A. P. McDONALD, SILVERTON, - - B. C.

A Matter Of Opinion.

Every Man has his own idea of what he wants in the color, quality and cut of the clothes he wears. But All agree in some things.

THE FIT MUST BE PERFECT.
THE WORKMANSHIP MUST BE THE BEST.

When in want of a Suit of Clothes give your order where it will be filled to your satisfaction, Remember that

F. F. LIEBSCHER,
Silverton's Tailor,

Carries a Line of Goods from which anyone can select a piece to suit.

A large and increasing number of Customers in the Slocan testify to the Excellence of his work.

Summer Suits a Specialty.

MINING LOCALS.

The Arlington is the only shipper on the Lake this week, sending out 40 tons.

A man with an electrical ore finder has been operating on the prospects near New Denver.

On Monday Mine Inspector McGregor arrived in town to take a look over the Silverton district in his official capacity.

The current number of the B. C. Mining Record contain a well written article descriptive of the Hewitt mine of this camp.

Surpentendent Rammelmeyer of the Emily Edith mine is back in town and pushing development work upon that property.

A new track has been laid in the lower tunnel on the L. H. claim. This tunnel is now in 180 feet and it is the intention of the owners to drive it further ahead this season.

The owners of the Ruby Group, lying near the Bosun mine, are preparing a shipment of their ore. The Ruby vein produces a high grade dry silver ore and there has been considerable work done upon this property.

There is a legend in New Denver to the effect that a crew of men had once gone to work at the California mine, but as none ever returned or have been seen in town for eighteen months, the impression is wearing off.

The leasees of the Fourth of July group, near Slocan City, have exposed the vein for three hundred feet and expect to make a stake out of the property. The paystreak is over a foot wide and averages in all values, gold and silver, over $100. a ton.

J. M. M. Benedum, who is opening the Hoodoo claim, in the Slocan City camp, has secured a lease on the Free Gold claim, adjoining that property and will open up the Hoodoo through this claim. A good showing of ore is exposed on the Free Gold at the point where work will be commenced.

STRIKE ON EIGHT MILE.

A strike of rich ore has lately been made on the Alert claim at the head of Eight Mile creek in the Silver Band Basin. This property is owned by B. Kneebone, C. McNichol and G. Thorburn and is a dry gold-silver proposition that gives assay values ranging from $135 to $1400. The vein is from one to three feet wide and lies in a granite formation with a strike north and south and dips west into the mountain. Three short tunnels have been driven on the vein and a force of men are now engaged in developing the late strike. This is another property that the Red Mountain wagon road, if ever built, would furnish the means of transportation for.

MIDSUMMER HOLIDAY SALE.

SATURDAY and MONDAY JULY 13th & 15th.

HOLIDAY GOODS FOR THE CHILDREN AT SLAUGHTERED PRICES. DRESSED DOLLS AT 5, 10 & 15 Cents for example.

A LARGE ASSORTMENT OF TOYS, GAMES, BOOKS &c AT ONE-THIRD REGULAR PRICE.

SNAPS

IN TRAVELLING CASES—CELLULOID AND LEATHER—MANICURE AND TOILET CASES. ONLY A FEW OF THESE AND THEY WILL NOT LAST LONG AT THE PRICES MARKED. A $14 00 CASE FOR $6 75 SEEMS TOO GOOD TO BE TRUE, AND THERE ARE OTHERS.

HARD TIME PRICES GO.

NELSON'S Drug and Book Store.
New Denver.

BEGINS SHIPPING NEXT WEEK.

It is expected that the Hewitt tramway will be completed to-day and ore shipments commenced from that mine on Monday. W. McIntosh, who has the contract for the hauling of the ore from the foot of the tramway to the dock, has added another four-horse team to his outfit and will be able to bring down a carload every two days. At the mine there is now some 400 tons of ore sacked and a large amount of ore broken in the mine ready for sacking, besides a large amount of ore blocked out, so that the tramway and freighters will be kept more than busy to handle it. There is now enough ore in sight in this mine that the management will be able to send out not less than three carloads a week all summer and then have 2000 tons blocked out to be sent down next winter and this visible supply of ore is being added to daily.

SLOCAN LAKE ORE SHIPMENTS.

Shipments of ore from Slocan Lake for the year 1899. totaled.. .....3078 Tons.

Shipments in 1900 totaled 4930 Tons.

The shipment of ore from Slocan Lake points, up to and including the present week, from Jan. 1, 1901.

THE METAL MARKET.

The English price for lead is £12 11s 3d Silver, 27d. Copper, £67⅝.

New York, July 11—Bar Silver, 58⅝ Lake copper, $17.00.

Lead—The firm that fixes the selling price for miners and smelters quotes lead at $4.37½ at the close.

GOT GOOD COAL LAND.

Last Saturday Geo. A. Jackson, one of our old timers, returned from the coal fields of Alberta where, in association with A. A. Webb and F. L. Byron, he has acquired valuable coal lands. Mr. Jackson has satisfied himself that the coking coal of that section has not its superior on this continent and as the fields are practically inexhaustable the day is not far distant when that section will rival Pennsylvania as a coke and coal producer. Railroads are being built into that section and companies are erecting coke ovens and opening up the mines in anticipation of the big demand that will be made for their product.

FROM THE KLONDIKE.

William Bowes, brother of James Bowes of this place, who left Rossland four years ago for the Klondike arrived in town on Monday. Mr. Bowes went into the Klondike in the spring of the big rush and saw Dawson spring into a city and saw and shared in the ups and downs of the palmy days of the rush. In speaking of the early government officials sent into that country he says they were fully as corrupt and rotten as reported resorting to any old scheme to beat the the prospector ont of his hard earned claim. With a few others in 1899 he went prospecting and trapping up the South Fork of the Stewart River, about 300 miles east of Dawson. Although his party stayed up in that country two years, working hard and without any communication with the civilized world, they failed to strike any new diggings and this summer they came down to Dawson and out to Victoria. Mr. Bowes speaks of that country as still being in its infancy and predicts great things for it. It is a land of untold hardships however and he is satisfied to get back to civilization.

"Has Closefist ever contributed to a campaign fund?"

"He once gave three cheers for a candidate."

"Mandy" said Farmer Corntossed, "I guess it would be just as well not to say so much about 'home cookin' when you're talkin' up our summer board."

"Why not?"

"'Cause some of these fellers act to me like that was what they was tryin' to get away from."

THE LOCAL LAYOUT.

A. P. McDonald is visiting in Vancouver.

Bert Wilhelm has gone to Dawson to try his luck.

Trout fishers are having splendid luck on Four Mile.

Angus McLean, our professional josher, is back in town.

Hill Bros. delivered another barge load of lumber yesterday.

