeks.

It is the general impression among those who claim to be familiar with the matter that the tunnel on the El Caliph will cut the ledge within the next few days.

The machinery at the Mountain Lion mine is working to perfection. The cross tunnel has been driven 126 feet. The rock is exceedingly hard, almost as the reef that was passed through just before encountering the first ledge. It seems quite probable that the ledge that is being run for will be found as soon as the hard rock has been passed through. The south drift is in 100 feet. The quartz steadily improves in value in the face of the drift.

The Rebate shaft is 70 feet deep. The ledge has been crosscut at the bottom of the shaft and there is 12 feet of good ore. The average assays are $10 per ton.

The mill at the Republic mine is doing better work and more of it than ever before in the history of the mine. The mine is looking better than ever before. Preparations are being made to resume work on tunnel No. 4. There was some cleanup necessary before the actual driving ahead of the tunnel could be commenced. The tunnel will tap the ledge at about 800 feet deep. It seems quite probable that the big 1,000-foot shaft that has been mentioned heretofore will not be undertaken for some time. Actual resumption of work on the tunnel has begun and will be pushed to the utmost.

The Insurgent shaft is down about 40 feet. The bottom of the shaft is in fine looking quartz. The assays continue to show high values. The last sample received at the office of the company ran $330.

The winze on the Lone Pine has reached a depth of 30 feet. It has been crosscut and found to be 14 feet in width. The average assay of the 14 feet is $36 to the ton.

The last contract on the Monroe has been finished, and the superintendent is awaiting instructions to let another. In the meantime the work is at a standstill.

The closing down of the Bryan & Sewall is due to the fact that a few of the stockholders have been furnishing all the money to carry on the work and are tired of doing so.

British Columbia.

The White Elephant, situated on McDonald creek, a tributary of Horse Thief creek, in the Wildemere country, has been bonded by T. Starbird for $50,000, from Fred West and B. Washburn.

Throughout the Slocan the trails and wagon roads are rapidly breaking up. In but few cases ito is possible to employ animals. For this reason the Whitewater has been forced to temporarily discontinue shipments.

The Slocan Star has a force of men putting the mill in shape to resume operations about the 20th.

The Slocan Star started its concentrator last week.

Work on the Turris group, on Goat mountain, back of New Denver, has commenced, several men being employed. They have a good ledge to commence on, containing very high grade ore.

The ore shipments over the Kaslo & Slocan for the week ending April 20th amounted to 545 tons, being made by the following mines: Payne, 313 tons; Last Chance, 80 tons; Rambler, 41 tons; Whitewater, 96 tons; and Jackson, 15 tons.

The No. 2 tunnel of the Mascott, at Rossland, is in 630 feet. There is no important change in the ground. The winze is now down 80 feet on the hanging wall, and there is a showing of three feet of solid ore in the bottom.

On the Rathmullen group, in the Boundary, development work at present is confined to the Maple Leaf claim. The shaft is down 66 feet.

Work on the Elise, near Ymir, will be continued on the drift along the hanging wall which is in 65 feet. The shaft and the tunnel have been connected at the 125-foot level.

Union group, situated on Wildemere mountain, B. C., a large copper proposition, will commence development work about April 20th.

The first shipment of ore from the Slocan Star that has been made in many months was sent out last week, and consisted of six carloads. This ore was taken out in the course of recent development. It is now thought possible to start the mill on the 25th inst.

Another strike has been made in No. 4 tunnel of the Payne.

At the Tamarac, in Ymir, drifting is being continued on the 200-foot level.

The Whitewater is now working 130 men, with a contemplated increase in the force.

The assays from samples taken from the new ledge of the Great Western, at Ymir, returned $12.30 and $20.

Development work is to be resumed immediately on the Nevada mineral claim, near Ymir, which recently applied for a crown grant.

Fierce Battle With a Mob.

Chicago, April 24.—Late last night four robbers were arrested by three policemen While the policemen were taking their prisoners to a patrol box to call a wagon they were attacked by a number of friends of the prisoners, who were led by the wife of Elmer Anderson, one of the prisoners. A general fight ensued. The officers, by the vigorous use of clubs and revolvers managed to keep the mob at bay.

Suddenly Anderson broke away from his captor, Policeman Garretty, and ran. Garretty drew his revolver and fired and Anderson fell. At this juncture the gong of the approaching patrol wagon was heard and the mob scattered. Anderson was taken to the hospital, where his wound was pronounced fatal.

