TELEGRAPHIC TICKS.

A Fracas in the Legislature—Bad Accident in New York—Chinese Rebels and Government Troops Fight.

Victoria, May 28.—Capt. Tatlow accused Premier Dunsmuir on the floor of the house of making $2,000.000 on the Canada Northern deal. Dunsmuir replied: "Your a liar and a cur!" Some difficulty was experienced in preventing a fight.

London, Eng., May 27.—Continental despatches report crisis in Spanish cabinet.

At Choo Choo, China, in a fight between government and rebel forces, 1500 were killed.

Kitchener reports that another 200 Boers have surrendered.

New York, May 28.—One man was killed and 150 wounded on Fifth Ave., by the collapse of a sidewalk during a street parade.

CELEBRATION COMMITTEE.

The committee for arranging the celebration on July 1st and 2nd, met Thursday afternoon and a list of horse races and athletic sports was drawn up. The finance committee reported good progress; the Princeton subscriptions amounting to over $400.00, while Ashnola is yet to hear from. The energetic member of the committee from that place Mr. W. A. McLean, has kindly offered the use of two teams for the purpose of leveling and putting the race track in shape. Owing to the progress made by the collectors, it was felt by the committee that the amount mentioned on the posters, $500.00, could be safely exceeded. The program as it now stands calls for about $530.00 to be distributed in prizes. Mr. A. R. Barrow has offered his services to the committee in measuring out and marking with stakes the various distances for the different races. Two men were put to work Friday to clear the race track and football grounds.

In another column is the program of events as arranged by the committee.

CHURCH NOTICE.

Service will be held in Mr. McLean's dining room, Ashnola, at 11 a. m., and in Mr. Mason's house, Princeton, at 7:30 p.m Sunday school at 3 p. m. Everybody heartily invited.

It is reported that the Standard Oil Company have bonded a claim on 20-Mile Creek from Mr. Geo. Stumps. The price is said to have been $30,000.00.

HOTEL ARRIVALS.

SPECIAL EVENTS 10 A. M., JULY 3RD.

Drilling contest, no entrance fee	$25.00	$15.00
Chopping contest, no entrance fee	10.00	5.00

BRIEF NEWS ITEMS.

Condensed History of Events of the Week in and about Princeton.

Mrs. Silverson has a remarkably fine display of flowers in C. Barber's window.

Mr. C. Stewart of 15-Mile Creek, came up Tuesday from that place, returning home on Thursday.

Born—On One Mile Creek on Saturday the May 24th, the wife of Mr. Al Oelrich of a daughter.

Mr. Arthur Hickling, manager of the Vermilion Forks Mining & Development Company, is expected today.

Notice—I will not be responsible for any horses that jump or break down the fence of my pasture. C. Richter.

Two visitors from the Boundary were in town this week, Mr. F. W. Walker, a Midway merchant, and Mr. E. L. Steves of Eholt.

Assessment work has been finished on the Kenley claim on Copper Mountain, belonging to Messrs. Barr Hall and E. Waterman. The work consists of a 15-foot open cut, all of which is in ore.

Murdoch McIntyre returned last Saturday from Aspen Grove, where he has been doing work on the Dred Not claim. Mr. McIntyre took out over 30 tons of fine ore in running a shallow open cut about 40 feet long.

A rumor comes in via Penticton to the effect that the railway bills have passed in the local house. The Canada Northern is said to have been subsidized to the extent of $5,000 per mile, and the Coast-Kootenay $4,500.

An article on the Fernie disaster in which Mr. Alexander Sharp gives his views on the laws regulating the coal mining industry in this province, was unavoidably crowded out of this issue, but will appear next week.

Messrs. Silverthorne and Rogers have finished work on the Georgia at Aspen Grove, and are now going to Friday Creek to do some work on their claims in that camp. A shaft 43 feet deep was sunk on the Georgia and some excellent ore was encountered.

Mr. W. C. McDougall, general manager of the Olalla Copper Mining & Smelting Company, was in town this week. Mr. Mcdougall states that his company is preparing to develop its Olalla properties on a large scale. Mr. Brewer, the president of the company is now on his way in to inspect the company's holdings.