Yesterday was Orangemen's day and not a yellow ribbon was in sight.

The Nakusp Hotel, in Nakusp, was burned down on Tuesday night.

Miss Marie Cross has returned from college and is home for the holidays.

NURSE:-Open for engagaments, charge moderate. Address Mrs. J. F. Delaney, New Denver. ‡

The Slocan City Council has ordered 200 tags to adorn the dog of the 86 voters in the city limits.

John Tinling has a contract for driving 200 feet of tunnel on the Canadian group, and has begun the work.

James Bowes, who has been superintending his Nelson branch during the celebration, returned to town on Monday.

James Bacon, who for some time has been working at the Lorne mine in the Lillooet district, returned to town this week.

The Government is unloading some New Denver real estate at an upset price of $100. a lot. It has nerve enough for anything.

The lumber for the big hotel at the St Leon Springs has been delivered and a number of Slocan carpenters have left to begin the work.

E. Criddle made an inspection this this week of the damage done to the Wakefield flume by snowslides and washouts this spring.

To be an honest agriculturalist is now the ambition of J. H. Elliot. He has taken up a ranch in East Kootenay and is figuring on an easy way to pull out stumps.

Thanks to an appreciative public, R. G. Daigle announces that he has been enabled to increase his stock of fresh fruits and groceries. His prices are reasonable, his stock fresh. †

Cayuse Brown, well known throughout the Slocan, was found dead in a cabin in Slocan City last Saturday. A coroner's inquest determined that death was due to convulsions brought on through alcoholism.

DONNING SWADDLING CLOTHES.

Slocan City Councillers have been working steadily since their election and the municipal machinery is now running smoothly. Mayor York made a trip around the district this week securing pointers from the various Mayors and ex-Mayors of our cities. The municipal officers are: City Clerk, J. A. Foley, who is also assessor, collector and police magistrate; Chief of Police, J. W. Clark; Treasurer, A. R. Bolderston.

WOULD BE AN EXPENSIVE CUP.

When the Silverton football team went down to Slocan during the celebration it was promised them that the winners of the game that day would be absolute owners of the trophy cup contested for. The game proved a draw which the boys here were prepared to play off this week but notice has been served upon them that Sandon is also to be competed with. Coupled with this came the notice that the same team individually had to be played, and as the Silverton team was forced to play several substitutes that day, this contention is manifestly absurd. Under these circumstances the Silverton secretary has notified Slocan that they do not care to play any further for the trophy. Silverton has beaten Slocan so often that this action will not be misunderstood.

One of our prominent citizens, who occupies a bachelor's cabin near the lake shore, had a trying experience one morning this week. He had just made his mind to arise and had his foot raised preparatory to kicking the dog off the bottom of the blankets when to his horror a pretty, little, striped animal tripped into the room through the cat-hole in the door. Strange to say, the occupant of the bunk did not resent this intrusion with force. Nor did he allow the dog to protect the scarcity of the home. His first move was to clasp the dog to his nightshirt and then to argue with his visitor. But his skunkship didn't understand Scotch and for two hours our fellow citizen struggled with his dog and fought the pangs of an empty stomach. His pipe and tobacco were across the room on the table and so was the skunk, sampling the different corners of a loaf of bread. When the caller at last took a lingering farewell, the host after getting the cramp from his arms, feverishly tore a cover off a box and nailed it over the cat-hole.

SUMMARY OF WORLD'S NEWS

NEWS OF THE WORLD IN BRIEF.

A Complete Review of the Events of the Past Week—In This and Foreign Lands—Taken From the Latest Dispatches.

At Aberdeen, S. D., Senator James Kyle died Monday afternoon at 5 o'clock.

Fire recently totally destroyed the Ashenfelter mill, corner First and Cedar street, Spokane. The loss is estimated at about $15,000. About $6000 insurance was carried.

Charlie Goff of Spokane, middleweight champion of the northwest, knocked out Bob Hodge, middleweight champion of Idaho, in the second round of a boxing contest at Grand Forks, B. C.

A statement prepared at the pension office shows that for the fiscal year ended June 30, 49,612 names were added to the pension rolls, of which 44,861 were original issues and 4751 were restorations.

Official announcement has been made of the completion of an immense lead combination having a capitalization of about $20,000,000, which will control the output of the lead fields in southwestern Missouri.

A special from Rock Springs, Wyo., says: The eastbound passenger train, No. 6, crashed into a freight train at Blairstown, a mile west of Rock Springs, Sunday afternoon. Twenty-eight persons were injured, none fatally.

Little Whirlwind, the life prisoner whose case was taken up by the Indian Rights association and his pardon urged, is a free man. The Montana state board of pardons has indorsed the action of Governor Toole in ordering him set at liberty.

Two dead, two severely if not fatally injured and a score more or less hurt is the result of a fire which broke out at the Pullman lodging house, 114 West Mercury street, in Butte. The dead: Sam Mix, waiter, Missoula, Mont.; Ole Berg, carpenter, Butte. Severely injured: Billy Ryan better known as "Australian Ryan," a pugilist.

Crowded together in a little zinc lined shanty, under a north shore pier, 10 boys and young men and one old man met instant death by lightning recently in Chicago. They had left their fish lines and sought shelter from the fierce thunder storm that deluged the north part of the city. Ten minutes later their bodies lay with twisted and tangled limbs, "like a nest of snakes," as the men who found them said. There were 12 who sought shelter, and just one escaped. Twelve year old Willie Anderson was uninjured, but he lay many long minutes before he could be drawn out from under the heap of dead bodies. The dead are all from the families of comparatively poor people. They were fishing and seeking relief from the heat of the day, or had come to wade or swim.

Constitution beat Columbia in the second trial race.

For a week the New York stock exchange will take a vacation.

Dan McLeod, the Scotch wrestler, won the match with Tom Sharkey, the sailor pugilist, at the Broadway arsenal in Buffalo.

Cornell won two out of three events in the intercollegiate regatta and lost but one. Pennsylvania carried off the honors in the freshmen race.

At 12:30 Thursday morning it was estimated that the total number of deaths from heat in the last six days in Greater New York was 600.

Shamrock II. was again defeated by her predecessor by a minute and a half.

Injunction is dissolved against Denver saloonkeepers and they may sell liquor to women in boxes now.

The freight handlers are on a strike at East St. Louis. Seventeen hundred men are out and not a wheel is moving in the city.

In Globe, Ariz., recently 14 buildings were destroyed by fire of an unknown origin and 10 families of miners are homeless. Loss, $80,000.

The Homestead hotel at Virginia Hot Springs, in Bath county, Virginia, was totally destroyed by fire recently. All the occupants escaped, but many of the guests lost their valuables. The origin of the fire is unknown.

