

# SIMILKAMEEN

Nature has Endowed Similkameen with Vast Riches.

None So Blind to Reason as those who Stubbornly Resist It.

Having all the Natural Resources for Making the People Prosperous it is almost Criminal for Governments to Passively Witness the Similkameen Made the Plaything of Rival and Procrastinating Railway Corporations—United Effort of the People and Legislators Can End it.

Vol. v. No. 36.

PRINCETON, B.C., SATURDAY, DECEMBER 17, 1904.

\$2 a Year, in Advance.

## NO DOUBT ABOUT IT

### Railway Companies to Build Into the Similkameen In Spring.

#### Routes Selected and Preliminaries are Arranged; Now Awaiting Local Legislation.

A sensation was created by the announcement made at a board of trade meeting in Victoria recently that the Victoria & Sydney railway was about to be abandoned and the Great Northern would withdraw entirely from Victoria. The C.P.R. thus has a monopoly of the carrying business for Victoria and merchants and others are beginning to awaken to the perilous fact that they are at the mercy of the giant corporation.

The Kootenay Central which connects Golden with the boundary, has a Dominion subsidy of \$3,500 a mile and will seek at the coming session of the local legislature a cash subsidy, a guarantee of bonds or a land subsidy. In case none of these three plans be accepted by McBride it is suggested that in dealing with railways seeking assistance the administration should set aside the revenue accruing from lands likely to be developed in the near future by railroads, and allow the railway bonds to be guaranteed by such lands.

A party of Seattle mining men who were recently at Hedley stated that the railway question was finally settled but that the public would not get the details until the railway companies were ready to give it to them, and that would not be before the provincial legislature met. They had the best of authority for stating that both the C.P.R. and the G.N.R. had definitely arranged to go into the Similkameen as soon as preliminaries could be fixed and weather permitted. The C.P.R. was compelled to build because the Great Northern was doing so and commissioners from the two great railway companies had met and arranged the routes so the lines would not parallel each other and tap different sections of the country through which they passed. The Great Northern would build under the V.V. & E. charter granted by the Dominion government, the provincial V.V. & E. charter having expired. The Dominion charter allows the railway to go in and out of the boundary in several places but gave no expropriation powers to branch lines, only to the main line. When the provincial legislature meets the Great Northern will ask for power to expropriate lands and with this privilege secured actual construction into the Similkameen will begin and the C.P.R. will go into Nicola. Then the biggest boom in mining history begins.

## A SCHOOL OF MINES

### Significant and Favorable Comment by Boundary Creek Times.

#### Federal and Provincial Aid Anticipated on Behalf of This Needed Institution.

The Boundary Creek Times says: "We are heartily in accord with the proposition for the establishment of a School of Mines at Princeton, recently advocated by the STAR. The district of which Princeton is the natural centre, has long been regarded as a region possessing illimitable and diversified mineral resources. Its development has hitherto been greatly retarded through lack of transportation facilities. There is, however, good reason to believe that the coming year will witness the invasion of the Similkameen by one, and possibly two leading railway companies. The attitude of the Great Northern is significant. Positive advices from Winnipeg are to the effect that C.P.R. engineers are at present engaged in cross-sectioning the survey made west from Midway to Spence's Bridge four years ago. With the inauguration of construction operations the Similkameen will witness an influx of people unparalleled in the annals of British Columbia. The district, for more than a decade, has been regarded as a veritable "promised land," but thousands of people each succeeding year experienced a fresh disappointment at the delays of the big railway corporations. Collateral conditions having come into line it now looks as though railway extension cannot be longer delayed without loss of prestige—and tonnage—to the company that is second to make the start. With the prospect of a vast increase in the population of a district possessing so many varieties of minerals, including quicksilver, the need of a School of Mines where intelligent instruction can be imparted, is imperative. We have no doubt both the provincial and federal governments will not be slow to appreciate the situation and will make substantial grants in favor of the proposed institution. And we especially instance the federal authorities who have shown wise discernment in the consideration of the requirements of the mining regions of British Columbia, as was so well illustrated by the financial aid granted the now flourishing silver-lead industry."