TATLOW'S ACCUSATIONS.

A remarkable scene was presented in the provincial legislature when Capt. Tatlow of Vancouver, accused Premier Dunsmuir of making two million dollars out of the Canada Northern deal. Instead of attempting to defend himself, the Premier called his accuser a liar and a cur, and a fist fight was narrowly averted.

Those who followed the Curtis investigation closely will be inclined to agree with Capt. Tatlow, that the Premier and his friends are getting a substantial rake-off on the deal. It is difficult to explain the insane folly of the bargain on any other grounds, Capt. Tatlow is a man of honorable and upright character, and doubtless knew what he was talking about when he made the accusation.

The Premier is reduced to the using of very common vulgar epithets in defending himself. His lack of poise and dignity are responsible to a great extent for the unseemly quarrelings and bickerings that have marked the present session, and show him to be totally unfitted for the important position he holds.

THE OLALLA COMPANY.

The Victoria Colonist, the official organ of the Dunsmuir Government has been devoting considerable space recently to the Olalla Copper Mining and Smelting Company of New York, in an endeavor to prove it irresponsible and unworthy of public confidence. This company holds a charter for the building of a line of railway from Penticton to Princeton, and has been trying to open negotiations with the government for the building of a line from Midway to the Coast. It has offered to do this on much more favorable terms to the province than any other company, and as a guarantee of its good faith has offered to deposit $5,000 with the government pending arrangements being made. It further agrees to place in the bank $100,000.00 as a forfeit, if it failed to carry out the terms of the agreement.

The government has persistently refused to consider the proposals of the company, though for what cause no reason is given. There can be little doubt the real reason is that the government is completely controlled by the C. P. R., and dare not consider a proposition coming from any other company.

Although the Olalla Company may not build the Coast-Kootenay railway, we have to thank it for helping to disclose to the people of British Columbia who their real masters are,

NOTICE.

A sitting of the Board of Licensing Commissioners for the Nicola District will be held at Princeton on Monday, June 16th, 1902, at one o'clock, p. m., to consider the following applications:—

Mrs. Amy Worgan, of the Similkameen Hotel, Allison, Renewal License.

Daniel L. Munro, Way Side House, Nicola Road, Renewal License.

HUGH HUNTER,
Chief License Inspector,
Nicola District.

Princeton, June 5, 1902.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 160 acres of mountain pasture land about two miles east of Princeton, commencing at a point 20 chains east of H. H. Thomas' N.E. corner, and running 20 chains north, thence 80 chains west, thence 20 chains south, thence 80 chains east, to point of commencement and containing 160 acres.

Princeton, June 5, 1902.
Jun-7 CURRIE SCHISLER.

Notices of Forfeiture.

To WM. HOPKINS and THOMAS GRAHAM.

You are hereby notified that I have expended the sum of ($100.00) one hundred dollars in labor on the April Rool mineral claim, in Olalla Camp.

In order to hold said claim under provisions of Section 24 of the Mineral Act, such being the amount required to hold said claim for the year 1901. And if at the expiration of 90 days of publication of this notice you fail or refuse to contribute your portion of the expenditure required under Section 24, together with all cost of advertising, your interest in said claim shall become vested in the subscriber.

Dated at Keremeos this 2nd day of June, 1902.

Big Olalla Co. Is Not a Fake—Backed by Men of High Standing.

William J. Brewer, of New York City, president of the Olalla Copper, Mining & Smelting Co., was a visitor in the city this week, and in view of the criticisms that have appeared in the coast papers of the methods of the company, Mr. Brewer consented to give the Pioneer man the facts in the case. It makes an interesting story, and in consideration of the fact that Mr. Brewer is himself a man of no little prominence, with ample capital to carry out all undertakings, it is of much importance to the development of southern British Columbia. Mr. Brewer is a law partner of Judge A. VanNess, of the New York judiciary, and while not a practical mining man himself, has made a study of copper for a number of years. In fact, he has written a work called "History of Copper."