In San Francisco an early morning fire in the Italian quarters destroyed three ramshackle lodging houses. A young lady is missing and an aged woman is dying from burns received while trying to escape from one of the destroyed buildings.

Sumner Surrat, a lineman in the employ of the Seattle Electric company, while working on a pole came in contact with a live wire and was killed before help could reach him. It is estimated that 2000 volts passed through his body.

E. Y. Judd, the wealthy milling man of Pendleton, Ore., accompanied by a few friends, has attempted the ascent of Mount Hood, 11,225 feet, as far up in the snow line as an automobile can be driven. Mountain climbing with an automobile is a novel idea, that has never been tried in this or any other country.

Sixteen harvest hands returning home from the wheat fields of western Kansas were robbed by a gang of men near Junction City recently while riding on a freight train. They were compelled at the point of revolvers to surrender their money. One refused and was shot in the leg. The robbers escaped after securing from $10 to $30 from each man.

No arrests have been made in connection with the shortage of $30,000 in the mint at San Francisco and speculation as to the real culprit is of a varied sort.

To the disappointment of all the Americans at Henley the Leander Rowing club defeated the crew of the University of Pennsylvania in the final heat of the grand challenge cup.

In a fair trial recently in a smart breeze Shamrock I. beat Shamrock II. by over 200 yards in a three mile turn to windward. This is the older yacht's most decisive victory over the cup challenger.

Comptroller of the Currency Dawes has tendered his resignation to the president, to take effect October 1. Mr. Dawes resigns his office in order to enter the senatorial contest this fall.

The Western Union Telegraph company is advised that the Argentine congress has declared Buenos Ayres in a state of seige for six months, and has established censorship on all messages thereto.

The disciples of John Alexander Dowie visited Evanston, a Chicago suburb, the other night and, despite the efforts of the police force of the place a mob of 1,000 people drove them out of the town.

Mayor Phelan of San Francisco is in receipt of a letter from Andrew Carnegie offering to give $750,000 for a library building, provided the city furnishes a suitable site and appropriates $75,000 a year for maintenance.

The Metropolitan Museum of Art in New York is made the residuary legatee of the late Jacob S. Rogers, the locomotive manufacturer, whose will has been filed for probate at Paterson. It will probably receive $8,000,000.

The Chicago Tribune prints reports from all over the country showing the number of persons killed and injured as a result of celebrating the Fourth of July. The number actually killed is less than last year, being 19, against 30 then, but the number injured is considerably larger, the figures being 1611, against 1325.

Albert C. Postwick of Boston, the automobilist, broke the world's record for one mile on a 40 horse power machine recently at Elkwood Park, Long Branch. The record was broken in the second mile of an exhibition spurt of three miles, which he covered in 3:53⅕. He had made the first mile in 1:18¾, the second in 1:16¾ and the third in 1:17

TRADE REPORT.

Bradstreet's report of trade for last week follows:

Hot weather, holidays and stock taking, the first named in particular, have limited trade in the period under review and caused a practical suspension in industrial activity in many cities. Against this seemingly unfavorable feature, however, is to be noted the fact that a good business has been done in all kinds of seasonable products at retail, and the check to trade at wholesale has been largely a postponement, rather than actual elimination of possible business. The crop situation has on the whole improved, and corn and cotton, the two leading crops most in question at present, have gained some of the ground lost early in the season by cold weather. The wheat crop is certainly in a favorable condition, because harvesting has gone forward rapidly, and prices on the whole have been quite satisfactory.

Corn shows the heaviest advance for many weeks or for years past on reports of dry, hot weather damage, aided, however, by speculative manipulation and a fairly good export business. Wheat is lower on liquidation, induced by good crop reports, and despite confirmation of the heavy deficit in the German crop, the poor French crop and of the short yield in other countries in Europe. Oats are higher, owing to the reports for domestic crop prospects.

Hog products were strong earlier, but broke and finished lower on the week on liquidation, caused by bear raids.

The feature in the retail trade last week has been the very large distribution in all classes of summer goods, induced by the hot spell. Wholesale distribution has been comparatively limited, but it is to be noted that western jobbers have experienced a good reasserting demand, based on hot weather conditions. The textile situation is fully as favorable as a week ago.

The boot and shoe trade is in good shape.

June failures were the smallest of any this year, but liabilities were swelled by a few heavy suspensions of banks, and were the heaviest for more than a year past. Considering the increased volume of business in the past two years the six months' record is a favorable one, as the total number of failures for the year was 4,465, with liabilities of $66,138,362 and assets of a little less than one-half this amount.

Wheat (including flour shipments for the week aggregated 3,787,639 bushels.

Wheat.

Tacoma.—Half cent lower; bluestem, 57c; club, 56c.

Portland.—Quiet; Walla Walla, 56½c.

Gomez Spoke.

New York, July 7.—W. E. D. Stokes gave a dinner at the Union League club to General Maximo Gomez and General Estrada Palma. Mr. Stokes was formerly a member of the Cuban League of America and was closely identified with the work of the junta, of which General Palma was the head. The Cuban general made a brief speech, which was interpreted by General Gonzales.

More Land for Settlement.

Washington, July 7.—The president's proclamation opening to settlement the newly ceded Indian lands in Oklahoma territory will be made public in the newspapers on Monday morning. There is a vast area of the lands and thousands of people have been waiting upon the borders for months in order to be among the first to enter.

Bandits Surrounded.

Anaconda, July 7.—A special the Standard from Glasgow, the county seat of the county in which the Great Northern train robbery occurred, says it is reported there that the bandits are surrounded in the Little Rockies, 115 miles from Malta, by Sheriff Griffith, with 10 men on the south and Deputy Sheriff Gane with 15 men on the north.

SUMMARY OF MINING NEWS

OUR NORTHWESTERN MINES.

Items Gleaned From Late Reports—All Districts Are Being Developed—A Prosperous Year Is Predicted—Mining Notes and Personals.

A. W. McCune of Salt Lake is to be at the head of a syndicate that is to open up and operate the largest copper mine in the world, a mine in which experts estimate that there is $72,000,000 worth of silver and copper now in sight. This is the great Callao mine in Peru, in South America, a mine in the Andes mountains 14,000 feet above the level of the sea and some miles north of the city of Lima.

Republic.

The ledge on the California mine has been encountered at a depth of about 350 feet.

The Chico shaft has been completed to the 400 foot level and workmen are cutting a station.

A contract has been let to carry the shaft on the California to the 400 foot level. On the west drift, on the 300 foot level, a fine body of high grade ore has been met.

Edwin P. Porter of the United States geological survey was in Republic recently gathering data and specimens from the principal mines.