Bob. Cramer, Bert Bryant, Pete Johnson, Charlie Willerson, Dunc. and Hugh McRae are all at work on Copper mountain doing assessment and development work on their various mineral properties there.

## MINING PROSPERITY

### Boundary Camps are Active and Progress and Prosperity Reign.

#### Nickel Plate Mine the Richest in B.C. If not in America—Barrels of Bullion.

Greenwood is now enjoying a period of prosperity and business activity unknown since the pioneer days. And it is all due to the revival in mining. What was supposed to be wholly a low grade district is now taking rank among the high grade camps. Discovery following on development has shown that there is rich ore in extensive bodies as on the Bay claim where a phenomenal strike of free gold was made recently. Twenty sacks of this ore treated at the Trail smelter in June last averaged \$97 per ton. The last shipment of 19 tons to the Greenwood smelter in October gave a return of \$1213.90 or \$71.76 per ton. The Silver Cloud runs \$113 to the ton and the Skylark \$107. The latter is said to contain large ore reserves and development consists of a 120-foot incline shaft sunk on the lead. There are two levels. The Goldfinch, situated on Twin creek, near the E.P.U., is a very promising property with four well defined true fissure veins. Two carloads of ore treated at the Trail smelter gave \$100 to the ton in gold and substantial values in silver. The B.C. mine in Summit camp is about to be sold. It was originally bought for \$300,000. The Barbara will shortly begin shipping ore which runs from \$60 to \$82 per ton.

After a recent visit to the smelter and mines, Jay P. Graves, general manager of the Granby mines and smelter, announced that \$125,000 would be spent next year in improvements. Two additional furnaces increasing the capacity of the smelter from 2,000 to 2,700 tons daily will be installed in February.

The item in last week's STAR referring to the bonding of the Maggie mineral claim near Ashcroft on the Cariboo road, is confirmed. The bond is for 18 months, and the total investment will amount to \$160,000. Mr. Rodgers, of the Daly Co., Hedley, is the purchaser, and will put on a large force of men and spend \$100,000 in development before the expiration of the bond limit.

The manager of the Daly Reduction Co. at Hedley states that a big steam boiler will soon be installed and the capacity of the mill increased to 100 stamps. He expects to make a daily cleanup of \$10,000 when running full power; at present he was taking \$1,500 off the plates daily. The Hedley mine is richer than anything ever found at Cripple Creek, Colorado.

## THE BOARD OF TRADE

### Increase in Medical Subsidy is Suggested—Meteorological Data.

#### Board Will Address Memoranda to Messrs. Ross and Shatford re Mining School.

The board of trade meeting on Thursday evening had little more than a quorum, there being present Messrs. Groves, Cowan, Webb, Jackson, Lyall, Summers and Wright. In the absence of the secretary reading of the minutes was postponed. President Groves stated he was in receipt of a communication from Dr. Schon of Greenwood, who was expected to begin practice here on or about the 17th instant.

It was moved that the secretary be instructed to write L. W. Shatford, M.P.P., asking him to exert his influence on behalf of an increased medical subsidy from \$300 to \$500.

The board has under consideration ways and means for securing more complete meteorological data for general distribution. Many inquiries regarding climatic conditions here as a health resort for pulmonary and wasting diseases could be satisfactorily answered with such data and the adaptability for fruit culture be determined.

Rev. A. J. Fowlie and Angus Stewart were added to the membership roll.

It was moved that memoranda be sent to Duncan Ross, M.P., and to L. W. Shatford, M.P.P., respectfully directing their attention to the necessity for a school of mines in the province and urging the advantages of Princeton as a suitable location for it. In the debate upon the motion it was shown that nearly every variety of mineral and coal, placer and ore mining was found at Princeton.