To Be General Smith.

Washington, April 25.—The president has appointed Colonel James F. Smith, of the First California regiment, a brigadier general of volunteers. His regiment is now in the Philippines. General Smith will be assigned to one of the brigades of General Otis' army.

TUMOR EXPELLED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound.

Mrs. Elizabeth Wheelock, Magnolia, Iowa, in the following letter describes her recovery from a very critical condition:

"Dear Mrs. Pinkham:—I have been taking your Vegetable Compound and am now ready to sound its praises It has done wonders for me in relieving me of a tumor.

"My health has been poor for three years Change of life was working upon me I was very much bloated and was a burden to myself. Was troubled with smothering spells, also palpitation of the heart and that bearing-down feeling, and could not be on my feet much

"I was growing worse all the time until I took your medicine.

"After taking three boxes of Lydia E Pinkham's Vegetable Compound Lozenges, the tumor passed from me

"My health has been better ever since, can now walk quite a distance and am troubled no more with palpitation of the heart or bloating I recommend your medicine to all sufferers from female troubles."

It is hardly reasonable to suppose that any one can doubt the efficiency of Mrs Pinkham's methods and medicine in the face of the tremendous volume of testimony.

MONTANA.

James Johnson, of Miles City, has purchased the ranch of H. W. McLaughlin, on Powder river.

Robert Nelson, of Miles City, has been sentenced to eight years in the penitentiary.

About 300 Italian laborers have arrived from the east to work on the Montana Central, in repairs and construction.

When the Anaconda volunteers at Manila come marching home they can have anything they want, says the *Standard*.

A party of 15 timber inspectors in the service of the Northern Pacific has arrived in Missoula and will spend the summer in the region west of there.

The colored citizens of Helena last week tendered a public reception to the colored soldiers of Company D. of the Twenty-fourth infantry, who recently arrived at fort Harrison.

The Western Ranches, Ltd., have purchased 4,000 head of cattle from Scott & Robertson, whose range is near Colorado City, Texas, and will bring them to Custer county the coming season.

Articles of incorporation of Flint Creek Lodge, No. 11, A. F. & A. M., have been filed with the secretary of state. The incorporators are James Hanson, Valentine Jacky, W. L. Power, E. R. Thompson and Lawrence Hauck.

A large force of laborers have been engaged in the Kootenai canyon, above Jennings, clearing obstacles for river traffic. The work is under the supervision of the government, and several thousand dollars are to be spent in the improvement.

The enumeration of the people of Lewiston has been completed by D. J. Kane, and the total is 982, within the limits which it is proposed to incorporate. With the people living immediately adjacent to the town the population is placed at 1100.

The articles of incorporation of the Matheson Ditch Company have been signed and are now ready for filing with the secretary of state. John Matheson, Charles Archers and Thomas Dowen are the directors chosen for the first six months, and the capital stock is $5,000, divided into shares of the value of $25 each. None of the stock is for sale.

John S. Baker, of Butte, has been adjudged a bankrupt. His petition stated that his debts amounted to $1724.64, owed chiefly in Pocatello, Idaho, while his assets amount to about $400, all personal property, covered by the exemption clause in the law. C. M. Williams, an electrician of Helena, who formerly resided in Butte, has also been adjudged a bankrupt. His liabilities are about $500 and assets unknown.

HEAD ACHE

"Both my wife and myself have been using CASCARETS and they are the best medicine we have ever had in the house. Last week my wife was frantic with headache for two days, she tried some of your CASCARETS, and they relieved the pain in her head almost immediately. We both recommend Cascarets."

BRITISH COLUMBIA.

A special from Kamloops says that Casimir, the Indian who murdered Philip Walker a short time ago, has been captured.

The Chinese of Vancouver are sending circulars to their friends in China endeavoring to stop the influx of the Celestials into Canada.

Two men were badly injured in Pat Welsh's camp on the Canadian Pacific railroad construction work by a premature explosion last week.

The Alaskan Steamship Association which met last week, decided to make a change in the rates. On May 1st, second-class passenger rates from Puget sound and British Columbia ports to Skagway will be advanced $2.50 The rate on cattle will also be advanced $2.50 per head.

About a week ago an Indian named Jim Lake, took out of Bridge river, British Columbia, a nugget weighing five and five-sixteenths ounces, valued at over $80. The place where it was discovered is just below the Horseshoe bend, on lower Bridge river.