The situation at the Princess Maud remains unchanged. Good progress is being made on the shaft, which is 72 feet below the 300 foot level. The ledge is four feet wide.

The recent tests made of the ore from the Tom Thumb and Ben Hur mines have made these properties of much more value. Over $5 to the ton can now be saved on the ore, and the shipments from both properties will now net the owners that additional amount.

BRITISH COLUMBIA.

All mines in Rossland camp have started work.

A crew of ore sorters went to work at the Homestake mine near Rossland and within a few days the mine will make a shipment to the Trail smelter.

At Rossland the Iron Mask has taken on a new lease of life, and is producing on a much larger scale than for some time.

According to Carl Davis, superintendent of the War Eagle-Center Star mines at Rossland, there has been a great gain both to the miners and to the mine companies through the adoption of the contract system for mining in that camp.

Manager Riehle of the Mt. Con. has arrived in Sandon from England and has let a contract to drive 90 feet on the lead. He will work three shifts in order to prove the property as soon as possible. The Canadian group has lain idle for nearly two years, but the manager, Mr. Bramdon, has let a contract for 100 feet to John Tingling, with possibly more to follow.

The Granby smelter at Grand Forks makes a treatment charge of from $4.50 to $5.50 per ton on copper ores. The charge varies in accordance with fluxing quality and other characteristics of the ore. The company pays 70 per cent of the wet assay value of the copper, at the New York price for electrolitic copper, less 5½ cents per pound. There is a toll of 5 per cent on gold, at $20 per bunce.

At a special meeting of the Imperial Syndicate Development company at Nelson an offer was accepted from the London & B. C. Goldfields company of $250,000 for property on Lexington mountain in the Lardeau district. It consists of the Eva and the Imperial group, 10 claims in all. The property carries free gold and was the first property in that district discovered giving indications of gold values.

Next to the Le Roi the St. Eugene mine in East Kootenay must rank as the largest producer in British Columbia. This is the property in which John A. Finch of Spokane and James Cronin are interested. Its total product during last year amounted to about 630,000 ounces of silver and 21,000,000 pounds of lead, of a total value of over $1, 000,000.

Donald McPhail has made a magnificent strike of six inches of black sulphides of iron at the Glance group on Bear lake. It is a group on which McPhail Bros. spent $1500. D. McPhail found the vein in two days. It assays 7860 ounces in silver, value $4716. Mr. McPhail is a well known expert and sold the celebrated Whitewater property to "Barbarian" Brown.

MINING NOTES.

The drilling match at Wallace, Idaho, July 4th, was won by Patterson and Cummings, with 30⅞ inches.

The great Kendall group, in Fergus county, Montana, controlled by Finch & Campbell, is to have one of the finest plants in the west.

In conservative Butte, the city that never had a boom and requires none, the normal condition prevails in the mining industry.

Nevada state is at the present time attracting much attention as a field for mining investments. It is equally a good field for the prosepctor.

The ore body has been reached in the lower tunnel of the Malachite, near Keller, Wash., and shows much better looking ore than in the winze.

An average of seven assays from the Buckhorn, on the Colville reservation south of Northport, Wash., gives values of over $37 in gold, silver and copper.

On the twenty-third day of the ensuing month the National Mining Congres will convene at Boise, Idaho, and continue in session during July 23, 24 and 25.

The oil boom is fast taking hold of the country around Spokane. Oil rigs are going up all the way from Whitman county clear to British Columbia. Work is being pushed as fast as the drills can be sunk. In a month or six weeks some of the wells should reach a depth where oil is expected.

The ship Dolphin arrived recently in Seattle from Skagway with 80 passengers and $800,000 in gold. Of the latter $500,000 was divided up between about 20 Klondikers.

The Bunker Hill & Sullivan company has declared a dividend of 7 cents a share for July. It will be payable tomorrow. This makes $1,200,000 in dividends which has been paid by the old Wardner mine.

The Great Standard mine at Mace, in the Coeur d'Alenes, has declared its regular monthly dividend of 5 cents a share, equal to $25,000. That brings the total dividends of the company up to the enormous total of $2,315,000. Despite a limited output, the Standard keeps on paying steady profits to its shareholders at its uniform rate.

In excavating for a flume on the Velvet mine on Sophie mountain near Northport, Wash., a ledge was uncovered which is four feet wide and assays $62 per ton. Two hundred men are employed on the Velvet.

Important development work has been begun by the Mammoth and Bald Mountain mining companies, in the Cracker Creek district, eastern Oregon. At the Mammoth mine, near the Bald Mountain, 25 men are at work, and the five-foot Bryan mill is running constantly. This property has 2500 feet of development work completed.

From diggings supposed to have been worked out long age; from near the old town of Auburn, 10 miles southwest of Baker City, Oregon, once the metropolis of eastern Oregon and 20 years ago the richest mining camp in the state, with a population of 5,000, comes the news of the uncovering of a streak of fabulously rich placer ground.

An important strike has been made in the Pierce district by Tom Wilkinson, M. A. Ellis and E. R. Mathews, at a point about two miles from the Crescent mine. The ledge is one foot wide, and a half sack of ore taken from the surface yielded nine ounces in gold. A number of Pierce City people have visited the strike, and report the ore the richest ever seen in Idaho.

Judge Hallett in the United States court at Denver has rendered judgment in the case of the Munn brothers against the Ibex Mining company. By it the plaintiffs may secure more than $1,000,000 from the owners of the mines at Leadville. The plaintiffs claimed a half interest in the Independence lode of the Archer consolidation. The court awards one-twelfth of the ores extracted and sold from the area in controversy.

The San Francisco police have arrested three men, whom they charge with being members of a combination that has been operating in eastern cities with worthless mining stock shares. This combination is said to have successfully operated in New York, Denver and Portland. The three men arrested gave the names of Charles Gordon, H. C. Crosby and S. A. Barton. The arrest was made on the complaint of Paul R. Lewis.

Sumpter (Ore.) Mines.

Superintendent Thatcher of the Bonanza came down with the June clean up, having four guards along. It was all two men could do to lift the precious stuff, as the value was about $70,000.

E. H. Godfry of the Red Boy came in with the June clean up, amounting to about $30,000.

The camp is fast filling up with prospectors and miners from surrounding sections, and many specimens from new finds are being exhibited. The discovery of tellurium ore in the Morman basin and the Greenhorn sections, and the fine specimens of copper form the Pueblo mountains are the principal finds.

J. H. Cradlebaugh, operating the Double Eagle in Quartz gulch, has a three foot ledge, 14 inches of which run several thousand dollars to the ton.

W. H. Bush, a mining man of Salt Lake, has returned from an inspection of the Morning Star mine in Morman basin. While there he discovered that the owners of the property were throwing tulleride ore over the dump, under the supposition it was black iron. Several assays have been made, averaging about $10,000 to the ton.