The question of railway subsidies was informally discussed. Notice of motion re school of mines was introduced and will be read at next meeting. The secretary was instructed to write for blue books, geological maps, etc., the whole to form a nucleus for a board of trade library.

Don't forget to bring wives and sweethearts to the Christmas tree next Friday evening. Santa Claus sends wireless greetings from his home near the aurora borealis to his precious children and asks them all to be present. He says he is not as young as he used to be but he will come on the wings of the wind with 8 swift reindeer decked with tassels and bells. He has a present for all the boys and girls.

Miss Eliza A. Bromley returned from Pembroke, Ont., last week to spend the holidays at her home, Bromleyville.

LOOKING AHEAD.

Inasmuch as the inhabitants of the Similkameen are concerned the coming year is pregnant with big events. Of overpowering precedence and importance is the projected, long-talked-of, long-delayed Coast-Kootenay railway—on this rock many a frail political bark has been wrecked.

It is well known that the Great Northern company are most anxious to come into the Similkameen. Their railway and mineral experts have made close examination of the resources of the district and the resultant tonnage.

south of the international boundary.

In view of the facts that very little tonnage will offer west of the mineral belt in the Hope range on the Canadian side and that this section is already served by a railroad and a navigable river, it will be conceded by intelligent persons that President Hill's desire has the force of reason and economic business considerations.

NOTES AND COMMENTS.

The Hon. Raymond Prefontaine, Canadian minister of marine and fisheries, states that the parliament of 1905 will take final action favorable to the beginning of work on the proposed canal from Georgian bay to the St. Lawrence river.

A political weather prophet says that the fine, mild winter thus far is accounted for by the deferred 'summer session.'

A General Banking Business A general banking business transacted by the Bank of Hamilton. Capital all paid up, \$2,229,280.00.

NOTICE.

Shamrock and Billy Goat mineral claims, situated in the Osoyoos mining division of Yale district. Where located: On Riordan mountain.

Take notice that I, R. H. Rogers, as agent for Robert Gaede, free miner's certificate No. B7828, B7824, intend sixty days from the date hereof to apply to the Mining Recorder for certificates of improvements, for the purpose of obtaining a crown grant of the above claim.

Take notice that I, R. H. Rogers, as agent for Robert Gaede, free miner's certificate No. B7828, B7824, intend sixty days from the date hereof to apply to the Mining Recorder for certificates of improvements, for the purpose of obtaining a crown grant of the above claim.

NOTICE.

L.X.L. mineral claim, situated in the Similkameen mining division of Yale district. Where located: On Copper mountain.

Take notice that I, H. H. Thomas, free miner's certificate No. B72190, for myself and as agent for W. H. Thomas, free miner's certificate No. B72190 and S. L. Allison, free miner's certificate No. B79214, intend, sixty days from the date hereof to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

NOTICE.

Princeton mineral claim, situated in the Similkameen mining division of Yale district. Where located: Kennedy mountain.

Take notice that I, Ernest Waterman, agent for the Vermilion Forks Mining and Development Company, Limited, free miner's certificate No. B72174, intend, sixty days from the date hereof to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

NOTICE.

THIRTY days after date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at a point on the west line of lot 300, 20 chains south of the north-west corner of lot 300.

Commencing at a point on the west line of lot 300, 20 chains south of the north-west corner of lot 300.

NOTICE.

St. Lawrence, St. George and St. Helen mineral claims, situated in the Similkameen mining division of Yale district. Where located: On Bear creek.

Take notice that I, F. W. Groves, acting as agent for William Henry Armstrong, free miner's certificate No. B78208, and Charles F. Lawrence, free miner's certificate No. B72119, intend to apply to the Mining Recorder for certificates of improvements, for the purpose of obtaining a crown grant of the above claim.

NOTICE.

TAKE NOTICE that sixty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for permission to purchase 100 acres of Crown lands for pasture purposes: Bounded on the north by lot No. 999, on the west by lot No. 257, on south by Chas. Asp's preemption on east by China creek, in all 100 acres more or less.