The bank of Montreal at Nelson has shipped out by Dominion express a gold brick valued at $8,200 from the Athabasca mill. It was consigned to the United States assay office at Helena. The value of the February run of this mill was entered as $6,900.

Nelson's personal property and income assessment for 1899 is $2,000 more than that of Rossland, Kaslo and Sandon combined. The figures are: Rossland, $2,813.50; Kaslo, $1,203.56; Sandon, $817.38; Nelson $6,823.62. These figures are compiled from the official figures of Mr. John Keen, provincial assessor.

Still Thirst for Revenge.

Palmetto, Ga., April 24.—The body of Lige Strickland, the negro implicated by Sam Hose in the killing of Alfred Cranford, was found swinging to the limb of a tree about a mile from town this morning. The ears and fingers were cut off and on the body was pinned a placard bearing these words:

"We must protect our southern women."

Strickland was a negro minister 60 years of age. Sam Hose, just as the torch was about to be applied to the pile of wood under him yesterday, admitted that he killed Cranford, but said Strickland had given him $12 to do the deed. The confession of Hose caused great excitement here and a crowd left for the plantation of Major Thomas, for whom Strickland worked, and at dusk took the negro from the place and brought him into town.

Major Thomas made a speech to the mob while they were on his farm, urging them not to take the negro and saying he believed the fellow was innocent. An impromptu trial was held in the public square. Everybody who knew Strickland was called upon to give testimony as to his character. Several negroes employed by Major Thomas said the negro was a law abiding citizen and was not implicated in the Cranford affair. Other people living near the Thomas place gave Strickland a bad name.

You must walk alone and you must think pleasant thoughts.

"Durability is Better Than Show."

The wealth of the multi-millionaires is not equal to good health. Riches without health are a curse, and yet the rich, the middle classes and the poor alike have, in Hood's Sarsaparilla, a valuable assistant in getting and maintaining perfect health. It never disappoints.

Scrofula—"Three years ago our son, now eleven, had a serious case of scrofula and erysipelas with dreadful sores, discharging and itching constantly. He could not walk. Several physicians did not help for sixteen months. Three months' treatment with Hood's Sarsaparilla made him perfectly well. We are glad to tell others of it."—MRS. DAVID LAIRD, Ottawa, Kas.

Nausea—"Vomiting spells, dizziness and prostration troubled me for years. Had neuralgia, grew weak and could not sleep. My age was against me, but Hood's Sarsaparilla cured me thoroughly. My weight increased from 125 to 143 pounds. I am the mother of nine children. Never felt so well and strong since I was married as I do now."—Mrs. M. O. Waters, 3320 P. street, Washington, D. C.

Eczema—"We had to tie the the hands of our two-year-old son on account of eczema on face and limbs. No medicine even helped until we used Hood's Sarsaparilla, which soon cured."—Mrs. A. VAN WYCK, 123 Montgomery St., Paterson, N. J.

Hood's Sarsaparilla
Never Disappoints

Hood's Pills cure liver ills, the non-irritating and only cathartic to take with Hood's Sarsaparilla.

Tomasso Salvini, the Italian tragedian, acted the other night in Florence in aid of a charity. The veteran actor was called before the curtain five or six times at the termination of each act, and was enthusiastically applauded.

Of the whole population of the globe about 90,000 die every day.

Date of Volunteers' Return.

Washington, April 21.—Secretary Alger has received a reply from General Otis to his inquiry as to whether the reinforcements proposed to be sent to him to relieve the volunteers would be sufficient for the purposes of the campaign. Otis replied in the affirmative the estimate of 30,000 men to constitute the army agreeing with own calculations.

The program for the movement of the regulars out to Manila and the volunteers homeward therefore will be carried out according to General Otis' statement contained in his dispatch of yesterday.

General Otis adds to his message the hopeful remark that he expects very shortly to be able to report a decided improvement in the situation in the Phi ippines.

The volunteers will return home in the order in which they sailed for Manila. The date upon which troops sail follows:

May 25—First California, Second Oregon and a detachment of California artillery.

June 25—A and B Utah artillery, Tenth Pennsylvania, First Colorado and First Nebraska.

June 29—First North Dakota, Thirteenth Minnesota, First Idaho and First Wyoming.

July 19—First Montana.
July 23—First South Dakota.
October 19—First Washington.
October 27—Twentieth Kansas.
October 30—First Tennessee.
November 3—Fifty-first Iowa.
November 6—Nevada cavalry.
November 9—First Wyoming battery.

