NEWS OF THE WEEK

Westminster Lacrosse Team Winning Applause.

Bullers Men Caught in a Trap---Clive Pringle Returns to the Boundary from Europe.

A Montreal despatch, under date of Aug. 21st, contains the following concerning the Westminster lacrosse team, which is on a tour of the east: The members of the British Columbia lacrosse team, who arrived here yesterday, have created quite an impression in lacrosse circles. Expert lacrosse opinion is fearful that the Montreal team will have its hands full tomorrow afternoon to retain its laurels,

The details of the Westminsters' schedule with the eastern teams are as follows:

Westminster vs. Montrealers, August 22nd.

Westminster vs. Quebec, August 25th.

Westminster vs. Shamrocks, of Montreal, August 29th.

Westminster vs. Capitals, of Ottawa, September 1st.

Wesiminster vs. Toronto, September 3rd.

Westminster vs. Tecumsehs, of Toronto, September 8th.

The Westminster team won the two first matches, defeating the Montrealers and Quebecers easily.

The Boer war still hangs on, with very little of importance taking place. A Krugersdorp despatch of the 25th inst. relates that on the previous day commandant Delarey appeared before Bank Station with a large force and summoned the garrison, commanded by Lord Albemarle, to surrender. The garrison refused. In the meantime, General Dewet took advantage of this ruse and crossed the river towards the Orange River Colony.

Lord Roberts has left Pretoria and has fixed his headquarters at Wondenfontein, where the bulk of the enemy's army are supposed to be.

Buller reports that the Boers laid a trap for his cavalry on August 23rd, opening with several guns at fairly short range. The English guns silenced the Boers, but when the firing ceased and the pickets were being placed for the night, by some mistake the companies of the Liverpool regiment advanced 1,500 yards into a hollow, out of sight of the main body, where thev were surrounded by the Boers and suffered heavily.

Clive Pringle Returns.

Clive Pringle has returned home after a three months' vacation spent in England. He did not take in the Paris exhibition, but spent his holiday in London and the provinces. While in the old country he attended the meetings of the congress of the chambers of commerce of the empire, being with F. J. Fiuucane a delegate from the local board of trade. The feature of the congress, he said, was the endeavor of the delegates to frame a resolution embodying some principle of preferential trade between the mother country and her colonies. The outcome was not successful, but a strong committee was appointed with this object in view. Mr. Pringle says that the mineral resources of the province are beginning to be appreciated by mining operators in London. This has been brought about more than ever by the success attained by Whittaker Wright in his flotation of the various subsidiary companies of the B. A. C. The shares of these companies are now all at a premium. He anticipated seeing quite an influx of mining engineers and others from across the water to investigate the merits of the country in the near future.—Greenwood Miner.

PURELY PERSONAL.

The Lost Horse boys were in town this week.

Vic Ryder was in town the first of the week from 20 Mile.

Mr. Arthur Hickling returned from Victoria by Wednesday's stage.

Mr. Barber, who has been on a visit to Oregon, returned home this week.

Mrs. James, proprietoress of the Granite Hotel, was in town one day this week.

Mr. Fred. Revely has returned to town after a fortnight's prospecting trip.

Mr. Robert Stevenson and son arrived in town on Wednesday from Summit camp.

Mr. J. P. Cunningham has returned from a brief visit to the coast, by the Hope route.

Rever Murray of Nicola held divine service in Princeton last Sunday to a good sized audience.

The Misses Allison and Haegerman were visiting at Mrs. Thynne's the latter part of the week.

Jas. Hislop's Hope-Princeton road survey party started out today. Mr, Hislop will follow tomorrow.

Mr. W. A. Campbell, manager of the Lost Horse mine, arrived in from the coast on Wednesday's stage.

The Murray boys came up from 20 Mile last Saturday where they are working on the government reserve survey.

As will be seen by a notice elsewhere county court will be held at Princeton on the 17th inst., before His Honor Judge Spinks.

Sister Ruth, of Vancouver, who has been nursing at Mr. W. J. Waterman's for the past month, returned home by Friday's stage.

Mr. George Phillip, of Mr. A. E. Howse's staff at Nicola, who spent a month at the Prinbeton store, during Mr. Howse's absence, returned home on last Sunday's stage.

ARE HARD AT WORK

Miners and Prospectors Busy Sawing Wood.

