A SIMILKAMEEN MINING ROMANCE.

The bonding of the Winnipeg claim in Hedley camp to the Standard Oil Co., by the locator, Mr. Geo. Stumps, for $30,000, makes an interesting story and illustrates the great element of chance there is in mining.

Mr. Stumps literally stumbled upon a fortune. By a lucky accident he chanced upon a showing that had been vainly sought for during the past two years, and without doing a dollars worth of work he was able to sell his find to one of the richest corporations on the continent for the goodly sum mentioned above. The buyers already own the famous Nickel Plate property which they have developed extensively. That they are well pleased with the results attained is amply attested by the fact that they have been buying all the adjoining claims at large figures. The characteristic ore of Hedley Camp is an arsenical iron, in some cases carrying very high gold values.

Rich float had been found a couple of years ago near the Winnipeg, which is about two miles north of the Nickel Plate and lower down the mountain side. Careful search was made to discover the source of this float, but without success until last summer.

The story as it is current is to the effect that Mr. Stumps, while out prospecting, was crossing an awkward place over a fallen tree when his foot slipped and he fell a short distance to the ground. A growth of moss covered the rocks upon which he fell, and his foot in striking, scraped the moss off and broke away a small point of the rock. Mr. Stumps noticed the mineral in the piece and examined it more closely. It was a piece of arsenical iron resembling very much in appearance the ore of the Nickel Plate.

The fortunate discoverer lost no time in staking his find, and an assay of the ore showed it to carry good gold values.

The Standard Oil Co. now have a force of men at work developing the property. The lead where exposed is in the neighborhood of 20 feet wide. It runs in the direction of the Nickel Plate, and is thought to be a continuation of that marvellously rich lode.

The property was secured by the Standard Oil people on a working bond, the payments extending over a period of 14 months.

NOTICE.

THIRTY days from date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:—

Situate on One Mile at the mouth of Summers Creek, commencing at post No. 1;

And running 80 chains south, 80 chains east, 80 chains north, 80 chains west, back to post, in all 640 acres.

C. H. HARRINGTON.
GEO. BEAVER, Agent.

Dated June 20, 1902.

OLALLA MINING NEWS.

(From Our Special Correspondent.)

Mining operations at Olalla and throughout the Upper Keremeos are assuming a gratifying appearance of activity.

Manager Northey with a crew of men left for Beaconsfield camp last week, and will push development work on the Keremeos Co.'s claim on Red Mountain.

Work has also been under way at Riordan Mountain, on the fine ore showings of the Billy Goat and Shamrock.

McMillan and Forbes are starting the season's operations at Independence Mountain, where there are extensive outcroppings of copper and gold bearing arsenical iron ores carrying excellent values.

The Olalla Company have resumed operations at the Dividend property, where the development of the huge ore bodies is making a phenomenal display, and exciting the surprise of all mining men.

The Bullion tunnel at Olalla is now in 625 feet, and will tap the big ledge in another 150 feet.

The recent visit to Olalla of Mr. Wm. J. Brewer of New York, who is president of the company, has resulted in a decision to immediately undertake the thorough development and equipment of the company's property.

Mr. Brewer was much impressed by all he saw, and is emphatic in his assurances that the company owns one of the greatest combinations of money making mineral properties ever controlled by a single company.

HAMILTON CREEK COAL.

We have to hand a very excellent report by Mr. B. P. Little, M. E., of Nelson, B. C., on the Hamilton Creek coal leases situated in the Nicola Valley, says the Vancouver Ledger:—

The Diamond Vale Coal and Iron Mines, Ltd., is a recent incorporation by Vancouver citizens who have associated with them eastern capitalists. The company has purchased 10 square miles of coal lands on Hamilton Creek, and on each lease coal is exposed.

About 6,400 acres is underlaid by 3 seams of bituminous coal, aggregating some 27 feet in thickness. This coal is exposed for some six miles along the creek on the company's property, and has been opened in places from one to two miles back from the creek. The analysis of the surface coal made by Mr. Little from a tunnel driven about 40 feet shows:

Moisture	5.0 per cent.
Volatile Matter	33.5 "
Fixed Carbon	59.2 "
Ash	3.3 "

Mr. Little sums up his report by saying that the quantity is practically unlimited, and the quality (where exposed) equal to any at present being mined in the province.

THE PODUNK.

Messrs. Davis and Sloan have finished doing assessment work on the Podunk claim on Wolf Creek.

The work consists of a 12 foot open cut, and a 4x6 tunnel run for a short distance on the ore.

They report the lead to be traceable on the surface for a distance of 600 feet, and as having clearly defined walls.

The vein is in a contact between a porphyry and a granite, the ledge matter being about 8 feet wide.