Murdered by Relatives.

Pana, Ill., April 21.—The mutilated body of Miss Jane Brunot, a we lthy woman of Dana, Ind., was found buried in an abandoned well on the farm of her sister-in-law today.

AN INTERNATIONAL TRUST.

GREAT MONOPOLY ON COPPER.

It Has Complete Control of Four Hundred Millions—Scheme Completed by Rothchilds and Sta dard Oil Com'y—Will Dictate Prices—Other Trusts.

Chicago, April 24.—Definite information reached Chicago that the contracts had been signed in London on Friday which formally transferred to a single organization practically all of the large producing copper mines in the United States. The details were meager, and came through the brokers who had handled minor parts of the deal in this city. It is understood that the mines under contract produced about 425,000,000 pounds fine of the total output of 583,000,000 pounds fine that were mined in this country last year. These mines, it is claimed, will produce fully 475,000,000 pounds fine of the output of 600,000,000 pounds fine estimated for 1899.

According to estimates made directly after the negotiation for the big producers became public property the actual value of the mining properties taken over will exceed $400,000,000. The particulars, however, will probably be made public during the coming week, and the formal life of the company will date from May 1.

International Trust.

In effect, the organization is an international trust in copper. The organization will protect the price both in Europe and America, and give to the company power to distribute the output intelligently and economically to the markets where it is most in demand. It was the latter consideration which brought into the combination some of the interests that were previously antagonistic. The Rothschilds furnished the funds and made the stipulations for the European interests involved, while the Standard Oil Company was credited with acting in the same capacity for the American side. The Rothschild interest had its main leverage in its holdings on the Isle Royal, in Lake Superior, known as the Wendigo Copper Company, the stock of which concern is not listed on any American exchange, and the Island Royal Land Company, limited. Among the other properties named n yesterday's private cables were the Clark-Bigelow and the Marcus Daly interests in Montana, the Arcadian and Centennial in the Lake Superior region, and the Old Dominion, in Arizona, but it is known that several other properties not named are included.

Safe and Lock Combination.

Cleveland, Ohio, April 24.—The safe and lock manufacturers of the United States are about to form a combination, and it is said the arrangements will be completed within 30 days. There will be 13 companies in the organization. The capital stock will be $17,500,000, of which $2,500,000 will be common stock.

Steel and Chain Combination.

Dover, Del., April 24.—A certificate of incorporation of the Union Steel Chain Co., with a capital stock of $60,000,000, the largest incorporation thnt has yet come into existence under the new state laws, was filed tonight with Secretary of State Hughes.

Wireless Telegraphy.

Chicago, April 23.—Professor Jerome J. Greene, the new disciple of Marconi, sat with his receiving nstrument placed on the eighth floor of the Marquette building and received telegraphic signals sent by way of the air line from the Tribune building two blocks away. It meant success for his wireless telegraphy experiment for that dstance, and was a triumph for the young scientist over condtions which were exceedingly unfavorable.

The first test of the day, when an attempt was made to communicate from the Dearborn station, at Polk street, to the Tribune buildng had proved a failure. Subsequent investigation disclosed the fact that local disturbances at the sending station probably were responsible.

In the second experiment signals were transmitted clearly and accurately from one room to another through walls and three thick doors. The second test sent the dots and dashes to the sounder across Dearborn street without a break.

New Trust in Beet Sugar.

Ventura, Cal., April 21.—The Oxnard beet sugar factory and 3000 acres of land in this county have been transferred by the Pacific Beet Sugar Company to the American Beet Sugar Company. The deed bears revenue stamps indicating a consideration of $1,500,000.

The step is one of the most important in the consolidation of the four Oxnard companies. The American Beet Sugar Company, recently organized in New York with a capital stock of $20,000,000, now owns the factories at Norfolk and Grand Island, Neb., besides the 750 ton factory at Chino and the 2000-ton factory at Oxnard, just conveyed.

Plenty of Money.

New York, April 23.—The Financier says:

The New York banks added $3,864,400 to their cash holdings last week, making a gain of about $6,500,000 since April 8. Within the same period reserve requirements, owing to the shrinkage of $5,656,700 in deposits, decreased about $2,650,000, so that the excess reserve has expanded $15,000,000 in the comparatively short space mentioned.

Student Riots in Russia.