News of Copper Mountain---Summit Camp Looking Up---Work on Kelly Creek.

A glance at the mining records this week will show that, although there has been no great amount of new locations, quite a number of good finds have been recorded. Transfers have also been few. But it is satisfactory to note that a goodly amount of assessment work has been in the various camps, and development work will be pushed vigorously in a good many instances.

COPPER MOUNTAIN.

Mr. C. B. Harris, of the B. C. assay office, Princeton, paid Copper mountain a visit the early part of the week, and is well pleased with all he saw at the different mines. The crosscut on the Sunset, from the 150 foot level, is now in 70 feet, and in ore that requires no sorting, it being well mineralized. As development work progresses, one is more than ever convinced of the worth of the property. Work will be pushed more vigorously than ever.

About four hundred feet north from the Sunset, is the Sunrise. The shaft is down some 35 feet, from which a crosscut is to be started. The ore found here is practically the same as that found in the Sunset, which goes to show the immensity of the ore body of the latter. The Sunrise is a very promising location, and will no doubt improve with development. This property is owned by Messrs. Burr and Jones.

The Oriole, the property of Messrs. French, Day, and Snowdon Bros., contains an exceedingly fine showing in copper pyrites, and the shaft, which is at a depth of 35 feet, is in solid ore. The owners justly think they have as good a property as is to be found on the mountain.

Both the Red Eagle and Triangle Fraction are making good showings.

Among those who are doing assessment is Bert Thomas, on the I. X. L., which promises well.

The owners of the Canadian Belle group are making arrangements for extensive development on their group of claims, and some good results are confidently looked for.

SUMMIT CAMP.

Mr. Robert Stevenson has returned to town from Summit camp, where he has been overseeing the assessment work on his claims. The ore in this camp carrys gold, silver and lead, and assays running as high as $200 in gold and silver are reported. Mr. Stevenson is quite satisfied with his property and thinks this will prove to be a very rich camp. Several other parties are also doing assessment. Mr. Charles Law, of Vancouver, a well known mining man of wide experience, is at present at Summit, and as acquired considerable property, which he is highly pleased with. Considerable assessment work is also being done on Kelly creek, where many fine surface showings are to be seen.

An Unfortunate Affair.

What may prove a rather serious affair took place yesterday on the way to Copper mountain between Mr. M. A. Voigt and some of the employees of the Lost Horse mine. The parties, who were mounted, met, when some very warm words were exchanged, resulting in Mr. Voigt and one of the other party dismounting and settling the dispute with their fists. The fracas lasted for some minutes, when the combatants were separated. However, a messenger from Coppor mountain rode into town this morning in search of Dr. Whillans, saying that Mr, Voigt was in a very precarious condition. The doctor's return with a report on his condition is anxiously awaited.

Chief Commissioner Coming.

Word was received from Mr. Denis Murphy, M. P. P., this week stating that he had received the petition forwarded to him from Princeton, asking for the immediate construction of the government offices, and that it would receive its prompt attention. He also stated that himself and the Hon. Mr. Wells, chief commissioner of lands and works, would be in Princeton shortly to look into the needs of this constituency. A right royal reception should be awarded these two gentlemen who are so desirous of looking after our needs.

DISTRICT LOCALS.

Burt Irwin came in from the hills on Thursday.

Rev. Mr. Ladner, chairman of the Kamloops district, spent a few days in Nicola last week.

Mr. P. Ladner, of Ladner's Landing, who has been spending a day or two in Vernon, left for the Similkameen on Wednesday last.

Work on the two-story house on Harold avenue is progressing satisfactorily and will be ready for occupation by the first of next month.

Pete O'Rielly, of Nicola, has located a very fine looking claims six miles out of Nicola on the Granite creek road. It is a gray copper and shows up a lead six feet wide.

Mr. Berry, of Kamloops, died a week ago last Friday, and was buried last Sunday at Nicola lake. He leaves a wife and child to mourn his loss.

The Rev. Mr. Neville, of Nicola, will hold services tomorrow as follows: At Princeton, at 11 a. m., in the Harris Hall, and at Granite Creek in the evening at 7 p. m. He is accompanied on his visit by his wife.

LATEST FROM WESTMINSTERS CRACK LACROSSE TEAM.