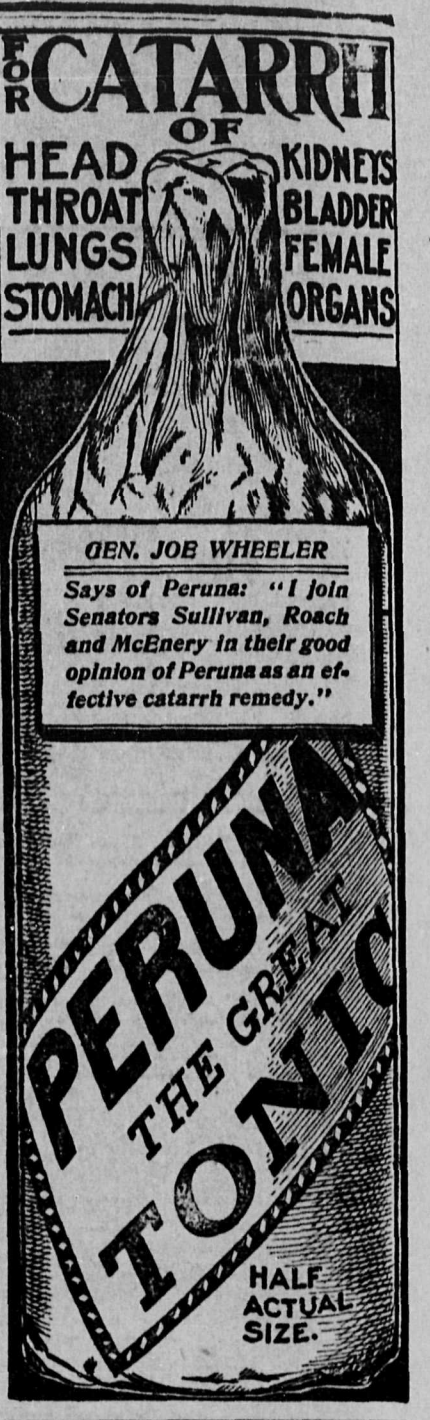
C. W. Canfield, who has been in the Pueblo mountain country for several months, brought in some very fine specimens of copper ore, carrying good values in gold. The district is a new one, near the Nevada state line, and nothing but prospecting work has been done.

Railroad Stands Loss.

Washington, July 8.—Treasury officials state that their information was to the effect that the men who robbed the Great Northern train at Wagner, Mont., last Wednesday secured $40,000 in incomplete national bank notes, which were shipped on June 28 to the National Bank of Montana at Helena. It appears that there were 800 sheets of these unsigned notes, of four notes to a sheet, three tens and one twenty.

The bank numbers ran serially from 1201 to 12,000, both inclusive, and the treasury numbers were Y-934,349 to Y-935,145. The bank numbers were printed in the lower left hand corner of the notes and the treasury numbers in the upper right hand corner. The charter number was 5761, printed in bold face, brown figures across the face of each note. It was stated at the department that as soon as notes of this character are shipped to the bank they are regarded by the law as in circulation and are redeemable by the government as well as the bank, which has on deposit treasury bonds to cover their redemption.

As the express companies are under bond for the safe delivery of all shipments of this character they alone are responsible, so the government and the bank are fully protected from loss.



The talk about the ideal man may be all right, but when it comes to marrying a plain, everyday sort of a man is more to be depended upon to provide the wherewithal to pay the grocer's bill.

It's a mighty hard job to find a feller thet's above his place in the world.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

A little money is often a dangerous thing.

World's Gold Output.

Regarding the world's output and Engineering and Mining Journal observes:

The unfavorable result was due to the small contribution made by the Transvaal mines, a few only of which were operated during the early months of the year. Deducting the Transvaal output from the grand totals for 1899 and 1900 the statustics show an increase in the other gold-producing countries of $10,717,000. The largest gains were made by United States, Canada, Rhodesia and Brazil, while in Australia and China there were important decreases.

"In one respect the gold situation in 1900 was unprecedented. It has never before happened that the output of a great gold producing country has been suddenly cut off entirely, or almost entirely. The Transvaal, which produced $78,070,761 in gold in 1898, was expected to yield over $95,000,000 in 1899 and $110,000,000 in 1900. The war broke out in October, 1899, and the total for that year was $72,961,501, while in 1900 the only production was from the two mines which were operated by the government in the opening months of the year, and this work was stopped when the British armies reached Johannesburg. Instead of $110,000,000 the Transvaal appears in our table for only $7,208,869.

"The United States, which in 1899 ranked third among the great gold-producing countries, in 1900 showed a substantial increase, which with the limitation of the Transvaal, put it in first place in 1900. Australia dropped from first place to second place, while Canada took the third rank, though at a long interval, and Russia the fourth place. These four countries produced 79.2 per cent of the total."

When a feller's a-hangin' by a rope 20 foot from the ground he gen'rally hopes thet the feller thet made it was honest.

The Best Prescription for Malaria

Chills and Fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No Cure. No Pay. Price 50c

25 CTS. PISO'S CURE FOR CURES WHERE ALL ELSE FAILS. Best Cough Syrup. Tastes Good. Use in time. Sold by druggists. CONSUMPTION 25 CTS.

MRS. FRANK CARTER, 3 Merrill Street, Amesbury, Mass.

This letter should carry Faith and Conviction to the heart of all Sick Women.

"I suffered with inflammation and falling of the womb and other disagreeable female weaknesses. I had bad spells every two weeks that would last from eight to ten days and would have to go to bed. I also had headache and backache most of the time and such bearing down pains I could hardly walk across the room at times. I doctored nearly all the time for about two years and seemed to grow worse all the time until last September I was obliged to take my bed, and the doctors thought an operation was the only thing that would help me, but this I refused to have done.

"Then a friend advised me to try the Pinkham medicine, which I did, and after using the first bottle I began to improve. I took in all five bottles of Lydia E. Pinkham's Blood Purifier, four boxes of Lydia E. Pinkham's Dry Form Compound, three boxes of Liver Pills and used three packages of Sanative Wash, and I am as well now as I ever was. I am more than thankful every day for my cure."—MRS. FRANK CARTER, 3 Merrill St., Amesbury, Mass.

$5000 will be paid if this testimonial is not genuine. Lydia E. Pinkham Medicine Co.

VIEW OF STRIKE SITUATION

MUST NOT PLACE PICKETS.

Injunction Against Strikers Stands—Strikes Nearly Everywhere—International Machinists Association Files Answer.

Kansas City, July 7.—Judge Phillips of the United States district court, who recently issued an injunction enjoining the striking machinists at the Riverside Iron works from interfering with or intimidating that company's employes, has defined the limit to which the strikers could go in their efforts to induce men not to take their places.