The pay chute, which gives values in copper and gold of from $28 to $41, is between two and three feet in width.

Small quantities of molybendum were met with in doing the work.

Messrs. Swansborough and Davis the owners of the Podunk, feel that they have in it a very valuable property.

HOTEL ARRIVALS.

HOTEL JACKSON.

W Green, 20 Mile; F A Rogers, J B Silverthorne, W Lawrence, Friday Ck; W K. Richmond, Ashnola; Jno Clark, M P Stewart, Nicola Lake.

HOTEL PRINCETON.

D McRae, H McRae, R O Cramer, Copper Mt; Geo Beaver, C Lindborg, Grand Forks; T J McAlpin, Allison; W F Revely, Bromley Creek; Dan McRae, Wolf Creek; Perley Russell, Hedley City; C Stirling, Spence's Bridge; C P Seal, L M Lyon, P Willis, Ashnola.

HOTEL TULAMEEN, PRINCETON.

D McPhail, F P Cook, Granite Creek; H Cleasby, Coutlee; A McAllister, Winnipeg; A J Mackay, Oshkosh, Wis; J S Crowder. J Ferguson, Vancouver; J D Davidson, Seattle; D R Young, R J Steel, Ashnola; Neil McLennan, Boulder Creek; C Johnson, J Homes, Brandon; J R Robinson, New Westminster.

DRIARD HOTEL, NICOLA LAKE.

S A Briely, W Rugg, C J Wilson, Chas. Law, A H Wallbridge, Vancouver; A Raspberry, Minnie Lake; Gilbert Lawrence, G E Todd, P Herod, W Lawson, W A Brown, N H Sutherland, Kamloops; A McAllister, Hamilton; A McLean, Penticton; M P Stewart, Ashcroft; W A Whillans, Princeton; J Greaves, Rockford; R B Berks, Victoria; J E Bate, Aspen Grove; J D Davidson, T P Terrill, Seattle; A J McKay, Oshkosh, Wis; J Schubert, Anaconda, Mont.

The Celebration Committee desire all owners of dogs in Princeton and vicinity to chain them up during the continuance of the celebration. They were a source of great annoyance at last year's sports.

LOCAL AND PERSONAL.

Mr. Perley Russell returned from 20 Mile on Thursday last.

Mr. A. R. Barrow is engaged in surveying a number of claims in Hedley camp.

Mrs. H. H. Pitts, of Ashnola, spent last week in town as the guest of Mrs. Lawrence.

Owing to a severe cold, Mr. Jack Budd has been confined to his bed under the doctor's care.

Born—On One Mile Creek, Sunday June 22nd, the wife of Mr. Chas. Burch, of a daughter.

Mr. A. F. MacDougall returned to Grand Forks yesterday. He intends coming back to Princeton in a short time.

Messrs. Ryder and McDiarmid have returned from Hedley Camp, where they were doing work on their claim, the Orpheno. They uncovered a three foot lead, carrying promising values in gold, silver and copper.

The Celebration Committee have made arrangements with Mr. Geo. Aldous for the holding of the ball at the Hotel Tulameen on the evening of July 2nd. Mr. Aldous will also provide the supper and music.

M. P. Stewart of Ashcroft, and Jno. Clark of Nicola, drove in from the latter place on Wednesday, and left the next day for Penticton. It is reported that their visit is in connection with the mail service to be established between this place and Penticton.

Mr. D. R. Young came in from the Coast last Sunday and left again on Wednesday. Mr. Young made it understood while here that most of the work at Ashnola would be suspended until it became definitely settled as to when the railway would commence construction into this district.

CORONATION PICNIC.

A picnic for the benefit of the school children and ladies of Princeton was held Thursday on the Indian Reserve opposite the town. A program of sports was arranged for the children, and the usual supply of picnic cake and ice-cream was very much in evidence. Miss Liza Bromley, on behalf of the school children, thanked the promoters of the outing very nicely, while Mr. Alexander Sharp made a short speech suitable to occasion, in which he expatiated eloquently upon the great benefits of living under the benificent sway of British institutions. Altogether, a most enjoyable time was spent.

CURTIS SCORES FOR PRINCETON.

At the evening session of the provincial legislature of the 13th inst., while the Vancouver and Midway Railway Bill was up for discussion Smith Curtis moved to amend Section 4 as follows: By striking out of Sub-section (d) the word "Allison" in line 9, and substituting therefor the word "Princeton," Mr. Curtis explained that his idea was to change the objective point of the railway in the Similkameen to conform to rank as a place of importance.