A despatch from the coast, received by today's stage, contains the intelligence that the Westminster lacrosse team defeated the Shamrocks at Montreal on Wednesday last. Hurrah for the west!

Provincial Notes

Development is to be resumed on the Hartford, in Phoenix camp, shortly, and it is understood a machinery plant will be put in.

It is reported from Victoria that a disinterested Government Engineer will be at once sent to locate a wagon road to the Mt. Baker mining district.

An appropriation of $8,000 has been promised by the government for the building of a wagon road up the West Fork from Westbridge to Beaverton.

The C. P. R. has established a station at the Grand Forks smelter. The telegraph wires have been strung along the spur. The station will be called Granby.

John A. Manly is having platted, and will soon put on the market, a new addition to Grand Forks, situated on the flat between the end of the North Fork bridge and the brewery, on the east side of the river. This new tract will contain about eighty residence lots.

The Provincial Exhibition will be held at New Westminster, October 2, 3, 4, 5. $20,000.00 in prizes. Tug of war, horse races, aquatics, naval and military sports. gymkhana, lacrosse, baseball, band tournament, magnificent illuminations, grand concerts, and special attractions.

The Dominion government have been approached, through our member, to define the actual location of the International Boundary Line. It has been suggested that at the same time the Boundary line between the Yale and Westminster mining districts be also defined.

Constable J. Scott, accompanied by Mr. McLeod, went up to Lake House, a few miles beyond the first summit, on the Yale road from Chilliwack, recently. They were in search of two Indian girls who left the Coqualeetza Institute. They were not successful, in securing the culprits.

Robert Wood returned to the Boundary from Victoria recently, where he had been trying to get an appropriation for a wagon road from Westbridge to Beaverton. Mr. Wood has received a promise of $8,000 for the proposed road, and work will be commenced on it in the course of a couple of weeks.

It is announced that the Miner-Graves syndicate will immediately put in a private telephone line from Grand Forks to Greenwood by way of Phoenix. There will be about a dozen private phones on the wire and the chief use it will be put to will be in communicating with the company's big mines at Phoenix.

Grand Forks is to have a road into Franklin camp. The project has been on foot for some time and now there is no longer any doubt of its consumation. The money has been appropriated by the government and is now immediately available for the commencement of the work of building the road.

The new steamer "Minto," (Capt. Jeff. Harrison) plying the Fraser and Harrison, rivers between Chilliwack and Harrison came down from Harrison last week on her trial trip and for inspection. She will make daily trips from the Chilliwack steamboat landing to Harrison, connecting with the C. P. R. trains east and west.

Among those who formed part of the garrison so long besieged in Mafeking was Harry Brennen, for many years an engine driver on the E. & N. railway. Mr. Brennen's knowledge of engineering was turned to good account during the siege, he being placed in charge of an armored train, which rendered good service in the earlier stages of the war.

To have the river stocked with salmon has been a problem which has been under consideration for some time by the citizens of Nelson and also by the provincial government. It is known that salmon come up as far as Bonnington Falls, but they have never been known to come any farther. Many of the people are recommending the placing of a run at the falls.

S. B. Algiers of Rossland was recently committed for trial by Magistrate Boultbee on the charge of perjury, preferred by John L. Morrish, superintendent of the Velvet mines, on Sophie mountain. Morrish swore that the boarding-house occupied by 50 men, four dwelling houses occupied by 12 men and two stables constantly used by horses stood on the upper fraction of the Velvet group, which Algiers relocated under the name of the Velvet Fraction. Allen G. White, manager of the Leiter mine, corroborated Morrish's statement.

Just Across the Line.

The Columbia Telephone and Telegraph Co. now has its wires almost into Loomis, Wash.

The new town of Molson, on the western bordern of the reservation, and about twelve miles from Chesaw, already has fifteen or twenty business houses, and more opening up. Among the buildings being erected is an $8,000 hotel.

A contract for placing the new machinery in the large addition to the Northport smelter has been let to a Spokane firm. The three new furnaces and large boilers must be in readiness by the 10th of November, when the smelter will then have a capacity of twice its present size. Something like 500 men will be required to keep the smelter running at full blast, which means a pay roll of about $40,000 per month.