The Olalla Co. was recently incorporated in the east with a capital of $8,000,000, in $25 shares. They have acquired several groups of most promising mineral claims in the Olalla section of the eastern Similkameen, including a townsite, etc. A prominent firm of brokers in New York is placing the stock for them, such of it is as for sale, and in doing so has advertised extensively.

Thus far, the company or its predecessors whom it bought out, have expended between $50,000 and $75,000 in the development of its properties, and is now mapping out an extensive system of exploration. It is the expectation to spend in the neighborhood of a million dollars on the properties in this development. From their investigations the management believes that they have one of the best groups of copper properties in the Similkameen, and they propose to operate it thoroughly and systematically.

Such mining engineers as Wayne Darling have reported most favorably on the properties, that gentleman now having been retained as consulting engineer for the company.

Mr. Brewer left Wednesday with a team for Olalla, where he expects to meet W. C. McDougall, the general manager of the company, the properties having been acquired from Mr. McDougall and J. B. McArthur. After spending a few days at the mines, he will proceed immediately to New York, and on his recommendations the directors will arrange a plan of development, installing machinery, etc.

OFFERS TO BUILD RAILWAY.

Recently, the company made a proposition for the building of the Coast-Kootenay railway, but the government would not listen to this, it is believed for political reasons, and gave the Olalla Co. no satisfaction whatever. Mr. Brewer says that his company is prepared to put up a cash forfeit, as a guarantee of good faith and go on with the work. In any event the company expects to build its own short line, to feed the smelter, which it fully intends to erect as soon as the tonnage can be provided for it. This has been definitely decided upon.

NOT A "WILD CAT" SCHEME.

Referring to the criticisms that have been made of the company's methods of flotation, Mr. Brewer said:

"I know personally that the gentlemen connected with the Olalla Co. would not be connected with a proposition that was not straight and above board. I myself have put many thousands of dollars into it already, and the other officers have done the same. If it was a 'wild-cat' concern do you think we would be selling shares at $12.50 each? No sir; we mean business, and we shall do our mining in a business like manner. We honestly believe that we have one of the greatest copper propositions in this province, and we are proceeding at once to work it for all that it is worth."—Phoenix Pioneer.

BRITISH CAPITAL FOR STEMWINDER

Particulars of One of the Largest and Most Economically Worked Mines in America.

It is stated on the most reliable authority that the New Fairview Corporation, Limited, has received an offer of a large sum of money for one of their properties, the well-known Stemwinder mine, from an English company, which has been looking about for a well developed mine in British Columbia. The price offered is close on $1,000,000.

In all probability this offer will be accepted by the corporation within the next two months.

The New Fairview Corporation, as is generally known, owns the townsite of Fairview, the hotel, about 17 mineral claims and 400 acres of valuable coal lands, besides other franchises.

The corporation was reorganized some little time ago for the purpose of securing further capital with which to develop the Stemwinder mine. Messrs. Gooderham and Blackstock advanced the old company, about two years ago, a considerable sum for development purposes, and this has been practically repaid.

The corporation has recently purchased another 20 head of stamps, which brings their milling capacity up to 46 stamps. The ore is widening out with depth, and at the 300-foot level the lode is feet wide with values from $5 to $10 per ton.

The total cost of mining, milling and treating the concentrates has been demonstrated not to exceed the remarkably low sum of $1.75. The mill of 46 stamps can crush 150 to 175 tons of ore per day. The company has at present on hand some $20,000 worth of concentrates, which are now being sent to the smelter.

At the present time about 200 tons of ore are being broken down daily in the mine, about two thirds of which is being left in the stope for the mill, when the whole 46 stamps are in running order. The average value of the ore now being taken out is $5.50 per ton.

An electrical power plant is being installed, power being obtained from Reed Creek, over which the company holds the necessary rights. When completed, this plant will still further reduce the cost of mining and milling.

If the projected sale is carried out—as in all probability it will be—a large amount of capital will be expended, and the Fairview township will doubtless develop rapidly. As a sign of awakening interest in British Columbia mining in British financial circles, the proposed purchase of the Stemwinder is an important event.—Victoria Times.