"We would like to know," argued the strikers' attorney, "whether the defendants can talk to the men who take their places while they are on the street."

"We will not discuss what constitues moral suasion at this time," replied Judge Phillips. "If I catch any of these men picketing the workmen who go to or from this plant I shall consider it a physical demonstration calculated to intimidate."

The injunction was continued in force and the attorney for the strikers was told that he could file an ansewr or an appeal.

At Cleveland.

Cleveland, July 7.—Judge Stone of the common pleas court has granted an injunction, to remain in force indefinitely, against the striking machinists upon the application of the Cleveland Punch & Shear company. Counsel for the machinists filed a notice of appeal. The decision is broad and against nearly every contention made by the defendants. The decision enjoins the defendants from picketing or patrolling around the works of the plant and from guarding the gates at the plants or the streets leading to the plant. It also enjoins the interference in any manner with men now working in the plant, either there or at their homes, or from intimidating their relatives or members of their families.

Machinists at Milwaukee.

Milwaukee, July 7.—Members of the International Machinists' union who were enjoined two weeks ago by the Vilton Manufacturing company from in any way interfering with the workingmen of that plant, has filed an answer. Counter charges of unlawful conspiracy are made.

The answer asserts that about 300 manufacturers and corporations unlawfully conspired under the name of the National Metal Trades association for the purpose of defeating the organization of the machinists in their request for a nine hour day. The answer alleged that the Vilton company, under cover, is a member of such alleged conspiracy.

The striking machinists say they have kept wholly within the limits of the law and ask that the injunction allowed be vacated and the suit dismissed.

At Telluride, Col.

Denver, July 7.—A special from Telluride, Col., says:

With the positive information from Lieutenant Governor Coates, a member of the committee appointed by the governor to investigate the strike in the Smuggler-Union mine, that Governor Oman would not send troops, and with the assurance from the mine managers of the district that they could not longer afford to close down to aid him, Arthur L. Collins, general manager of the Smuggler-Union mine, this afternoon conceded several points and a settlement between himself and the miners' union was made. This ends the strike. Many miners will return to work Monday and within a few weeks the mine will be opened to something like its full capacity.

Fame is a plant that cannot be forced in a hothouse.

Americans Won.

Huddersfield, England, July 8.—A great crowd witnessed the amateur championship games here.

The first event, putting the weight, fell to C. W. T. Coe, University of Pennsylvania, with a put of 45 feet 5 1-2 inches. Jewett, Heckmond Wike, England, was second. In the preliminary heats of the 100 yard dash, A. F. Duffy, Georgetown university, won the first heat. Time, 10 1-5 seconds. In another heat of this event W. B. Tewksbury, University of Pennsylvania, finished third; time, 10 seconds. The final heat was won by Duffy by three yards; time, 10 seconds.

In the 120 yard hurdle race A. C. Kraenzlein, Chicago Athletic club won; Trafford, Birmingham, second; time, 15 3-5 seconds.

Coe had things all his own way.

After winning his heat easily, Duffy started as a favorite in the final for the 100 yards, came away from the start and won as he liked.

The hurdles proved another safe thing. Kraenzlein led all the way and won by four and a half yards in time equaling his own record. Baxter of Pennsylvania started, but was outraced and stopped at the sixth hurdle.

In the long jump Kraenzlein, who had injured himself while competing in the hurdles, did not take part, and O'Connell of Waterford had a walkover. He accomplished 23 feet 8 1-2 inches, which is the record for these championships.

In the preliminary heats of the quarter mile run Maxwell W. Long of the New York Athletic club won the first heat in 57 2-5 seconds.

In the final heat of the quarter mile run Wadsley of the Unity Athletic club beat Long by two yards. Time, 49 4-5 seconds.

The high jump was won by Irving K. Baxter of the University of Pennsylvania with a jump of 6 feet 1 inch. O'Connor was second, scoring 5 feet 9 inches. In the pole jump Irving K. Baxter and Hodgson tied at 9 feet 10 inches.

AWFUL AGONY

The Story of a Stricken Woman Whom Doctors Were Not Able to Help.

From the News, Connersville, Indiana.

The story of Mrs. Nellie M. Hedden, of No. 621 Summit avenue, Connersville, Ind., contains an important lesson for many American women who suffer in silence rather than face the ordeal that the usual treatment of their troubles entail. It is a story that rings with honest gratitude and does not tell half the misery that the narrator endured. Other women who are suffering as Mrs. Hedden did will know how to understand and appreciate much that cannot be told in a newspaper article. Mrs. Hedden's experience is best given in her own words. She says:

"For nearly a year I endured terrible agony caused by a general breaking down of the nervous system, female weakness and suppression of the periods. I suffered greatly with bearing down pains and was very weak and short of breath. My circulation was very bad, causing numbness of limbs, dizziness and headache all the time. My heart would sometimes feel as if there was a heavy weight on it. I had never been healthy and strong, so you can readily see that I was in no condition to withstand such a combination of ailments.

"I grew worse very rapidly and all the doctors I tried failed to check my decline. A friend of my husband told him how much good Dr. Williams' Pink Pills had done his wife so I commenced taking them and can now state that they are the only relief I ever had. The first box helped me so much that I was thoroughly convinced of the efficacy of the remedy. I continued the treatment for several weeks, using six boxes in all.

"In conclusion I will say that if any one, who is suffering the same as I was, will take Dr. Williams' Pink Pills as directed they will be rewarded."

Signed, ELLIE M. HEDDEN.

Subscribed and sworn to before me this 14th day of November, 1900.

Finley H. Gray,
Seal Notary Public.

CURE SICK HEADACHE.

Miss Weisgerber Drowned.

Lewiston, Idaho, July 7.—Susie Weisgerber, the 16 year old daughter of Mr. and Mrs. Chris Weisgerber, was drowned in the Snake river. Search for the body is still unsuccessful. A $500 reward has been offered for its recovery. The girl's father, who is in Buffalo, has not been notified of his daughter's death. Mrs. Weisgerber is prostrated.

The drowned girl, in company with her cousin, Marie Heitfeld, daughter of Senator Heitfeld of Idaho, was riding in a rowboat on Snake river slough just west of the Weisgerber house. The boat drifted into a current leading into the main river. Miss Weisgerber, in attempting to paddle the boat to the shore, broke an oar and then jumped from the boat into the water, evidently expecting to wade ashore. But the current was too strong. Miss Heitfeld endeavored to reach her by paddling with her hands.

In Baltimore 236 Children Died.