There is now somewhat over 40,000 tons of ore in the Northport smelter yards. The ore is coming in more rapidly than it can be treated. In ten days or such a matter the new boilers will be on the ground and set up when the three furnaces will be run steadily except for repairs. The foundation for the new smokestack is well under way. For the last few days furnace No. 3 has been handling 14 tons per hour or 336 tons per day.

It is said freight is coming in fast to Republic. The most of it comes over the Kettle Falls road, and as it is only about half as long as that by way of Marcus and Grand Forks, good time is made. The average time for freight is about two and one-half days from Meyers Falls to Republic. The rates are about 1½ cents per pound. When the cut-off is completed and the rest of the road slightly improved, which will be within four weeks, it is believed that the rates will be reduced to 1 cent per pound.

A plat of Kipling, the government town to be laid out by Tamlin & Adams, has been placed on exhibition. Twenty-six lots have, up to date, been reserved by intending purchasers. Kipling will be the agricultural town of the new country to be opened October 10 next, and until that time its exact location will be a mystery. There will undoubtedly be a good chance for a town to be established in some part of the centre of so rich an agricultural country, and Kipling will make a good trading point.

SECRET SOCIETIES RE-UNION.

Second Annual Re-Union Held at Nanaimo---Important Business.

At the second annual re-union of secret societies held at Nanaimo on the 11th day of August, 1900, when prominent workers of the mystic craft had gathered together from the cities of Nanaimo Vancouver, New Westminster and Victoria, an opportunity was presented and reference made to the action of the representatives of the British Columbia Medical Association residing at Victoria, in refusing to attend the members of the various secret societies of that city. It appears that the societies have been paying $3 a year for each member in standing to the medical officer appointed by the lodge in consideration of his attendance and medicines to the members. No reason has been assigned for the action taken by the doctors, but it is assumed by society men that the medical profession desired to increase the amount of sick benefit paid by the lodges from $7 to $10 per week and allow the individual members an opportunity of choosing their own physician, thus dividing the practice more evenly among the doctors. On the other hand, it is claimed by society men that the privilege of choosing lodge physicians, and it is a practice that the societies have enjoyed for many years, has proved the most satisfactory, both to the lodges and the members thereof. The small sums set aside monthly from the individual member provide for those who may fall for the time being from the ranks of wage-earners, and it certainly seems reasonable that the producing classes would be in a better position to contribute to such sickness than the afflicted one. Another great objection which the lodges have to the practice the Victoria physicians wish to establish is the confidence existing between patient and doctor. Certain prescribed illnesses will nullify not only the medical attention but also the sick benefits payable to members. Lodges have been refused by private doctors to disclose the condition of certain members, urging that such would be a breach of etiquette and of no concern to the lodge. It will be easily seen how difficult is the task of safeguarding the lodges against such evils. The Victoria societies have been fortunate in securing the services of three physicians to carry on the work in face of the opposition created by the medical association, but are unable to obtain additional assistance until the present medical act is amended, conferring as it does the powers of examination of new arrivals by a now very interested board. The matter has been placed in the hands of the government for over a month and as yet there are signs of dealing with the subject. Representations have again been made within the past week that the matter may be dealt with before the present session is ended. To strengthen the hands of the committee appointed by the federated board, the following set of resolutions was read by the president of the federated board of secret societies, Mr. W. H. Price, and was carried by the meeting unanimously:

Whereas the legislature of the province of British Columbia have enacted legislation conferring special privileges upon the learned professions, and

Whereas the powers and privileges so conferred were for the purpose of qualification and the protection of the public interest, and

Whereas the action of certain professional classes has been directed against the accustomed and legitimate active uses of benevolent societies and inimical to the best interests of the public welfare, and

Whereas difficulty exists in obtaining medical practitioners to carry on the work of the benevolent institutions, and

Whereas the B. C. medical act excludes from practice in British Columbia graduates from all colleges and universities unless they pass the examination provided by the B. C. medical council,

Therefore be it resolved that the combined benevolent societies of British Columbia here assembled protest against the unjust discrimination of the B. C. medical council and memoralize the B. C. legislature to repeal, during the present session, obnoxious clauses in the medical act and admit upon the provincial medical register all practitioners possessing a medical diploma from British or Canadian colleges or universities, holding a license to practice in any province of the Dominion of Canada, and

Be it further resolved that we vigorously protest against class legislation and ask that equal privileges be given the members of the legal and dental professions.