NOTICE.

NOTICE is hereby given that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 100 acres of mountain pasture land situated in the Nicola division of Yale district.

NOTICE.

Take notice that I, J. Fraser Campbell, agent for Sydney M. Johnson, free miner's certificate No. B78808 and J. Fraser Campbell, free miner's certificate No. B78807, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim.

NOTICE.

Silvessides and Ironsides mineral claims, situated in the Osoyoos mining division of Yale district. Where located: Camp Hedley.

Take notice that I, J. Fraser Campbell, agent for Sydney M. Johnson, free miner's certificate No. B78808 and J. Fraser Campbell, free miner's certificate No. B78807, intend, sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements for the purpose of obtaining a crown grant of the above claim.

NOTICE.

THIRTY days after date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at a point near west end of Wilson's claim.

Commencing at a point near west end of Wilson's claim.

NOTICE.

NOTICE IS HEREBY GIVEN that the Vancouver and Coast-Kootenay Railway Company will apply to the parliament of Canada, at its next session, for an Act to increase its capital in which it may construct its works.

NOTICE.

THIRTY days after date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at a point south of B. White's claim.

Commencing at a point near west end of Wilson's claim.

Commencing at a point near west end of Wilson's claim.

NOTICE.

THIRTY days from date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at a point near George Urquhart's claim.

Commencing at a point near George Urquhart's claim.

NOTICE.

THIRTY days from date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at the S.W. corner of lot 300, thence east 40 chains, south 80 chains, west 20 chains north 40 chains, west 110 chains along the north line lot 230, north 50 chains along the east line lot 71, west 20 chains to the S.E. corner of lot 75, north 125 chains along the east line of lot 240, south 160 chains along the west line of F. W. Groves and T. H. Parr's coal claims, east 50 chains along the south line of T. H. Parr's coal claim, north 20 chains to point of commencement and containing 640 acres.

NOTICE.

THIRTY days after date I intend to apply to the Chief Commissioner of Lands and Works for a license to prospect for coal on the following described lands:

Commencing at a post marked E.S.N.'s south-west corner.

Commencing at a post marked E.S.N.'s south-west corner.

NOTICE.

Cousin Jack, Vmir, Morning, Oshkosh, Winnipeg, Blackbird and Berlin mineral claims, situated in the Similkameen mining division of Yale district. Where located: Boulder creek Mountain.

Take notice that Alexander Gallinger, acting as agent for the Boulder Mining Co. Limited, free miner's certificate No. B71941, intend 60 days from the date hereof, to apply to the Mining Recorder for certificates of improvements, for the purpose of obtaining Crown Grants of the above claim.

NOTICE.

Take notice that sixty days after date I intend to apply to the Chief Commissioner of Lands and Works for permission to purchase 320 acres of Crown lands for pasturing purposes: Commencing at a post marked F.L.H.'s S.W. corner: 80 chains running 80 chains west, 40 chains north, 80 chains east, 40 chains south, back to point of commencement, in all 320 acres. Situate about 12 miles west of Princeton and is bounded on the south side by the meandering line of the Tulameen river.

NOTICE.

Northern mineral claim, situated in the Similkameen mining division of Yale district. Where located: On Copper mountain.

Take notice that I, F. W. Groves acting as agent for J. S. C. Fraser, free miner's certificate No. B24233, Joseph Wright, free miner's certificate No. B75373, and L. G. Barron, free miner's certificate No. B75390, intend sixty days from the date hereof, to apply to the Mining Recorder for a certificate of improvements, for the purpose of obtaining a crown grant of the above claim.

And further take notice that action, under section 37, must be commenced before the issuance of such certificate of improvements.

LOCAL NEWS NOTES.

School closed yesterday for holidays and will not resume till the first Monday in the new year.

Rev. Mr. Fowlie has gone to Hedley, Keremeos and Fairview, returning next week to Princeton.