St. Petersburg, April 20.—Serious student riots have occurred at the University of Kief, the rioters smashing the windows with stones. Troops dispersed the mob and arrested 400.

Taliafero Is Senator.

Tallahassee, Fla., April 20.—Taliafero was elected United States senator on the first ballot of the joint assembly yesterday.

Quay Is Acquitted.

Philadelphia, April 21.—Matthew S. Quay was today declared by the jury to be not guilty of the charge of conspiracy to use for his own unlawful gain and profit the funds of the state deposited in the People's bank of this city.

The court officers were unable to keep back the struggling chowd that pressed forward to congratulate Quay when the verdict of the jury was announced. As soon as Quay could get away from those anxious to shake his hand and congratulate him, he made his way to the elevator to descend to the street from the sixth floor of the municipal building.

Here the scenes in the court room were repeated. As the senator emerged from the door of the building the enthusiasm was intense. A group of enthusiasts rushed forward and attempted to hoist him on their shoulders, but the senator waved them back, saying:

"Oh, no; oh, no; I'm too old a man for that."

Quay walked with his friends down Broad street to the office of his counsel, where he made his escape from the surging crowd.

Appointed to the Senate.

Harrisburg, April 21.—Shortly after noon Governor Stone appointed Matthew Stanley Quay as senator to serve until the next session of the legislature.

The appointment is addressed to the president of the United States, and it is stated in a letter to be made under the authority of clause 2 of section 3 of article 1 of the constitution of the United States.

German Captain Under Arrest.

Victoria, B. C., April 21.—The steamer Aorangie, from Australia, brings news of the arrest of the commander of the German warship Falke at Apia for supplying arms to Mataafa. The arrest was made by the British commander.

Britishers Won at Chess.

New York, April 22.—The first international chess match between American and British students, which was begun yesterday morning, ended tonight in a victory for the Oxford and Cambridge combination by 3 1-2 to 2 1-2 games.

Peter A. B. Widener, the Philadelphia traction magnate, has an art gallery valued at $2,500,000 and believed to be fully worth that amount.

The Natural Cure for Indigestion.

Do you have pain in the stomach after eating? Do you have a yellow tongue? Wind on the stomach? Constipation? These things arise from Indigestion and Dyspepsia.

Digestion depends on digestive fluids or "ferments" secreted by certain glands. When the secretion becomes insufficient, Indigestion results. Dr. Williams' Pink Pills for Pale People cause these glands to resume their normal action and good digestion follows.

Artificial ferments (of which most so-called Dyspepsia cures are composed) may give temporary relief, but Dr. Williams' Pink Pills for Pale People afford a permanent cure.

Poor digestion often causes irregularity of the heart's action. This irregularity may be mistaken for real, organic heart disease. A case in point: Mrs. Ellen Colsom, Newpoint, Ind., had suffered for four years with stomach trouble. The gases generated by the indigestion pressed on the heart, and caused an irregularity of its action. She had much pain in her stomach and heart, and was subject to frequent and severe choking spells which were most severe at night. Doctors were tried in vain; the patient became worse, despondent, and feared impending death.

She noticed that in intervals in which her stomach did not annoy her, her heart's action became normal. Reasoning correctly that her digestion was alone at fault she procured the proper medicine to treat that trouble and with immediate good results. Her appetite came back, the choking spells became less frequent and finally ceased. Her weight, which had been greatly reduced, was restored and she now weighs more than for years.

That others may know the means of cure we give the name of the medicine used—Dr. Williams' Pink Pills for Pale People. These pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves.

AN EXCELLENT COMBINATION

THE pleasant method and beneficial effects of the well-known remedy, SYRUP OF FIGS, manufactured by the California Fig Syrup Company, illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative,

CLEANSING THE SYSTEM EFFECTUALLY, DISPELLING COLDS AND HEADACHES, PREVENTING FEVERS, OVERCOMING HABITUAL CONSTIPATION PERMANENTLY.

Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, gently yet promptly, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but

THE MEDICINAL QUALITIES ARE OBTAINED FROM SENNA AND OTHER AROMATIC PLANTS,

by a method known to the California Fig Syrup Company only. In order to get its beneficial effects, and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Consumers of the choicest products of modern commerce purchase at about the same price that others pay for cheap and worthless imitations. To come into universal demand and to be everywhere considered the best of its class, an article must be capable of satisfying the wants and tastes of the best informed purchasers. The California Fig Syrup Company having met with the highest success in the manufacture and sale of its excellent liquid laxative remedy, SYRUP OF FIGS, it has become important to all to have a knowledge of the Company and its product. The California Fig Syrup Company was organized more than fifteen years ago, for the special purpose of manufacturing and selling a laxative remedy which would be more pleasant to the taste and more beneficial in effect than any other known. The great value of the remedy, as a medicinal agent and of the Company's efforts, is attested by the sale of millions of bottles annually, and by the high approval of most eminent physicians. As the true and genuine remedy named SYRUP OF FIGS is manufactured by the California Fig Syrup Company only, the knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties.

5 DROPS [TRADE MARK.]

Cured of Rheumatism.

CANNOT FIND WORDS ENOUGH TO PRAISE YOUR WONDERFUL REMEDY "5 DROPS."

Swanson Rheumatic Cure Co., Chicago, Gentlemen:—I thought that I would write you a statement and tell you how I have got along since I have used your "5 DROPS." I must say that I am entirely well once more, thanks to your wonderful remedy. It has accomplished more good from the sample bottle and the dollar bottle than the thirty dollars' worth of medicine I have used of other manufacturers. I tried all kinds of medicine I saw advertised for Rheumatism but could not get any relief from the dreadful suffering till I got a sample bottle of your "5 DROPS," and after taking the same for a few days I began to have less of those severe pains racking through my body. After I got the sample bottle most used up I could begin to rest some every night; after I had used about half the dollar bottle then all my pains left me. Oh! what a comfort it was! when I could sleep again at night without any more suffering. I am so thankful to you and your "5 DROPS" that I cannot find words enough in praise of your wonderful remedy for the cure of Rheumatism, and I can safely recommend it to all suffering humanity and say that they cannot purchase any better medicine than "5 DROPS" for all their ills. Thanking you, gentlemen, for all your kindness, I remain, forever, your friend, R. M. LIFE, Porterfield, Wis., Feb. 10, 1898.

Suffered the Tortures of the Damned.

President Swanson Rheumatic Cure Co., Chicago. My Dear Sir:—After suffering the tortures of the damned for a long time from an attack of Rheumatism, I wish to say that your Rheumatic Cure "5 DROPS" has cured me of all my troubles, which were all caused by one complaint—Rheumatism. I had Heart Trouble, Piles, Bladder Trouble and Constipation. I would not take $500 and do without the remedies even if it only cured the Catarrh for me, which it has done. Therefore, I willingly take the agency for the sale of your medicines, for they are a boon to mankind. Gratefully yours, J. W. DENNIS, 120 Normal Ave., Buffalo, N. Y., Feb. 8, 1898.

"5 DROPS" cures Rheumatism, Sciatica, Neuralgia, Dyspepsia, Backache, Asthma, Hay Fever, Catarrh, Sleeplessness, Nervousness, Nervous and Neuralgic Headaches, Earache, Toothache, Heart Weakness, Croup, Swelling, La Grippe, Malaria, Creeping Numbness.

FOR THIRTY DAYS LONGER to enable sufferers to give "5 DROPS" at least a trial, we will send a sample bottle, prepaid by mail, for 25 cents. A sample bottle will convince you. Also, large bottles (300 doses) $1.00, 3 bottles for $2.50. Not sold by druggists, only by us and our agents. Agents wanted in new territory. Write us today.

SWANSON RHEUMATIC CURE CO., 167-169 Dearborn St., CHICAGO, ILL.

EDITORIAL OUTCROPPINGS.

It has been kindly suggested by some of our neighbors that Silverton should "fall in line" and celebrate on the 25th. of May, instead of on the 24th as is intended. With all due respect to the originator of this charming idea and with thanks for those that would impress upon us the desirability of the scheme, we shall do no such thing. Assured, as we are, of much the largest gathering of holiday seekers ever before congregated in the Slocan, with our plan definitely decided and with entries for the various athletic sports already booked, we would not be acting fairly with either the public or ourselves in postponing our celebration.

Silverton invites the public to attend her celebration, believing that the best attractions will be found here. We are acting in a thoroughly straightforward way and not asking favors on the strength on what we claim to have done in former years. Our invitation goes out unaccompanied by a whimper.

Corbin's application has been shelved for the time being at least. This is entirely owing to the forced non-attendance at Ottawa of the applicant.