Be it further resolved that copies of these resolutions be presented to the premier, Hon. Jas. Dunsmuir, and also to the local press.

Moved by W. J. Gower, Victoria; seconded by Wm. Bennett, Nanaimo; assented to by S. H. Williams, Vancouver.

It was also further decided to hold the next gathering of the societies at Vancouver in August next, when it is expected that the brethren will prepare a program worthy of themselves and creditable to the city of which they are so justly proud.

MISLEADING STATEMENTS.

For a couple of months past a fanciful advertisement, like the following, has caught the observant eye of readers in the Victoria Times, which is written in all a town boomer's stirring style:

ALLISON TOWNSITE.

SITUATED ON THE BEAUTIFUL SIMILKAMEEN RIVER.

THE COMING BUSINESS CENTRE, ETC.

NOW is the time to secure lots before R. R. is commenced and the government offices are established here. Handsome bridge just completed connecting with Copper mountain wagon road.

STORES AND HOTEL NOW UNDER CONSTRUCTION.

DEWDNEY'S CANADIAN SYNDICATE.

For brilliancy of thought and imagination the above would probably hold first prize. To the closest observer in this district no building has been going on in said boom town since some two months and a half ago, when they completed their only two buildings in town, viz., a real estate office and a cottage. As for their being connected with Copper mountain by wagon road it is mere balderdash, unless they call a blazed trail a wagon road. It is a query in our mind why, if said boom town has so many natural advantages, it should resort to such misleading statements. If they could only take a kodak view of their "imaginary town" instead of the "real" one, what a big advertisement it would be.

Mrs. Maybrick, who has now served eleven years of a life sentence in Alesbury prison, is again attracting attention, and it is understood another effoat will be made for her release. The other day a representative of the Associated Press was permitted to see her, when she expressed indignation at the attacks made by the Liverpool Post on the late chief justice of England, Lord Russel of Killowen, former counsel for the prisoner. The late chief justice was a firm believer in Mrs. Maybrick's innocence. The unfortunate woman has strong hopes that the time will soon come when her long years of captivity will cease and she will be restored to her mother and country.

EDITORIAL COMMENT.

Adventists say the war in China marks the beginning of the end of the world. One thing is certain, it marks the the jumping off place for a score of lives.

The Vancouver News-Advertiser seems to be surprised that the government have not introduced a redistribution measure this session. The Turner combination are not likely to do anything so foolish.

The Kamloops Standard has worked itself up into quite an alarming state of excitement over the alleged broken pledges of the Laurier government. The symptoms are really bad.

Miners will be interested to know that the Dominion government has decided to no longer enforce the system of retaining to itself alternate placer mining claims on gold-bearing creeks in the Yukon.

Mr. Helmcken, M. P. P., has introduced into the provincial house a bill to enable voting machines to be used at elections throughout the province. The majority of the government supports would fill the bill nicely.

Sir Charles Tupper, Bart., has expressed himself as quite confident that the Conservative party will sweep the country at the next Dominion elections. No one would like to see Sir Charles the victim of misplaced confidence or in any such humiliated condition.

The Conservatives of the province are holding a convention at New Westminster, when it is expected the faithful will receive a new coat of war paint and be turned loose for the coming Dominion battle. The paint will need to be put on pretty thick to keep out the frost that is in store for them.

It is understood Mr. Wm. MacClain, the socialist labor leader, who made such an—not a horse—of himself in connection with the fishermen's strike on the Fraser river, recently, is going to oppose Mr. Aulay Morrison, the popular member for Westminster district in the Dominion house, at the coming federal elections. He is said to be backed by the fishermen's union. The laboring classes would do well to put such a professional agitator under a barrel.

The strike of the machinists in the employ of the C. P. R. is still on. The men on the western division are demanding more pay, which so far the company refuses to grant. The matter is to left to arbitration, which it is hoped will patch up the difference in a manner satisfactory to both parties.

The differences that were between Capt. Tatlow, member for Vancouver, and the government, which caused the captain to withdraw from the government caucus on the day the estimates were brought down, have been smoothed over, and Vancouver's third member is again safe within the fold. It is not stated how much taffy it took to do the job.