At the religious service conducted by Rev. A. J. Fowlie in the court house on Sunday last a record congregation in numbers heard him.

William S. Beauchamp Lowe, one of the beef barons of the Similkameen, has been making a final roundup of his cattle for the year and drove a fine bunch of young stock through town on Tuesday en route to Keremeos, where they will be wintered.

It is understood that a post office will be established on Copper mountain in a few weeks. The office will be conditional, which requires that a certain amount of business be transacted if it is to continue as a government post office.

Manuel Barcelo and T. Daly, Keremeos cattlemen, have been in this section for the past week rounding up their cattle for the winter.

Fourteen inches of snow fell on Tuesday night and Wednesday. It was the first real taste of winter and seems likely to remain until spring.

Mrs. Sands, daughter of a much respected fellow citizen, Mrs. Allison, recently died suddenly on a steamer plying between Van Anda and Vancouver whither she was going to a hospital to be treated for blood poisoning.

The following is taken from the Nelson Daily News: 'J. H. Jackson, hotel keeper of Princeton, has sent J. Fred Hume two fine ore specimens for the Hume ore cabinet. One is from the Gladstone on the Similkameen river, south of Princeton, and yields 35 per cent. copper. The other is from an adjoining claim, the Red Star, giving \$70 in gold to the ton.'

Victor Voigt arrived home from college at Portland, Or., last week and will remain during the holidays.

Copper is quoted at \$15.25 per ton in New York.

ALEC. D. MACINTYRE, Judge of said Court.

**Humorous.**

"Did you break the news gently to her?" "Yes, indeed. I got a fellow who stutters to do it for me."

"As Shakespeare says," remarked Cassidy, who was fond of airing his "book larnin'" occasionally, "what's in a name?" "Well," replied Casey, "call me wan that Oi don't loike, an' Oi'll show ye."

After a stormy interview with Mr. Boodelle, the successful contractor and politician, the indignant caller had gone away. "I fully expected to see you slug him," said the private secretary, "when he called you a 'persistent violator of the eighth commandment.'" "I suppose I ought to have done it," said Mr. Boodelle, grinding his teeth, "but I couldn't recall the eighth commandment to save my life!"

"Does your husband play the races?" "He bets," answered young Mrs. Torkins. "But it doesn't seem like play."

We have been asked if marriage is a failure. We have not found it so. We don't know what our better half thinks of it. Our opinion is that only when a man marries a sealskin woman on a coonskin income does he find marriage a failure—Winnipeg Free Press.

"Is an airship 'he' or 'she,' papa?" "She, I think, my dear. You know you never can depend upon getting 'em to go the way you want 'em to go."

"Why should beef be so expensive?" asked the consumer. "Because," answered Mr. Dustin Stax, "beef is at a disadvantage with most other products. There is no method of adulterating it with cheaper materials."

The British Medical Journal suggests that "as luxuries should be taxed, rather than necessities, a superfluity of fat, which is mostly the result of luxurious living, may not unfairly be regarded as a fitting object of taxation."

At a recent public function in Washington Miss Roosevelt's appearance was greeted with a cheer, and one enthusiastic man shouted "Miss Roosevelt forever!" "Thanks, very much," said the young lady, smilingly, "but, really, I don't want to be MISS Roosevelt for ever."

A gentleman who was interviewing a coachman asked him: "Why did you leave the last place you lived at?" "Well, sir," replied the coachman, "I didn't like it at all, and was glad to leave. But I could go back at any time I liked." "Then if you could go back again that shows you must bear a good character, so I'll engage you," said the gentleman. It afterwards transpired that the last place the coachman lived was a prison.