It is perhaps as well that matters have taken this course, as it is by no means certain that the application would have been satisfactorily received by the House of Commons, although it would have had a much better reception than the one of last session. Public opinion on this important question is gradually changing in favor of the granting of the charter and when it is asked for next session, as it undoubtedly will be, it will be much easier to have it pass than it would be at the present. It requires one or two years for Canada to accustom itself to any innovation and the building of an unsubsidized railroad is startling in its novelty. In the meantime the Boundary country must do without railroad competition.

A notice in the last issue of the B. C. Gazette directs Mining Recorders not to exercise the powers of Gold Commissioners, as under the amendments of the Mineral and Placer Acts they were given the power to do. This notice comes from the Minister of Mines and is apparently a hopeful attempt to adjust a grevious blunder of the Legislature. Just what effect this will have in the Slocan is hard to say. Here we have a Gold Commissioner with no salary, who it is presumed will be forced to resign at the end of the fiscal year or work for the pure love of serving the people. No one appears to know just what his position will be. This last action of the Minister of Mines still further complicates it.

The Bill introduced in the House of Commons by McInnes, of Vancouver, and entitled "An Act to impose certain restrictions on Immigration" should by all means be passed at the present session of Parliament. There is need to safe guard Canadian citizenship and keep it on the high plane it has always held. Without some such restrictions, as proposed by this bill, Canada in a short time will become the dumping ground for the dregs of European emigration, having already become the Mecca for a class of religious fanatics that would be received by no other country. In our haste to fill up our boundless praries with homesteaders, let us at least discriminate between the free-born Briton, the hardy Norse and the pauper emigration of southern and eastern Europe. It were better that our praries remain wild and tenantless, a grand heritage for Canadians yet unborn, than that the standard of Canadians be lowered, by filling them with a race that is alien in manner, speech, thought, and indeed everything except the bond of humanity.

Printer Evans, late of the Ledge staff, will in future wield the scissors in the editorial rooms of the Kaslo Kootenaian. Mr. Evans has had considerable experience in this line and is a good man for the job. We wish him luck.

MINING RECORDS.

Following is a complete list of the mining transactions recorded during the week for the Slocan Mining Division:

NEW DENVER—LOCATIONS

April 13—Little Ruth, Goat Mt. Wm. Barker. Blue Bird, same. Eliszer Barker Molly Bawn and Pride of the West, Three Forks, R C Cameron, Malolos, Carpenter, D. Cameron.

METALLURGY AND ASSAYING.

W. Pellew-Harvey, F. C. S., Member inst. Mining and Metallurgy, London, and for many years with Vivian & Sons, Swansea, and at present their representative in this country, has extensive Metallurgical Works at Vancouver, and is making a specialty of advising on the cyanide treatment of ores, and making tests by amalgamation, chlorination and concentration. Another feature of the business is checking smelter pulps, assaying in all its branches, with chemical analyses.

Having had ten years' experience with the ores of B. C., in addition to a long practical training in Europe, the results reported by the above can be entirely relied upon. There are no pupils kept in the business, the assistants being;

METALLURGISTS AND ASSAYERS. Cecil Bryant, Associate Royal School of Mines, London. A. F. McEwen, Fellow Chemical Society, and late Chief Chemist and Metallurgist with the Cassiar Central Railway Company.

ANALYTICAL CHEMIST. A. A. Watson, Fellow Inst. of Chemistry, London, and Bachelor of Science, with honors in Chemistry, who has had a long and varied experience in Chili and Queensland.

W. Pellew-Harvey represents the following firms in Canada, viz:- Messrs. Vivian & Sons, Swansea; The Elliott's Metal Co., Burry Port; The Cassel Gold Extracting Co, Glascow; Messrs. James Bros. M. E. London; and is also special Government examiner for the Provincial Assayers' examination.

Further particulars on application at the office, Fairfield Block, Vancouver, B. C.

CHURCH SERVICES.

James Russell Lowell used to tell the story that one of the gentlemen he met in Chicago had a great deal to say of his travels in Europe. Lowell remarked that Georges Sand was one of his favorite authors. This reference to the great Frenchwoman called forth a characteristic rejoinder. "Oh, yes!" exclaimed the representative of Chicago culture, I have had many a happy hour with Sand." "You knew Georges Sand, then?" asked Lowell, with an expression of surprise. "Knew him? Well I should say I did," cried the Chicago man and then he added as a clincher; "I roomed with him in Paris."