The Province in common with all of the newspapers and most of the people of British Columbia, constantly refers to the B. C. legislature as the provincial parliament and to the members thereof as M.'s P. P. As a matter of fact it is not a parliament at all but a legislative assembly and the members should not be designated M. P. P. but M. L. A. There is only one parliament in Canada and that is at Ottawa. The Ottawa parliament, by the way, includes both the house of commons and the sensate, although careless writers and speakers usually distinguish between the two.—Province.

On another page will be found a copy of the proceedings of the second annual re-union of the secret societies of the province held at Nanaimo on the 11th inst. The chief business under discussion was the action of members of the British Columbia medical association residing at Victoria, in refusing to attend the members of the various secret societies of that city. Several resolutions were passed and copies ordered to be presented to the premier and also to the press. They certainly seem to have a grievance, which the government will duly consider, and endeavor to set right.

ADMINISTRATOR'S NOTICE.

In the matter of the estate of Hugh McDiarmid, the younger, lately of the village of Princeton in the County of Yale in the Province of British Columbia, miner, deceased.

NOTICE IS HEREBY GIVEN pursuant to the Trustees and Executors act, of the Revised Statutes of the Province of British Columbia, 1897, that all creditors end others having claims against the estate of the said Hugh McDiarmid, junior, who died on or about the 25th day of May, 1899, are required, on or before the 15th day of October, 1900, to send by post pre-paid or deliver, to John A. Kirkpatrick, Nelson, B. C., the Administrator of the personal effects of the said deceased, their Christian and surnames, addresses and descriptions, the full particulars of their claim, the statement of their accounts and the nature of the securities, if any, held by them.

And further take notice that after such last mentioned date, the said Administrator will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and the said Administrator will not be liable for the said assets or any part thereof to any person or persons, of whose claims notice shall not have been received by him at the time of such distribution.

Dated the 18th day of August, 1900.

JOHN A. KIRKPATRICK,
Administrator for Hugh McDiarmid, Junior, deceased.

LATEST WAR NOTES

Russia, Germany and Japan Declare War on China

And Ask Other Powers to Withdraw ---France Looking for a Scrap---Buller's Men Caught in a Trap.

A Chee-Foo despatch, under date of Aug. 25th, says it is rumored on good authority that Russia, Germany and Japan have declared war on China, and will invite England and the United States to withdraw.

The Pall Mall Gazette of London, echoes the voice of the other leading newspapers of that city when it says, "That the French government is preparing for war there can be no longer any doubt."

Late news by the way of Berlin state that large masses of Boxers are still in the southern part of the capital, and that a force of troops under Prince Ching is in the Imperial city.

The diplomatic feature of the Chinese situation in Washington takes precedence over both the naval and military features. The most unsatisfactory development, so far as the pacific programme of the Washington goes, was the receipt of a despatch from Admiral Remey, conveying the reports which had reached him of a disagreement between the commander of the Russian forces in Peking and the other internationals. The text of this despatch was not made public, but it is understood that the Russian commander had forbidden communication with the Chinese, on the ground that Russia was technically as well as practically at war with China.

Now that the allied forces have entered Peking, the necessity for the maintenance of concord among the powers is most pressing. Yet fears are increasing that the strain of conflicting interests and ambitions may cause a cleavage among the nations interested. This has been demonstrated already by the individual action of Russia in seizing the present opportunity to extend her frontier into Manchuria, and the recent incident regarding the landing of British troops at Shanghai.

Parrots That Talk.

The story is told of an Idaho preacher who once owned a talkative parrot, and like most parrots it could swear. To break the bird of the habit the preacher had striven for months, but in vain. Finally he adopted the "sure remedy" proposed by one of his laymen. He was told to have a tub of water ready and when he caught the bird swearing again to take the bird, cage and all and swing them around his head swiftly for a few moments then souse the whole business into the tub of water. This appeared to be the pure article—just what the preacher was looking was looking for. He hurried home and got the tub of water in readiness, then awaited polly's criticism. It came in a hurry. "Hello, Polly! P-o-l-l-y! Ha! ha! ha! Damme, damme! Polly wants a cracker! Damme!—" The preacher waited for no more. He grabbed the cage and with mighty effort swung it above his head, and, after making several sharp twists and turns, brought it full force into the water. When he regained his wind he carefully took the cage out and placed it beside the tub, then in his kindest and most gentle voice asked: "How does Polly feel now?" The parrot looked crestfallen. She winked and blinked and shook herself, but said nothing. When she had regained her perch and straightened out her tail feathers she let out several of the most unearthly war whoops the preacher had ever heard. But the divine was undaunted and repeated his kind words of a few moments before: "How does Polly feel now?" "Bur-r-r-up! Haw! Haw! Oh-I'm-all-right,-but-where-in-hell-were-you-when-the-cyclone-struck us!" said Polly.