Baltimore, July 7.—The number of deaths in this city for the week ending today is 458, the highest the health department ever recorded. Of these 236 were children under 5 years old. At least 50 per cent of the mortality is said to be due either directly or indirectly to the intense heat. The hot spell was at least temporarily ended this afternoon by a thunderstorm which sent the mercury down from 96 to 69 in less than an hour.

A Strange Claim.

New York, July 7.—A woman who with her last breath told the story that she was the eldest daughter of Queen Victoria and the prince consort is dead in this city, having expired in the German hospital, a victim of the heat and of insufficient nutriment. Through a doctor who believed her story implicitly and who learned of her demise, her body will not be buried in potter's field, but it will be buried in Calvary cemetery.

Fire at Clarendon, Texas.

Denver, July 8.—President Trumbull of the Colorado & Southern railroad has received a telegram from Clarendon, Texas, saying that the company's shops, coal chutes, water tanks and a large quantity of equipment, nine cars and five engines at that place were totally destroyed by fire. The damage will reach $100,000, and is well covered by insurance. The origin of the fire is unknown.

TO CURE A COLD IN ONE DAY Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

Strikers Won.

St. Louis, July 7.—The strike of freight handlers employed in the warehouses of railroads entering St. Louis who went out recently to enforce a demand for an increase of wages, was declared off today, the railway companies granting an advance of 15 cents a day.

CONSTITUTION WON THE RACE

BEAT BOTH OLD CHAMPIONS.

Columbia and Independence Were Outclassed — Columbia Handled Well—Independence a Disappointment.

Newport, R. I., July 7.—An unqualified victory for the Constitution—an overwhelming defeat for the Independence, a most commendable showing for the old champion, the Columbia—is the record of the first day's contest of the big sloops in the Newport Racing association series. From the firing of the starting gun, which sent the yachts off to windward in a light easterly breeze, the Constitution led her rivals. At the turning buoy she was a little more than two minutes in advance of the Columbia, while the Independence was hull down to leeward.

But it was on the run home that the new Herreshoff yacht showed her great strength, beating the Columbia over eight minutes in the 15 miles down the wind, and when the new champion of the America's cup swept across the line the Boston yacht was over seven miles astern.

Owing the lightness of the wind there was no brilliant or dramatic scene to chronicle, but it was full of interesting events nevertheless. The chief incident of the contest was of course the failure of the Independence to meet the expectations of her adherents. At no time during the contest to windward did she show any weatherly qualities whatever. She did not point as high as her opponents, nor did she even for a brief interval demonstrate that she possessed a fraction of that speed which she seemed to have shown when sailing by herself. That she may be vastly improved is possible, but that she profoundly disappointed her friends today can not be concealed, for in light winds her excellence was chiefly supposed to rest. When she got fairly out into the open sea she pounded heavily in the southwest swell, and the more she pounded the more she seemed to lose headway.

So far as the Constitution's success was concerned, it was no more than was expected of her by those who have watched her keenly since her launching. Handled splendidly and with rare judgment, but not in the least better than the Columbia, her superior size and bigger sail plan told.

The boast of some experts that Nat Herreshoff had reached his limit when he designed the Columbia are not justified by today's race. Whether the Columbia will beat the Constitution in hard weather remains to be proved.

The Columbia was sailed in a most meritorious manner from start to finish. All the arts of the professional sea jockey were practiced by Captain Barr, the sailing master, and his crew to overcome their opponent. That they had the inferior boat so close to her superior antagonist all the way to the outer mark was a wonderful piece of work. That the Constitution is by far the better all round boat, let it blow high or low, is hardly to be doubted after her showing.

Kruger Not Coming.

The Hague, July 8.—Mr. Kruger has definitely abandoned his American visit on account of traveling fatigues, as well as the clearly expressed attitude of the United States government.

The Pan-American Exposition

Will be the greatest this country has ever seen. The entire machinery will be run by power furnished from Niagara Falls. Although the power required is enormous we belive this cataract is equal to the task, the same as Hostetter's Stomach Bitters is equal to the task of supplying the body with motive-power when it is run down. There is no medicine in the world so good for dyspepsia, indigestion, constipation, flatulency and nervousness. Try it.

Alphonse Bertillon, the inventor of the anthropometric system of criminal identification now in use in France and this country, is head of the Seine prefecture of police in Paris.

Stops the Cough and Works Off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No cure, No Pay. Price 25 cents.

The man who carries a tiny comb in his pocket for surreptitious use on his mustache is by no means the exception some of the sex would have us believe.

SSS and OLD PEOPLE

Bad Circulation is the cause of most of the ills that come with old age. With advancing years there is a decline of strength and vigor—the machinery of the body moves with less speed and accuracy. Because of the weak and irregular action of the heart the blood moves more slowly, becomes impure and loses much of its life-sustaining properties, and muscles, tissues and nerves literally starve for lack of nourishment. A sluggish and polluted circulation is followed by a long train of bodily ailments. Cold feet, chilly sensations up and down the spine, poor appetite and digestion, soreness of the muscles, rheumatic pains, hard and fissured skin, face sores, chronic running ulcers on the lower limbs and other parts of the body—these and many other diseases peculiar to old people are due to a lack of healthy blood and imperfect circulation. Restoration to health must come through the building up and purification of the blood, thus adding strength and tone to the vital organs and quick, healthy action to the circulation.

S. S. S. being strictly a vegetable blood remedy and the best tonic, makes it the most valuable and efficacious of all medicine for old people. It is free from all mineral ingredients, and mild and pleasant in its action. It cures blood diseases of every character, even those inherited or contracted in early life. As the system gets under the influence of S. S. S. there is a marked improvement in the general health, and as richer and purer blood begins to circulate through the body the appetite improves, and there is a softness and elasticity about the skin that you have not noticed for years; sores begin to heal, pains in muscles and joints gradually cease, and you find that it is possible to be happy and healthy even in old age.

Our medical department is in charge of physicians who make a study of blood and skin diseases. If you would like to have their opinion and advice in your case, write them all about it and you shall receive such information and advice as you want. This will cost you nothing. Others have found our medical department of great benefit to them—their cure being much more rapid as the result of some special directions received from our physicians.

Don't be your own doctor when you can get medical advice free. Book on Blood and Skin Diseases mailed to all who desire it.

EDITORIAL OUTCROPPINGS.

Railroading, Fishing and Mining are the principal industries of British Columbia and in all three of these have employer and employee fallen out over the wage question and have proceeded to settle their differences by tying up the whole country in a series of strikes. They fail to recognise the rights of each other, each looking at it from a selfish point of view, and the public must stand back and suffer while they settle their differences. It was bad enough for the business interests of the Province when the C. P. R. locked horns with the trackmen and worse when the cannery owners and fishermen fell out, but on top of these we have now a miners' strike effecting our biggest mining camp, Rossland,.