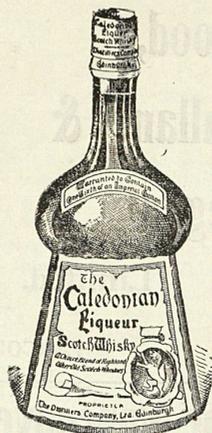

Dealer—Here is a cigar that is all right for the money. We sell it seven for a quarter. Customer—Well, that is a good many. "Yes, but you don't have to smoke them, you know." "Oh, I didn't think of that. You may give me a quarter's worth. They'll be handy to treat my friends with."

**NOTICE of FORFEITURE**

To STEVE MANGOT or whomsoever he may have transferred his interest in the Gold-Platinum mineral claim, situate on Champion creek, a tributary of the Tulameen river, in the Similkameen mining division of Yale district.

Take notice that after the publication hereof once each week for ninety days, you fail or refuse to contribute your portion of the expenditure required by section 24 of the "Mineral Act," being chapter 135, Revised Statutes of British Columbia, 1897, in respect of the Gold-Platinum mineral claim, situate on Champion creek, in the Similkameen Mining Division of Yale District, British Columbia, together with all costs of advertising, your interest in said claim shall become vested in your co-owner, Daniel Coutenay, free miner, who has made the required expenditure.

The amount due by you in respect of the said mineral claim, not including costs, is \$33.33. Dated this 24th day of October, 1904. DANIEL COUTENAY.

**MINING NOTES.**

Probably twenty localities scattered all over the world claim for some one of their producing mines the distinction of being "the greatest gold mine in the world." The passing years have a way of sifting facts from fancies, and the highest authorities today unite in assigning the great Homestake mine at Lead, South Dakota, the first place among the gold mines of the world. Its monthly yield averages in the neighborhood of \$425,000, or about 2,000 ounces of fine gold. This is secured by the treatment of 125,000 tons of ore per month. Paradoxical as it seems the Homestake is both the richest gold producer and relatively one of the poorest mines in the world. The average ore values are only about \$3.60 per ton, while mining and treatment charges run about \$2.40 per ton. The explanation of the mine's value lies in the enormous tonnage and in the cheap operative and productive charges, and the secret of low charges lies in the adoption of the latest methods, best machinery and a careful consideration of the small economies.

Notices have been posted in Telluride, Colorado, that the 8-hour day will, in future, be recognized at the mills there and that a minimum wage of \$3 per day will be paid.

Japan is, for the first time in its history importing copper, and has, through an United States agency, procured 10,000,000 pounds by contract. China also is importing large quantities.

She right to stake placer ground over a quartz location has been sustained by the full court sitting in Vancouver recently.

It is not an uncommon occurrence for lead veins to occur in slate formations. Many of the old Cornish lead mines so occurred, as did many of the German lead deposits.

As wolfram is so much in demand now and inquiries are being constantly made as to its mineralogical characters, the following will be of use to prospectors: According to Dana its color is dark grayish black. Streak dark reddish brown. Lustre submetallic, shining. Found with tin ores. In handling the mineral one is impressed with its weight as it is much heavier than iron. The "streak" is the mark left when a mineral is scratched by a substance harder than itself, and corresponds to the powder produced when the mineral is finely crushed. It is valuable in making steel.

The report of Superintendent Hang of the Dewey mine, Idaho, shows that an output of \$16,000 and a net profit of \$8,000 was the record for October.

The superintendent of the Mt. Baker group, Mr. Conaway, states that development work will continue all winter. A lot of preparatory work is being done towards installing machinery.

Arrangements have been completed for the installation of an aerial tramway from the Jumbo mine at Roseland to the Red Mountain railway, by which ore shipments from this mine will be considerably facilitated. The tramway will be nearly a mile in length and have a carrying capacity of 500 tons daily.

**NOTICE.**

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a license to cut and carry away timber from the following described lands, situated on the east side of the Tulameen river, commencing at a post by the N.W. corner post of lot 252, running east 20 chains, north 120 chains, west 140 chains more or less, to a point on river, thence following the line of river to point of commencement. ANGUS STEWART. Princeton, Nov. 19, 1904.