Blue Ribbon Extract of Lemon is made from the natural fruit.

Princeton merchants all carry Blue Ribbon Extracts.

NOTE AND COMMENT.

JUST SO:—A few years ago you hardly ever heard of the Boundary country, and now you can not pick up a newspaper anywhere without finding from half to three or four columns devoted to the mineral wealth of the district. And still there are people here who can not realize that a newspaper is of any benefit.—Grand Forks Miner.

SAID BY BRYAN:—"Sympathy for the Boors does not arise from any unfriendliness toward England; the American people are not unfriendly toward the people of any nation. This sympathy is due to the fact that, as stated in our platform, we believe in the principle of self-government and reject, as did our forefathers, the claims of monarchy. If this nation surrenders its belief in the universal application of the principles set forth in the Declaration of Independence, it will lose the prestige and influence which it has enjoyed among the nations as an exponent of popular government,"

A MULISH PUN: Thirteen cars of mules are awaiting shipment from Seattle to the Philippine islands. Of course the war is over, but then, dontcher know, the mules will do no harm there anyway.—Cascade Record.

SETTING A GOOD EXAMPLE: A petition is being circulated in Kamloops, signers of which say: "We solmnly pledge ourselves before God and our fellow citizens that we will hereafter have no dealing whatever with Chinese—neither to buy from them, sell to them, nor employ them, and will use every lawful means in our power to induce others to do the same."

Mining News

Two carloads of ore from the Golden Eagle, North Fork of the Kettle river, were shipped last week to the Trail smelter. The first shipment netted $21.85 a ton.

The Dunsmuir corporations are now advertising for 500 white colliers and mine workers for their concerns in the Nanaimo, Wellington and Comox district, respectively.

Mr. McBride has, as minister of mines, promised, in response to a request of the Kootenay mining boards of trade, that his department will at once arrange for the regular publication of government bulletins as to the province's mining output, these to be sent out, if possible monthly.

The Miner Graves syndicate has been experimenting with a diamond drill at Phoenix lately with good success. On the Banner claim of the Grey Eagle group the continuity of the ledge was proven at 200 feet. The boring will be continued until a depth of 500 feet is attained.

The Le Roi No. 2 is now shipping regularly. It will ship for the first month 3,500 tons. Later the output will approximate 10,000 tons monthly. The ore shoot at the west end of the Annie is the richest in the camp. It is seven feet wide at 150 feet depth, and runs at an average value of over $50.

Messrs. Harry Snibley and Archie Chisholm, two well known prospectors, have returned to Grand Forks from Franklin camp, North Fork of Kettle river. They report having made a big copper-gold strike at the mouth of Franklin camp. In McKinley camp, a few miles from Franklin, the McKinley claim has been bonded for $70,000 to the Denver Smelting Co.

The Rossland Miner gives the following as a partial list of the dividend paying mines of British Columbia: Camp McKinney paid, up to June, 1899, $311,965; the Fern, up to June, 1898, $1,000; the Hall Mines, Limited, up to May, 1899, $120,000; the Idaho, up to January, 1899, $292,000; the Last Chance, up to April, 1899, $45,000; the Le Roi, up to November, 1899, $1,305,000; the Queen Bess, up to July, 1899, $25,000; the Rambler-Cariboo, up to December, 1899, $60,000; the Reco, up to January, 1898, $297,500; the War Eagle Consolidated, up to February, 1900, $545,250; the Ymir up to November, 1899, $30,000.