Can this state of things be right? Have the innocent always to suffer and the whole country be sacrificed to the selfishness or greed of either of the parties to these industrial disputes? Surely some method of compulsory arbritration can be devised which both employer and employee can be made to accept.

British Columbia is fast gaining a reputation in the outsibe world, that will take a generation to live down, of being the worst governed province in Canada, full of bossism, anarchism and irresponsible legislators, mine-managers and labor leaders.

Here is the way a "business government" builds roads in a mining district, as we judge from the experience gained in waiting for the Red Mountain road: In the first place, the local member tours his constituency, satisfies himself that the road is needed and promises to secure an oppropriation therefore; he goes into the House and convinces the Government of the necessity of the work and an appropriation is put on the list of estimates, which the House passes. This takes about six months. Then the summer months roll by and nothing further is done except by the claim holders waiting for the road, who address inquiries to the member and the Commissioner of Lands and Works The former answers the inquiries, the latter does not. Then, after the first snow has come and gone again, a surveyor is sent over the route of the proposed road and a quarter of the appropriation is absorbed by him. By this time winter has set in and the member and the Commissioner want to know what can be done in the face of such weather. But time rolls on and the claim owners who want to develope their claims have to content themselves with doing only assessment work. Spring comes and the road supervisors and inspectors and the Commissioner of Lands and Works draw their salaries and settle down again until the summer comes. Midsummer heaves in sight and the local road inspector begins to think that the government should be reminded of the proposed road. This takes several weeks. Then the Provincial inspector of roads and trails strikes the camp and proceeds to find out if the road is necessary, what it will cost and where it should go. He makes up his mind and sends in another report to the government.

This is as far as we have followed the matter. Whether the member has to have another appropriation passed, whether the road has to be resurveyed, whether it has to be supervised by another supervisor or inspected by another inspector, we know not. We will know if we live long enough whether we are to have a road or not, at present it is in the hands of the local member, the Commissioner of Lands and Works, the Provincial road superviser and the inspector of roads and trails for the Slocan.

According to most of our local exchanges the glory and honor of the Strathcona's has departed and from being the hired policemen of a desert, made so by the ravages of war, they have degenerated into scab herders on the C. P. R. Thus have our "heroes" fallen and our idols been shattered.

Many of our subscribers this week have overlooked the fact that with the last issue we entered upon our fifth year of publication and that their subscriptions are consequently due The blue cross at the head of this column means that you are requested to call for your receipt.

When R. C. Clute K. C toured the Province in the investigation over the strike he took advantage of the "fair wage clause" to collect $40 a day and expenses for himself.

The woman who originated hen parties was removed into the next world by a brickbat, and it served her right too.

MAUD MULLER.
(Revised Version.)

Maud Muller, on a summer's day,
Set a hen in a brand new way;

(Maud you see, was a city girl,
Trying the rural life a whirl)

She covered a box with tinsel gay,
Lined it snugly with new-mown hay.

Filled it nicely with eggs, and then
Started to look for a likely hen—

Out of the flock selected one;
And then she thought that her work was done;

It would have been but this stubborn hen
Stood up and cackled "Ka doot!" and then

Maud Miller came, and in hurt surprise
Looked coldly into the creature's eyes.

Then tied its legs to the box, "You bet,"
Said she, "I know how to make you set!"

But still it stood, and worse and worse,
Shrieked fourth its wrongs to the universe

Kicked over the box with its tinsel gay,
And ignominiously flipped away!

Then a bad boy over the barnyard fence,
Tee-heed, "Say, Maud, there's a difference

'Tween hens, you know, an' it is that
One says 'Ka-doot!' an' one 'Ka-dat!,"

Then Maud recalled that the ugly brute
She tried to set had said "Ka-doot!"

And ever since that historic day
She blushes in an embarrassed way,

To think of the bobble she made once, when
She tried to set a gentleman hen!

MUSINGS OF OUR HORSE EDITOR.

In singing the praises of any place in the west how often we hear the expression "it is a good country; it is a poorman's country." According to that the Slocan, just at present, is a paradise, for it certainly is a poorman's country, and if there is any one here not poor we will guarantee to him that he will be so if he stays long enough. It is a land of ups and downs, we have known men to come in here with an Irish name and a Yankee accent, whose whole worldly possessions consisted of a gunny-sack and a piece of a horse-blanket and who by lying awake nights thinking up lies to tell in the daytime have accumulated such wealth that they are now living in furnished rooms on the fifth floor of a six story block in the city of Spokane, with nothing in the world to do but wrestle with a guilty conscience and avoid meeting the sheriff. Other men we have known to strike this country with "biled" shirts, yellow-leggings, imitation diamonds and seven trunks who by staying up drinking in champagne at nights and lies by day have been compelled to write home to their rich relations for funds enough to move down to the Coast, where they could get a government job and move in polite society. We have the politest kind of society here and lots of it. If we have six women in camp we have six grades of society and six society leaders. The men don't care much about society but spend most of their time waiting for the steamboat and wondering when a new crop of suckers will strike the country It is a good climate, when it is not raining, with plenty of fresh air and a fine chance for outdoor exercise, but a very hard country to get out of, so hard in fact that an honest man cannot steal anything and get away with it.

CEYLON AND INDIA TEA.

Green or Black.

Trade Is Confederating The Empire.
Britain Is Canada's Best Customer.
Britain Cannot Buy if She Does Not Sell.

Use TEA Grown In a British Colony By British Capital.

"SALADA" Ceylon Teas are sold in sealed lead packets only never in bulk. Black, Mixed or Uncolored Ceylon Green. Samples on application. Address "SALADA," Toronto.

SYRUP + OF + HOREHOUND AND TOLU.

For coughs And colds.

Manufactured and Sold at THE SILVERTON ..... DRUG STORE.

We warrant this to cure the most obstinate cases. 25 Cents a Bottle.

LAXATIVE GOLD CURE!
..... CONTAINS THE NEW .....
..... INGREDIENT.....
For Sale at All Druggists.

VISIBLE ASSET.

"You people down here spent $5 000 boring a hole in the ground for gold, didn't you?" asked the passenger who was walking up and down the station platform to stretch his legs.

"Yes sir," returned the hump-shouldered native sitting on a nail keg, "that's about the size of it."

"Well what have you got to show for it?"

"Well, mister, said the native, taking a fresh chew of Missouri plug, "we've still got the hole."

WHAT HE WAS.

Bessie—Talking about the animals that infest the stock exchange? I've been trying to think what pa says he was.

Arthur—A bull or a bear, perhaps?

Bessie—No, it was n ither of those, nor was it a lamb. Oh, I have it. It was a jackass. How it surprised me at first.