Attorney General Eberts exhibited his ignorance of this district, by questioning which of the two places were the most important, and thought it unwise to declare that the railway should touch Princeton. Mr. McBride pointed out that the government had already recognized the importance of Princeton by constructing a court house there. Mr. Martin supported Mr. Curtis' amendment, and as he at present dictates the policy of the government, the amendment was carried.

MARTIN'S DOWNFALL.

In the session of 1900 Martin strongly opposed the Columbia & Western Railway Company getting an acre of land when it applied for an extension of time in order to permit it to select the lands it wanted.

It appears that the company is not entitled to the land grant from Christina Lake to Midway, until it builds half way to Princeton. This it declines to do; but Martin now favors making this company a present of the land just the same.

If the bill passes, the company will be allowed to take the land in blocks 10 miles square and as the grant includes the coal and petroleum, it is safe to say nothing of value in the way of coal (that is not already located) will be left in the Nicola Valley or in this district, when the Columbia and Western (C. P. R.) gets its lands selected. That Martin should favor this gigantic game of grab argues geatly in favor of his enemies' claim,—that he is owned by the C. P. R., and is compelled to do his master's bidding.

Martin's one hold on the respect of the great body of electors of this province has been in the past, his apparently determined efforts to protect the people from the gang of exploiters who so persistently seek favors from every legislature.

Whether rightly or wrongly, he has been given credit for forcing the Dunsmuir party to abandon the giving of an immense acreage of land to the Canada Northern. The people also felt that he was the power behind the throne that compelled the passing of the redistribution biil.

The good impression he created by these acts will be entirely dissipated by his recent treachery to the province, and his last hold on the esteem and affections of the voters will be broken. As the people come to recognize more and more the insanity of our present system of land subsidies, the revulsion of feeling against the pin-head politicians who are responsible for it, will be such as to sweep them forever from public life. But it may be too late then to right the great crime that has been committed against the people.

NOTICE.

THIRTY days from date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:—

Situate on the east bank of One Mile Creek, about 4 miles from its mouth and joining on the north of Chas. Richter's claim and on the west of Westwood's claim, commencing at post No. 1,

And running 80 chains east, 80 chains south, 80 chains west 80 chains north, back to post, in all 640 acres.

GOD SAVE THE KING.

Citizens of the Empire who have been accustomed for so many years to singing "God Save the Queen," may find it a little difficult at first to accuston themselves to the change made necessary by the accession of a king to the throne. As our national anthem it will be sung this week in many different languages by people dwelling in widely separated parts of the world. The following are the words of the anthem as it will be sung in future:—

God save our gracious King,
Long live our noble King,
God save the King!
Send him victorious,
Happy and glorious,
Long to reign over us,
God save the King.

CHORUS:

Send him victorious,
Happy and glorious,
Long to reign over us,
God save the King.

O Lord our God, arise,
Scatter his enemies,
And make them fall;
Confound their politics;
Frustrate their knavish tricks;
On Thee our hopes we fix:
God save us all.

CHORUS:

Send him victorious, &c.

Thy choicest gifts in store
On him be pleased to pour,
Long may he reign!
May he defend our laws,
And ever give us cause
To sing with heart and voice
God save the King!

CHORUS:

Send him victorious, &c.

Increase of Boundary Smelting.

At the present time the five blast furnaces running in the Boundary—four at Grand Forks and one at Greenwood—are, when operating at full capacity, reducing close to 2,000 tons of gold-copper ore daily. This is a creditable record, when one remembers that two years ago not a ton was being smelted in the Boundary.

But it is encouraging to look forward a little to see what the record is likely to be in the immediate future. It is stated that in two weeks the Sunset Smelter at Boundary Falls will be ready to treat 400 tons daily. The second furnace of the Greenwood smelter, as soon as the ore to feed it is ready, will treat as much more, and the Granby Co. fully intends to have two more furnaces in operation—making six in all at the Granby works—before the end of 1902.

Thus it will be noted that before this year has passed into history, four more furnaces, with a combined capacity of not less than 1,600 tons daily, will be added to the present five, making nine in all in the Boundary. This means that about 3,500 tons of ore will be treated every 24 hours in Boundary smelters before the end of 1902, or over 100,000 tons per month, or 1,200,000 tons per year at the same rate.

There is thus every reason to feel encouraged with the progress of the mining and smelting industry of the Boundary, if we judge the future by the past. This is the conservative view, which may even brighten by plans maturing which have not yet been made public.—Phoenix Pioneer.

HIGHLAND VALLEY

Has Particularly Promising Copper Mines—Surface Sowings not Excelled Anywhere.

(BY BILLY KNIGHT.)