The Seattle Post-Intelligencer has in a recent issue some suggestive details concerning mine prospects in the Mount Baker or Chilliwack river district, and also regarding the care that is being taken by American owners, to be on the safe side should some of the good or promising claims be found to be within British Columbia. The article runs as follows: Good tidings of the rapid advance of mining operations in the Mount Baker gold fields were taken to Whatcom on Thursday by H. G. Anderson, who arrived from Red mountain, via Chilliwack and Vancouver, B. C. All miners who have visited this camp say that it is very rich. The Gold Basin ledge on Red mountain, in which Chas. D. Lane, of San Francisco, and J. O. Carlisle are interested, is said to be a veritable bonanza to the owners. Ore taken from the Gold Basin ledge runs as high as $3,000 per ton. The gold can be seen with the naked eye and stands out in beads on the quartz. The Red Mountain Gold Mining Co. has a large force of men at work driving a tunnel in to tap its ledges. Cabins are being built for winter quarters. It appears that the location of the international boundary line is in question, and fears are entertained that Red mountain and other mountains in that vicinity may possibly be in British Columbia."

Proposed Increase in Tax on Mines.

A memorial, signed by a number of persons and companies interested in the mining industry, says the News-Advertiser, has been forwarded to the government at Victoria, pointing out the detrimental effect which is likely to be caused the principal industry by the proposed doubling of the tax on the output of the metalliferous mines of the province.

The memorial states that while British Columbia is rich in mineral deposits and has everything necessary for their development, nothing can be achieved without capital, and that must come from abroad. War and unsettled conditions in other parts of the world afford an opportunity for directing attention to the openings in British Columbia for mining enterprise, while the labor troubles which existed here last year have happily ended. It is, therefore, considered that to make a change in the taxation of mines at this time would be most inopportune and tend to create an impression that there is no continuity or fixity in the government's financial policy, and consequently that it is risky to invest money in this province.

Important.

As the Progress intimated last week, the chief commissioner of lands and works purposes to visit Chilliwack shortly after the close of the session of the legislative assembly. The minister of mines has also promised to come if possible. The Progress would like to see our ministers royally entertained, as the people of Chilliwack so well know how to do it, but they must take time by the forelock and not leave matters of organization until the last moment, when details might be overlooked. To this end we suggest to our reeve that he take the matter in hand looking towards the immediate appointment of a committee. The duties of this committee would be to see that the ministers are fittingly billited, to organize an itinerary through our farming lands, to organize an excursion to our adjacent mining locations and generally to give them such a hearty and rousing reception and welcome as Chilliwack gave to the late premier, the Hon. Theo. Davie, when he visited us.—Chilliwack Progress.

Among the Editors.

The Kettle Falls Courant plant has been moved to the new town of Molson in Washington, where a newspaper is to be started by Editor Batterson.

Elmer D. Hall, one of the proprietors of the Phoenix Pioneer, was in Bossburg this week visiting his father, J. R. Hall, and shaking hands with his many old friends. Elmer has a prosperous look about him, carrying the sign that the Pioneer is a dividend payer.—Journal.

The latest, wildest and baseless rumor sent out by the Grand Forks boom correspondent is to the effect that the B. C. mines of Summit camp has purchased the Cascade water power improvements. Last week he had the B. C. mine sold to the C. P. R. When he tears his literary hair and writhes under the weight of an abnormally developed mentality, he can spear any sort of an idea from the surrounding atmosphere.—Cascade Record.

Women in Duck Trousers.

Now comes the woman who wears white duck trousers, says the New York Sun. Quite a number of them have been seen recently aboard yachts near Larchmont and New Rochelle. One woman who returned recently from a cruise on the sound with her husband confessed that she wore them. "The reason the yachting women take the new style," she said, "is because it is much cooler and then our skirts are not dragging in the water in the bottom of the boats as is often the case in catboats and yawls. I am fond of sailing and must say that I can move about more quickly in trousers than I can in skirts."

World-Wide Pick-Ups.

One element in the competition movement against the Chinese of Grand Forks has failed. The white steam laundry has closed down, beaten by Mongol cheap labor.

One hundred a nineteen invalided Canadian soldiers landed at Quebec on Saturday, the 23th inst., by the steamer Lake Ontario. The returning soldiers received a very hearty welcome.

The Empress-Dowager of China and Prince Tuan are reported captured.

Lieut. Cardua, formerly of the Staats artillery, who was convicted of being a ringleader in the plot to abduct General Roberts and kill the British officers at Pretoria, was shot Friday afternoon last.

Bob Fitzsimmons knocked Sharkey out in the second round, before the Coney Island Sporting Club, on the night of the 24th inst.