Far away fields look green to the prospector, that is undoubtedly the reason this rich mineral bearing district has been so long overlooked, it being within 12 miles of the main line of the C. P. R. Capital follows the prospector, so we see at a glance why so few investors have visited the district. I can hear of only two mining engineers going into the valley. Year after year while hunting, the Indians have gathered rich specimens of mineral and took them to Ashcroft, Spence's Bridge and other points, but no notice was taken of them. James Hosking drew my attention to it in '96, but not until '99 did we prospect the valley, when the fall of that year we located the Transvaal group, for which the owners refused $50,000 last year, when only two assessments had been recorded. I venture to say these six claims have as great a surface showing as can be seen in British Columbia, yet only one investor has seen them. The ledge is in a granite about 200 feet from the line of contact of a volcanic range. The ore is chiefly azurite in an iron sulphide gangue with some quartz. Specimens of cuprits and native copper are met with, and fine particles of chalcopyrite are scattered throughout the mass. Further out into the granite and adjoining the Transvaal other claims have been located. The Ajax, Leptando, Virginia, Highland, Standard and Buttercup. About two and one half miles to the south-east of these another group was located last summer and called the Albatross. Here a ledge shows distinctly in a contact of the above named formations and some fine ore has been exposed. Thomas G. Kirkpatrick the oldest settler in the district, located a group of claims and bonded them to a party named Dodd. A shaft was sunk on one of these claims 75 feet, but the party claimed the ledge was too small to pay them up the bond. This was no test, for had the ledge been drifted on either way a sufficient body of ore might have been met with to have made it a paying proposition. The ore taken from the bottom of this shaft ran 44 per cent. copper with some silver and gold. This group is about two and one half miles south-east of the Albatross. The foregoing claims are north of the valley. Mr. Kirkpatrick and Mr. F. W. Foster of Ashcroft, own a group south of the valley, Chas. Day is also owner of some claims there. I have not seen these, but from specimens shown me I would expect to find good showings in them. There is still a big field north for the prospector between the valley and the Thompson river, and also on the south side between the valley and the Nicola river. Investors wishing to come in can hire horses at Ashcroft or Spence's Bridge. Further information can be had by addressing the writer at Ashcroft, B. C.—Ashcroft Journal.

Jack—"Would you like to be a soldier, Jimmy?" Jimmy—"Naw, nuthin' in it. I seen one of them South Africa blokes, and 'e told me 'e was so full of bullet holes that 'e could breathe through his ribs like a butterfly."

Land Notices.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 640 acres of mountain pasture land two miles north of Princeton, commencing at the N. E. corner post of Lot 569, and running 80 chains west, thence following China Creek in all its windings to a point 80 chains north, thence 80 chains east, thence 80 chains south to point of commencement and containing 640 acres.

A. E. LEWIS.

Princeton, April 28, 1902.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of mountain pasture land 2½ miles north of Princeton, commencing at a point 40 chains north of the N. E. corner of Lot 43, and running 80 chains west, thence 20 chains north, thence 80 chains east, thence 20 chains south to point of commencement, and containing 160 acres.

CHRISTOPHER SUMMERS.

Princeton, April 28, 1902.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 40 acres of mountain pasture land, Description of boundaries:—Commencing at S. E. corner of my preemption, Lot 907, thence south 20 chains, thence west 20 chains, thence north 20 chains, thence east 20 chains to initial post.

The land is situated in Otter Valley.

GEO. McCULLOUGH.

Nicola, May 22, 1902.

NOTICE.

NOTICE is hereby given that sixty days from date I will make application to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of mountain pasturage in the Nicola Division of Yale District, commencing at a post marked A. (J. E. B.) S. E. corner, thence 40 chains west to Wm. Todd's east line, thence north 40 chains, thence east 40 chains, thence south 40 chains to initial post.

J. E. BATE.

Aspen Grove, Nicola May 5, 1902. m-17

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of mountain pasture land about two miles east of Princeton, commencing at a point 20 chains east of H. H. Thomas' N. E. corner, and running 20 chains north, thence 80 chains west, thence 20 chains south, thence 80 chains east, to point of commencement and containing 640 acres.

Princeton, June 5, 1902.

Jun-7 CURRIE SCHISLER.

Notice of Forfeiture.

To WM. HOPKINS and THOMAS GRAHAM.

You are hereby notified that I have expended the sum of ($100.00) one hundred dollars in labor on the April Rood mineral claim, in Olalla Camp. In order to hold said claim under provisions of Section 24 of the Mineral Act, such being the amount required to hold said claim for the year 1901. And if at the expiration of 90 days of publication of this notice you fail or refuse to contribute your portion of the expenditure required under Section 24, together with all cost of advertising, your interest in said claim shall become vested in the subscriber.

Dated at Keremeos this 2nd day of June, 1902.

Jun-7 By HALLIBURTON TWEDDLE.
